FRAGMENTS.

Events on the sea are now being laid on Market street.

The Oquirrh Beach and Live Stock company has filed articles of incorporation with the Territorial Secretary.

Tomorrow Miss Kate Field will deliver her lecture on the Territories of "Alaska and Utah," in the Salt Lake Theatre.

The Sons of St. George will give another social on Wednesday evening next, at the Temple of Honor Hall. All Knights Templar and their friends are invited.

The Union Pacific has offered to lend rates to and from all points on its line to Ogden and Pleasant Grove, for the coming Gilmore concerts, to be held in the Tabernacle in this city.

Mr. Cable, general traveling auditor of the Union Pacific, is in this city today transferring the accounts of T. R. Sharpe, who recently retired from the company's coal department to Mr. C. Adams, who succeeded him.

A young poet who read the article in last evening's NEWS header "Pickard's Predicament," is said to be writing a sacred composition entitled "Pickard's Lament, or the Folly of Telling Your Troubles to a Reporter."

Judge Dalton, J. R. Mackintosh, Eph Robb and Mary Johnson were the only transgressors before Justice Sheehy today. The first was fined $10 and costs, the second $5 and costs, for drunk, and the latter two all sent to jail.

A separator from Gates Falls, spoke date of October 26th, says that Mr. W. C. Clinton, of Salt Lake City, was married to Miss Susie Kramer of Cattle Ranch, Oregon, at the Falls Hotel, on the evening of the 25th inst.

Presiding Bishop of the Church of Christ, has received a communication from Vice-President Morton, of the United States, acknowledging the receipt of the resolutions on the silver question recently passed by the Chamber of Commerce in this city. They will be laid before the Senate at the next session.

About four hundred persons were present at the Halloween social held at the Salt Lake Bicycle Club, held at Mack's Hall, last evening. Scotch songs and national music constituted the first part of the programme, and the affair ended up with dancing. The gathering was a very one, and all who took part will long remember the occasion.

Elder Thomasson's Funeral.

The funeral services over the remains of Elder P. O. Thomasson were conducted at the Latter-day Saints' Chapel of the Eighteenth ward, yesterday afternoon. Bishop Whitney presiding. The building was filled on the occasion, with the relatives and friends of the deceased. The opening prayer was offered by Counselor Robert Patrick. The speakers were, in the order in which they addressed the congregation: Elders Neve, Sanderson, Larson, Ure and Jensen. Bishop Dusing remarks were also made by Counselor Patrick and Bishop Whitney. Benediction was pronounced by Counselor William B. Eaton. The musical exercises were beautifully rendered by the Scandinavian choir.

An Affecting Scene.

There was an affecting scene at the city cemetery yesterday. A large number of friends of Brother Wm. D. Owen surrounded a newly dug grave in which the remains of his five-year-old daughter were about to be laid. The little one had died of diphtheria. Services were held and words of consolation spoken by Elders Foulger and Park. Hymns were sung by the choir, lead by Brother McIntyre. The sympathy for the bereaved family in their great bereavement was shown beautifully rendered by the Scandinavian choir.

An Affecting Scene.

There was an affecting scene at the city cemetery yesterday. A large number of friends of Brother Wm. D. Owen surrounded a newly dug grave in which the remains of his five-year-old daughter were about to be laid. The little one had died of diphtheria. Services were held and words of consolation spoken by Elders Foulger and Park. Hymns were sung by the choir, lead by Brother McIntyre. The sympathy for the bereaved family in their great bereavement was shown beautifully rendered by the Scandinavian choir.

MUSICAL FESTIVAL.

Gilmore's Famous Band in the Grand Tabernacle.

Probably the greatest Festival in Gilmore's extended tour will be given in the large Tabernacle on Thursday, Friday and Saturday and Saturday afternoon next. For this occasion a chorus of fifty voices have been rehearsed, and the Gilmore Band will alone there will be a chorus of mixed children and the grand organ. Added to these will be the Salt Lake Choir, numbers far so long made famous, and few vocalists, who are the most celebrated in the country. Concerning the latter we take some extracts of their recent appearance in St. Louis, from the Republic:

"The Misses Emilie and Emma Richmond, sopranos and alto, captured the audience in their duet and had to appear three times before the audience would let them off. Miss Emilie has a high soprano, the tones clear and limpid and of great carrying quality, while Miss Emma has a full alto voice. Their schooling is thoroughly and they have cultivated their voices to a high degree. Their voices blend beautifully. In her solo Miss Emilie was encored three times and with three she responded. The tenor, M. Chotin, made his debut before a St. Louis audience. Your reporter is a critic, but he is not a judge of tenors. In the Prize Song of Verdi he showed the artist that he is. His voice, besides being a pure tenor, is also fresh. He had to come back to the footlights three times. Mr. E. J. O'Mahoney, the basso profundo, is his well known to St. Louis audiences to need an introduction. He sang in his usual fine style and had to respond to encores.

