Crop Reports from the Agricultural Reports.

WASHINGTON, 15.—The Department of Agriculture reports as follows: Cotton, the condition is reported at an average of 100, the highest reported in July for several years. Corn, the increase in area planted in corn is one per cent over that planted last year; the average condition of the crop from the whole is the highest for many years and is 100, being seven per cent more than last year at the same time; there are some complaints of drouth in the South Atlantic States while in the Valley of the Mississippi and in those states north of the Ohio river there is complaint of too much rain; the Pacific States report a very high condition. Wheat, the general average of winter wheat in July was 95 against 91 a year ago; it improved slightly during June; the whole south falls off nearly a fourth, but the heavy winter wheat region north of the Ohio river rule as high as 98; the middle States are three per cent. above the average and the the Pacific four per cent; west of the Mississippi the crop averages 84 against 89 last year; the spring wheat averages 91 the same as in July 1879; this shows a great decline from June when the average was 97; New England States average 99, the middle States 93, north of the Ohio an average of 96, west of the Mississippi a general average of 90; Minnesota being 101 while Nebraska falls to 62; Iowa stands 91 and on the Pacific coast California reports 96.

Talk about Hancock as next President.

NEW YORK, 15.—The *Herald* says: There is an intention in certain quarters to hoist Tilden upon Hancock's back. The old gentleman himself would gladly take the ride. The Cincinnati convention passed a resolution which he construes an invitation to mount the democratic National committee at their visit in Gramercy Park yesterday morning, exhibited an indecrete willingness to help him.

The *Times* says: Some of the more sanguine members of the party have gone so far as to arrange that when Hancock is inaugerated Tilden shall ride to the Capitol with him as the out going President *Dejure*.

This is not a joke, it is gravely proposed by the democratic papers, that have persistently declared that Tilden is the real President of the United States, and that Hayes is a usurper.

The same paper says: It is said that Hancock has been advised to make much of the one term principle. He is preparing to write. It is insisted that the democrat party is emphatically a one term party possibly it was a new invention of the one term principle which defeated Tilden at Cincinnati.

New York Intelligence.

Senator Booth is reported as saying that all advices received from California and other Pacific States are very favorable indeed and that he has no doubt that the republicans will carry them all.

In regard to Wm. Garrison, at a meeting of the directors of the company managing our elevated railroads held yesterday, the *Herald* says: After the regular ticket was supposed to have been elected and Pullman started for Chicago. Just before the closing of the polls Garrison entered the company's office with a scratched ticket and voted that ticket on upward of 11,000 shares, and the count showed that the 11,000 shares had defeated Messrs Pullman, Porter and William Adams, Jr., and elected in their stead A. V. Stout, Fansta Mars, of Paris, and Arthur Leary. The result was a surprise to the party represented by Pullman, Porter and Field. Garrison had merely retaliated upon Pullman & Co. for their course a year ago in electing as president of the Manhattan "L" Road, Geo. Harris. He had turned the tables upon the Pullman party by putting them out of the directory of the New York Loan and Improvement Company.

The *Herald* says: It is reported that five cent fares may be soon issued on the "L" Road by way of experiment. Under the new law which prohibits boys who have not paid a fare from riding on the steps or platforms of the cars, about 100 urchins were arrested yesterday.

The *World* says: Gen. Sherman having been pursued through the Wilderness from Pembina, for several days, by telegraphic inquiries, his plain and emphatic answer appears in another column.

The *World's* special from Jamestown, Dakota, says: Sherman declined to be interviewed in regard to his correspondence at any time with Hancock, but states emphatically he has no recollection of ever hearing anything from Hancock about taking orders from Tilden or indeed anything at all like the stories which have been printed and published about his correspondence with Hancock.

