MINING, BUSINESS AND STOCKS

SALE OF DEXTER HAS BEEN RATIFIED

Nevada Property is Now in Charge Of J. H. Mayham, a Colorado Mining Man.

INITIAL PAYMENT IS MADE.

Purchasers Obligated to PutUp $100,000—Equipment to Handle Big Volume of Water.

The stockholders of the Dexter-Tuscarora Consolidated Mining company, with properties at Tuscarora, Nev., held a special meeting yesterday afternoon at the offices of the company in the Auerbach block, and ratified the action taken by the board of directors some time previous, in which a bond and lease of the property to J. H. Mayham of Denver was authorized.

The consideration named in the bond is $100,000; a payment of $5,000 already having been made; the balance to be forthcoming during the life of the agreement, which is one year from July 1st.

The bond provides that Mr. Mayhem is to sink the shaft forthwith to the 500-foot point, which is 200 feet below the present lowest level. From the proceeds of the ore mined and sold the company is to receive a royalty, which is to apply on the purchase price.

The Dexter, a number of years ago, gave promise of becoming a steady dividend payer, but when the sulphide ore zone was encountered, it was accompanied with such a great volume of water, the management could not get it under control. The result was, the property was forced to close down, after the expenditure of more than $16,000 in the purchase and equipment of the mine with pumping machinery.

Mr. Mahem is said to have had a great deal of experience in handling properties where water has proved a disturbing element. He is satisfied he can master the situation at the Dexter, and is backing his judgment with money.

Some very rich gold ore is known to exist below the water level, and when the problem of removing this difficulty is solved the mine will undoubtedly become a paying proposition again, and the camp of Tuscarora will again take on some of its old time activity.

The second payment on the purchase is due Dec. 1.

STOCKS INACTIVE.

May Day and Uncle Sam the Only Ones Sold During Regular Call.

This was another dull business day for the brokers operating on the floor of the Salt Lake Stock and Mining exchange. During the regular call, Uncle Sam and May Day were the only participants. On the open board Columbus Consolidated participated at a lower figure than on yesterday. Wabash, May Day, Yankee Consolidated, Beck Tunnel, Lower Mammoth found some demand. The closing quotations and sales were:

POSTED DIVIDENDS.

Three Utah Mining Companies Did This Yesterday Afternoon.

Three Utah mining companies posted dividends yesterday. These were the Grand Central and Victoria, operating in the Tintic district, and the Utah of Fish Springs, the amounts to be distributed being $12,500, $10,000 and $1,000 respectively.

The Grand Central's books close on the 12th inst. and the dividend is payable on next Tuesday, the 15th inst. The same dates also apply to the Victoria dividend.

The Utah distribution came as somewhat of a surprise to a good many, although it has been known for some time that the company has been gradually creating a surplus from recent ore shipments.

Considerable money has been expended during the past six months in the erection of new buildings and in the making of other improvements. The ore is hauled overland 60 miles to the railroad at Oasis station on the Salt Lake Route, and thence forwarded to the local smelters. The mine has paid $209,000 in dividends to date, or a little more than $2 per share.

TEA

We choose to sell tea; and it goes from Alaska to Mexico.

It's the tea!

COPPER REFINING SCHEME.

Guy Sterling Files on Waters of Green River for Strong Syndicate.

Guy Sterling, the civil and mining engineer, has filed in the office of the state engineer application for the appropriation of 2,450 second feet of the waters of Green river, to be utilized, it is stated, in electrolytic copper refining and in the generating of power for electric lighting and propelling machinery at Park City and in the Salt Lake valley.