With this grand combination of artists, local soloists and artists, such music will be given as can scarcely be heard anywhere else in the whole country. And the Festival will come nearly approach the Great Peace Jubilee of Boston twenty years ago. Gilmore's Band delighted the three great, besides it is well known that no place in the world is equal to the Tabernacle for musical effect.

Arrangements have been made with the railroads for excursion rates from all convenient points, and everything is now complete for the most delightful musical feast that Salt Lake has had.

LECTURE ON THEOSOPHY

By William Q. Judge, of New York, at the Metropolitan Last Night.

THEOSOPHY IS NOT SPIRITUALISM.

The Threefold Nature of Man, the "Astral Body," and Other Interesting Theories.

William Q. Judge, of New York, a prominent Theosophist, who has been identified with the society from its organization—nearly years ago—until the present, delivered a lecture on the subject of Theosophy at the Metropolitan Hotel last night. The society has a branch in this city consisting of only a few members, presided over by Mr. John Lloyd. That gentleman had charge of last night's meeting, and introduced the speaker, who said in substance:

IT WAS NOT POSSIBLE

to cover the vast range of the subject in our lecture, and his purpose would be to give his audience a general idea of the grounds on which Theosophists rested their belief. The object of his visit was merely to all to creating a nucleus here which would encourage men to think and examine for themselves and to help carry out the true aim of the Theosophical Society. The election, any nation as well, fell far short of life aims.

The two classes interested in human progress are the philanthropic and the devout, and both, when any substantial scheme for such progress is committed to them, are sure to point out that some before have wholly failed. They say with entire correctness, that not a new platform or church is needed, but something which will project and an impulse hitherto unfelt.

In the middle ages the church held that no one had a right to speak contrary to Scripture, and the latter said the whole came from the four corners of the world, therefore everybody must believe that the world was square, that the Bible and the world was six thousand years old, and those who did not believe it it must go to prison, that we know better now. Scientific men revolted, and we had materialism, but some of the churches have not yet given up these concepts.

Spirituality is ingrained in man, but there is divorce between religion and science. Christianity would be good enough, but churchianity is all we have had. While pretending to follow Jesus, we have been following the old Adam. The religion that covers the world is oriental in origin and spirit. The science of today comes from Aristotle, and we are only living over the past. Some think that Theosophy means Hinduism. Brahminism is the religion of India. We find in all religions one truth, most of them have one God, one heaven and the doctrine of rewards and punishments. We also find idolatry in some form almost everywhere, even in America we have the idolatry of the almighty dollar. Jesus and Buddha are at the back alive, and this taste is what we want to find, an underlying truth. Greece and Rome had the greater and lesser mysteries in which all their noble men were taught the universal truth. Evolution was known then and we are going back to find those truths.

All form in nature were first evolved in the astral plan and there were gathered the materials which made them visible. The story of Adam is only an allegory, Life in Eden was the period of astral bodies, and the material body was afterwards added. It is admitted that the passions and desires are separate from the will and judgment. At death both passions and desire unite with the astral body and the astral body is our outer garment. It is the astral body which comes back in spiritual seances. This itself will die, it is not an immortal nature. Here comes in the fact of reincarnation. No one life is adequate to a man's development. Again and again he must come back to satisfy the quality, to lay up its experience and its discipline, each career on earth depending the nature of its successor. Two things follow: 1—The great state discloses what we have accomplished in past lives; 2—Our present mode decides what the next life shall be. The formative power is lodged in us, our aspiration prompting, our will effecting, the aim desired. Retribution or reward comes in reincarnation. This is not new. By it we explain differences in character. Why is a child born with a Whitefield and not a Howe? Without reincarnation the Christian scheme is a failure. After years of investigation no greatness more satisfied of the truth of reincarnation than theory. Only by it can genius be explained and not on the theory of heredity. The science is made by the ego, itself. We can't change nature therefore by death. Man is the key of evolution. Man for his life living, receives the impressions of thought. We are all responsible for ourselves and to some extent for fellow man as well.

