MINING, BUSINESS AND STOCKS.

EXCITEMENT ON THE EXCHANGE

Lively Flurries in Lower Mammoth and Northern Light.

A SLUMP IN SACRAMENTO.

Daly Takes a Brief—Petty Inactive—Northern Light Touches 23 and Lower Mammoth 47.

TODAY'S METALS:
SILVER 57⅞
LEAD $4.40
CASTING COPPER 18¼

Northern Light divided honors with Lower Mammoth at the morning's call in the latter stock Harry Joseph gave the boys a whirl that made them dizzy before he got through with them. The first sale was made at 16 cents, yesterday's figure, and from that point Joseph carried it along to 22½ cents, a gain of 6½ cents over night. The stock closed strong at 22 bid, 23 asked, after some 1,000 shares had been disposed of.

The Northern Light advance was the result, it is claimed, of a quietly arranged bull movement, which was carried out with a dash not often witnessed of late, the stock being pushed up as high as 22 cents, and it was all over before the news got abroad. There is reported to have been a change in Cripple Creek, 10¼ being bid at the close. Over-sixteen thousand shares were sold during the forenoon.

Fortunates suffered from the passing of the Brownell, although not as severely as we expected. The Brownell had been selling under, trying hard to stave their customers from the great e ham. The stock sold all the way from 20½ to 5, closing at 20½ bid and 21 asked.

Mammoth awoke from its torpor and was active in the trading, selling up to 2.20½ each, while there was some dealing in Jackson.

Daly took a decided hump and although he sales were recorded 1,000 were already bid, the stock being held at $3.

Dry-Wyn remained at about yesterday's figures.

Altogether it was a lively day, and a far better tone pervaded the market than has been witnessed before this week.

The closing quotations were as follows:

SHARP GAINS AT OPENING.

Prominent Speculities, Such as Rubber and Sugar, Reached a Point.

Trading Somewhat Confused Because of Strength and Weakness Prevailing in Some Leading Stocks.

New York, Oct. 27.—There was sharp guess at the opening in the prominent speculities, reaching a point in Rubber and Sugar and large purchases in railroads in the western and southern region and in the centers.

Trading was quite confused for a time, decided strength and weakness prevailing in leading stocks. Rubber opened at 1 to 1½ and Sugar at 1 to 1½ respectively, Tobacco and Wire, Tobacco, Pacific Mail, Sugar, Rubber, Lead, Leather and Brooklyn Transit a point. A rise in rubber checked the market.

Sugar was the leading issue in some of the auctions and subsequent issue strengthened the market. Rubber, Brooklyn Transit and other speculities were in demand.

The bond market was irregular, but convertibles were not impaired.

Except in stocks which had check special activity, the general tone of prices felt lower late night. The closing was irregular, weak and mixed changes.

SUGAR.

Sugar, raw, fair refined, steady.

MONEY.

Money on call nominally 2 @ 2, prime mercantile paper, 4 @ 5 per cent.

Sterling exchange firm, with actual business in bankers' bills at 4.87 for demand and at 4.87 @ 4.87 for 60 days; posted rates, 4.88 @ 4.89½; commercial bills, 4.86½ @ 4.86½.

Silver certificates, 58 @ 59.

Bar silver, 57½.

Mexican dollars, 45.

Government bonds, firm; U. S. ref. 2's, 108 bid, 1 @ 2, do. coupon, 108 bid, 1 @ 2, do. 3's, 109 bid, 1 @ 2, do. coupon, 109 bid, 1 @ 2, do. 4's, 112 bid, 1 @ 2, do. coupon, 112 bid, 1 @ 2, do. 5's, 112 bid, 1 @ 2, do. coupon, 112 bid, 1 @ 2.

CHICAGO MARKETS.

PRODUCE.

Chicago, Oct. 27.—December wheat opened at 70@⅞, and declined to 70@.

FLOUR.

Sheep—Receipts 1,200. Market steady for all matters, 2.25@4.00, lambs, 4.00@5.00.

LONDON WOOL MARKET.

London, Oct. 26.—The wool sales opened fair prices, in the main steady and falling the last days of the week. Line holders generally held firm for full rates, generally speaking, the offerings were large, the demand moderate. Continents were one to demand, and proved serious foes with buyers for the continent at higher rates. New South Wales offered a trifle less than the market. There is certainly less wool available for the market than for some months past. Cape and Natal were in good demand with buyers taking the very prime fleece at the advance.

Tops were steady, with a good demand for the finer qualities, but the coarser sorts were neglected. Yarns were firm. The Wool Exchange was busy, when 4,000 bales of shoddies were sold on sale, mostly at 5 and 6 pence higher than the last sale. Mohairs were firm and cheaper. Cape and Scouring qualities were in request. Noils were quiet and lower. Cape and Scouring were in request at 5 pence higher. Low qualities were at 5@7. The continental buyers were the best purchasers. The supply was fair. The demand for the Cape and Scouring of moderate.

