SALT LAKE KEEPS ON LOSING GAMES

Boise Infants Got Back at Tozer Yesterday and Made Many Hits.

REILLYITES WERE SHUT OUT.

Tozer Was Knocked Out of the Box And Big Thornton Had to Take His Place—It Was Too Late.

Nothing new. We lost again.

This time it was Mr. Tozer who got his bumps, and he got a plenty of them, too. The Boise Infants "discovered" him in the beginning and proceeded to pound hits all over the ball park. Tozer seemed to get rattled as he gave three passes and made two wild throws. He was in the box only four innings during which time eight hits were made.

Thornton was then placed in the box and did much better, but his coming was too late. Salt Lake was shut out completely. Boise made seven runs. The team played fine ball during the entire nine innings, and Hodson pitched a fine game. The detailed score follows:

Suffering

Will Not Help Your Disease, but Will Weaken Your Nerves.

Folks who think it is better to bear pain than soothe it—are wrong.

Old-fashioned doctors used to say it was better, because they had nothing with which to ease pain but dangerous, heart-paralyzing drugs.

But now, that a safe remedy has been found, Dr. Miles' Anti-Pain Pills, it is wrong to suffer, for nothing can be gained but weakened nerves.

A safe rule to remember is: When in pain, take an Anti-Pain Pill.

This will soothe your quivering nerves.

Dr. Miles' Anti-Pain Pills relieve pain by restoring the natural secretions, in which they differ from opium and similar narcotic drugs, which relieve pain by checking the action of the glands.

They are sure and harmless, and are the latest medical treatment for the cure of Headache, Neuralgia, Backache, Rheumatism, Dizziness, Toothache, Stomachache, Menstrual (Monthly) Pains. Also nerve irritations like Sea-Sickness, Car-Sickness, Sleeplessness, Indigestion, etc.

Pleasant to take, quick in results.

"I have used Dr. Miles' Anti-Pain Pills for sick, nervous headache, and have received the best results. I heartily recommend their curative properties, for they are successful."—REV. RAY A. WATROS, D. D., Iowa City, Ia.

WRIGHT BECAME UGLY.

Questioned a Decision and Then Assaulted Umpire McRae.

In the last game at Spokane between Salt Lake and Spokane, Pitcher Wright of the Salt Lake team assaulted Umpire McRae. The Review says:

"The assault on Umpire McRae at the ball park Sunday by Pitcher Wright of the Salt Lake team was the subject of much comment on the street yesterday. President C. H. Williams of the Spokane club characterized it as disgraceful and unwarranted. Said he:

"I was sitting in the grandstand, back of the plate, together with six other men, and we all saw the ball pass directly over the base. Wright's objection to the decision was clearly unjustified, and the umpire did right to fine him. We cannot have such acts of rowdyism as assaulting umpires on the field. Baseball must be kept a game for decent people. The disposition of Wright's case is in the hands of the league officers, but if one of our players were guilty of such an act we would discharged him at once, no matter how good a player he might be."

"Umpire McRae said: This is the first time, in all my experience in baseball, either as a player or umpire, that I ever saw an umpire struck. I have placed the case before W. D. Bishel, president of the league. Wright will probably be suspended for a time, and deserves to be; but I would be sorry to see him forced out of baseball entirely. It is too bad that a player of Wright's ability cannot control his temper, for he is a valuable man. I have been too lenient with the boys—they tell me as much themselves. I dislike to take their money from them through fines; but I see that I will have to. I do not want to do anything to take the spirit out of the sport, but the game must be kept clean so that any man can take his family there without having them offended by ungentlemanly conduct on the part of the players."

DAVIS RUNS THE GAME.

San Francisco, June 7.—The home team was given today's game on a forfeit. Pitcher Moskiman of Oakland believed that he was not being fairly treated by Umpire Davis in the calling of balls and strikes, and his protests resulted in his enforced retirement from the game in the fifth inning. The Oakland players took the decree of Davis in such a sulky way and delayed the game to such an extent that Davis gave the contest to San Francisco by a score of 9 to 0. The local team had the lead from the third.

DATE OF CONTEST CHANGED.

Fitz and Schreck Will Meet on Night of 3rd—Crowds at Lagoon.

After considerable discussion between the principals and Willard Bean, manager, the date of the Fitzsimmons-Schreck contest has been changed to the night of July 3 instead of the afternoon of the Fourth.