Does any one follow in positive Christian state, the creed and check and the creed and stock described Here are Christian duties trying to follow the "Sermon" for carrying out the doctrines of the Bible. The evil of the day cannot be cured by legislation. And what the reformers are doing in the age to evolution, when it has once reached man is never gone back to a lower order of existence, such as the mineral or vegetable. While all people have from a common ancestor, yet man never sprang from the ape, nor is the ape a degenerated man. We are unlike. All were now in the mineral kingdom and have advanced. The spirit once started never goes back. The laws of nature are working through the consciousness, then, appears in all nature. It can only be the result of two causes. Either the Deity was a blind or conscious. Science, appears in all nature. It can only be the result of two causes. Either the Deity was a blind or conscious. Science is shaping and transforming matter, with a definite and intelligent end in view, or it is the result of blindness, and the Deity is not. The latter end, makes the despotic need of some intelligent force. And if we are compelled to admit a force and a higher consciousness in any single atom of nature, the future is taken for day by day we shall be forced to admit a higher consciousness in all, and the question as whether man has a higher consciousness, if not, is once more answered by the biological argument in the affirmative.

And again we are driven to the conclusion that man is in higher consciousness is not dependent in any way upon the matter which it shines in its light. We smile—as a polar bright—for its outlined existence, then it does not and indeed can not die upon the death or transformation of the latter. On the contrary, analogy, points to the fact that, as a man wears out and rends and at last throws many coats or garments in the course of the years of a life, so his higher ego must wear out and cause many bodies in the course of its infinite pilgrimage. Here once again the fact of soul reason for reincarnation meets the sceptic as the highest result of biological investigation. And as the universe is the creation of its Highest Self, or the Creative Logos of St. John, and which, though so infinitely higher, yet in the absolute includes also its lower self, or matter, so man's lower personality is the creation of his higher ego which initiates without being limited in any manner by it, except perhaps as a mechanic might be limited by matter he uses in the fashioning of a house.

Man is represented by the Christian gospels as composed of body and soul and Theosophy shows this is of perfectly correct. First, the body, that which serves; second, the life principle, that the astral body, which is the vehicle of the life principle, and thirdly the vehicle, and nature as well, fall far short of life aims.

The two classes interested in human progress are the philanthropic and the devout, and both, when any substantial scheme for such progress is committed to them, are sure to point out that some before have wholly failed. They say with entire correctness, that not a new platform or church is needed, but something which will project and an impulse hitherto unfelt.

In the middle ages the church held that no one had a right to speak contrary to Scripture, and the latter said the whole came from the four corners of the world, therefore everybody must believe that the world was square, that the Bible and the world was six thousand years old, and those who did not believe it it must go to prison, that we know better now. Scientific men revolted, and we had materialism, but some of the churches have not yet given up these concepts.

And again we are driven to the conclusion that man is in higher consciousness is not dependent in any way upon the matter which it shines in its light. We smile—as a polar bright—for its outlined existence, then it does not and indeed can not die upon the

NOTHING VERY IMPORTANT

Transacted in the Third District Court This Morning.

SEVERAL DIVORCE MATTERS,

The Elbridge-Taffe Suit Being One of Them.—A Case Before Commissioner Greenman.

In less time an hour Judge Zane this morning disposed of the whole of the business to come before him. The only cases that engaged his Honor's attention are reported below.

JUDGMENT FOR THE PLAINTIFF.

In the suit of Zadick L. Eaton vs. Lorenzo D. Kinney, submitted on Thursday, being an action to recover on a certain written agreement, his Honor gave judgment for the plaintiff for $609.35, and interest.

DEMURRER WITHDRAWN.

Wing vs. J. E. Dooley. On the application of Judge Marshall, the demurrer was withdrawn and twenty days, by consent, allowed to answer.

ASSETS POSTPONED.

