CHICAGO, August 13.—The statement purporting that the nominations of Mr. Samuels for chief of the horticultural department and Mr. Peabody for chief of the bureau of liberal arts, were confirmed all around, was erroneous. William D. Murray of Plainfield, N. J., presented a paper on the American Association, which was read. It showed that the associations are prosperous, morally growing in numbers, in membership and property, and that much attention was being given to the social, mental and physical development of young men, but that the greatest attention was given to their religious development. Mr. Murray reported 102 bible classes and 3,878 weekly religious services in the associations.

At the afternoon session the Young Men's Christian Association and its attitude in regard to the social question was discussed. ### The Source of the Mississippi.

BERNE, August 13.—At the International Geographical Congress Mr. Strunk, of New York, read a paper on the pretended discovery of the true source of the Mississippi by Captain Glasier. The paper dwelt in great detail on the history of Mississippi explorations and forums. Nicollet's discovery, combating with the statement that the American Geographical Society decline to submit to the congress this history of a pretended exploration by a man whose writings showed that he had never even seen the headwaters of the Mississippi. A committee was appointed to consider the matter.

The committee to which was referred Captain Glasier's pretension that he had discovered the true source of the Mississippi decided it was unfounded and that the discovery belonged to Schoolcraft, Nicollet and Nicolet.

The English prime meridian, it was declared, ought to be universally adopted. It was declared that England ought to adopt the metric system. A resolution favoring the compilation of an international geographical pronouncing dictionary was adopted.

### The Chinese Excluded.

SAN FRANCISCO, August 13.—The landing of Chinese from the steamer "Oceanic" was stopped this morning by order of Collector Phelps. The order is due to a circular received from the treasury department quoting the decision of the Supreme Court of the United States in the case of Wan Sewing. The latter is a laborer and would be land on the ground of a prior residence. The court held that no Chinese merchant or otherwise, could land in the United States unless he was provided with consular certificates. To obtain the certificate he must prove that he was conducting a mercantile business in the United States, which would be almost an impossibility in China. Phelps holds that this practically excludes all Chinese, except those connected with the diplomatic corps.

(By Telegraph to the News.)

SECRETARY BLAINE.

He Will Live to Serve His Country Many Years.

MINNEAPOLIS, August 13.—Loren Fletcher, one of the Republican leaders of this state, and a leading candidate for the Republican nomination for congress in this district, returned this morning from Bar Harbor, where he had a long talk with Blaine. He said Blaine would live to serve his country many year yet. He was not ill, but simply needed rest. The Minnesotan told him that two topics only were now discussed in the Northwest, the big wheat crop and Blaine's health. He assured the secretary that Blaine had recently would accept the place if the country. The only answer Blaine made was a smile and a deprecatory gesture. Yet Fletcher has the impression that Blaine will run if asked with sufficient unanimity.

"Don't imagine you as a man on the verge of the grave" was what he said to me," replied Fletcher, "that the grave was one of the next Democratic nominees."

### President Polk Addresses the Farmers.

BALTIMORE, August 13.—Today's session of the Farmers' Alliance was taken up with addresses and two addresses by President Polk, who, among other things, said: "For twenty-five years I have been in public life, and I never faltered in the battle in the front ranks of God's reformers till I attack the Farmers' Alliance. Let us stand by our principles till the last man falls in the fight, and then volunteers will come up and take their places. Men, citizens, farmers, stand together for every principle of our organization, and a glorious triumph awaits us. They tell us there were divisions in our ranks at the polls. They who proclaimed the divisions did not know us. There were no divisions. We don't know what they are, thank God, and in that spirit we will persevere and fight for the triumph of our principles."

DENVER, August 13.—District Assembly No. 82, Knights of Labor, which has in all the employes on the Union Pacific Railway system, has taken action regarding the Nebraska eight-hour law, which at present is causing the men much joy and other cities. The following telegram has been sent to Omaha, Grand Island and North Platte: "Section 11 of the agreement is contract as to working time. It is still in force. It was made prior to the eight-hour law, which, under the constitution, is not retroactive. The law is thus inoperative as to Union Pacific shop employes, because of the contract. In honor we are bound to recognize the contract, and, inasmuch as it appears, until it can be modified by the parties to it, in good faith as an organization we are considered in assisting in this matter."

