PARK CITY.

MINER CRUSHED TO DEATH.

Terrance McGuirk Meets Death in Daly-Judge—Fatal Lifting Accident.

Park City, Summit Co., Aug. 30.—At 7 o'clock this morning a fatal accident occurred at the Daly-Judge mine, Terrance McGuirk being the unfortunate victim. He was coming off shift in company with four other workmen, when, in ascending a ladder in the manway from one level to another in order to take the cage, a cave-in of stone caught him squarely across the body, crushing him to almost instant death. His companions who were ahead, escaped by a few seconds. Immediate efforts were made to recover the body and the lifeless form was taken to Richardson's undertaking parlors.

Terrance McGuirk was about 27 years of age and unmarried. He was an exemplary young man who numbered his friends by the score. He came to Park more than a year ago with his brother Peter, who had also been working at the Daly-Judge mine, until he left last Monday for New York, where a number of relatives reside. It was Terrance McGuirk's intention to follow before winter set in, and make his home in that city. Another brother lives in Colorado and has been wired concerning the news, and will probably reach Park City tomorrow night. In the meantime, no arrangements will be made as to the disposition of the body.

DEATH FOLLOWS HEAVY LIFT.

William Allen died at the hospital about 11 o'clock this morning, from peritonitis, following a strain from lifting too heavy a weight last Saturday. He was employed at the Keith-Kearns mill, but during a few days temporary lay-off, went to work at the store of E. D. Sutton, where the accident occurred. He was removed to his home and suffered terribly until yesterday, when he was taken to the hospital to have an operation performed in the hope of saving his life, but with no avail.

William Allen was 24 years of age and an orphan, having been reared by his grandmother, Mrs. Sessions in Park City. He was very well liked by all who knew him.

Richfield, Sevier Co., Aug. 30.—The Tout family, consisting of Edwin F. Tout and his three daughters, Nannie, Maggie and Hazel, gave a recital at the stake tabernacle last evening, under the auspices of the tabernacle choir. While the audience was not large it was highly appreciative. The program consisted of instrumental and vocal selections, there being 14 numbers in all. The first appearance of the artists brought forth an ovation from the audience and each succeeding number was roundly applauded.

THREE COUPLES MADE HAPPY.

The following marriage licenses have been issued by the county clerk:

Forest Robinson, 21, of Panguitch, and Miss Hazel Heath, 16, of Salina.

Before leaving the Court House each of the above couples were made husband and wife, the county clerk officiating.

NEW ROAD TO GRASS VALLEY.

A committee of leading citizens and business men have devoted considerable time the last few days to the location of a new road between here and Grass Valley. Two routes have been selected one leading through Glenwood and the other passing north of that town. It is now proposed to leave the matter with the people of Glenwood as to which one shall be made a permanent road. In case it goes through the town the citizens there will be asked to construct a part of it, otherwise the people of Richfield will see that the work is done. It is estimated that the road will cost $1,500. Of this amount the county will pay $500.

WALES.

DESTRUCTIVE BLAZE.

Thomas Edmunds Loses Stack and Stables—Narrow Escape of Children.

Special Correspondence.

Wales, Sanpete Co., Aug. 29.—Fire today totally destroyed a hay stack and stables of Thomas Edmunds. His three children, aged 7, 5 and 3, took some matches and went to play on top of the hay, and set fire to it. Seeing the fire they became frightened and the two oldest climbed down into the stable and screamed, which drew the attention of the father, who was nearby. He looked and saw the flames bursting up from the hay stack, and ran into the stable and saw the youngest boy on top, screaming and unable to get down. He instantly climbed up and rescued the little one from the flames, which had got so near him that another minute's delay would have caught the little one in the flames. The wind blew at the time and in 10 minutes all was ablaze. The loss will amount to about $150, but the parents are thankful their children were saved and feel to thank the community for help rendered.

ST. GEORGE.

DEATH OF PROMISING GIRL.

Scarlatina Causes Alarm and Entire City is Fumigated.

Special Correspondence.

St. George, Washington Co., Utah, Aug. 28.—Lucy Ann Perkins, daughter of Wm. T. and Mary A. Lawson Perkins, died Monday at midnight of peritonitis. The funeral was held yesterday afternoon. Deceased was born at Bennington, Bear Lake Co., Idaho, May 21, 1890. Being their only child, the parents are heartbroken over their loss. They have the sympathy of the community. Her class in primary, 36 in number, walked to the cemetery and strewed her grave with flowers.