In reference to the case of John H. Howard, convicted of scalping, Attorney Hamilton submitted a further medical certificate from Dr. W. F. Anderson, who stated that the defendant is approaching convalescence, though still broke and distributed from his mental action of paranoia. He could not yet undergo exposure with safety, but with care could eventually recover. Counsel therefore asked that the hearing of the motion for a new trial stand over till next Monday week.

Prosecuting Attorney Stephens offering no objection, Judge Zane said—Let the medical certificate be filed and the time extended as asked.

TO SEE JUDGE ALDERSON.

For vs. Halloran; order to take deposition made by consent. Attorney Jepson said his honor can be consulted on the subject.

SETTLED BY CONSENT.

Deep Creek Stage Co. vs. F. A. Stebbins. In this matter, which recently came before Commissioner Greenman on criminal proceedings, judgment for the plaintiff for $50.00 was now entered by consent of the attorneys.

ALLOWED THIRTY DAYS.

J. B. Hauer vs. Whitney; demurrer withdrawn and thirty days allowed to answer.

NOW WIFE'S DIVORCE CASE.

In the suit of Eleanor B. Tuttle vs. Elbridge Tuttle, the demurrer to amended complaint and motion to strike out parts of the complaint, and motion of Adolff for temporary alimony, were argued by Arthur Brown for the plaintiff, and Ogden Hiles for the defendant.

This case is one of long standing, and has been before the courts time and time again, and is quite complicated. It dates back, however, some 20 years, and the end is not yet. It was now submitted for Judge Zane's consideration on the general phase of the question.

DEMURRER SUSTAINED.

David Walker vs. J. H. Harris. Demurrer to complaint submitted and sustained, and leave given to amend instanter. Ten days were allowed to answer.

ALLOWED.

Consolidated Fruit Jar Co. vs. Salt Lake Glassware Co. Motion to make and for judgment on the challenge by Attorney McKay was allowed.

SHE LEFT HIM.

The divorce suit of George B. Meredith vs. Lizzie Meredith, on the ground of desertion, was taken up, Attorney Stewart representing the petitioner. The respondent did not appear. The parties were married on December 21, 1888, but lived together for two months only. Mrs. Meredith having her husband, without assigning any cause, in the following February. The petitioner secured the court that he is entitled to a good home and the necessaries of life for his wife during the short time she remained with him, and gave her no cause whatever for acting as she did.

After hearing an independent witness Judge Zane granted the divorce.

HE WOULDN'T GIVE IN.

J. B. Taylor is described by Deputy Marshal Goodwin, who took him to be arrested and brought to the city from Middle Park, Tooele county, last night, as a bold adventurer. It seems that a widow named Emma Hopper is the possessor of a mining claim known as the "Clipper," situate at the head of Middle Park, and she has a small cabin there. For some reason not known to himself, it is alleged that Mr. Taylor resolved upon breaking into, entering and taking possession of this cabin, and on the 20th inst. carried his intention into effect. Once inside the structure he declined to surrender, and all persuasion to induce him to go out proved useless. A complaint was lodged and the charge was laid at $25. Commissioner Greenman set the case for hearing on the 5th of November, and fixed the defendant's bonds at $500.

COURT NOTES.

Ed McKnight, having been arrested by a deputy marshal, was taken before Commissioner Greenman yesterday afternoon. The charge was preferred by a contractor in the Parley's Canyon conduit, named Morris, who alleged that McKnight had stolen $35. The case was a peculiarity "thin" one, and the commissioner had no hesitation in discharging the accused.

Judge Anderson held an court this morning, being at the bedside of his daughter, who is lying dangerously ill at the Grand Hotel.

Commissioner Norrell's health has not improved much since yesterday.

Special Meeting.

On Sunday, Nov. 1st, at 2 p.m., at Sugar House Ward, there will be a meeting of the Seventies of the Sixteenth quorum and all Seventies in Sugar House ward.

PROBABLY FATAL ACCIDENT

To Henry Welsh, a Union Pacific Brakeman, Near Scofield.

A probably fatal accident occurred to a Union Pacific brakeman named Henry Welsh, near Scofield, yesterday. It appears that when the freight train was moved into the side line at the point named, Welsh, who was attaching a box car with the intention of applying the brakes, lost his hold and fell under the moving train. The wheels passed over his right foot and lower part of the leg, crushing it to fragments. The unfortunate man was also severely injured about the head, shoulders and breast.