The change has been made in view of the many other attractions on the Fourth, as it was feared the contest would keep people away from other places of amusement.

There was a large crowd of men, women and children at Lagoon yesterday afternoon to watch the stunts pulled off in Fitzsimmons' training camp. Fitz told the men to place chairs for the women and children. "You young fellers can stand hup an' look over the ladies' heads," said Fitz. Then Bob began punching the bag, doing many fancy tricks. This was followed by a four-round set-to with Jack O'Keefe, and the pair evoked great applause from members of the fair sex. O'Keefe did some very clever work against his wise-old opponent. Billy Stift also went four rounds. O'Keefe is rounding into fine condition, and Fitz pronounces him one of the fastest little men he has eve. seen. O'Keefe says he will be in great shape for his encounter with Jimmy Gardner next Monday night.

Fitzsimmons says he will give a matinee every afternoon for the amusement of the fair sex.

Big Golf Tourney.

London, June 7.—The forty-fifth annual tournament for the open golf championship commenced at St. Andrew's this morning. A record entry of 152 necessitates three days' play.

W. H. Taylor, the winner the last time the tournament was held at St. Andrew's, completed the first round in 80. The American champion, W. Anderson, took 86. Alex. Smith, American, did the first round in 81. Willie Smith played a heavy wind was blowing.

George S. Lyon of Toronto, former amateur golf champion of Canada, finished the round in 89.

"PENNY" GOSSIP.

W. D. Bishel, president of the Pacific National league, has sent in his resignation, to take effect by the 15th of the month. Mr. Bishel says he cannot spare the time to devote to league affairs.

A new pitcher, who travels under the cognomen of Toren, has been signed by Manager Charley Reilly, and Toren will join the team at Boise this week. Reilly says the new twirler is a good one, and has made a good record in the Pacific Coast league.

Floyd McFarland, former racing partner to Ivor Lawson, is now in the city, having arrived from California. The lanky pedal-pusher is no longer Ivor's partner, and the two will put up some pretty contests on the saucer if they decide to remain here. It is not known how long the pair will remain here.

When the transcontinental racers, Hugo and Mezargie, who are traveling from New York to Portland, Or., in Olds runabouts, reach their destination they are to participate in the good roads convention at the exposition there. They will undoubtedly be able to tell about a condition of the roads in this twentieth century that should make the government itself "stop, listen and look" before continuing big appropriations for every sort of improvements except highways.

New York, June 8.—Jockey Eugene Hildebrand, who established last season a new record for winning mounts, will be allowed, it is understood, to resume riding when the meeting at Sheepshead Bay opens, one week from today. Hildebrand was suspended recently for the remainder of the Gravesend meeting by the stewards presiding because of his handling of H. P. Whitney's Plunge in a race won by a heavily backed filly named Last Cherry.

Thorough investigation followed reference of the case to the Jockey club, and it is now said the lad has been practically exonerated of any wrongdoing. He claimed at the time that one of his stirrups broke, preventing him from riding out the Whitney filly.

Before the championship seasons of the major leagues opened it was generally announced that instructions had been given American league umpires to enforce the balk rule against pitchers in that organization with the same severity shown in the National last year. During the preliminary training trips of the clubs of these two organizations, great attention was paid the pitchers by their managers to break them of all false motions that might incur the penalty by the umpire.

Since the season has opened the umpires have taken practically no notice of infractions of the balk rule. Scarcely a game is played that protests are not made by one or the other captain against motions of a twirler calculated to deceive the base runner. Nearly 100 games have been played in the American league since the opening, April 11, and only very few balks have been called by the officials. The White Stockings have played all of the western clubs and the series against the east has started, yet not a balk has been called on any of Comiskey's box artists nor against any of their opposing twirlers.

SALTAIR'S NOVEL 'PHONE SERVICE.

Party of Salt Lake Newspapermen Test the New Station 3,005 Feet from Shore.

BATHERS TALKED TO BUTTE.

They Also Called Up Boise, Ida., Papers and Broke the News Gently to Them.