Last Sunday Addie, the 18 months old infant of St. George and Mary Alger Morris, died of malignant scarlatina. No funeral services could be held; and, on account of the quarantine, the sorrowing parents were not permitted to see their little one laid in the tomb.

This disease has assumed such a serious nature that the city board of health has ordered the entire city to be fumigated. Most of the people were engaged in this work during the past week.

FOUR DAY'S RAIN.

COWLEY, WYOMING.

VISIT OF SENATOR SMOOT.

Sugar Factory Proposition Only a Question of Producing Enough Beets.

Special Correspondence.

Cowley, Big Horn Co., Wyo., Aug. 27.—The people of Cowley enjoyed a treat last night, in listening to the stirring address delivered by Hon. Reed Smoot. His wise counsel and good advice to the young people to build homes especially encouraging and inspiring.

SUGAR FACTORY PROSPECTS.

Mr. Smoot is here on business with Senator C. D. Clark and other gentlemen in the interests of the sugar beet industry. Prospects are good. It is not a question of men with capital and interest here, but of sufficient people to produce beets, this assured a factory is certain.

This country has had a ten days' rainy spell, which cut off the hot weather suddenly, but it is warming up again now.

President Jesse W. Crosby and Chas. R. Lyman returned from Montana Saturday, where they took a contract hauling and laying pipe on the road now being built between Billings and Great Falls.

Harvesting is in progress.

Mrs. John H. Dickson has been very ill for two weeks. There has been some sickness among the children, as is common during the hot weather; one death, the infant of Mr. and Mrs. Nephi Black, is reported.

CARELESS MILKERS.

As milk is the only article of food which cannot be washed and cleansed before use, it is of the utmost importance that it be kept from contamination with dirt, or it will be unwholesome. Milk is so sensitive and so delicate of texture that all means should be used to preserve its purity. The greatest cause for unclean and unwholesome milk, and the source of the greatest number of ferment germs found in milk are derived from the dirt, dust and hairs falling into the open pail while the operation of milking is going on.

There is a great variety of germs all hailing from this source. Hence, the importance of cleansing the lower parts of the cow's body before milking, and taking care that the hands are free from dust and dripping water.

The strict observance of the following rules, says Hearst's American Farm and Home, is the best way to prevent contamination:

1. Scald and sun every vessel that is touched by the milk.
2. Do not feed while milking.
3. Milk in open air when practicable in preference to stall or barn.
4. Brush off all loose filth, trash and hairs from flanks, udder and belly and teats of cow before milking.
5. Moisten with a wet cloth all the parts brushed. Do not wet so much as to cause water to drip.
6. Cleanse milker's hands with soap and water just before milking is begun.
7. Milk the first five or six streams from each teat into a separate vessel—not onto the ground. In many cases the canal in the teat is the seat or the home of harmful germs.
8. Set the milk in a fresh place not before used and set in cold water to lower temperature as quickly as possible and within a half hour after setting (allowing for cooling), spread a clean cloth over vessel containing the milk.

TENNIS TOURNEY NEARING FINALS

Conrad and Brown Play Today For Honor of Meeting Salisbury.

ROBERTS UNEXPECTED LOSER

Was Taken Into Camp Yesterday by Conrad to Surprise of Talent.

TODAY'S TENNIS.

Miller Courts—Richards and Plummer vs Neal and Griffin, 4 p. m.; Conrad vs Brown, 4 p. m.; Badger and Brown vs Boyd and Taylor, 5 p. m.; Neal vs W. Salisbury (exhibition match), 5 p. m.

Third South Street Courts—Miss Lyons vs Miss Hutchinson, 5 p. m.

Yesterday a tennis surprise was sprung on the Miller courts and instead of meeting Carl Roberts to decide who shall meet Jimmy Salisbury for a leg in the Newhouse trophy cup, Brown will now try his luck with Conrad.

As for Conrad he played in remarkable form yesterday and played a game against Roberts that no one thought was in him. The talent were unanimous in the opinion that Roberts would win, and it even went so far that he was slated for the semi-finals in the "dope." However, the tennis racquet that comes with this honor goes to Conrad and it now lies between him and Brown to meet the state champion for the final honor of the intermountain tourney.

CONRAD A SURPRISE.