### The Ten Per Cents.

WASHINGTON, August 13.—Inquiry at the Treasury Department develops the fact that Secretary Foster's plan for continuing the four and a half per cents, bonds at ten per cent. has so far failed to meet with the favor anticipated by its advocates. Up to date $15,500,000 have been subscribed, but others aggregating $23,000,000 must be presented on or before September 2nd or the Secretary must be prepared to report to congress that it has failed to make terms with the holders for an extension of terms at the present rate of interest, 4½ per cent. The available cash balance today, outside of fractional silver and deposits, in the National banks is $15,000,000, and is gradually increasing. While there is no question of the government's ability to redeem the bonds, it is well known that it would prefer to continue them. There is no doubt but that the $5,000,000 held by the banks will be continued. The uncertainty is in regard to the $15,000,000 in the hands of individuals.

### A Medical Swindler.

NEW YORK, August 13.—For some time past advertisements of an "Institute of European Staff Physicians" has appeared in the German papers, guaranteeing quickly a cure of all the ills of both sexes, lack of money being no barrier to treatment. The Germans flocked to the Institute by hundreds, finding on Dr. Bernard, who styled himself president of the association. In every case he administered "a colored fluid and exact opposite." Complaint of extortion being made, he was arrested and confessed that he was no physician, but formerly had been a druggist's second in this city. Bookman said his treatment cost him no more than that of the regular physicians. He was held in the grand jury in $1000 bail.

When the meeting was called to order at the State House this morning not over forty persons were present, representing all portions of the state, however, and among the number were several officers of the Farmer's Mutual Benefit Association and Farmers' Alliance. But little was done this morning. S. M. Norton, editor of the Sentinel of Chicago was elected chairman and after the appointment of a committee on rules, an adjournment was taken to 2 p. m.

The company was organized six years ago and did business in Kansas and Colorado. The gross value of the assets is $225,000. They will certainly realize $150,000. The liabilities are $120,000. The failure is due to the stringency of the money market and the fact that the recent failures of the Odell Lumber company and Howard & Co., have made it difficult for lumbermen to get accommodation at the banks. The attorney for the firm says that it will pay dollar for dollar if given time.

## "IN DARKEST RUSSIA."

LONG LISTS OF PERSECUTIONS PUBLISHED.

Every Petty Officer Assumes the Right to Transition Reformers at Hi Sweet Fit.

(By Telegraph to the News.)

THE JEWS IN RUSSIA.

An Exposé of the Wrongs Under Which They Are Suffering.

LONDON, August 13.—The work entitled "In Darkest Russia" has met with a good sale, and today the second edition is issued. The book is devoted to an exposé of the wrongs from which the Jews in Russia suffer, and the second edition gives long lists of fresh persecutions to which the Hebrews of that country have been subjected. A letter from a Jew in Russia to a minister in London is published in the book. The writer says: "Do you notice the notice of all to the general military to which the Jews are held. Every petty Russian official assumes the right to treat Russia as his fancy. Every petty official is a little Czar. Here is an illustration of this misuse of power, he instances the fact that the police of Libau recently issued an order prohibiting the Jews from bathing in the sea in summer. A letter received from a gentleman in Charlottenburg, Germany, describes the sufferings of the Jews fleeing from Russia, says the refugees, who have not sufficient money to pay for full price tickets to America, have received tickets from the Jewish emigration committee at less than cost.

### The Sanjuan Assassin Executed.

SIMLA, August 13.—The murder of British officials in March last was avenged today by the execution of two of the leaders of the massacre. Two of the men were members of the religious House of Manipur, and both appealed from the military Court of Inquiry, which tried them, but the Marquis of Lansdowne, Viceroy of India, refused to interfere with the decision of that court. The two men executed were the temporary Commander-in-Chief of the Manipur army, and the Commissioner, who visited the flag of truce under which the Englishmen were decoyed from Manipur, and who gave the native executioner orders to kill the British officers. An immense crowd of natives witnessed the execution, but owing to the presence of large numbers of troops no disturbance occurred.

