It is alleged that Hogan sold certain lots west of the city to a Louisville lady for $2000, charging $1000 in cash and giving notes for the balance, and that the defendant made false representations with regard to the water supply, which the sheriff has started with his prisoner. "Statehood" Save the Whole Issue of the Local Legislative Campaign in "Free Action in Home Industries."

Editor Deseret News:

Relying upon your independence and fairness in politics, and reminding you and your readers that the Republicans of this part of the country have no organ to champion their cause or advertise their proceedings, I ask the privilege of a little space in your columns to tell what we are doing—this in the interest of public information and without intention offense to any of your patrons or prejudice to any of the community's interests.

That was a prophetic argument for Democracy which was made at the Republican meeting on Tuesday evening by the Democratic candidate for the Legislative Council. He admitted that Republican success in Utah would delay statehood. Then he said that even if he were a Republican he would, in the face of such a situation, sacrifice his Republicanism and vote for the Democratic candidates till statehood was secured. To show that he meant his argument seriously he stated that, although he always had been a Democrat, if the country had organed Democratic majority in the nation it politicians in power so weak and more enthusiastic, should then inform Democratic rulers of the Republic we appeared and Republicans would allow to go to Utah. Now, I ask you what would prompt us to do a thing like that? Is it because we are afraid of the legislative assistance we expected to find in politics and appointments to come at home from our party? Is it because we want statehood together with our party and propose to secure it by rolling up an overwhelming majority in the next legislature
