Applications for Irrigating Water Being Numerously Filed With Engineer Tanner.

TO RECLAIM MUCH LAND.

Dams to be Built and Water to be Diverted Into Canals and Irrigating Ditches—The Applicants.

Applications for water continue to flow into the state engineer's office thick and fast. Among those who have made filings is James H. Mease of Vernal, who asks for 250 second feet to be taken from east of Rock creek, in Wasatch county; diverting channel to begin at a point near quarter section corner between sections 12 and 13, township 1 south, range 6 west, Uintah meridian. The channel is to be 30 feet wide, 5 feet deep and 20 miles long. Water to be used for irrigating 80,320 acres in township 1 south, range 5 west; township 1 south, range 4 west; all of township 2 south, range 5 west. Water appropriated for use April 1 to Oct. 1.

N. J. Meagher of Vernal wants to appropriate 250 second feet to irrigate 20,000 acres in township 1 south, range 4 west; township 2 south, range 3 west, township 2 south, range 2 west. Applicant states that he desires to secure the water for the settlers on these lands.

Herbert D. Page of Salt Lake makes application to water 40,000 acres, for which he is to construct 50 miles of canal. One application is for 200 second feet from Rock creek, to be diverted at a point west of corner of sections 17, 18, 19, 20 of township 2, range 5 west. (Canal to be 15 miles long and to water 20,000 acres in township 2 south, range 5 west; township 3 south, range 5 west, and township 3 south, range 4 west. Mr. Page also wishes to irrigate 10,240 acres in township 1 north, range 8 west; township 1 south, range 8 west; township 1 south, range 7 west, and township 2 south, range 7 west. For this purpose he wants 200 second feet of water from the Duchesne river at a point near corner of sections 13, 18, 19, 20, in township 1 north, range 8 west, and build 25 miles of canal to distribute the water.

George M. McConaughy and Francis R. Hurdle of Salt Lake propose to construct 30 miles of canals, 18 feet wide and six feet deep. They make application for 1,600 second feet to water 42,840 acres of land, consisting of all of township 2 south, range 7 west; sections 1 to 18, inclusive, in township 4 south, range 7 west; sections 18 to 36, inclusive, in township 3 south, range 7 west.

Byron S. Kershaw of American Fork asks for 30 second-feet to be taken from the north bank of the Duchesne river near the west boundary line of township 2 south, range 3 west. He will build 25 miles of canals, including laterals, to water about 3,000 acres of land in township 3 south, range 4 west; township 3 south, range 5 west; township 4 south, range 4 west, and township 4 south range 5 west.

Albert W. Jarvis of Salt Lake wants to operate on Lake Fork creek. He asks that 300 second-feet be appropriated to him to irrigate about 1,600 acres of land in township 1 south, range 4 west; township 2 south, range 3 west; township 2 south, range 2 west; township 2 south, range 1 west; township 3 south, range 1 west.

James D. Cravens of Payson makes application for 27 second-feet from the Duchesne river near the corner of sections 13, 14, 23, 24, of township 3 south, range 3 west. He proposes to build a canal 21,560 feet in length to irrigate about 1,000 acres of land in township 3 south, range 3 west, and township 4 south, range 3 west.

Jesse W. Miles of Payson asks for 11 second-feet from Strawberry river to irrigate a farm of 960 acres in township 3 south, range 5 west, and township 4 south, range 5 west, and proposes to build 36,960 feet of canal.

Capt. C. G. Hall of the Whitecrocks agency, makes several applications for the Indians' half of the nation's wards. The captain asks for 20 second-feet from Lake Fork creek to water 1,100 acres from the Salt Creek slough he asks for 10 second-feet to water 600 acres, and from the Duchesne river he asks for five small canals, carrying 8, 22, 7, 8 and 5 second-feet, respectively, which are to water 2,620 acres, consisting of five tracts.

MUCH DAMAGE DONE.

Storms Play Havoc With Crops and Retard Threshing.

Weekly Crop Bulletin for the week ending Monday, Aug. 28—The stormy, unsettled weather of the past week with its predominating cloudiness and frequent thunderstorms was in marked contrast to the persistently clear, dry weather that has heretofore characterized the present summer. Scarcely a day passed without a storm making its appearance, and on some days two or three in rapid succession. These storms were generally ushered in by high winds that damaged grain and lucern in stack somewhat. Though the electrical features of these storms were generally of marked severity—the lightning being sometimes very vivid and the attendant thunder of extraordinary loudness—the accompanying precipitation was in many cases disappointing. In general, however, the amount was ample to revive vegetation and the range, in many localities, especially in the north, the rainfall was ample to revive vegetation and the range, but in many localities, especially in the north the rainfall was inappreciable. Temperatures were decidedly above the normal, the disagreeable effects of which were accentuated by the prevailing sultriness of the atmosphere.

