MINING, BUSINESS AND STOCKS

OCTOBER LIST OF DIVIDENDS.

Total Distribution for the Month From Utah Mines Aggregated $214,983.

PARK CITY IN THE LEAD AGAIN.

Silver King Comes Forward With Its Usual $100,000—General Prosperity Prevails in the Camps.

The month of October will close with a dividend record for Utah mines aggregating the sum of $214,983.

Park City again heads the list with $172,000 to its credit; the Silver King leading with $100,000, Daly-West came forward with the balance.

Three Tintic producers were in the list of velvet getters this month, Mammoth, Tetro and Uncle Sam Consolidated. The Gold Mountain district came forward as usual with its Annie Laurie, while Bingham was represented by the West Mountain Placer, probably the only dividend paying mining company in the United States or perhaps in the world which is not actively engaged in the mining business; deriving its revenues from other sources.

The month has been one of progress in nearly all the camps of the state, although the dividends paid were not as large as some other months.

Bingham mines are all working full time and sending down to the smelters a larger tonnage than at any time during their history. The Yampa Smelting company is going ahead with its plans to double the capacity of its plant, which will be ready for commission soon after the first of January next. The big plant of the Utah Copper company has been brought up to its maximum capacity and is handling 600 tons of the copper bearing porphyries daily, while the United States, Utah Consolidated and Bingham Consolidated are sending out their usual tonnage.

The camp of Mercur did not respond in the way of dividends during the month of October, but if the Consolidated Mercur continues the record it is now making it will not be long until this old time gold producer is back in line again.

The Park City mines produced about the usual tonnage during the month, while the Annie Laurie was equipped with additonal treatment facilities, sufficient to increase the capacity one half.

Silver King	$100,000
Daly-West	72,000
Mammoth	20,000
Annie Laurie	12,500
Uncle Sam Con.	5,000
Tetro	3,000
West Mountain Placer	2,483

ON MINING EXCHANGE.

May Day in Demand at a Good Price Today.

The week opened with the sale of 12,896 shares of stocks on the mining exchange this forenoon, for which was paid the sum of $4,704.75.

May Day was found to be in demand and the stock was supplied at prices ranging fro 32 up to 33½ cents, closing a cent under the opening price. Silver Shield found takers and the price strengthened to 7¼ cents. Uncle Sam Consolidated was bought at 24 and 25 cents. New York Bonanza climbed up to 19 cents a share, while Daly-West remained at about Saturday's closing figures.

The closing quotations and sales were posted as follows:

Blue Acre Statement

A statement has been issued from the office of the Blue Acre Copper company to the effect that since its inception $39,000 has been received from the sale of treasury stock; that promotion, superintendence, commissions, etc., has cost about $11,000; that the balance of the money has been expended in buildings and equipment. About 1,000 feet of development work has been performed in the mine.

MINING SUIT STARTED.

Provo and Lily Mining Companies Named as Defendants.

Suit was commenced in the federal court on Saturday afternoon by Ralph W. Kellogg, of California, against the Provo Mining company, the Lily Mining company, James Leetham, Henry C. Leetham, William T. Leetham and Kitty A. Hines, all of Utah. His petition, in which he asks for an injunction against the defendants and for an order of court requiring them to set forth any and every interest adverse to his claim to the Ralph lode, in Utah county, says that on May 8, 1899, he discovered a mineral vein and posted the required notice, and had a copy of it recorded in the office of the recorder of Utah county, Utah, May 15, 1899, naming it the Ralph lode.

Subsequently the Lily Mining company filed a claim to part of said Ralph lode. The Provo Mining company, which owns or claims to own certain mining claims adjoining the Ralph, also sought to encroach upon the Ralph, it is alleged. It is further averred that on March 8, 1904, the Leethams and Kitty A. Hines made a pretended mining location and called it the Alta lode, which was to cover and include all or practically all of complainant's Ralph lode. In his application for an injunction Kellogg asks the court to restrain the defendants from entering into or upon any portion of his claim, and that title be quieted and that he be confirmed in his title.

AMONG PIOCHE MINES.

New Hoist to be Installed at the Pioche-Nevada Con.

B. M. Cornish, one of the principal owners in the Pioche-Nevada Consolidated company of Salt Lake City, says the Record, arrived Sunday night and has been busily engaged making arrangements for the working of the property in proper way. A hoist is to be erected forthwith and the necessary buildings constructed at the mines. Mr. Cornish has bonded four claims in Highland district on what is known as the "Yuba Dike," paying $500 cash, other good and valuable consideration to follow at stated periods.