It is proposed to divert the water from the river at a point on the easterly bank about 10 miles, measured along the river, from the junction of Ranch creek and Green river, which makes the point of diversion a little more than 100 miles, air line measurement, from Salt Lake City. The diverting works, according to the application, will include a masonry dam 1,100 feet in length and 140 feet high, except for the overflow portion, which will be 120 feet. Six pipes, 250 feet long and 10 feet in diameter, are to convey the water to six pairs of 50-inch turbine wheels to operate with a head of 90 to 120 feet. It is proposed to create a reservoir by backing up the water of the river for a distance of 2¾ miles, making the reservoir of an estimated capacity of 200,000 acre-feet. This reservoir is to be filled during the season of high water to supplement the natural flow of the river during low water. Mr. Sterling expects to maintain through the turbines, with an average head of 105 feet, a continuous flow of 3,050 second-feet, generating 36,000 horsepower.

Mr. Sterling is said to be acting in the interests of a syndicate backed up with millions of capital, but at this time he is not ready to show his hand as to who comprise this syndicate.

TO THE U. S. COURT.

Case of James Shields vs Honorine Tunnel Transferred to That Tribunal.

The case of James Shields vs the Honorine Tunnel & Mining company was transferred yesterday from the district court at Tooele to the United States court. The plaintiff for cause of action complains and alleges that the defendant company operates an elevator shaft or tunnel and that they have permitted children to loiter and play about several of the levels in the vicinity of the shaft in places dangerous to them and that it has failed to place warnings to prevent them from becoming injured. He further alleges that from this cause his son Malcolm Shields, on the 4th day of March last was playing about the place and that because of his tender age he was not cognizant of the dangers of his actions, and that as a result he fell into the shaft and was killed. Wherefore, plaintiff demands as damages $15,000 and costs of suit.

TRIP OF THE ENGINEERS.

Sidney Bamberger Talks About His Late Alaskan Trip.

Sidney M. Bamberger, manager of the Fortuna mine at Bingham, who attended the recent meeting of the American Institute of Mining Engineers, held at Victoria, B. C., and went on the excursion to Alaska and the Klondike, was back at his desk again today, after having spent a few days in looking over conditions at the Bingham property for a few days.

Mr. Bamberger described his recent trip to the far north as being a most enjoyable one. The engineers were right royally treated everywhere they went, and were feasted and toasted to their heart's content. It was one grand ovation that they received all the way. The latch string out at every turn, and nothing was left undone in the way of furnishing entertainment for the members of the party.

Mr. Bamberger joined the party at Spokane. From there the special train consisting of eight cars, took the excursionists to the Nelson, B. C., district, and were here entertained by members of the Canadian Institute of Mining Engineers. Next, the party went to Rossland, where the War Eagle, Le Roy, Center Star mines, and the Trail smelter, were visited and an interesting feature of the trip to the latter was the operation of the electolytic lead refinery. From here the excursionists proceeded to Grand Fork and Phoenix. Here they were taken in charge of by Superintendent Hodges of the Granby company. After leaving Phoenix, the party returned to Spokane, and then took up the journey to Seattle and Victoria.

At the meeting of the association, Prof. J. M. Boutwell of the United States Geological survey read an interesting paper on the geology of Bingham, which was favorably received and commented on. While at Victoria an excursion to the principal mines of the island and the smelter at Ladysmith were arranged for.

The party sailed from Vancouver to Skagway, making the trip in three days. From Skagway the trip over the White Horse & Jackson railroad, as well as the voyage down the Yukon, was greatly enjoyed. All the places of interest in the Klondike were visited, which included many placer properties which have yielded and continue to yield their thousands and millions in gold.

The party returned to Seattle over the route taken while going and at the latter point the separation came. Many visiting the fair at Portland. The Alaskan excursion lasted over a period of about four weeks.

HOT SHOTS FOR PRESIDENT KNOX.

Fight for Control of the Montana Tonopah Mine is Assuming an Interesting Phase.

SALT LAKE DIRECTORS REPLY.

Statement in Answer to the Knox Document is Now in the Mails.

A bitter fight is on between the warring interests among shareholders of the Montana Tonopah Mining company and it will probably be kept up in all its fury until the annual meeting on Sept. 12, when the show-down will be made.

The official call for the forthcoming meeting is being sent out through the mails today. Accompaning it is a statement setting forth the position of Directors Dickson, Ellis and others in the controversy with President Knox. The statement is in the nature of a reply to the one recently sent to stockholders by President Knox.