NEW YORK, August 13.—Another conference of the directors and others interested in Union Pacific matters was held today, and it is now in a position to state that matters were progressing toward a favorable conclusion, and that a formal announcement of the settlement of the company's trouble will soon be made. One of the parties to the conference said ten or twelve million dollars will be all that is necessary to put the company in an easy position, and that although some of this was actually subscribed the greater part is guaranteed, and all that remains was to sign the papers and arrange the various details. A prominent Gould banker is given as authority for the statement that Pierpont Morgan would have an interest amounting to $5,000,000, on the new contract, and that, although not yet in shape for a formal announcement, the matter was virtually settled at the meeting of Union Pacific directors. A new member of the executive committee was elected in the place of Fred L. Ames, who is now in Europe. The officials claimed to make the name of the new member public, but it is stated by others that it is E. L. Adams, who was prominent in the recent negotiations in connection with George J. Gould.

### Wheat Shipments.

CHICAGO, August 13.—A dispatch from Duluth, Minn., says that in the last three months there has been one lot of 1,500,000 bushels of wheat sent out of Duluth by Minneapolis millers, and that the shipment and consignment of 500,000 bushels that now passes through here has caused a great deal of speculation.

The Herald says it is being sent out of the country by Pillsbury, and that every market represents to be King Edward's syndicate running the Minneapolis mills a loss of 20 cents. Last fall Pillsbury was a penniless bull, and loaded up with a great quantity of grain at prices of $1.00 to $1.10 a bushel. A good part of the year he has carried as high as 10,000,000 bushels. A short time ago the Minneapolis syndicate found itself with enough wheat to make 1,000,000 barrels of flour. Right on the eve of the biggest wheat crop the United States has ever seen, and with stuff worth about 90 cents a bushel, some of the wheat had to be gotten out of the way, hence this shipment of 2,000,000 bushels.

### MR. PILLSBURY SEEKS IT.

MINNEAPOLIS, August 13.—Mr. Pillsbury was seen tonight regarding the Duluth special stating that a large amount of grain had been shipped through that point for Minneapolis to the East. "It is a matter of a few bushels," said he, "certainly promulgated by some one who evidently has a right to my business." He says the figures are the greatest and without exaggeration, both as to cost and amount of wheat that he purchased what it took he required for milling on the market every week in the year at an average cost below the present price. The total requirements of his mills are over fifteen million bushels per annum, if his mills were uninterruptedly and the purchases had not been in excess of that amount. All the millers in Minneapolis would not have purchased the amount stated to be in the Duluth, and the past year, not little wheat had been purchased at the price stated. The great bulk has been bought below the cost of a bushel, which is above the present value of old wheat in Minneapolis.

## A BOLD ROBBERY.

One of the Most Wealthy Citizens of Memphis Chloroformed at the Hotel.

COMPELLED TO INDORSE A CHECK.

The Bold Robber is Never it and the Robber Escapes with $50 and a Watch.

(By Telegraph to the News.)

R. D. FRAYSER'S ADVENTURE.

He is Chloroformed and Robbed in the Cayoso Hotel.

MEMPHIS, Tenn., August 13.—R. D. Frayser, president of the security and Memphis City banks, secretary of the Memphis City railroad, and principal owner of the Public Ledger, and one of the most wealthy citizens of Memphis, was this afternoon chloroformed and robbed at the Cayoso Hotel, by a man assuming to be J. A. Mottle, of New Orleans. Mottle engaged a room at the hotel, was for Frayser, who went to the hotel, and after a talk regarding the matter in which Mottle asked for information, the latter asked the other to "step this way." Frayser declined. Turning to face Mottle, the latter pulled two revolvers, saying, "I am a desperado and want money, family is in New Orleans destitute, must have cash, you endorse a check for $500," Frayser argued the matter. The joint Realty company, owned by Frayser endorsing a check for $500, hoping the cashier at the bank would suspect something was wrong and refuse to cash it, so he endorsed it "F. D. Frayser," and meekly endorsed the check "F. Bedley Frayser."

Mottle then chloroformed Frayser and sent a boy to the bank for the money. This evening cries of "murder!" "thieves!" were heard issuing from the room. The doors were opened, found open and Frayser was found unconscious, his watch, $50 and Morris ceiling gone. The clerk was on the table, payment at the bank having been refused. Mottle's whereabouts are unknown.