The transfer of the Little Mendha property has been made and the incorporation formed. The capital stock is 500,000 shares at $1 per share. The directors of the company are B. M. Cornish, B. S. Rives, A. P. Gardner, K. V. Zink, all of Salt Lake, and E. P. Gordon. The working fund has been provided and men will be placed to work on the property the latter part of next week.

Negotiation is now going on with a view of incorporating some of the best mineral bearing properties in Pioche. The property lies to the east of Spring mountain and is considered by several mineralogists as one of the finest mineral showings that they have seen in this vicinity.

MINES AT PIOCHE.

Frank L. Gardner Returns from Southern Nevada Camp.

Frank L. Gardner, one of the officials of the Pioche- Nevada Consolidated Mining company, returned from a trip to that property this morning and confirms all the good reports coming from that property.

A force of men, he states, is running a drift from the 40-foot point and as soon as better equipment is provided the shaft will be sent to the deep.

Upon his return home, Mr. Gardner found a letter awaiting him from George O. Walker, a former Tintic mining man, who recently visited the property, in which he expressed himself in the following manner:

"I found the mine more than the papers have reported and was, in deed, surprised at the showing. The ore is found in the lime and shale contact and comes in the shape of galena and carbonates; which, I judge, runs well in silver. They have one mile on the vein and if it is anything it is a big proposition. The ore bearing ledge is 40 feet wide, at the 60-foot level contains five feet of carbonates with streaks of galena.

"I have traveled and mined in Idaho and Utah, but this property has the finest surface showing of any I have ever seen. Your company has nothing to fear as to the outcome. Pioche must be the town of the near future, as I see all around me prospects of great merit."

GETTING ACQUAINTED.

New Manager of United States Mines Enters Upon His Duties.

Walter Fitch, the manager of the United States mines, was in consultation with General Superintendent Clarence E. Allen and Ore Purchasing Agent T. H. Jones during the day for the purpose of acquainting himself with the affairs of the company.

Tomorrow morning, accompanied by Mr. Allen, the new superintendent will visit the smelter at Bingham Junction and after making a thorough investigation there, will visit the various mines belonging to the company.

MOVED OFF SMOOTHLY.

Columbus Consolidated Mill Now Turning Out Concentrates.

Manager Tony Jacobson of the Columbus Consolidated mine of Alta returned from camp last night, well pleased with the behavior of the new mill. While the adjustments have not been perfected the plant went into commotion doing remarkably well. Ore was turned into the crushers on Friday afternoon, since which time concentrates have been going into the boxes.

The mill is still in charge of its builder, John Shey, who intends to stay with it until the machinery is moving as smoothly as clock work.

LOOKS BIGGER THAN EVER BEFORE

Justice R. N. Baskin Greatly Impressed With Showing Made on Miller Mountain Property.

LEASERS HAVE MADE A HIT.

Could Easily Get Out Two Hundred Tons a Day—Will Average Fifty Dollars.

Justice R. N. Baskin of the supreme court of Utah, who is the owner of a one-sixth interest in the property of the Miller Mountain Mining & Milling company, which is located just over the ridge from Alta at the head of American Fork canyon, has returned from making an inspection of the late find on the Wyoming claim reported by the lessees, Tynge and son.

That the judge became greatly impressed with the showing is expressing it mildly, for he declares there is not the slightest doubt but that the ore body uncovered is larger than the original discovery and which produced close to $1,000,000 in wealth.

The lessees are busy taking out ore and shipping it to the local markets. They are using all the teams they can get and could keep a good many more supplied with ore if they had them. The judge says the whole mass as it is broken down carries values averaging close to $50 to the ton. In addition to the silver and lead, the ore carries an ounce in gold to the ton and an excess of iron of about 20 per cent, making it a most excellent smelting proposition.

The judge declares the lessees could ship out 200 tons a day without trouble if the conveyances were available.

Nearly every pioneer miner in Utah remembers the early events on Miller mountain and while the mine produced extensively the profits were used up in the construction of a smelter and later, a railroad from American Fork. When the latter was completed the Miller Mountain company found itself without any ore; the body from which the smelter had drawn its supply had become exhausted and its course lost completely.

CONCENTRATES.