Entering on his eighteenth day, Dr. Tanner exhibits marked improvement. From 9 last night until noon to-day he swallowed 30 to 40 ounces of water; his weight this morning was 137½ pounds, allowing one pound for the weight of his coat he has gained four pounds, since Wednesday. He took a drive to Central Park this morning, and forced the dyacmeter up to 151, against 80 yesterday. His pulse, when last taken, was 80, temperature, 98.25, respiration, 16.

Decline in Leadville Stocks.

The *Commercial Bulletin* says: It is no longer difficult to fathom the reasons why mining stocks have fallen to such low depths. It is because the self-styled patriotic and enthusiastic large holders of stocks are anxious to sell out. Gov. Tabor, for instance, is getting rid of Little Pittsburg stock. He was one of the largest holders of it. A few days ago he held about 6,000 shares. Gradually stock has been transferred from him to others, as the price receded from $5.60 to $2.75 a share. To-day the transfers from Tabor amounted to 2,500 shares. This is a piece of news that must make people interested in mining stocks, and suspicion is very strong that he has parted with a large portion of his 15,000 shares of Chrysolite stock. Here is a man who stands the owner of hotels, an opera house, banks, mines, toll roads, etc., at Leadville, who, by his action, is grievously injuring Leadville interests, so far as New York investment markets are concerned. Gov. Tabor was considered the last bulwark of Leadville since Chaffee and Mollatt left the scene. Ex-Senator Dorsey, Governor Routt and the Robinson Iron Co. and three or four other large mining promoters will have a chance to come to the front, and they are needed to sustain the market.

Anti-Tammany Democrats.

Arrangements are being rapidly completed for a grand ratification meeting of the anti-Tammany democracy on the 29th inst. Ex-Governor Tilden will be asked to preside at the principal meeting in Cooper Institute, and other meetings will be held at Irving and Nielson Halls. Among the speakers invited are Senators Eaton, of Connecticut, Bayard, of Delaware, McDonold and Voorhees, of Indiana, Beck, of Kentucky, Lamar, of Mississippi, Kirnan, of New York, Thurman and Pendleton, of Ohio, and Wallace of Pennsylvania; Congressmen Stinger, of Illinois, Proctor Knott, of Kentucky, Ewing, of Ohio, Randall and Clymer, of Pennsylvania, and Tucker, of Virginia; also Horatio Seymour, Lucius Robinson, A. S. Hewitt, Wm. Dorsheimer, C. A. Dana, Richard O. Gorman, Judge J. B. Stallo, Henry Watterson, of Kentucky, Mr. Groesbeck, of Ohio, T. A. Hendricks, of Indiana, W. B. Barnum, of Connecticut, H. B. Payne, of Ohio, Governor Williams, of Indiana, McClellan, of New Jersey, Throckmorton, of Texas, Charles Francis Adams, of Massachusetts, and others.

The French Fete.

Twenty-three French Societies celebrated the French national fete in Washington Park. The French Consul-General Brenil, presided and made an address, and was followed in appropriate speeches by other French residents of the city. There were games of different kinds, and congratulatory telegrams were sent to President Grevy. Cirele Francois de L'Harminnie also sent a congratulatory address to President Grevy. The officers of the French frigates now in the harbor entertained distinguished company at dinner. At sundown a national salute was fired, and in the evening hops took place on board, attended by a notable assemblage.

Not Very Encouraging.

The *Tribune* reports that the republican committee have cheering news from all quarters. The *Herald's* Washington correspondent, on the contrary, says that Conkling is again sulking in his tent, and adds, that not long ago Conkling asked a prominent member of the national committee if the brilliant Hale and chivalric Frye were going to elect Garfield with the same enthusiasm they determined to nominate Blaine at Chicago. The committee replied that with the assistance of the Senator, they hoped for success. Conkling's answer was not such as encouraged the members of the committee to expect his co-operation. The same, it is said, was true of Logan until he was put at the head of sub-committee of the national committee to take charge of the campaign in the West.

Mexican Railroads.

