NEWS OF THE WEST.

A Hunter Pulls a Gun Through a Fence and is Killed.

POISONED BY EATING BROWN PAPER

Arizona Prisoners Say to Form A Out —Chased by a Scorpion Lion. —Best Sugar Year in 8 Y.

Omaha Stockman, N.Y.10: Messrs. Brown & Bernard were here from Gunnison, Utah, with twenty cars of cattle and two double-deck cars of sheep.

The little three-year-old daughter of Mr. and Mrs. George Dent, of Cheyenne, Wyoming, was almost family poisoned Monday by eating some colored wrapping paper. Which, it seems, contained arsenic. She (or some playmates were making "paint" of the paper.

Thomas Wright of Lemoore, Cal., an unmarried man 28 years of age, committed suicide at the Farmers' Bridge Sunday morning. He was suffering from melancholia, and coming at that place with his brother. He got up early Sunday morning and blew his brains out with a rifle.

San Francisco Chronicle, Nov. 10: George W. Heintz, chief clerk of the passenger department of the Southern Pacific railroad, and Mr. Forrester, traveling auditor of the same road, arrived from Salt Lake yesterday, and are guests at the Palace. They will sail today for Honolulu on a pleasure trip.

George Reeder, a seventeen-year-old boy, arrested at Santa Rosa, Cal., Saturday, made his escape from the county jail Tuesday. He was shifted to an upstairs room and when Lockwood took dinner to him he took advantage of the momentary absence of his shoulder, slipped down stairs, and the front door and disappeared.

James Ryan, an old and well known resident of California, met his death this afternoon while hunting near Mount Diablo, Cal. He was with a young man named Dunlap, who had the way across the hills and was in the act of crossing a fence when the weapon was suddenly discharged. Mr. Ryan lived but half an hour. The deceased was 18 years of age and is survived by a children four of whom are in Oakland.

A strong movement is on foot at Santa Rosa, Cal., for the establishment of a beet sugar manufactory. Beets grown near Santa Rosa have been tested at the Alvarado factory and now that they possess the necessary properties to an unusual degree. At the coming session of the Farmers' Institute these beet sugar will receive much attention. Many farmers are anxious to engage in beet growing and it is believed a factory will be built in Sonoma county in the near future.

Chief Justice Baker at Yuma, Arizona, Monday rendered judgment in the famous case of the State of Arizona Improvement Company against the territory to compel the enforcement of a contract made with the refitting board of control for the leasing of the territory's convicts. The contract, which has been bitterly assailed by the territorial press, turns over the inmates of the territorial prison at Yuma for ten years to the Improvement Company at a rental of 70 cents a day each, payment to be made in water rights of the canal company. The decision was in favor of the plaintiffs and treats only of the legal questions involved.

Monday the boats of the Monterey, Cal., whaling company went out and succeeded in killing a large sperm whale about sixty feet in length. The whale when killed sank to the bottom in about forty fathoms of water. The spot was marked with a buoy and Tuesday the whale was brought to the surface and towed to the whalery. Tuesday morning one of the boats harpooned a cow and calf, when the latter became foaled. In the confusion the wrong line was cut and the cow departed without explanation, carrying away a harpoon and over 1000 feet of line, the loss of which amounts to about $25. The calf, a large cow and quite fat, was secured and has been cut up. It will yield about twenty barrels of oil.

A gentleman visiting Grass Valley, Cal., from the Morgan mine recently stated that the people in that neighborhood are being annoyed by a big California lion, which is roaming in the woods out there. The animal was first seen about a week ago, when a man who was walking through the woods saw him. Before he could get a chance to make his escape the lion seized after him and he ran for dear life. He was forced to jump into a shaft in order to get away, the animal being very close upon him. A few days ago another gentleman had a similar experience, but managed to escape from the lion by climbing a tree. A party of hunters from Willow Valley will scour the county in search of the lion, and expect to bring him to the ground.

A well supposed to have been over fifty twenty-five years ago was discovered on the farm of C. H. Davis, near Mount Carleton on the old Indian trail, twenty-one miles north of Spokane, Washington, Tuesday. It was found by the boys, while hunting larkspurs. The fowl ran under some trees for water, and the boys reported at the time that a spring existed there. Investigation proves that instead of a spring it was a well, which had been filled with the earth taken out at the time it was dug. The well dipped out with buckets and the well was found to be twelve feet deep, five and one-half feet in diameter at the top and three feet at the bottom. The workmanship was good. The well filled with water in three days and is now running over, an inch and a half perpendicular, showing that it is fed by a strong spring at the bottom. The age of the well is estimated by the growth of a tamarack and a black pine tree on its edge, unquestionably brought up at least from little twigs when the well was dug. They are now about fourteen inches in diameter.

