## ANOTHER ARMY.

### This Time Only Eighty-two Industrials.—They Slept, Ate and Marched.

Yesterday Captain Gorman in command of a company of "industrial army" now numbering eighty-two, arrived in this city over the R. P. railway, and took possession of the round house. The men were supplied with food by the city protector and are their chosen on the old camp ground.

Gorman, in conversation with a NEWS representative, said: "We will march this afternoon with at least 100 men and proceed to Ogden. At least stations we will do so we have done all along the road—that is sufficient from our way east. We supposed to avoid take Kelly at this point and should have done so had it not been for the delay we have had to travel. We do whenever we get a chance, even for only a few miles. Our last hike, however, was disastrous. We will not overtake Kelly now until we arrive at Washington. We have been treated very well along the road, and have not a sick man among us."

As some men were not guarded many of them deserted, and Gorman, although he expected 100 men to march with him to Ogden, marched down Washington avenue at 1 o'clock p. m. with forty-six men under his command. Of the balance of the men who came in about twenty of them were seen making their way toward Salt Lake and the rest are left in Ogden. Gorman's contingent was well supplied at Ogden with food and articles of wearing apparel viz., sixteen pairs of shoes, two dozen pairs of socks, one suit of clothes, one hat, two dozen towels and two pairs of overalls, bought and paid for by money donated to old hot here in the back by Kelly to assist them. This company, unlike that commanded by Kelly, was of a slow and lazy disposition, each man waiting for the other to make a move.

Gorman says there is a company of about one hundred men camped at Terrace who are heading this way.

### Notes and Personals.

George Clark, B. H. Hurley, John Riley and Thomas Ryan were arrested and lodged in jail yesterday charged with vagrancy.

The U. P. train from the east was 7 hours late this morning, the delay being caused by a landslide at Devil's Gate.

The jury in the case of Frank Moran has returned a verdict of guilty.

Judge Bishop was kept very busy on Saturday.

Eldon George Teasdale, F. D. Richards and H. J. Grant were the guests of the Terrace yesterday.

Ogden was visited by a storm of wicker last night in the form of a heavy snow storm.

# PROVO.

PROVO, UTAH, - APRIL 16, 1894.

### Stake Conference.

The quarterly conference of the Utah Stake of Zion was held in Provo on Saturday and Sunday. Of the general authorities of the Church there were present Elders F. M. Lyman, John Henry Smith and Abraham H. Cannon of the quorum of Twelve Apostles. During the Sunday services the Tabernacle was well filled.

On Saturday a number of encouraging reports were made by ward bishops. Edification and layton, counselors of the Wasatch and Mt. Jordan Stakes of Zion respectively, spoke briefly, the home industry movement receiving prominence in their remarks. Elder David J. Ott, of the Utah Stake tabernacle, reflected the spirit of the general Conference of the Church in regard to street cobbles.

Elder F. M. Lyman was the keynote of the day. He urged upon the Saints the necessity of making greater efforts in the line of economizing and multiplying home industries. The financial situation was also touched upon, the credit system being condemned; creditors were urged to be lenient with their debtors.

On Sunday morning the general and Stake authorities of the Church were sustained. Elder V. L. Halliday was sustained as a member of the Stake High Council, vice William D. Rolapp, who has been appointed to labor as Bishop of the American Fork ward.

Elder John Henry Smith spoke to the Saints on the great plan of salvation of mankind, and encouraged the Saints to labor diligently for the redemption of Zion.

Elder Edward Partridge, of the Stake presidency, spoke briefly on the duties devolving on Latter-day Saints.

Elder F. M. Lyman supplemented his remarks of the day previous on home industries, and referred to the teachings of President Young in regard to the Sunday school conference, which is to be held in Provo next Sunday, and a general attendance of the Saints from all parts of the Stake is desired. Sunday school conference will also be held in Salt Lake City on the 22nd, 23rd and 24th, when the R. S. of Zion and Sunday schools throughout the Union will be represented by delegates.

Elder Abraham H. Cannon addressed the Saints at Sunday afternoon. Reference was made to the recent report issued by the President of the U. S. the commencement of industrial army. Had the Lord not observed the transgressions of Gog, Magog would not now be upon and stretched out his rod. The success of Zion, the speaker argued, had not been attributed to their virtues. It was not only the duty of those in authority to Zion to choose marriage and look after the spiritual welfare of the people, but also to see that their companions were equipped with good, and that wards were duly organized and not worship God on the Sabbath. Industrial and financial circles were referred to in the speaker's discourse, and the importance of home manufactures. Education was also referred to. The report of the B. Y. academy and other Church schools was highly spoken of, and parents urged to send their boys and girls going East to school down from the Territory come here. Financial situations—selection of seats as well as business—were cited. As a means of protection a healthy obedience, a desire to be counselled and a good conscience were extolled. In conclusion he spoke about a few words on the family governing divine evil. Bishops and wives were urged to be forgiving with each other, and allow differences to come between them, and remember the marriage vows they had made.

The closing remarks of the conference were made by Elder A. O. Smoot, of the Box Elder Stake. He endorsed the remarks made, especially those in relation to home industry. He encouraged the boys of Layton and American Fork to build bowling, that the two next Stake conferences might be held there. The assumption of the payment of 50 cents per month by each of the brethren, and 25 cents by each of the sisters, for the installing of the Salt Lake Tabernacle telephones, was urged.

RACING MEN

Think twice before deciding to ride another wheel than the "Yellow Fellow." A man here wrote to his college mate in Ohio, who is now in the bicycle business, asking a wheel well known here but not the "Stearns," as to what wheel he thought got for his last season. His friend replied, saying, "Get the "Stearns," it is unquestionably the speediest and smoothest bicycle made today, and if there is a "Stearns" on the track will you tell me if you won't be in it." The man ran down on "his weight" in the town, and what will it matter to you, my boy, whether you have the mount well or ill, if it will be the Interested Bicycle again? What solace will you feel in the spurious possession of a mere wheel to tell the possessor of the man who got the "bread and butter" by riding on this wheel, when you tug the other fellow up, purpled though it be, the wheel that "looks without a flaw" to you, thing, in the times and Myst. Think over it and you will find the wheel to win, or to lose you will have a fair chance to not fondly today business (as) World's number one Stearns "Yellow Fellow."