He was picked up in an unconscious condition and then conveyed to the Holy Cross Hospital last evening, where his injuries were attended to by the physicians of the institution. Welsh has a wife and a large family of children, who reside in this city. His recovery is doubtful.

Students' Society.

A fairly large congregation was present at last evening's session of the Students' Society. Chairman Walton being absent, the presidency fell to Mr. Alexander Nelson. The programme, which follows, was, after the usual preliminaries, rendered:

An excellent essay was read by Miss Nellie Wallace. Sterling Williams spoke to "A Talk on Diet." Statistics of well known doctors were given, showing that the average life span of the followers of specified professions as resulting from the inhalation of certain drugs, etc. He spoke of the ingredients and injurious effects of those which taken into the lungs, and the peculiarities of the nature of the poisonous substances which those agents and the application therefrom.

Miss Alvaretta Judd sang very nicely "Come Home to Erin," and "The Mariner's Dream," by Smith Woolley, was well read.

"The Porcupine" was spoken upon by Polly Maycock. The speaker gave a minute description of the classification and species of the animal referred to. Its habits and characteristics were also dwelt upon and compared with those of the European porcupine. He then related the somewhat numerous incident connected with the killing of one of these animals by Dr. Talmage.

The choir sang "The Fleeting Day," and the programme was closed with prayer.

Thrown From His Buggy.

Between one and two o'clock this afternoon an aged gentleman named Perkins, who lives at Pleasant Green, met with a serious accident while driving westward on North Temple street. His horse, apparently without cause, whirled suddenly around, overturning the buggy and dragging Mr. Perkins a distance of a couple of feet. The unfortunate man was thrown from the vehicle and received a severe shock. He was taken to the hotel and arnica, were attended to.

LATEST TELEGRAMS.

THE CHILEAN AGITATION.

What They Are Doing at the Brooklyn Navy Yard.

NEW YORK, Oct. 31.—The Chilean trouble shows no effect at the Brooklyn navy yard in renewed activity being displayed in the dishing out of all the stores now there. The number of men engaged upon the monitor "Miantonomah" has been increased, and a contract is contemplated. But officers it is learned that she could be got ready for sea within ten days if occasion should require it. She is classed by all officers as one of the most formidable ship in the navy, and it necessary she could be in Chilean waters in ten months. A rumor got abroad yesterday that an order had been sent from Secretary Tracy to the Brooklyn navy yard to have the cruiser Baltimore ready for Chile, but Captain Erben, commander of the navy yard, denied that he had received such orders. Orders received from three ships, viz: "Philadelphia," "Concord" and "Kearsarge" are being prepared to proceed from Erie, Pa., to the West Indies. A ship going from New York to Chile generally makes her first stop at St. Thomas, so it is presumed that these three ships are intended between the received orders from Washington and the departure of these three ships.

A special dispatch from Washington to the Commercial Advertiser says: Secretary Blaine last night informed Senor Montalvo, the representative at Washington, that his government will insist upon reparation for the insults of Chile and that we are prepared to exercise force if necessary, to secure it.

The Richmond Terminal's Debt.

NEW YORK, Oct. 31.—The Associated Press learns that the Richmond Terminal has made a deal with Barker Brothers of London to handle the floating debt of the entire system.

Gen. Gomez Dead.

CITY OF MEXICO, Oct. 31.—It has been announced that Gen. Gomez is dead.

A Blow to the Slave Trade.

LONDON, Oct. 31.—A dispatch from Mombasa says Major Leggard, who recently defeated the rebel Arabs of Uganda and Unyoro, Tibe is regarded as a serious blow to the slave trade.

Rescued from the "Mora."

NEW YORK, Oct. 31.—The British steamer "Staneton Tower," which has arrived from Hayaguez, brought the survivors of the Swedish bark "Mora" which was wrecked on the island of Mona, August 22. The captain and remainder of the crew remaining seven went down with the wreck.

THE PRISON DELIVERY.

More of the Details of the Lamie a Knoxville.