Directors Dickson and Ellis declared shortly afternoon today that the statement was not quite ready to be made public but probably would be later in the day. It is said to contain a scathing arraignment of President Knox and his attitude towards the company in the past. Director Dickson departed this afternoon for San Francisco.

CONCENTRATES.

D. H. Peery is expected to reach Salt Lake from Nevada tomorrow.

Joseph Dederich departed for San Francisco yesterday afternoon.

Chief Engineer G. O. Bradley is confined to his home by a slight indisposure.

The construction of the Bingham-New Haven tramway is progressing favorably.

Attorney C. C. Parsons of the Newhouse mines came in from Denver yesterday afternoon.

Operations will be resumed at the Raymond-Illinois properties in Tintic within the next 24 hours.

On account of the broad gaging of its line, ore shipments have been suspended for a few days over the Tonopah railroad.

Secretary James Shorten of the Salt Lake Stock & Mining exchange went to Provo this afternoon to register for the Uintah land drawing.

J. W. Carr, a mining man formerly of Colorado and eastern Oregon, but for the past two years operating in Mexico is registered at the Kenyon.

The ore and bullion settlements reported late yesterday afternoon by McCornick & Co. were: Crude ore and concentrate, $43,700; base bullion, $30,500.

G. O. Collingwood, a mining promoter of New York, Tonopah and Goldfield, is at the Kenyon. He is seeing the sights of Salt Lake and is on his way to San Francisco.

The Utah Fuel company has closed a deal with Preston Nutter, the Carbon county cattleman, for a large acreage of land and water rights in Range valley, adjacent to coal lands as yet undeveloped, not far from Sunnyside. The transaction is said to involve the payment of $18,500.

It is reported former Superintendent W. H. Nutting of the Bingham Consolidated smelter, will consider the proffer of a similar position with the Britannia Copper company of which George H. Robinson is manager, and which has a plant located on Howe Sound, B. C.

August Mathez, the mining engineer, is scheduled to reach the city today to confer with Samuel Newhouse. Upon the report of Mr. Mathez and M. M. Johnson will depend the fate of the deal for the copper proposition, recently brought to the attention of Mr. Newhouse. The location of the property is being withheld.

MUSIC TEACHERS.

All who desire to consult the list of the representative professors and music teachers of Salt Lake should read the "Musicians' Directory" in the Saturday "News."

FLUCTUATIONS WERE ERRATIC.

Opening Prices Showed Further Wide Changes in Higher Prices Of Stocks.

SOME OCCASIONAL REACTIONS.

Union Pacific and the Coalers Generally Made Little Headway Upward on Stock Exchange.

New York, Aug. 11.—Opening prices showed further wide changes in the higher priced stocks, some of those which were buoyant yesterday making sharp reactions. Erratic fluctuations of from 1 to 2 points in the high priced stocks caused an irregular movement elsewhere with some stocks under pressure. Reading and Southern Pacific and United States Steel preferred were sold and Union Pacific and the coalers generally made little headway upward. The list of gains was varied and included many of the recent buoyant stocks with several new comers. There were occasional reactions when Reading became dull, but buying orders at new points revived the market constantly. When St. Paul advanced 2¾ gains followed of 1 in Union Pacific, Canadian Pacific and Pennsylvania, Great Northern preferred rose 9½, Northwestern 4¼, Pullman 6, Northern American 3, General Electric 4, P. C. C. & St. Louis 2½, Nashville, Chattanooga and St. Louis 2, New York, New Haven & Hudson 1¾, and Westinghouse Electric 1. Wheeling and Lake Erie second preferred lost 2. The market was quiet again at noon, and below the best.