John A. Kirby returned last evening from Goldfield.

A. J. McMullen expects to leave for Montana on mining business tonight.

The mill at the Cumberland mine at Silver City, Ida., is to be started up soon.

Manager Frank Taylor of the Bingham-New Haven mines, is in the city today.

Manager John Dern of the Uncle Sam Consolidated is making an inspection of that property today.

Manager H. M. Crowther of the Continental Alta mines is making an inspection of those properties.

Gus Holmes of the Knutsford hotel is said to have secured a foothold in the new camp of Goldfield, Nevada.

Manager George Dern of the Consolidated Mercur, who was in the city over Sunday, returned to camp this morning.

The annual stockholders' meeting of the Victoria Mining company is scheduled to take place in Provo today.

Word comes from Goldfield that development work is about to start on the property of the Pennsylvania-Goldfield company.

Financial Manager Lee Hanchett of the Newhouse mines returned last evening from a brief business trip to Colorado.

Peter Porter, manager of the Goldfield Great Bend Mining company, has returned from a trip to the property of that company.

The United States mines at Bingham have started up after a shut down of several days, pending which repairs were made to the Old Telegraph tunnel.

J. M. Callow, the mechanical engineer, departed on Saturday night for Montana. He will be absent from the city the greater part of the coming winter.

Former Senator E. O. Wolcott of Colorado and party visited Bingham yesterday and among the properties visited was the Yampa, which is under the management of Walter S. Kelley.

The injunction suit of E. A. Wall vs United States Mining company, growing out of trespass of defendants in ground of Red Rover mine, comes up next month in the federal courts.—Bingham Bulletin.

Utah Apex is shipping an average of 20 to 25 tons daily, and will so continue while the roads are open. The ore has been coming out since July. It has a smelter net value of $15 to $16.—Bingham Bulletin.

Ore has lately been going down the United States tramway at an average of 475 tons daily, but just now there is a let up while connection is being made between the new branch and the old line.—Bingham Bulletin.

A Reno, Nev., paper is authority for the statement that ore assaying as high as $4,000 to the ton has been found in the Pactolus property, near Sodaville, upon which a syndicate of Salt Lake people at one time held a bond.

The stockholders of the Golden Star Mining company will hold a special meeting at Joseph, Sevier county, on Dec. 2, at which time the matter of ratifying and confirming the action of the directors in effecting a sale of the property of the company to the Annie Laurie Mining company will be acted upon. At the same time steps will be taken towards the dissolution of the company.

Manager Harry Robb of the Robb Mercantile company yesterday received a message from Mr. Purdum, stating that rapid progress was being made with the machinery. It was expected that one boiler would reach Sunnyside today. The balance of the machinery is all in, with the exception of six loads at Bald Hill and a few odds and ends, and if good weather continues for two weeks longer the other boiler will be in place. The message received by Mr. Robb was sent by a messenger to the end of the telephone line and telephoned in.—Nampa (Ida.) Herald.

Gold for Europe.

New York, Oct. 31.—Heidelbach, Ickelheimer & Co., today engaged $1,000,000 in gold bars at the assay office for shipment to Europe on Thursday. The royal bank of Canada also engaged $1,000,000 for shipment. Both shipments are to go to Paris.

FLUCTUATIONS MARKED DEALINGS.

There Were Fractional Gains at Opening Soon Followed by Declines.

GOLD ENGAGED FOR EXPORT.

Prices Dropped Below Saturday's Close—A Slight Rally and Then a Sagging.

New York, Oct. 31.—Fractional gains running up to ½ were generall in the stock market today on the opening transactions. The heaviest dealings were in Amalgamated Copper, of which 5,900 shares sold at 71 and 71¼, compared with 70½ on Saturday and there were 5,000 shares of Union Pacific at an extreme advance of ⅝. New Jersey Central rose 1½, Tennessee Coal 1¼, Sugar 1⅛ and Pennsylvania ⅞. Ontario & Western ran off a point and the local tractions, United States Steel preferred, Southern Pacific and Kansas & Texas yielded a small fraction. The weight of the usual profit-taking to take advantage of the buying orders received over Sunday proved unusually heavy and was aggravated by the heavy additional engagements of gold for export. Prices were carried sharply below last week, Delaware & Hudson losing 2½, Louisville & Nashville 1¼, Ontario & Western 1⅜, Union Pacific 1⅜, Southern Pacific 1½ and Erie, Southern Railway, C. & O., St. Paul, the Metropolitan stocks, Smelting, Sugar, Colorado Fuel and Chicago Terminal preferred a point. There had been going established before the break in Twin City Rapid Transit of 3, Reading second preferred 1½, Minneapolis, St. Paul & Sault Ste. Marie 1¼ and Cotton Oil and Kansas City Southern preferred a point. The market was quieter and irregular at 11 o'clock.