The harvesting of grain was completed in most districts, and in the remainder was nearing completion, with threshing in general progress. This work was, however, retarded to some extent by the frequent storms. Oats were in general not so far advanced, and in many localities still await the reaper. Some slight damage to this staple was reported from the high winds that were of such frequent occurrence. Complaints of damage to the late-sown wheat were still being received, and this portion of the crop will undoubtedly fall short of the average. The third crop of alfalfa, as well as sugar beets, were greatly benefited by the rains. The beet crop was, in general, in good condition, though suffering in localities from blight. Late-sown beets were, however, not up to the average, owing to the long-continued drouth, the relief offered by the moisture of the past week having been delayed too long. Corn is in very good condition generally, although infested in many districts of the central counties by worms. Lucern seed was again reported in very poor condition, a condition brought about not only by drouth, but also by the ravages of grasshoppers. The range was, to a great extent, revived by the showers in districts where rainfall was sufficient, but in the localities not favored by precipitation was very poor, and in such places it was necessary to feed stock. Plowing of arid land was begun in some localities.

A "Sovereign" That Costs Only One Dollar

Dr. David Kennedy's Favorite Remedy, of Rondout, N. Y., is a "Sovereign" medicine for nervousness, rheumatism, kidney and liver complaints, and all the ills peculiar to women. CHURCHES MAY UNITE.

First and East Side Baptists Now Favor Consolidation.

The joint committee appointed last spring to look into the proposition for a reunion of the First and East Side Baptist churches, will report to their respective bodies next Sunday. Immediately after the morning service, and it is understood that their labors looking towards the proposed reunion have been successful. The East Side church is the result of a split in the First church congregation years ago, when Rev. H. B. Steelman was pastor. With the two congregations together again, the present East Side church will be utilized as a mission church.

Herbine.

Renders the bile more fluid and thus helps the blood to flow, it affords prompt relief from biliousness, indigestion, sick and nervous headaches, and the over-indulgence in food and drink. Herbine acts quickly, a dose after meals will bring the patient into a good condition in a few days.

G. L. Caldwell, Agt. M. K. and T. R. R., Checotah, Ind. Ter., writes, April 18, 1903: "I was sick for over two years with enlargement of the liver and spleen. The doctors did me no good, and I had given up all hope of being cured, when my druggist advised me to use Herbine. It has made me sound and well." 50c. Sold by Z. C. M. I. Drug Dept. B

TO OPEN BIDS MONDAY.

Offers to Build Big Cottonwood Conduit To be Received Then.

Notwithstanding the fact that next Monday, Sept. 4, is a legal holiday, the board of public works will keep its office open in the city and county building until 3 o'clock that afternoon to receive bids on the construction of the Big Cottonwood conduit. When the date for opening the bids was set by the board it overlooked the fact that Sept. 4 is a holiday until it was too late to change the advertisement. The only thing to do now is to keep the office open until 3 o'clock and receive bids. The contract cannot be let on that date so the bids will not be opened probably until Tuesday.

HOMER'S HAMMER.

It Knocks to Have Franchise Vacated—Order to Show Cause.

The complaint in the injunction suit brought by Thomas Homer against Salt Lake City and the Utah Light & Railway company, which was published in full in last evening's "News," was filed in the district court late yesterday afternoon. Judge Armstrong issued an order to show cause why an injunction should not issue against the defendants and made it returnable before Judge Morse on Monday, Sept. 11. The plaintiff seeks to have the court declare null and void the franchise recently granted by the city council to the Utah Light & Railway company and to have the company enjoined from operating under the franchise or transferring its land in Big Cottonwood to the city in exchange for the franchise.

WATER FOR MURRAY.

J. P. Cahoon Granted Franchise to Install System at Once.

At its meeting last night the city council of Murray passed an ordinance granting J. P. Cahoon permission to construct water pressure of 110 pounds and charge city. Mr. Cahoon proposes to furnish a water pessue of 110 pounds and charge rates equivalent to those now charged in Salt Lake.

The franchise provides that the city shall pay $1,000 per year to the grantee and for this shall be furnished water and 2 fire hydrants. At any time during the 50 years' term of the franchise the city of Murray may purchase from the grantee or his successors the water system at a sum equivalent to cost and reasonable interest.

Work on the project is to begin at once.

RESIST COLLECTION.

Fraud and Collusion Charged Against Lawyer, Justice and Doctor.

