MINING, BUSINESS AND STOCKS.

UNCLE SAM WAS HIGHER TODAY.

The Stock Opened at $1.90 and Advanced to $1.97 on Exchange.

LOWER MAMMOTH STRONGER

Ben Butler Sags—Dalton Active—Ajax Softens—May Day in Demand.

Nearly 50,000 shares of stock changed hands on the mining exchange this morning for the sum of $33,632.25. Lower Mammoth and Uncle Sam were the features of the call. The former opened at $3.75, and moved up to $3.85, though it weakened to $3.82½ at the close. Uncle Sam opened at $1.90 and immediately moved up to $1.97, while Ajax sold down to $1.70, after opening at $1.77. Daly-West loosened up 110 shares between $42.25 and $42.00. May Day was a little weaker today, selling from $1.62 as low as $1.59. Ben Butler was very active at lower prices sales were made as low as 19, as compared with 22¾ yesterday afternoon. Dalton of Marysvale loosened up several thousand shares between 7⅞ and 8, while West Morning Glory released 8,000 shares at from 6 to 6¼. La Reine sold at 35, while Little Chief was traded in at 14½. Tetro sold at 17. Northern Light hung around 5½. Petro sold down to 10, while Sacramento let go 600 at 33. Tesora was active at $1.07¾.

RICH IN THE MAXWELL GROUP.

Col. Wall Shows Fine Specimens of Native Copper from Yampa Vein.

WATER IN THE UTAH MINE.

Flow of Good Water Tapped on 800 Level—New State Developments—Sacramento Dividend.

A number of very fine specimens of ore showing native copper were seen in Col. E. A. Wall's office today from the Maxwell group in Bingham, which is practically owned by the colonel. Copper is the result of the leaching and precipitation of copper from the surface ores of the big vein, which has been followed in the Yampa adjoining with surprising results. The colonel is much pleased with the discovery, which was made by means of a crosscut from the 60-foot shaft. The shaft was sunk near the Yampa lines and the crosscut has been extended a distance of 50 feet, 25 feet of which is in ore. A large vein of sulphide ore has been cut and the native copper seen today came from the back of the vein in the footwall, which has apparently been scored away, as the copper precipitate is found cementing the gravel. The same showing of native copper has also been found 100 feet further north, which encourages the colonel in the belief that the values in the rich Yampa vein will be found continuing into the Maxwell group. A long tunnel is now being run to tap the vein about 150 feet deeper. Six hundred feet of this work has already been done and the colonel expects to cut the vein within 200 feet. The colonel's holdings contain from 60 to 70 acres and if the Yampa vein continues in its course, 2,000 feet of its length will be on the Maxwell property.

WATER IN UTAH.

Fine Flow of Soft Water Tapped in the Fish Springs Property.

A fine flow of water has been tapped on the 800 level of the Utah mine at Fish Springs. In writing of the matter in a letter received at the office today Superintendent Williams says it is excellent for culinary purposes being quite soft. The present flow is about 800 gallons per day though a heavier flow is expected as greater depth is secured. The water will be a great boon to the company as it has heretofore been compelled to haul the drinking water a distance of nine miles. A peculiar thing about the discovery is the fact that nearly all the springs in the valley near the mine contain salt water. They are said to be artesian wells in character, however. The company will not need to install pumps at present, as the flow can be handled in the buckets. There is little doubt that a large flow will soon be tapped which may be utilized by the company to great advantage in the concentration of its second class ores. The developments of the next few weeks are anxiously watched by the shareholders, as they may show a radical change in the character of the ore. Copper is expected to enter as it as already been found in the Galena adjoining.

GOLDEN GATE ORE BODY.

Recent Developments Below Viking Level Disclose a Large Ore Body.

An incline has just been completed from the Viking level of the Golden Gate to the level below which proves what was only suspected before, that the ore body is continuous between the two levels. It is oxidized ore of high grade and good leaching quality. The thickness of the vein has not been determined as the incline is sunk on the foot wall and the hanging wall has not been prospected for. Cross cuts on each side of the incline have not reached the limits of the ore and it is believed it extends in both directions for several hundred feet. This is the most important find that has been made in the Golden Gate for some time and adds a good many hundred thousand tons of rich ore to the perceptible assets of the mine.—Mercur Miner.

Sacramento Dividend Posted.

The directors of the Sacramento Mining company met today and declared a dividend of $5,000 payable on August 1st. The books will close on the 29th inst. The mine is said to be looking about as usual. Some trouble has been experienced with the roaster, but the company expect to be able to continue the present dividend rate for some time.

