PROVO.

PROVO, UTAH, - AUGUST 8, 1894.

Council Proceedings.

At last night's session of the city council, C. D. Gaither, the new councilman, was installed.

It was reported to the city recorder that George Sutherland, attorney for Dr. W. B. Pike, refused to accept warrants in payment of the judgment against the city. Referred to the committee on finance with the mayor added, with instruction to make the best arrangement possible in the interest of Provo city. A note will probably be given for the amount, payable within two years.

The quarterly report of the recorder and treasurer showed: Receipts, $2,097.14; disbursements, $2,883.01; leaving $124.13 in the treasury. There are $4,420.53 in outstanding warrants. Referred to the committee on finance.

The council will meet Monday, August 20, at 8 p. m., to consider delinquencies and abatements of taxes.

Notes.

Who will Judge Kline appoint clerk of the First district court? is still an absorbing question in political circles. Among the possible appointees, the following are named: V. L. Halliday, E. A. Wedgwerth, George A. Duckworth, John Pike and E. L. Jones.

A marriage license has been issued to William Mason, aged 22, and Lillie R. Kelsey, aged 17, both of Springville.

The Provo Republican drum corps has been reorganized.

Miss Abbott, the electric wonder, has been here. New Essays is wanted.

The funeral services over the remains of Brother William Halliday were held in the second ward meeting house on Monday. The speakers were Bishop Evan Weiss and Elders Edward Peay, Walter Scott, William Brummit and V. L. Halliday.

The registrars are delayed in their work on account of the non-arrival of blanks and printed matter.

ONE MAN'S WORK.

The American Trotting Dam: Beautiful Bell and Her Descendants.

So far as the average production of speed goes and the transmission of power to impart the same from generation to generation, it is doubtful if the equal of Beautiful Bells has been seen up to the present day in the ranks of American trotting bred mares. There are other famous mahrens whose get have done wonders in one field or another, but the Beautiful Bells family achieves triumph in so many directions and is yet so informative a stock that it really outranks all others when considered in the light of its greatest achievements and great possibilities. It should be remembered that the first foal of Beautiful Bells came in 1869, and that she has never missed producing every season since that time. A list of her foals will be of interest and is as follows:

	Named.	Sire.
1869	Blake Rose	Electioneer.
1870	Alice Bells	Electioneer.
1871	Jo. Bell	Electioneer.
1872	Rosemont	Pedmont.
1873	Chimes	Centenner.
1874	Bell Boy	Electioneer.
1875	Lady Alice Bells	Electioneer.
1876	Bow Bells	Electioneer.
1877	Electric Belle	Electioneer.
1878	Bellflower	Electioneer.
1879	Bell Bird	Electioneer.
1880	Belaire	Electioneer.
1881	Joy Bell	Pale Alto.
1882	Abbott	Advertiser.

Had Beautiful Bells done nothing more than give to the world the eight trotters that are comprised in the above list, all but one of them having a record better than 2:30, and the exception being credited with 2:30¾, she would be notable among her kind, but when it is considered that her sons and daughters have accomplished records in the way of speed production when the number of their foals was taken into account it will be seen that Beautiful Bells has more than one claim to greatness. Among her previous three are two yearling record breakers in Hinda Rose and Bell Bird, and the first named was also a 3-year-old champion in her day, being the first trotter of that age to beat 2:20. Her son, Bell Boy, that was foaled in 1883 and died a couple of years ago, has five in the 2:30 list. He, Bel, her foal of 1882, has 15 in the list, and Chimes, who was foaled 1884, is by long odds the greatest sire of his age in the world, so in addition to the champion 3-year-old trotter Fantasy, 2:09¾, he has eight other trotters and pacers in the 2:20 list and a total of 15 that are standard by performance at the trot or pace. Hinda Rose, the oldest foal of Beautiful Bells, has never produced, but two other daughters of the old mare—Alta Bells and Rosemont—foaled respectively in 1881 and 1883, have already shown their quality. Alta Bells had speed enough to beat 2:30, but for one reason and another was never put in the list. She was bred to Blackbird, one of the fastest stallions in Kentucky, and her foal, a colt called Dagbetton, made a record of 2:28 as a 2-year-old. Rosemont produced Mont Rose, 3-year-old record 2:19, and Sweet Rose, that as a yearling trotted in 2:33¼, although the performance was rejected by the American Trotting Register association, and does not appear in the records of that organization. It is gratifying to those who believe in the superior ability of trotters and pacers that have publicly exhibited their speed when they are relegated to the breeding ranks to know that Beautiful Bells not only herself has a record better than 2:30, but that she was by The Moor, a sister to the mark of 2:07 and that had shown the ability to trot close to 2:30, her dam being Mistletoe, a very fast trotter that was recorded by injudious handling while young.—Breeder's Gazette.

Keep the Spring Clean.

Too many of the sources of water supply of our pastures are contaminated by cattle wading in the springs and dropping their excrements within the basin in which the spring is situated, into which all bone material is washed by the rains of summer. Such contamination

SPRINGHOUSE AND WATER TROUGH.

of water supply is highly undesirable for any stock to drink from, but most decidedly undesirable for the use of dairy cows. There is almost always a descending stretch of ground or a descending open ditch from pasture springs, which permits the keeping of the water supply pure. The spring should be completely inclosed and rodded over and the water conveyed by a pipe to a tub or trough below, as shown in the accompanying illustration.

Such a plan not only serves to keep the water pure at all times, but also to keep it cooler in summer and warmer in winter if the spring is ever used for this winter watering of stock.—American Agriculturist.

Live Stock Points.

Dried heavy bolles and short legs for beef cattle.

One farmer says that Jersey cattle and Shropshire sheep are an excellent combination for making a man well off.

In damp seasons and in bottom lands sheep in summer are apt to become infested with internal parasites. Look out for this.

In breeding mutton sheep breed first for constitution, second for meat and third and last for wool.

SUNOL!

ROBERT SONNER

Superintending the shoeing of Sunol with the Putnam Nail.

PROPERTY OF THE WEST PARK STABLE, HILLER & SIMLEY.

PITTSBURG, THURSDAY, DEC. 28, 1893. PUTNAM NAIL CO., Boston, Mass.

GENTLEMEN:—Regarding the test heat of the 2:08 trot, with which you may have read the Putnam Nail set them, but it has come to the point with us now where I will not allow any other nail to be used than the Putnam Horseshoe Nail. It is perfect in every respect. While there may be others that are good, I know what these are, and cannot afford to make experiments.

Very respectfully yours,

Chas. Marvin

The Putnam Nail is the only exclusively Hot-Forged and Hammer-Pointed nail.

Look in your smith's shoeing box, if the nails have smooth edges for the whole length they are the PUTNAM, for they are Hammer-Pointed and are not sheared.

The above picture, from a photo recently taken by Mr. Sonner in the act of shoeing his celebrated Transcontinental, while experimenting the shoeing of Sunol, will be sent in the form of a half plate, size, 5x8, on thick, white paper, with wide margin, on receipt of 5 cent stamp for postage, etc.
