NEWS OF THE WEST.

A Married Woman Confined in a Madhouse on an Unjust Charge.

A YOUNG CAR REPAIRER KILLED.

Tired and Hungry Lions—Eggs For Corn—a Duck and a Frog in the Market.

Manuel Hurtado, man whose shipping office at Escondido, Cal., is at Kansas City, Mo., on behalf of the Tierra Santa Mining company, was robbed March 20th, but has been arrested, charged with the theft.

Jack Waggett, a young carpenter, was killed in an accident on the Jackson party at Red Bluff, Cal. He fell over and crushed between a cribbed pit and the cabins, while he was in the act of pulling them.

Richfield Advocate: Sheep shearing is in full force at the Cleveland corral at the mouth of Willow creek. For the last few days a strange disease, called ringworm, has been spreading among the flocks with fatal result.

A Butte, Mont., evening paper prints a startling story about a former well-known woman, Mrs. Jerome B. Stangler, having been locked up in a private madhouse in San Diego, Cal., on a charge trumped up by her husband.

At Elk Grove, Sacramento county, Cal., on Monday afternoon the mail-boxes contained anonymous letters addressed to Mrs. Jacob Zeisloft, aged twelve years, and another for her mother. The girl instantly disappeared, to close the track in front of the train.

This is what the Denver chief of police says: "There is not a gambling house open in this city, and every place that has opened up has been closed by my orders. I am almost tempted to offer a reward to the man who can find a faro table or a roulette wheel in operation."

Several carloads of fine Hereford cattle passed west through the city today, says the Lander Journal-Jeeter, they being the property of John Sparks, of Hot Springs, Nevada. He purchased a carload herd of Allman & McIlvaine of Cheyenne. A bull in the herd weighed 2,300. They were young cattle.

Grand Valley, says the Grand Junction (Colo.) News, will have over 12,000 acres of orchard before the year closes, which is twice as much as there is in Mesa county or Grand Junction. The fruit business is growing to enormous proportions, and in the years to come it will require thousands of people to handle it properly.

Eggs are a drug in the Saratoga, Wyo., market, and are selling at 10 cents a dozen by the case. An enormous quantity has been brought to market this spring and the stores have been so glutted with them that they have refused to handle only a portion of what has been offered, and many times have concluded that they were not worth hauling to market at the present price.

The Durango (Colo.) Democrat says: Sheriff Thomas and others of Montezuma county arrived in Durango Tuesday evening and reported the western Utes as very hungry and unable to reach the agency. The agent was wired in from Ignacio, and agreed, if the Indians were sent to Durango in wagons, to honor all tickets presented to the extent of back rations, but as Point-wagon and other Indians from the peak had failed to report any suffering or distress, the agent would not consent to pay one cent of the expense incurred.

GOING THE POTATO SCAR.

How Farmers Do It in the Northwest With Extreme Satisfaction.

In regard to the use of sapolio made from the production of soda or potash, we find some interesting facts, the principal stage is past. In using the company's sapolio some farmers will turn a furrow, and then they will be sure to be different. There is the way farmers do it in the northwest. Following up in the wake of a Wisconsin farmer is a man in Hand New Yorker. He takes a dark basin of 8 inch depth, 2 feet wide by 3 feet wide. Up in the frog. Fashion a sump place for the work, in near the mine as possible. He does boards to the side of the new said. Leave a smooth floor about 6 feet square. In doing the potatoes are sorting. I fill the tank about one-half full of water, and to this add an equal of sapolio, stirring in with eight pounds of water. The tank holds about 80 bushels of potatoes, and the amount of sapolio is sufficient to wash them in the ordinary 15 minutes, and then with a potato sieve shovel gathers them out of the tank to the side of the tank. If the potatoes, they will be ready in a few minutes, but we usually let them stand a day or two. We find it impossible to get the potatoes out of the tank, and the sieve shovel gathers them out. For it has been found that the tank was for a few days in handling the potatoes from the above sapolio, will stick a coat or brake of lard adhering.

"The very extra cost to us for putting the seed through this treatment is the cost of the sapolio, which is 8 cents per pound, and the cost of dissolving the potatoes. Two cents per tank, or 1½ cents. This added to 8½ cents for the sapolio, makes 10 cents per acre, in the hill of the first application of the tank. Second the tank will be wanted while shoveling the potatoes out and desire to make up by adding more sapolio and potash, in the same proportion as at first."

The Web Gracious.

"I have often wished I could find something to take the place of pills. Now I try the tablets of Dr. Miles' Liver Regulator, power. Take it dry, on the tongue, or make it into a tea. It is pleasant to take, and gives quick relief." Sold by druggists, 25 cents.