To Develop Big Bend Placers.

Mr. A. G. King, county clerk of Malheur county, Ore., says he believes there has been no exaggeration in regard to the richness of the Big Bend county on Snake river. In his opinion it is even richer than the reports represent it to be.

The machinery of the Ben Bolt mine, owned by a Salt Lake company, was expected to arrive yesterday. According to present plans there will be seven shafts sunk within the next 30 days. These will all be drilled by machinery. Water will be but of little hindrance to them. Two or three shafts are now being sunk, and it is reported that the ground gets richer the farther down they go.

"I am sure," said Mr. King, "that the assay of the dirt taken from the well near Parma is correct. This ground went $60.50 per cubic yard, which is equal to about a ton and a half. All the land for miles around, and even back on the high hills has been located."—Boise Statesman.

Active in American Fork.

Ames Wagstaff, who has charge of James Chipman's toll road in American Fork canyon, reports more ore being extracted this year in the different properties in that camp than has been seen for many years. The Silver Dipper is sending out some concentrates from a fine vein of concentrating ore running from 2½ to 5 feet wide. About 40 tons has already been marketed. Shipments are also being made from the Pittsburg, Miller, North Star and Live Yankee claims. The owners of the Milkmaid group also expect to begin marketing ore before many weeks. Work has been resumed on the Wild Dutchman group owned by eastern parties. The property shipped heavily years ago, and it is the intention of the owners to go down to large bodies of zinc ore previously abandoned.

Mining Deeds Recorded.

Provo, Utah, July 26.—A mining deed from Joseph Lippman of Salt Lake City to Walter R. Pike of Provo for an undivided one-third interest in the Manhatta group of mining claims in Tintic district, consisting of the "Out Cast," the "Manhatta" and the "Revenue," has been filed with the county recorder, the consideration named is $1.

Quit-claim deeds from Frank Brooks and D. B. Higgins of Denver to Higbe Smith of East Orange, New Jersey, and Seth Nichols of New York to mineral wax property near Soldier Summit have been filed, the consideration named is $1,500.

Harry Henderson et al have filed notice of location of the Independence Nos. 1, 2, 3 and 4 petroleum claims, situated in township 11 south, range 8 east, Spanish Fork canyon.

W. L. Richardson et al have filed notice of location of the Last Chance, petroleum claim, part of section 22, township 11 north, range 8 east.

NEW STATE IMPROVING.

A Sixteen-inch Streak of High Grade Ore in an Upraise.

Conditions are improving rapidly at the New State property at the mouth of Little Cottonwood canyon, if one may judge by the reports that have reached Mr. Hoock and others who are putting up the money for developing the property under a bond which calls for the first payment in about four months. Mr. Schmithroth, who is directing work at the property, reports about sixteen inches of high grade copper-gold ore in an upraise from the east drift on the tunnel level. The ore will run from four to five ounces gold and about 12 per cent copper. Mr. Schmithroth is now driving a crosscut to a back vein which appears on the surface. The condition of the New State is said to be better than ever it has been before.

MINING NOTES.

A shipment of cyanides from the Sacramento will be sampled tomorrow.

Two cars of ore from the May Day of Tintic were at the Sampler today.

The Showers Con. of Tintic has levied another assessment of 2 cents per share.

The Overland of Sunshine had 300 pounds of cyanide product on the market today.

The Taylor-Brunton sampler reported 11cars of ore from Tintic and 1 from Nevada today.

A new body of good ore is reported to have been opened up in the Dalton of Marysvale.

The Gracie Copper company operating at Battle Mountain, Nev, reached the market today with a car of ore.

The sales on the mining exchange yesterday afternoon amounted to $60,008, which represented the sale of 71,000 shares of stock.

M. J. Hall of Park City reports the discovery of some good ore in Thayne's canyon about a mile above the mouth of the canyon.

A car of ore from the Humbug was sold today by the Uncle Sam Con., on controls showing 114.80 ounces silver $3 gold and 8 per cent lead per ton.

Sam King showed a fine piece of copper ore today from the International Copper company's property in La Sal. It was taken from a new find recently made on the surface.

The Carisa of Tintic will shortly market about 15 tons of high grade copper ore. The ore carries a great deal of native copper, having been thrown out in breaking down regular shipping ore.

Manager C. J. Peterson of the Madsen Gold Mining company, returned yesterday from Gold Mountain. He reports the lower tunnel almost to the first ledge, which it will cut 300 feet from the surface.