Omaha Stockman: Now that the smoke of battle has somewhat cleared away it is in order to expect some substantial results from the bloodless fray that has monopolized the nation's attention practically to the exclusion of all other matters for the past four months. On one subject live stock dealers have been unanimously unanimous, and for two or three years through their various organizations they have been demanding a change in our laws that would enable this country to retaliate on other countries where the products of the American farm have been either excluded entirely or manifesting trivial reasons of their importation practically prohibited by an excessive and unreasonable tax. With nations as with men self-defense is a fundamental law, and the nations that exclude American products should be made to understand that two can play at the same game. Discriminating against Am ricn cattle and meat products is in by-gone days a major duties and manifestly just and necessary retaliatory legislation has recently strengthened the belief that our cattle or meat and kindred values are to remarkably low Russia. If congressmen wish to conclude and the prominent candidates are fearful to speak it would seem bring about the adoption of a more liberal policy in the case of the flourishing nations, everybody accepts the market for the principal products of the farm, and correspondingly gives various value for best sights in this country. Give us reciprocity by all means.

Breaking the Colt.

Combine strength with gentleness and the end leads, but with the colt. With a view to assisting in the practice of this maxim The Farm Journal illustrates a homemade cart, useful in breaking a colt to single harness.

Its prominent features is the shafts made of strong hickory poles, extending

BREAKING COLT TO SINGLE HARNESS.

two or three feet behind the wheels and braced as shown. This prevents the colt from rearing and also from backing, for the trained wind is so arranged that he can move back and throw his weight on the rear end. A chest strap over the horse from shaft to shaft, prevents the animal from kicking. It is important to have the cart balanced and well braced and everything about the cart strong.

Gladness Comes

With a better understanding of the wonderful nature of the many physical laws which combined before efforts—gentle efforts—pleasant efforts—rightly directed. There is comfort in the knowledge that so many forms of sickness are not due to any actual disease, but simply to a conditional condition of the system, which the pleasant family laxative, Syrup of Figs, promptly removes. That is why it is the only remedy with enlightened families, and is everywhere esteemed so highly by all who value good health. Its beneficial effects are due to the fact, that it is the one remedy which promotes internal cleanliness without debilitating the organs on which it acts. It is therefore all important, in order to get the beneficial effects, to note when you purchase, that you have the genuine article, which is manufactured by the California Fig Syrup Co. only and sold by all reputable druggists.

If in the enjoyment of good health, and the system is regular, laxatives or other remedies are then not needed. If afflicted with any actual disease, one may be commended to the most skillful physicians, but if in need of a laxative, one should have the best, and with the well-informed, everywhere, Syrup of Figs stands highest and is most largely used and gives most general satisfaction.

Agents for KNOX HATS.

HATS! HATS!

Hats off at the meeting. Hats off, too, when they look old, worn, seedy, antiquated and off color. Don't bring your head-piece under suspicion by covering it with a questionable hat. Under a stylish hat much is overlooked. Nothing has attracted as much attention in Salt Lake City this season as our hat display. On a head show we win the town. We can't be equalled for style, value, easiness and durability. Now's the time for up-to-date men to get the best hats they ever wore at bottom figures.

ONE PRICE.

J. P. Gardner,

136-138 MAIN STREET.

"Check it!"

BattleAx PLUG

If he had bought a 5 cent piece he would have been able to take it with him.

There is no use buying more than a 5 cent piece of "Battle Ax." A 10 cent piece is most too big to carry, and the 5 cent piece is nearly as large as the 10 cent piece of other high grade tobaccos.

Horses Kick

is self-defense. It is their most expensive form of protest against the unnatural, lazy habits that our civilization imposes upon them. Blankets are used on their backs. Blankets when one stick back in ignorance of the danger that it means to horses.

This is what happens. Our next cuts will show a method for clipping the hair off from the hind legs, and also a method of clipping and

Shearing Process

by which the fibres of muscles are not cut and the horse is not disturbed in the slightest degree. The end of a cut can be seen distributed in the rough edge among the white hair on point.

Putnam Nails

are exclusively Hot-Pressed and Hand-made-Pointed, precisely like the old-fashioned hand-made nail. They possess worlds of particles of cut nails together into a stemwork, form cut nail clamps Rigid, Silver or Brook and so.

Absolutely Safe.

Practice the nails in your work with the hammer, if which edges are sharp, the Wire Nails Will Split Wood and Are Not Reliable. Hand-made Pointed Nails Will Not Split Wood.

Manufactured nickel plated, nickel and bronze of our nails, in package or silver.