At 3 o'clock yesterday afternoon three Salt Lake newspapermen tied up the entire long distance service of the Rocky Mountain Bell Telephone company. They did it most deliberately, and what is more, seemed to take great delight over the grief they caused and the novel sensation of telephoning to Butte, Boise and other points from the new emergency station way out in the waters of Great Salt Lake, 3,005 feet from shore, while the dear old public waited on their pleasure. The expedition as guests of the company and Saltair beach left Salt Lake on the 2 o'clock train, accompanied by Joel L. Priest, official lecturer, and Assistant Wire Chief Pratt, demonstrator. Several cameras in the party also tended to make things interesting by recording pictures of the event.

For the first time in the history of the telephone has an instrument been installed and successfully worked in and from a large body of water, salt at that.

DESPERATE SITUATION.

The pioneers gayly cavorted to the bath house gallery and donned bathing suits, but by the time they reached the steps and gazed on the telephone station out in the lake they expressed doubts as to the temperature of the water, besides there was a likely squall blowing that made the white caps fly. Then it was that a boat was chartered and the bold mariners embarked to indulge in some of the weirdest rowing ever exhibited on the inland saline sea. The gallant craft rode the waves stern first, broadside on and sometimes on her keel while strong men held their breaths and women on the pavilion held their babies. Nothing but the thought that the telephone once reached help could be summoned spurred the gallant band on to their goal. Eventually the boat missed the station by a good 100 feet. There was nothing for it but to plunge into the boiling sea and tow the boat behind by the painter. The choice lay between drifting over to Antelope island and making a night of it or swimming 100 feet. Hands were clasped, last messages given and then the gallant Columbus, Cortez, Admiral Blake et al dived over the side—into 3 feet of water, and walked with the boat to its destination.

The first man up the short ladder was Priest. He was going to clear the line when he grasped the telephone with wet hands. The next instant the seagulls were startled by a bloodcurdling yell. Priest had joined the circuit.

SKEPTICS IN BUTTE.

The first call registered was Butte, Mont., when the Intermountain was called up. Alan Lovey, the cartoonist, was brought to the 'phone, and the boys started to tell him what he was missing. He was told to listen and he would hear what the wild waves were saying. "Oh, what are you giving me?" came back from Butte. After awhile Lovey took a tumble to the situation and then the wire could not carry all the interjections and adjectives that followed. William Balderston, editor of the Boise Statesman, was the next man to have the news broken to him. He thought some of the boys down at the Idaho bar were jollying him and resented the familiarity but later he took another view of the situation. R. S. Sheridan, business manager of the Boise Evening Capital News was equally skeptical at first and equally astounded and delighted when the truth dawned on him.

The wires worked splendidly and at times it seemed as though the parties at either end of the wire were a few feet apart instead of 500 miles distant. The fact that this is the only spot in the wide wide world where it is possible to enjoy such a novel sensation under such conditions made the experience doubly interesting.

FOR EMERGENCY.

But the telephone is no toy for the amusement of bathers. It is placed there for emergency and, now that it has been installed, there will be no such distressing fatalities as attended the drowning of young Ray E. Larkin two years ago. The telephone connects with the Saltair exchange on the lunch floor of the big pavilion. In all there are 10 stations at Saltair. Whether people are bathing, sitting in the new cafe, theater or are on the dancing floor they can telephone folks at home in Salt Lake, or for that matter anywhere on the system from Cheyenne on the east to Spokane on the west, Butte on the north or St. George on the south.

The installing of the telephone out in the water was no small feat. In the first place every joint had to be perfect and the insulation of such nature as to offset the action of the brine. At first cables were buried in the sand and conveyed to the bathhouse deck, but the bathers soon dug them up and demoralized the instrument. The wires are now threaded through an iron pipe and work perfectly. Wire Chief Cline and his assistant, Mr. Pratt, were the men who solved the problem.

After the test yesterday all concerned adjourned to the new cafe, sampled the bill of fare and pronounced it good.

THE GOOD OLD WAY.

A severe cold or attack of la grippe is like a fire, the sooner you combat it the better your chances are to overpower it. But few mothers in this age are willing to do the necessary work required to give a good old-fashioned reliable treatment such as would be administered by their grandmothers, backed by Boehee's German Syrup, which was always liberally used in connection with the home treatment of colds and is still in greater household favor than any known remedy. But even without the application of the old-fashioned aids German Syrup will cure a severe cold in quick time. It will cure colds in children or grown people. It relieves the congested organs, allays the irritation, and effectively stops the cough. Any child will take it. It is invaluable in a household of children.
