THE BLIND JUSTICE.

Vanzinus Doomed to Imprisonment for Life for Murder.

HIS SUPPOSED VICTIM ALIVE

And on His Way to Ohio to Secure the Liberation of the Innocent Convict.

MUNCIE, Ind., May 23.—Last night a man with a strange history purchased a ticket at the Big Four depot and boarded a train for Vanwert, Ohio. Half an hour previous to his departure he said: "I am going to free a man who has been in the penitentiary four years and is innocent—John Vanzinus, who is serving a life sentence in the Michigan state prison. My name is John Crow. A few days ago when I picked up a paper and read an article about an attempt to secure the pardon of Vanzinus, who was in the penitentiary on the charge of murdering me May 20th, 1890, I left my home in Vanwert, Ohio, and started for the Michigan lumber camps. My brother-in-law, John Vanzinus, decided to go with me. He went as far as Big Rapids, Mich. I then made the acquaintance of two other men who were also going north. I tried to get my brother-in-law to go on but he said my sister would return to Vanwert, get his children and go to work. We continued our trip leaving John in Big Rapids. I did not like living in Canada. I went to Minneapolis to the fall of Jess George Winfield and Albert Riley, two middle-aged men with whom I had become acquainted, and myself left for the West. I stayed out west until last summer, when I went to the World's Fair. Last Wednesday, while at my boarding house I read the article mentioned. It completely unnerved me, as I have been almost unfit for work ever since. The paper stated that the carcass of a man had been found near Big Rapids, alongside the Chicago West Michigan railroad, the same road I left on when I left Big Rapids, and when it was learned I was missing the authorities supposed it was my carcass. It was found July 8, 1890, or about ten days after I was there. It was known that Vanzinus left Vanwert with me, therefore he was accused of the murder. He was then in Lowell, and was taken to Nevada county, where he was tried and found guilty. The judge sentenced him to life imprisonment in the state prison at Ionia, and I suppose that he is still there, but I tell you that he is an innocent man."

When Crow finished his story he was greatly excited and could hardly wait until the train arrived.

ONLY A FAKE.

Corbett's Fight with Col. Boone's Same Lion.

SAN FRANCISCO, May 23.—Over 3,000 people assembled at Central Park last night to witness a wrestling match between Sandow, the "perfect man" and Colonel Daniel E. Boone's famous lion Commodore. Commodore was secured, his paws were encased in big boxing gloves and he was so handicapped that fine action was almost impossible.

When Sandow entered the iron cage the lion was lying on all fours and no amount of beating could get him to stand up or lose his temper. Sandow lifted him from the ground and swung him round and round, but it was of no avail. After ten minutes of this farce, the match was given to Sandow.

A MATRIMONIAL DILEMMA.

Coghlan Will Be Defeated Whether He Defends Himself or Not.

CHICAGO, May 23.—Ex-Governor John L. Beveridge, grandfather of Eustace Beveridge, who married Cora Coghlan, connected last night to speak of the marriage for the first time.

"The marriage," he said, "was a total surprise to me and I believe its unfortunate result. It has come sooner than I expected, simply because Coghlan was at a point of irresponsibility when the marriage took place. There seems to be justice on the Coghlan side of the case. If he makes no defense in the divorce suit he practically confesses there was never a marriage between what is called Mrs. No. 1 and himself. This will at once fix her status in society and declare her daughter Gertrude illegitimate. If, on the other hand, Coghlan undertakes to prove a marriage with No. 1 and succeeds, this will throw Eustace's case out of court because the marriage was clearly illegal, and it will at the same time render him liable to prosecution for bigamy and he will be taken to Indianapolis and tried and sentenced. In either event we'll give him all the law and justice we can get in the courts."

Non-Union Man Strike.

GREAT FALLS, Mont., May 23.—A private dispatch from Norbert last night says that strikers repairing the tracks of the Great Northern struck Saturday. They are non-union men and have to circle alpha only to the Great Northern they are paid. Low was the schedule.