Campbell & Greene, Stock Brokers, 18 W. Second South St. Telephone 526.

The most sickness comes of Bad Blood. Take Dr. HARVEY'S SOUTHERN HOME RYE. Pure 25 and 50 cents. E. G. M. A. Drug Co.

Best set of teeth for $5.00 at Western Dental Company, 10-12 Eagle Block.

OREGON MINING COMPANY'S LUCK.

Has a Producing Property in Big Cottonwood.

WILL WORK IT ALL WINTER.

Northern Light Sold to Have Made Another Big Strike—Brokers Hunting for the Stock Today.

J. S. Holbrook, who has had charge of the Oregon Mining company's property in Big Cottonwood, this season, is in town. He says he has been asking and shipping ore during all the time he has worked it and would like to get a bond and have open the product to which Capt. Hall, G. L. Hoyt, J. A. Mahon and J. Barnett are interested. An assay of the ore made by Stewart yesterday shows that it is over up in silver, with fifty per cent lead and some copper.

As the winter weather here from straight nothing works are none the worse (from power) and if McGlynn does not make a much better to give through with the same it will not be its fault. The Oregon company may yet turn out to be another Emma or Flagstaff.

Another rich strike is reported at the Northern Light, on Lion Hill, a rich pocket of gold ore having been opened. The ledge is reported to be 6 feet wide and has caused a heavy demand for the stock.

MINING NOTES.

Ore Stalbert is in from Nevada.

George A. Webber has taken a bond and lease upon the Deer Valley group, in Park City district.

After an absence from Park City, Henry M. Boyer has returned to Heber, Utah, where he is pushing some big mining projects.

A. W. McGraw has purchased from Lewis H. Thomas, of Salt Lake City, the Chicago extension, lying between the Comstock, Dalton, Hornsilver and Mammoth claims. The consideration has not been made public.

Senator Chambers goes up to Park City tomorrow. Beginning the completed measure of 20 cents a day. The report of Colonel Mason, that Chambers either to the "News" that this matter has not yet been definitely passed upon.

The Chamberlain company has been incorporated to operate the mine of the Crescent Hill, the incorporators being W. A. McCornick, James Barnett, John Barnett, Jr., Thomas Barnett, W. F. Bryan, H. C. McLaughlin, H. D. Evans. The capital stock is $50,000.

Irving Moran, the secretary of the executive committee of the Independence at Mining congress, will shortly issue a formal call for the next session, to be held in Milwaukee some time in June next. Although that is a long way ahead, it will enable some of the western delegates who have to come from probably Utah, to prepare mineral exhibits.

The Sacramento has passed its usual monthly dividend of $1,000, the fifteenth assessment of 1 cent per share of new ground, and the customers of the place will distribute Americans. The assessment of the Sacramento for September was 1 cent per share, the twenty-fifth, and upon the twenty-fifth. Whether or not the payment of dividends will be suspended for some time is not yet known.

The Alliance company has now been completely reorganized, the directors electing the following officers: Thomas Kearns, president; W. W. Wall, vice president; James Bennett, treasurer, and W. H. Lamb, secretary. The old officers of the company, Messrs. Bennett, Ferris, Kearns and Lamb, have resigned and will be not by the assessments of the twelve cents, the last having been paid.

CAPITAL STOCK INCREASED.

George M. Scott-Stevell Co. Makes an Important Change.

The Scott-Stevell Hardware company has increased its capital stock from $75,000 to $200,000, the new stock being subscribed for as soon as the old stockholders in proportion to their original holdings. The increase was deemed advisable at this time in order to fortify the company against the very big sales of goods and for the necessary additional capital for the expansion of its business.

WINTER DAIRYING.

The Best Time of the Year for the Butter Maker.

The time to make or sell anything, says Henry Stewart in the Pacific Rural Press, is when it is most in demand in the production of it, and when it may be made the easiest. As regards our dairy products the Winter is then clearly the best time in the year for the butter maker. There are several reasons for this, as why it should be so. As a rule, single cow families do not keep a dairy. Single cow families are not to be depended upon for butter in the British path. It is a sore bath grievance for those who think so to have to do without butter, but it is impossible to obtain what our ears are particular in obtain what our ears are with the cream and butter. Cows are in the world, one cow may find herself cut off on one side with making a new butter, and on the other be sold that there is all for herself.

REPORT OF SUCCESS.

This is the season of success with thousands of farmers who have not the old Spring and Summer dairy, the butter dairy, but have taken up other work. Every one has not what is called a butter dairy, and yet it is a butter dairy. I have nothing to say to the necessity of the old dairyman, for some of them are doing well, and have made a success of it, and have made a good work in the business and proved for them to the winter. But it was well for them that it was not the Spring and Summer dairy, for it was not the time of year for butter making, and yet it was well for them that it was not the time of year for butter making, and yet it was well for them that it was not the time of year for butter making, and yet it was well for them that
