### CHANGE THEIR TUNE NOW.

#### A Letter Addressed by the County Selectmen to the Taxpayers' Committee.

After the News went to press yesterday the county court held an informal meeting at which the following letter was reported and sent to Sweeney Clubson, chairman of the citizen's committee:

SALT LAKE CITY, UTAH,
April 12, 1895.

Messrs. Spencer Clawson, Henry W. Lawrence, Richard Howe, taxpayers' committee:

Gentlemen—Enclosed we forward herewith to you a copy of the resolution adopted by this court on the 11th day of April, 1895, in response to the notice taken at the taxpayers' meeting held on the 10th day of April, 1895.

Inasmuch as these resolutions have been anticipated by the public press we—since we have since explained those of them, it was not the purpose or intention of this court in adopting the resolution referred to, to offer any indignity whatever to the taxpayers of this county who wish to attend the meeting recently held, but on the contrary we entertained it express to be just as honest as possible our opinion of the efforts that were made to reduce expenses in the schools and in the present financial difficulties.

As regards to the resolution we have no objection whatever to the appointment by you of a committee to attend the meetings of this court and advise with the members thereof upon matters pertaining to the management, control and disbursement of county finances, and to make suggestions to the court as to county expenditures by them to the payment of compensation to the officers, and to fees, all expenses of every description.

It was our purpose further in adopting the resolutions to convey to the taxpayers and to the members of any committee that may be appointed by you the information that the management and control of county property and county funds must be left, by law, with and that we have no power to remove to any property or funds in the county being placed under the management or control of any person or persons whatever, except as officers of the county or of this court; and we just respectfully request that in appointing any such committee that you will take into consideration these suggestions, and will confer by the committee so appointed the information that they will act in an advisory capacity only.

Now as to our desire to have this committee appointed, we will say that we only realize that the condition of the county warrants the closest care and skill in the management of its affairs, and we will be only too well pleased to have the advice and counsel of any taxpayer of any committee of taxpayers that may be willing to offer as such.

Very respectfully,
J. U. McNeany,
Probate Judge.
A. S. Gibson,
R. Condon Morrison,
C. A. Robinson,
Selectmen.

### As to Property Assessment.

The Territorial board of equalization last night issued the following circular to county assessors:

"For the year 1895 the board recommends that range cattle be assessed at 40 per head, sheep at $1.50 per head, cotton, hogs, swine and mules over at their cash value.

"The board expects that the returns from each county will show that the assessors have assessed accordingly, not to making economies in livestock, the assessors are requested to bear in mind that the yearly returns of the assessment of wool show that a large portion of the sheep in the Territory escape assessment. A similar condition is believed, exists in regard to range cattle.

"Concerning real estate, the board believes that many acres of land escape taxation. By special use of the plats counties are required to furnish, this will be avoided.

"The board again earnestly calls attention to the necessity of diligence being exercised in assessing all property subject to taxation, as the needs of the Territory are great."

Fidelity is a jewel—so is Price's Baking Powder because it is absolutely pure.

### Card From Mr. Ellis.

SALT LAKE CITY, UTAH,
April 12, 1895.

*Editor Deseret News:*

I have been sent to often that the Mormon people consider me the author of the letters in the New York Times signed Mormon. Chauncey Holt has become so frequent.

A subscriber of both for the weekly has been found in a Salt Lake paper. It was said the letter was found on a street in this city. It was signed "C. E." People accused me.

I have turned out the letter and the original is before me. It is clearly a letter that never was sent. It bears evidence of fraud and forgery on its face. The man who posted it or knew it would be dropped, and the man who wrote it intended to arouse a prejudice against me. I am all right on the letter, and I am glad to be able to say that the scoundrel who forged my name is known to the Mormon people, and that the scoundrel who inserted it in the Salt Lake paper, and who copied it in the Salt Lake Tribune, and then dared them selves in danger and thus exposed to show that I have never written, I have the City view to their own doing, and I know of nothing where this new impostor brand for any of the New York Times letters, nor was I consulted to send to them, nor give any information to any person to be used in them.

I will, however, say that, while two or three articles of the New York Times on Utah and the Mormons, of a friendly character, urging that the old Ship a shed them, be dropped. These articles were published editorially, and I have written articles for that paper since that time. Respectfully,

CHARLES ELLIS.