E. H. Spalding, who recently returned from Russia, and was formerly connected with Henry Meiggs' railroad enterprises in Peru, sailed to-day in the steamer *City of Para Orus*, for Mexico, where he will join the engineering staff of the Central Railroad. The same steamer carries out switches and other material for the new road. The Mexican Central Railroad has purchased the Zeleva and Salamanaca railroad in Juanatuato which is to form part of the main line. The election of Gen. Gonzales as President of Mexico is deemed favorable to the interests of the Mexican railroad, which is essentially an American enterprise.

Mob Rule in New Mexico.

The *Tribune's* Santa Fe special says: At Lincoln, in Lincoln Co., New Mexico, on July 3d, a young man named Harrison came into town and becoming intoxicated was locked up. At night a mob effected an entrance to the jail and killed Harrison, riddling him with bullets. On the night of the 4th the mob again surrounded the jail and killed the deputy sheriff, who was implicated in the killing the night before, and who has made himself obnoxious to the outlaws. On the night of the 5th the mob again visited the jail, taking out and hanging a prisoner. It is not known what the prisoner's crime was.

Tanner's Condition.

Dr. Tanner's condition is unchanged. In the afternoon he went out for a drive. To-night his pulse was 76 and the temperature 98. He forced the indicator of the dynamometer up to 166 pounds, showing a slight increase in strength during the past 24 hours. He drank 70 ounces of water and felt better.

Peter Cooper Indisposed.

The venerable Peter Cooper has suffered from the effects of the recent severe heat and is temporarily confined to his room. His physicians say there is no cause for uneasiness, and that the philanthropist will be out again in a day or two.

Death of a Victim.

Pasce Carsso, an Italian, injured in the accident on Long Island yesterday, died this morning. Other deaths are expected.

Moderate Weather.

The weather has moderated considerably the thermometer did not rise above 84. No prostrations.

Refused to Join.

The *Sun* says: Tammany Hall has refused to join in the Union mass meeting.

News from the Capital.

WASHINGTON, 15.—Don Cameron astonished his friends and family by turning up here suddenly to-day from Pennsylvania to attend to important business. He was in high spirits over the campaign prospects, and ridiculed the idea of Hancock carrying Pennsylvania. He had two hours talk with Governor Jewell, chairman of the National Committee, and discussed future work. He says his health at no time has been a source of anxiety to him, although for a time he was obliged to give up business. He will enter the campaign as usual unless he becomes worse.

A gentleman is in the city who met Senator Conkling a few days ago. He says the New York Senator discusses the campaign with great interest. He is not going to manage this summer, and never thought of such a thing, but will be found in the thickest of the fight in New York when the ball opens. He declares respecting the statement of his disinclination, that the wish was father to the thought, and it is utterly without foundation.

Young, of Raleigh, Collector of Internal Revenue, who has just reached the city, says that the republicans have a very strong State ticket in North Carolina and will make a gallant fight with fair prospects of success. They will get some Congressmen at any rate and the State, except fraud is practiced.

The Democrats say they have advised Hancock not to resign lest the President should appoint Gen. Miles in his place, which, it is said, he would do if he had an opportunity.

Marshall Jewell, chairman of the Republican Committee, called at the White House this forenoon and is holding an interview with President Hayes.

Judge Lawrence accepts the appointment of First Comptroller of the Treasury.

Occupation of Oklahoma.

CHICAGO, 15.—The *Times'* Wachita special says: The Payne party left here on the 4th for Oklahoma. A large force proceeded and joined him him in the Indian Territory. Hull, the guide, returned with a report that all were at work improving farms and townsites, and joined almost daily by colonists from other parts of the country. There are 300 men now in Oklahoma and 20,000 ready to go at any time. Merchants, bankers, lawyers and doctors are also joining them. The Oklahoma Colonization Society desire to test the legality of Hayes' proclamation, and our best lawyers urge the legality of the occupation.

Democratic Bulldozing.