James Ivers has returned from Klondike, after examining some claims in the neighborhood of Dawson. Mr. Ivers says wages are 80 cents an hour at the present time. Claims are held very high and there is said to be little chance of a man making money out of any purchases.

LONDON WOOL AUCTION.

London, July 25.—The present series of wool auction sales closed today. The number of bales offered today was 12,000 and consisted of a miscellaneous character, the bulk being for grade wool. A few fine merinos sold readily at full prices. Cross-breds were in large supply and inferior medium stock was in quieter demand at irregular rates. A few scoureds were firm. There was a full attendance throughout the series and the competition was average.

SAN FRANCISCO WOOL.

San Francisco, July 25.—Spring Nevada, 10@12; eastern Oregon, 10@13; valley Oregon, 13@14; mountain lambs, 7@8; Humboldt and Mendocino, 9@11.

ST. LOUIS WOOL.

St. Louis, Mo., July 26.—Wool—Firm, unchanged.

TRADING WAS SLUGGISH.

On Light Dealings the Market Turned Upward, Led by Corn Carriers.

Demand for Stocks Soon Came to a Standstill, Causing Wide Concessions.

New York, July 26.—Trading was very sluggish at the opening of the stock market and, except in a few cases, changes were small. Prices turned upward after the opening on light dealings led by the corn-carriers and the United States Steel stocks, the latter rising about 1½ each. Canadian Pacific rose 2¾, Rubber Goods 2⅛, and there were gains of a point or more amongst the grangers and coalers. The demand for stocks came to a standstill and to make sales wide concessions had to be made. The gains were wiped out and Union Pacific and Missouri Pacific fell about a point under last night. A few specialties showed strength. Prices generally hardened a fraction about noon. The bond market was dull and irregular. St. Paul reached 161½ and caused slight improvements elsewhere in sympathy, Atchison selling at the best price of the day. The movement was only momentary and the market sank back into stagnation.

SUGAR.

Sugar—Raw stead; fair refining, 3 9-16; contrifugal, 96 test, 4 3-16; molasses sugar, 3 5-16. Refined quiet; crushed, 5.95; powdered, 5.55; granulated, 5.45.

SIX MILLION DOLLARS SPENT BY THE UNION PACIFIC THE OVERLAND ROUTE WORLD'S PICTORIAL LINE

Pullman Palace and Ordinary Sleepers. Dining, Library and Free Chair Cars

in improving what was originally the finest track in the West.

RESULT.

A comparitively straight and level roadbed ballasted with dustless Sherman Granite rendering possible the highest rate of speed together with the greatest degree of safety. The magnitude of the work must be seen to be appreciated.

WHAT DOES IT MEAN?

Solid comfort, security and pleasure to our patrons.

ARE YOU GOING EAST?

If so you cannot afford to go via any other than this ROYAL HIGHWAY. Further information on application personally or by letter to Ticket Office, 201 Main Street, Salt Lake City.

Burlington Route

You Deal With But One Concern.

The Burlington route operates its own trains over its own tracks every foot of the way from Denver to Chicago and St. Louis.

When you buy a ticket over the Burlington, you deal with but one concern. If you have any cause for complaint—or think you have, which amounts to the same thing—you do business with but one railroad. You are not told that "we're not responsible for this," or "he shouldn't have said that," or "we'll refer this to our Chicago office."

Leaves Denver 4:00 p. m. for Omaha, Peoria, Chicago, St. Joseph, Kansas City and St. Louis. Another good train leaves at 10:00 p. m.

Train for Black Hills, Montana, and Puget Sound leaves Denver 11:30 p. m.

Tickets at offices of connecting lines.

Ticket Office, No. 79 West Second South Street, Salt Lake City, Utah.

R. F. NESLEN, General Agent.

Direct Route to Chicago

ONE NIGHT OUT.

Rock Island Inaugurates Fast Train Service COLORADO TO CHICAGO.

On June 18th, the Rock Island will establish "One Night Out" train service, Denver and Colorado Springs to Chicago. Trains will leave Denver daily at 1:15 p. m., Colorado Springs at 1:30 p. m., arriving at Omaha at 6:00 a. m., Des Moines at 10:06 a. m., and Chicago at 7:00 p. m. Connections made at Omaha with connecting lines for Minneapolis and St. Paul. The equipment of this train will be up to date in every way, containing all modern improvements both for comfort and safety, and will consist of composite library car, sleeper, chair car and diner. The high class service of this "One Night Out" Rock Island train together with the exceedingly low rates to the East in effect on that road beginning June 20th, will insure a most liberal patronage.