Contract Freight Rates on Explosives.

SAN FRANCISCO, Cal., May 23.—To assist local manufacturers of high explosives in the business in Colorado against Eastern competition the Southern Pacific has announced a special freight rate to take effect May 24 and to last one week only. On the 24th of last month the rate for carried loss will be only $1 per 100 pounds from San Francisco to Denver, Colorado Springs and Pueblo for all grades of explosives.

A MINE ON FIRE.

Northern Pacific Will Make the Flames Are Raging.

SPRING VALLEY, Ill., May 23.—Mine No. 1 of the Spring Valley Coal company is now burning worse than ever and the company will either have to wall their fire within or else take all the men out, stop the fans and smother it. It will be months before the mine will be in shape. The miners at last have been persuaded to allow the mine company to employ men to put out the fire but the superintendent says the motion came too late as the fire is now raging so furiously that few men can get near it. About 300 Lodi miners marched into the city last night headed by a brass band and held a meeting and decided to march on Sheffield, Vista and Kewanee and bring the men out there. A committee, however, precedes them and if they get no satisfaction an army of probably 4,000 will march down Hope and Cada and Gilchrist will also be visited.

Rights of a Convict.

PROVIDENCE, R. I., May 23.—Gen. N. Tourjee, sentenced to fifteen years' imprisonment for manslaughter, appealed from the probate of a will left by his wife, who died in March, 1893. The common pleas court dismissed the appeal on the ground that the appellant was incapacitated to administer or give bond, because of imprisonment. The case was carried to the Supreme Court, where a verdict for the appellant has been obtained. The highest court says a convict is not civilly dead and that the appeal was stricken only dismissed.

The Hunt for Murderers Abandoned.

MILAN, Mo., May 23.—The hunt for the Taylor brothers, who murdered the Moss family near Bronaugh May 16th, has been temporarily abandoned in the Choctaw river brake, and Sheriffs Niles and Winters returned home with United States Deputy Marshal W. J. Freeman of St. Louis.

A Spot on the Side of Patriotism.

LEXINGTON, Ky., May 23.—At a meeting held this afternoon at the Veterans' association, called to arrange for decorating the graves of confederate veterans on May 26th, Mrs. Sam Harrison and other ladies, made addresses and said they would not place a flower on the graves of a single confederate unless the medallion expelled Colonel Breckenridge. The convention adjourned amid confusion.

Is Home Still Plotting.

NEW YORK, May 23.—The *Herald's* Buenos Ayres dispatch says: Information comes today from Montevideo that it is confidently asserted there that ex-Admiral Da Gama, whose intended visit to Spain has been announced, hopes to hold a conference while in Europe with the more prominent persons who favor a monarchy in Brazil. His purpose is to organize a movement looking to the restoration of the empire.

IN CONGRESS.

Civil Service Reform in the House.

WASHINGTON, D. C., May 23.—The question of civil service reform was given full sway in the House today, the occasion being the amendment to strike out the paragraph in the legislative appropriation bill providing for the civil service commission. It gave opportunity for some stirring and a few amusing speeches.

The amendment was adopted by a vote 109 to 71.

THE SENATE.

WASHINGTON, D. C., May 23.—The sensational feature of the day was caused by the unexpected presentation by Mr. Jones of an amendment substituting the McKinley bill classification and specific rates on round iron in coils, and blooms and charcoal iron, somewhat lighter than those already proposed.

When the vote was taken seven Democrats and two Populists refused to support the Jones amendment, viz: Allen, Berry, Blackburn, Jarvis, Kyle, Mills, Pasco and Peffer.

The rates finally voted were as follows: Iron ore, 40 cents per ton; pig iron, scrap iron, etc., $4 per ton; round iron in coils, 8-10c per pound; slabs and blooms, less finished than bars, 1½ per pound; charcoal blooms, $12 per ton; beams, girders and other structural iron or steel, 8-10c per pound; boiler plate, 25 per cent of valuation; forgings of iron or steel, (not in the); 30 per cent ad valorem.

