MINING, BUSINESS AND STOCKS

HALF HOLIDAY BEING OBSERVED

Mining Stock Brokers Shut Up Their Offices and Go to the State Fair.

FORENOON SESSION HELD.

Columbus Con. a Feature of the Open Board Transactions—Closing Quotations and Sales.

The members of the mining stock brokerage fraternity are spending the afternoon at the state fair grounds and are therefore observing a half holiday in accordance with the proclamations of the chief executives of the state and city. The forenoon sessions of the exchange were held as usual, however, and Acting Secy. Altree reported the sale of 14,025 shares of stock for the sum of $5,945.50.

The open board transactions exceeded those of the regular call by considerable and, as was the case yesterday, Columbus Consolidated participated quite freely, but at lower figures. Bullion Beck Tunnel continued strong and was a seller at 12 cents a share. It is said Uncle Jesse Knight is the most conspicuous buyer in the field, it being his purpose to become the owner of as much of the stock as he possibly can, notwithstanding he is already the possessor of considerably more than a control. Lower Mammoth started off at 33 cents during the regular call and sold down to 30 cents on the open board. Some small lots of Daly came out, the same finding purchasers at 70 and 72½ cents. New York held fairly steady, while Star Consolidated weakened slightly.

The closing quotations and sales were as follows:

COLUMBUS CON. ORE.

Company in Market Today With Tonnage Valued at $46,000.

The Columbus Consolidated Mining company is in the market with a big lot of crude ore and concentrate today, from which the company will draw down close to $46,000. The crude ore is about the richest ever brought down from the mine and carries high values in silver, copper and lead.

Manager Jacobson says things are moving along just about as well as could be expected at the mine, but when asked how soon the directors would post the initial dividend, replied that he was unable to say.

SMOKY VALLEY COUNTRY.

Good Mineral Indications Present in This Nevada District.

A. Vincent returned Monday from a six weeks' prospecting trip in the Smoky valley country, which is located about 20 miles north of Manhattan and about eight miles from the famous Ophir canyon, says the Goldfield Review, while gone Mr. Vincent located a number of good claims, some of which he thinks will, with development, open up into big producers.

On one claim near Belcher canyon, Mr. Vincent says a ledge outcrops for quite a distance and is fully two feet wide, and an assay taken from it gave returns a little better than $19 in gold and silver. This claim is located only a short distance from Ophir canyon, which produced from its mines in the early days over $1,500,000. The district has been dead for a number of years, but is now having quite a boom, and Mr. Vincent thinks that a big rush will be made for that section this fall.

On his return Mr. Vincent stopped over in Manhattan for a few days, and visited a number of the big properties and leases being worked in that camp. He says that a number of leasers have shipments out and ready for the mills and smelters, but as the roads are in bad shape they will have to await such time as they are passable, after which a great deal of shipping will follow.

A good flow of water has been struck in the well being sunk by the Humphrey boys on their property and as a result the town of Manhattan has been growing quite rapidly. The town of Palo Alto is no more, everybody living and doing business there having moved to Manhattan.

SNOWFLAKE CASE.

Judge of District Court at Ploche Has Rendered a Decision.

The judge of the district court sitting at Ploche has rendered a decision in the Snowflake suit and has recreed that Charles A. Short and associates are the owners of a two-thirds interest in the Snowflake property and that the other interest belongs to Mr. Johnson, who located the property, but failed to comply with the law in every particular, thus leaving the ground open to location.

It is believed now that the interests have been segregated, all will get together and agree on some plan for the opening of the mine upon an extensive scale.

GOLD PROPERTY IN FAY DISTRICT.

Inter-State Mining & Reduction Company is Preparing for Energetic Campaign.

AHEAD OF BULLFROG COUNTRY

Is Opinion Expressed by S. P. Moore Of Provo—Los Angeles Capital Invested—Will Build Mill.

Special Correspondence.

Provo, Oct. 3.—S. P. Moore, superintendent of the Interstate Mining and Reduction company, which has lately been organized to develop a big gold property at Fay, Nevada, left last evening for the mine.

Mr. Moore, who with C. O. Newell, also of Provo, are the discoverers of the property owned by the new company, is enthusiastic over the prospects for opening up a big mine, and over the promise the district holds out to the prospector. He claims that the district is ahead of Bullfrog in its possibilities. The ledge on which his company's mines are located, is 4,000 feet in length and from 20 to 150 feet in width, and the ore will average $10 to the ton.