Fraud and collusion are charged against Francis G. Luke, the Merchants' Protective association, Justice of the Peace J. P. McOmie of Murray, and Dr. W. L. Gardner in a complaint filed in the district court yesterday afternoon by Attorneys Harrington and Sanford, representing the plaintiffs, Henry W. Gayler and Hannah Gayler. It is alleged that the defendants used fraud and collusion in attempting to collect $90 said to be due from plaintiffs to Dr. Gardner for medical services and an injunction is asked to restrain defendants from making any further attempt to collect the judgment rendered against the plaintiffs in this action by Justice McOmie on Aug. 24, 1904, for the total sum of $132 principal and interest and $4.30 costs.

The complaint alleges in the first place that the action against Mr. and Mrs. Gayler was filed in Justice McOmie's court in Murray while neither the plaintiff nor defendants are residents of that precinct and the debt alleged to have been contracted was contracted if at all in this city and not in Murray, hence that court had no jurisdiction in the matter at all. It is further alleged that there was no service of the summons, personal or otherwise, upon the plaintiffs herein and hence the return on the same showing service was false and fraudulent and the entry of the judgment upon such a return was accordingly fraudulent.

Finally it is alleged that the services rendered by Dr. Gardner were for the married son of Mr. and Mrs. Gayler, who above ground died, and not for them at all, as I hence whatever claim the doctor has it is against the estate of the son. An abstract of the judgment in the case has been filed in the district court and plaintiffs ask that a restraining order be issued to enjoin defendants from attempting to collect the judgment. Judge Armstrong issued a temporary restraining order in the case and made it returnable before Judge Morse.

FOR POULTRY EXHIBIT.

Breeders of Choice Stock Urged to Make Display at Portland.

During October the Portland fair will feature poultry, and it goes not be left out, Utah poultry breeders are considering the advisability of sending a display. The Lewis and Clark commission has refused to give any aid to the movement, for which reason leading breeders are urged by W. W. Browning of the Ogden association to unite in an effort to place the display themselves. He has addressed the following card to all poultrymen:

"As the Utah Lewis and Clark exposition committee have refused to in any manner aid the poultry industry of Utah, by adding the breeders of choice stock in making an exhibit at the largest poultry display ever attempted in the west, the Ogden Poultry association wishes to see Utah represented at this greatest of all poultry exhibitions, and have made arrangements to have exhibits selected by experts, free of charge, for breeders who desire such services.

"All entries must be in the hands of the secretary, Guy T. Hunt, room 25, Administration building, Portland, Or., not later than Sept. 10. Exhibits will be received at Portland Monday, Oct. 2.

"Judge George Taxsum will be at the Roberts hotel, Provo, Sept. 2, and the Centre house, Richfield, Sept. 4, to make selections.

"W. W. Browning will be at the service of Salt Lake and Ogden breeders on any date they may select.

"Make your entries now and select your best exhibits later. Entrance $1 per bird. Pen $3.

WANT THE MEDAL.

Infantry Companies of the Guard Drilling Hard for Competition.

Interest in the infantry branch of the national guard is now centered in preparing for the coming encampment, and specially in getting ready for the drill contest for which a medal and $50 cash prize is offered. The Salt Lake companies have decided to hold extra drills this week, while at Ogden Capt. W. E. Kneass is putting company B through regular drill three times a week. He now has 50 men in line, which makes his the largest company in the guard.

The commands in Salt Lake are hard at work packing up equipment for shipment to Manti, and this work is practically completed. Captain William C. Webb, resigned, still maintains possession of the battery quarters in which he is at work upon a property return.

"I Want My Mellin's Food"

This is the name of one of the very handsome marble statues in the Mellin's Food Booth at the Lewis & Clark Exposition, Portland. This statue, made from the pure and white Carrara marble, represents a little child reaching out its tiny hands for its Mellin's Food. It is very lifelike and worth seeing. If you don't care for statuary there are oil paintings, life-like portraits and a guessing contest to entertain you. Mellin's Food Booth, Agriculture Bldg.

"DRUNKENNESS"

Cigarette and Tobacco Habits Cured by

TRIB

The man who drinks whiskey to excess is speeding his own heart, exhausting his vitality and drawing heavily on his future energy. Try this: Take a mouthful of whiskey and see how long the nerves will allow you to hold it in your mouth; before a minute has passed you will swallow it to get rid of it. The nerves of taste and smell are so adjusted as to protect the stomach against dangerous foods and drinks, but when whiskey is tossed down your throat the nerves are not given a chance to act upon it. Tobacco is less dangerous, but danger and tobacco can consistently be considered one and the same.

Investigate this remedy while we are offering you an absolute guarantee with every treatment.