OUR FINANCES.

The London Times Discusses the Situation Here and in India.

LONDON, May 22.—The *Times* in its financial article, says: "Until the end of the American trouble appears to the great flow of gold from the treasury, it is hardly too much to say that nothing but the confidence of the people in Mr. Cleveland's sagacity prevents a premium on gold. A vote in Congress would be necessary before a gold loan could be valued by the government and we cannot learn that any steps have been taken to drag in gold by the ears from Europe in that manner. The public here would certainly require a definite announcement that principal and interest would be payable in gold before subscribing for a new issue of bonds, and if that condition were complied with, it would be unnecessary to come to this country at all, for the national banks would then be prepared to take the bonds.

"The issue is announced of £3,000,000 of India 3 per cent at the minimum price of 95, to discharge interest bills and for other purposes. The loan is accepted as a sign that no change of policy regarding mint restriction is contemplated and that the government intends to continue the process of keeping money scarce in India, with the object of selling rupees at monopoly prices, even if the Indian treasuries grow more bankrupt. But it may be pointed out that borrowing in sterling does not help India, but will bring home money accumulated there, and the loan will prove no remedy for the evils of the situation."

Prendergast's Case.

CHICAGO, Ill., May 23.—When the Prendergast hearing was called before Judge Chetlain this afternoon the attorneys for the defense asked a continuance until June 11. The permission was granted.

THE BRIBERY INVESTIGATION.

Major Butts Fails to Appear Before the Committee.

WASHINGTON, May 23.—C. W. Butts, who was very anxious to be present before the Senate bribery investigation committee, was not on hand when the examination began today. Instead he sent his attorney to explain that he was otherwise engaged, and asked to be excused from attendance for the present.

The sergeant-at-arms was directed to issue a subpoena for Butts.

At 1 o'clock he reported that he had failed to find Butts. He, however, had ascertained that Butts has not left the city on an early train, with the purpose and expectation of returning at 2 o'clock, at which hour he said he would again appear before the committee. Major Butts did not meet the expectations of the committee by putting in an appearance during the afternoon.

MINE STRIKES AND RIOTS.

Kansas Operators Grant a Raise of Wages.

In Ohio, Indiana and Illinois Trouble is Still Brewing—Threats and Theirs.

LA SALLE, Ill., May 23.—A serious riot occurred here today, in which several men were injured. Every mine in the vicinity owned by the Union Coal company has kept some men at work to clean up the entries. This evening as the men came from work they were set on by the strikers and brutally beaten by a mob of at least 1,500.

THEIR WAGES RAISED.

LEAVENWORTH, Kan., May 23.—The Leavenworth Coal company last night announced to its 300 miners a voluntary increase in price of mining of 2½ cents per ton, effective today. This means the price $1.15 for coal screened.

DOUBLE APPREHENSION.

ATHENS, O., May 23.—Serious trouble is apprehended among the coal miners of Tuscarawas county, where several mines are being worked. Today the men were driven out of one mine by strikers and tomorrow the same fate is threatened in other workers.

DYNAMITE STOLEN.

FRONTIERO, Mt., May 23.—Eighteen sticks of dynamite have been stolen from the Savage Mountain fire clay mine near Frontiero. The telegraph line between Frontiero and Corinne mine has been cut twice. Letters written in red ink, illustrated with cross bones, were sent to the miners.

BROKEN BEYOND REPAIR.

The French Cabinet Stranded in the Shoals of Scandal.

NEW YORK, May 23.—The *Herald's* Paris dispatch says: It will be impossible to patch up the French ministry. M. Casimir-Perier will refuse to enter into any cabinet combination. The return of Cassagnac to office is difficult, because the relations between himself and President Carnot are bad. The only man who is left that could possibly succeed in forming a ministry is M. Charles Dupuy, and he will prefer to remain president of the Chamber of Deputies. It is possible a new man will be selected to form a Cabinet, because every politician of importance now is, or thinks he is, a candidate for the presidency of the republic.