The market rallied with spirit but did not hold. St. Paul, Union Pacific and Sugar made further recoveries, Amalgamated Copper rose to the best and the local tractions rose a fraction over Saturday. Consolidated Gas gained 1¼ and Chicago Union Traction and Kansas City Southern a point. Weakness of the United States Steel stocks carried prices down lower than before, United States Steel preferred fell 1½, Erie 1¼, Chicago Terminal preferred 2½, and Missouri Pacific, Kansas & Texas, Reading, Erie first and second preferred, New York Central, Chicago Great Western, United States Steel, People's Gas and Locomotive 1.

Bonds were irregular at noon.

After an interval of steadiness during which B. & O. advanced a point selling was resumed with more vigor in Atchison, St. Paul, Rock Island, Erie the Southwesterns and Pacifics. All of these sold lower than in the earlier hours and showed losses of 1 to 1½, with Union Pacific, Southern Pacific and Erie the heaviest losers. B. & O. dropped back later to Saturday's closing and Colorado Fuel preferred rose 2 points.

Business fell off considerably but there was no check to the decline. Every important stock ruled a point or more below Saturday's closing and the loss ran to 2 points in Union Pacific, Missouri Pacific, Louisville & Nashville, Erie and the second preferred, Southern Railway, Sugar and Colorado Fuel, 4 in Delaware & Hudson, 3½ in Westinghouse Electric and 6¾ in Lackawanna, Pennsylvania and Amalgamated were the important stocks to come late into the range of 1 point declines.

PRODUCE.

Chicago, Oct. 31.—Heavy liquidation of December wheat today caused a loss of over a cent in the price of that delivery. At the opening December was off ⅛ to ¼ at 1.11⅝ to 1.11¾, and the price quickly dropped to 1.10¾ to 1.10⅝. May opened a shade to ⅛@⅜ lower at 1.10⅝ to 1.11, and declined to 1.10⅛.

Cash Wheat—No. 2, red, 1.10@1.18; No. 3, red, 1.12@1.15; No. 2, hard, 1.10@1.15; No. 3, hard, 1.03@1.12; No. 4, northern, 1.17@1.19; No. 2, northern, 1.10@1.6; No. 3, spring, 1.00@1.13.

Oats—No. 2, 28⅝@29; No. 3, 28½.

Corn—No. 2, 54@55; No. 3, 53½@54½.

The market was extremely weak the entire session, the lack of demand for the cash article being a potent influence on speculative trading. The low point on December was reached at 1.10⅝@1.10½, while May sold off to 1.10. A slight recovery occurred late in the day as a result of active realizing by shorts, final quotations on December being off 1½@1⅝, at 1.10⅛@1.10½. May was down ¾ at 1.10¼@1.10⅜.

LOCAL MARKETS.

Idaho apples are in the local markets at $1.50 per box; so are pine apples at 30 cents. Egg plant is out of date, and halibut and blue fish are not to be had. Bloaters are, however, on the market in plentiful supply. Turkeys are just beginning to come in, and are retailing at 25 cents per pound, at which price they are likely to remain for some time. Fine apples are to be had in goodly quantities, and there is a general line of fall fruits to select from. The following prices are obtaining today.

Combinations

The age of combinations. In most cases combinations are against the people.

In this case we're talking about a combination that is with the people.

A combination of a cook and

SMITH'S FLOUR

It can't be beat.

TEA

American tea, as a rule, is poor stuff.

There is plenty of good.

Your grocer returns your money if you don't like Schilling's Best.

To the World's Fair Now Or Not at All.

This month is its last. The railroad fare is much reduced, with a return limit that allows you opportunity to visit other Eastern points. Better go! Better go NOW! Start any afternoon at 3:15 on the Burlington's THRO' sleeper to St. Louis, traveling via the scenic line to Denver, and stopping over there six hours—just long enough to see the city, and your friends. NO CHANGE OF CARS between Salt Lake City and St. Louis.

Let me give you the details.