The *Journal's* Washington special says: The work of intimidating republican candidates in Alabama has begun, and has already resulted in the withdrawal of Major M. L. Bowie, candidate for judge in Dallas County, and the independent candidate for sheriff in Talledega County. The democrats despair of carrying Norfolk, Virginia District, now that Goode has withdrawn.

Personal.

The *Tribune's* Washington special says: Jere Black is coming back from Europe immediately to give Hancock the benefit of his services.

Judge Lawrence writes to the President he will accept the First Comptrollership if not nominated for Congress. This not being satisfactory to the administration, Lawrence will not probably be given the option.

Bradford Blazes.

BRADFORD, Pa., 16.—Last evening an oil pipe line burst near Salamanca, New York, and the spurting oil by some means took fire. A daughter of John Washburn, aged five years, was playing at the spot when the rupture in the pipe occurred. Her clothing was saturated with oil and before she could get away was caught in the flames and literally roasted alive.

At 11 o'clock to-night one of the huge iron tanks at Custer has been burned down and the other is now down to the boiling over point. Water is being pumped in and the oil drawn off and burned on the surface of the stream. It now looks as if the other tanks adjoining the property were safe.

The burning tank at Kansas branch has almost spent its fury and it is thought the fire will be confined. The loss up to the present from the fire in the Bradford region will reach $115,000.

Tank 23, belonging to the Acme Oil Company, about one-third of a mile up Kansas branch, McHenry county, was struck by lightning early this morning, burning furiously. The tank about twenty feet down the stream is in danger. Superintendent Snow with a gang of men are digging a trench and damming the stream to save more tanks. Two 25,000 barrels near Custer City are now burning, also struck by lightning last night. Both belong to the United Pipe lines. About 82,000 barrels of oil are burning. Four wells at Custer city are also fired.

Irish Republicans.

INDIANAPOLIS, 15.—The Irish Republican Convention elected Judge A. L. Morrison chairman. The committee on resolutions, which, when presented, gave many reasons why the Irishmen of the United States should swear allegiance to the republican party, as that party had appointed a larger number of Irishmen to positions of trust than the democratic party. The convention closed to-night with a monster meeting at the wigwam.

The Irish Republican Convention issued and address to their fellow-countrymen of the United States, setting forth the reasons that actuated them in co-operating with the republican party under the title of Irish American Republicans.

R. L. Hunt, of Missouri, was elected permanent President and F. McNamara, of Ohio, secretary of the Irish republican convention to-day. A National executive committee was appointed, consisting of one from each State and Territory.

45 Years before the Public.
THE GENUINE
DR. C. McLANE'S
LIVER PILLS
are not recommended as a remedy "for all the ills that flesh is heir to," but in affections of the Liver, and in all Bilious Complaints, Dyspepsia, and Sick Headache, or diseases of that character, they stand without a rival.
ACUE AND FEVER.
No better cathartic can be used preparatory to, or after taking quinine. As a simple purgative they are unequaled.
BEWARE OF IMITATIONS.
The genuine are never sugar-coated. Each box has a red-wax seal on the lid with the impression, McLANE'S LIVER PILL. Each wrapper bears the signatures of C. McLANE and FLEMING BROS. Insist upon having the genuine Dr. C. McLANE'S LIVER PILLS, prepared by
FLEMING BROS., Pittsburgh, Pa., the market being full of imitations of the name *McLane*, spelled differently but same pronunciation.

AN OPEN
SECRET
AMONG THE LADIES
The brilliant, fascinating tints of Complexion for which ladies strive are chiefly artificial, and all who will take the trouble may secure them. These roseate, bewitching hues follow the use of Hagan's Magnolia Balm—a delicate, harmless and always reliable article. Sold by all druggists.
The Magnolia Balm conceals every blemish, removes Sallowness, Tan, Redness, Eruptions, all evidences of excitement and every imperfection.
Its effects are immediate and so natural that no human being can detect its application.