In the play yesterday Conrad did well the first set, and took it after a hard struggle, much to the surprise of the bleachers. It seemed to wake Roberts up for he made a stirring show in the next set, and finished it 6—8, shutting his opponent out. In the third, however, he seemed to play off form again and let Conrad win out 6—4.

GOOD GAMES TODAY.

This afternoon some good playing is due. In singles Brown and Conrad will have it out for the last game except the finals. In doubles Richards and Plummer will meet Neal and Griffin, and Badger and Brown will meet Boyd and Taylor, this team having defeated Hill and Taylor last night.

THE FINALS.

These games today will carry the tournament to the keenest playing of the year for tomorrow and Monday, when the finals will be settled and the tourney closed.

Yesterday's results:

Conrad defeated D. C. Roberts, 7-5, 0-6, 6-4.

Boyd and Taylor defeated Hill and Taylor, 8-6, 4-6, 6-4.

Following the race Kramer will take the portion of the purse that is his in real money, and depart eastward through the mountains while Lawson is alleged to be planning a trip to Australia by some, and to be ready to open a thirst counter for the "sports" of the town by others.

In addition to the match race, which will include a mile heat and a three-mile heat a regular program of races will be held.

CREWS LAY OFF.

Putney, England, Aug. 31.—The day being intensely hot, with a haze over the river, the Cambridge and Harvard University crews did only light work today, practising starting and sprinting. A well-known oarsman today said that Cambridge vastly excels Harvard in starting and that this deficiency may be costly to Harvard in the race. Harvard has arranged for a full course trial tomorrow, paced by a crew of oarsmen from the London Rowing club.

Rheumatic Pains

"I have suffered terribly with rheumatism. I took Dr. Miles' Anti-Pain Pills and they gave me great relief. I have spells of terrible pains in my ribs, and in the small of my back, and the Anti-Pain Pills help me right away. I am now well of the rheumatism and think Anti-Pain Pills done me more good than all the other medicines. I first heard of them through the following circumstance that happened at our home two years ago. A friend, Mrs. Brown, of Orion, Mich., came to visit us. She had not been able to dress herself or comb her own hair for months. A friend of ours came in and seeing her suffering offered her some Dr. Miles' Anti-Pain Pills. She laughed at the idea of relief from such a source after doctoring for so long, but took one of the tablets with the remark that it would at least do her no harm. She took another that evening, and the next morning she was so elated that she went to the druggist's and got a package and took them home with her. Recently she was here again, and told us that she continued taking the pills, and that one box cured her, and she has not had a symptom of rheumatism since."

S. R. FARMER,
332 Third St., Detroit, Mich.

Dr. Miles' Anti-Pain Pills are sold by your druggist, who will guarantee that the first package will benefit. If it fails, he will return your money. 25 doses, 25 cents. Never sold in bulk.

PULLIAM HAS CLUB.

At Last National League President Has His Ambition Gratified.

New York, Aug. 31.—A dispatch to a morning paper from Boston says:

It is persistently reported here that President Pulliam of the National league has got control of the Boston National club, and that announcement of the deal is being withheld until the close of the present season.

When Mr. Pulliam was here a few weeks ago he said that negotiations for the purchase of the Boston club were all off because of the high price asked by Soden and Conant for the franchise, players and grounds, but persons who are in a position to know say that a deal has been consummated.

HARVARD'S VISIT.

London Papers Taking Increased Interest in Making it a Success.

London, Aug. 31.—The London newspapers are taking increasing interest in the Harvard university crews' visit. The Daily Telegraph this morning reprints Charles Dickens' speech delivered at the dinner of the two crews on the occasion of the contest in 1869. "Because," says the Daily Telegraph, "it so well expresses the feeling in all British hearts at the presence of another Harvard crew upon the Thames."

NOTED CRICKET SCORE.

London, Aug. 31.—Hirst, the Yorkshire cricketer, playing at Scarborough yesterday, completed the season's record by scoring 2,000 runs, taking 200 wickets.

Taking it easy. Congress has finished its labors. We envy them. Our work is still cut out for us, and we have to hustle for business. The way we do it and get business is by writing up insurance in the most reliable and prompt paying companies in the world. They are the Hartford Fire of Connecticut, the North British & Mercantile Insurance company, the London Assurance Corporation, the Phoenix of Brooklyn, the Teutonia of New Orleans, and the only local company, the HOME FIRE INSURANCE COMPANY OF UTAH. Let us write you a policy. These companies are not welshing.