A large force of men will be put to work, doing development work as soon as Mr. Moore returns, and a mill will be erected within the next few months. The ore is a free gold proposition, and some of it carries high values. Los Angeles capitalists are furnishing the money to open the property, and there will be no delay for lack of capital. D. R. Kilbourne of Los Angeles is the president, C. O. Newell, the vice president, and C. H. Kilbourne of Los Angeles, secretary and treasurer.

The October dividend checks were received by local shareholders during the day. The amount of the dividend is $20,000, or 5 cents a share.

TRADING IN STOCKS CONTINUES DULL.

Depression in London Found Some Response in New York in the Opening Dealings.

SOME FEW GAINS WERE MADE

Inquiry Was for Specialties—Late In Day Some of Better Known Industries Were Features.

New York, Oct. 3.—The depression in the London market found some sympathetic response in the opening dealings, although the general depression was largely due to large takings of gold there for shipment to New York. Canadian Pacific fell a point, St. Paul and Hide and Leather preferred ⅝. The few gains were found amongst the specialties. Great Northern preferred rising 1½. Losses in the railroad division were largely restored and the market began to reap some benefit from the sustained demand for the specials. The inquiries for these stocks was not so pronounced as on yesterday, but there was a large number at advancing prices. Corn Products preferred and Cast Iron Pipe advanced 2, the Federal Mining stocks 1½, Smelting, Sugar and Twin City Rapid Transit 1 to 1¼. Weakness in the standard stocks developed again. Northwestern and Illinois Central lost 1 to 1¼. Chicago Union Traction preferred 1 to 1½ and Pacific Coast second preferred 2½. Prices showed some disposition to move in either direction. Corn Products preferred 2¼. Central Leather 1½ and Metropolitan Street Railway and Union Bag about a point. Cleveland, Loraine & Wheeling sold at an advance of 8 points.

Bonds were irregular.

Southern railroad stocks were bought eagerly for a while, carrying L. & N. and Atlantic Coast Line up a point and wiping out the forenoon loss in Illinois Central. Otherwise the market was without feature and unusually dull. General Chemical moved up 2 and Cleveland, Loraine and Wheeling extended its rise to 11. Consolidate Gas lost 1¼ and Northern Pacific 1.

Some of the better known industrials became features late in the day, notably Smelting, which rose 2½. In a general way the market was higher, but the movement in the railroad list was very slight, except for sharp fractional gains in New York Central an dB. & O. Chicago & Eastern Illinois certificates rose 4, U. S. Pipe 3¾, Locomotive, Lead and Colorado and Southern first preferred 1.

PRODUCE.

Chicago, Oct. 3.—Fresh reports of a shortage in the wheat crop of Russia caused a firmness in the wheat market here today. Several leading commission houses were quite active buyers. The market was a trifle easier at the start owing to continued clear weather in the northwest. Liberal receipts at Minneapolis and Duluth further aided the bears. Initial quotations on December were unchanged to ⅛ lower, at 84½ to 84⅝. After touching 84⅝ the price advanced to 84⅞.

Minneapolis, Duluth and Chicago reported receipts of 1,354 cars against 1,242 cars a year ago.

Buying by shorts and commission houses created a firm tone in the corn market notwithstanding continued favorable weather for the new crop. Receipts were moderate and cables indifferent. December opened ⅛ to ¼@¼ higher at 43⅜ to 43⅜@43⅝ and sold up to 43⅞.

Oats were firm in sympathy with other grains. Cash interests were moderat sellers and offerings were largely taken by commission houses. December opened a hade higher at 27¾ and advanced to 28.

Provisions were a trifle easier as a result of a 5 cent decline in the price of live hogs. Trading was very quiet. January pork was unchanged at 12.37½; lard was off 2½ at 6.80; ribs were off a shade at 6.47½.

Cash: Wheat—No. 2, red, 86½; No. 3, red, 85½@86; No. 2, hard, 83⅞@88; No. 3, hard, 82@85; No. 1, northern, 86@88; No. 2, northern, 85@86; No. 3, spring, 78@86.

Oats—No. 2, 27¼; No. 3, 26¾@27.

For a time the market steadily gained in strength. December advanced to 85⅛@85¼. Prices eased again, however, upon withdrawal of support by a leading bull. The close was practically at the lowest point of the day. December being off ⅛@¼ at 84⅞@84½.

Corn—The market held steady the last half of the session. At the close December was up ¼@¾ at 43⅝@43¾.