KNOXVILLE, Tenn., Oct. 31.—The guards in charge of the stockade at Briceville have just arrived. The stockade of that place was burned as reported last night. That at Coal Creek belonging to the Knoxville Iron Company was not burned, but the convicts escaped in the wars released, and all are at large. The arms of the guards were all captured. No resistance was made and consequently no blood was shed. The miners who effected the release seem to have acted with the greatest secrecy, showing perfect organization. There are no upward indications of immediate action and the people are beginning to believe the matter will be left to the courts for settlement. The act of the miners seems to be a surprise to the citizens of the vicinity of Briceville. Those who in defiance of law released the convicts, started to the stockade soon after dark, gave their orders and the work was done. All is quiet at the mines at 8 o'clock this morning and no immediate trouble need be anticipated.

Fire in Toledo.

TOLEDO, Ohio, Oct. 31.—At North Baltimore, on town, thirty-two miles south of here, a fire this morning destroyed all the buildings on Main street to the N. B. & O. depot, including the postoffice, Hotel Burke, bank and fifteen stores. The loss is estimated at $200,000.

Lynn Must Go.

NEW YORK, Oct. 31.—The Post says, a gentleman of this city, who was informed yesterday of the demand of Chile for the recall of Minister Lynn, says he received today an authoritative dispatch from Washington, announcing that Blaine had promised Senor Montalva the United States legation would be put in charge of its secretary next Monday.

The Result of the Earthquake.

LONDON, Oct. 31.—A private dispatch received here from Japan says the loss of life by the recent earthquake on the island of Honsiu and other places, is very great, over ten thousand persons were killed and eighteen thousand houses destroyed in the province of Nagoya. Five thousand houses were destroyed, and that number in Gifu and Aichi. Many towns of Kano and Kasagaki are also reported destroyed, together with fifty miles of railroad. The estimated total loss of life may be twenty thousand. There have been many weaks about the island of Honsiu as a consequence of the disturbance.

DO SO NOW.

LOST, STRAYED OR STOLEN—In the Twelfth ward of the city, on Sunday, Oct. 25, 1891, a dark bay horse, about 15 years old, branded on the left jaw, 2 months ago and 3 years ago, 2 months ago and 3 years.

Parties offering the above will be held in evidence in accordance with the law.

Millcreek Stay, please write.

The principal officers of the company are: John Henry Smith, President; Abram H. Cannon, Vice-President; Orson H. Pratt, Secretary and Treasurer; Wm. N. Williams, Supt. d1f

Permanent Hopeless, Yet Saved.

From a letter written by Mrs. Ada E. Hines, of Genoa, N. D., we quote: "Was taken with a bad cold, which settled on my lungs, cough set in and finally terminated in consumption. Four doctors gave me up, saying I could live but a short time. I gave myself up to my savior, determined if I could not stay with my friends on earth I would meet my loved ones above. My husband was advised to get Dr. King's New Discovery for Consumption, Coughs and Colds, and it cured me and thank God I am now a well and hearty woman." Trial bottles free at A. C. Smith & Co's Drug Store. Regular size, 50c, and $1.00.

Worthy of a Trial.

Highest of all in Leavening Power.—U. S. Gov't Report, Aug 17, 1889.

Royal Baking Powder

ABSOLUTELY PURE

no blood was shed. The miners who effected the release seem to have acted with the greatest secrecy, showing perfect organization. There are no upward indications of immediate action and the people are beginning to believe the matter will be left to the courts for settlement. The act of the miners seems to be a surprise to the citizens of the vicinity of Briceville. Those who in defiance of law released the convicts, started to the stockade soon after dark, gave their orders and the work was done. All is quiet at the mines at 8 o'clock this morning and no immediate trouble need be anticipated.

Those who entrust their patronage to the company may be assured of fair and honest treatment.

The principal officers of the company are: John Henry Smith, President; Abram H. Cannon, Vice-President; Orson H. Pratt, Secretary and Treasurer; Wm. N. Williams, Supt. d1f

Permanent Hopeless, Yet Saved.

From a letter written by Mrs. Ada E. Hines, of Genoa, N. D., we quote: "Was taken with a bad cold, which settled on my lungs, cough set in and finally terminated in consumption. Four doctors gave me up, saying I could live but a short time. I gave myself up to my savior, determined if I could not stay with my friends on earth I would meet my loved ones above. My husband was advised to get Dr. King's New Discovery for Consumption, Coughs and Colds, and it cured me and thank God I am now a well and hearty woman." Trial bottles free at A. C. Smith & Co's Drug Store. Regular size, 50c, and $1.00.

Worthy of a Trial.
