The new '97 model, with its matches membership and finish, the result of costly experiments and machinery, is the only bicycle with absolutely true and perfect bearings. Its price to everyone is \$100.

The famous Waverley of last year has been greatly improved, and as its construction is continued without the purchase of new machinery, the price is reduced to \$60.

Conference at St. Johns.

At St. Johns, Ariz., May 28, 1897.

To the Editor:

The quarterly conference of the St. Johns B. M. E. was convened here on the 28th and 29th of the month. The primary associations and sister societies held their semi-annual conferences on the 28th. The conferences were very well attended and a good spirit prevailed. The presidency and some of the other leading officers of the State spoke of the State. The blessing of the Lord to His people is the general topic.

The B. M. E. has certainly been being blessed. In a spiritual way we are progressing. We are at the present time raising funds to complete the State academy, and this is a most creditable thing to have a school where the youth of the State can be taught spiritual things.

In a temporal way we also are blessed. The fruit trees are laden with golden fruit; the fields are green with growing grain and hay (to such an extent as we have a school house well used here), and there is plenty of water in store for this year's use, with prospects for all we want in the future.

The sheepmen, in fact everybody, seem to be prospering. There was the falling and snow, but the result of many of the rains at our last conference, and we feel to praise God for the result. It is our duty to try to live nearer to Him and keep His commandments more fully.

State Clerk.