Some active stocks were subjected to pressure at intervals, St. Paul reacting a point from the best and Reading weakening again to below yesterday's closing figures. These recessions only affected a small part of the list, Union Pacific and the United States Steel stocks in the meanwhile selling higher than before. Sensational movements continued to be made in the gilt-edged division, Great Northern preferred leaping 15¾ to 290. Other advances were in Northern Pacific 4¼, St. Paul preferred 2¼, Pacific Coast second preferred 2, and Kansas City Southern preferred, Canadian Southern, the Havana Electric stocks, Railway Steel Spring preferred, Consolidated Gas, Sugar, Colorado Fuel, United States preferred and Smelting 1 to 1¾.

Very little inquiry existed for the standard stocks in the late trading outside of Canadian Pacific, which rose 3¾, and United States Steel, which was bought freely. The market showed hesitation.

At 2 o'clock L. & N. and New York Central shot up 2¼ and Chesapeake and Ohio a point.

LIVE STOCK.

PRODUCE.

Chicago, Aug. 11.—Decreasing receipts had a steadying effect on the wheat market here today, off-setting lower prices at Liverpool. Predictions of rain for the northwest was a further bullish influence. Under active covering by shorts the market opened quiet and strong, September being up ¼ to ⅜ at 82¾ to 82⅞. On the advance commission houses were free sellers and prices soon reacted, September declining to 82@82⅛. Minneapolis, Duluth and Chicago reported receipts of 256 cars against 192 a year ago.

Continued dry weather throughout Illinois imparted a firm tone to the corn market. Commission houses were moderate purchasers. September opened ¼ cent higher at 53⅞ and sold at 53¾.

Liberal receipts had a weakening effect on the oats market. Trading was very quiet. September opened unchanged to a shade lower at 26⅝ to 26⅝@26¾ and sold off to 26⅛.

Moderate profit taking in pork was the feature of trading in provisions. As a result of this selling, the September option was off 12½ to 15½ at 13.95 to 14.00. A 5-cent advance in the price of live hogs held other products steady. September lard was unchanged at 7.70; ribs were up 2½ at 8.40.

Cash: Wheat—No. 2, red, 84@84½; No. 3, red, 82½@84; No. 2, hard, 82½@90½; No. 3, hard, 82@87; No. 1, northern, —; No. 2, northern and No. 3 spring, no market.

Corn—No. 2, 53½@56; No. 3, 56¾.

Oats—No. 2, 25½; No. 3, 25¾.

After September had touched 51¾ the market became decidedly strong. September touched 53⅝, closing strong ¾ higher at 53⅝.

Corn—After advancing to 54½ September closed up ¾ at 54⅝.

Close: Wheat—Sept., 82½; Dec., 84; May, 88⅝.

Corn—Sept., 54⅝; old, 54⅝; Dec., 46¼; old, 46¾; May, 45¾; July, 45⅞.

Oats—Aug., 26⅛; Sept., 26⅝@26¾; Dec., 27½; May, 29⅝.

Pork—Sept., 14.27½; Oct., 14.32½.

Lard—Sept., 7.80; Oct., 7.87½@7.90; Nov., 7.70; Dec., 7.37½; Jan., 7.35.

Ribs—Sept., 8.37½; Oct., 8.45.

Rye—Cash, 58@59.

Flax—Cash, northwest, 1.16.

Timothy—Sept., 3.50@3.55.

Barley—Cash, 39@43.

NEW BUSINESS FIRMS.

Cache Valley Milling & Kiesel Company of Ogden File Articles.

A copy of the articles of incorporation of the Cache Valley Milling company of Richmond, Cache county, was filed in the secretary of state's office today. The company will operate a flour mill at Richmond. Its capital stock is $20,000, divided into shares of the par value of $10 each. Alma Merrill is president; T. H. Merrill, vice president; C. O. Hyde, secretary and treasurer.

PAVING ON MARKET.

Work Will be Done by Palmer & Tate Company for $10,582 75.

At the meeting of the board of public works yesterday afternoon the contract for paving Market street was awarded to the Palmer & Tate company. Utah asphalt will be used on the job as that is one of the provisions of the specifications. The bid of the successful contractor was $10,582.75. The only other bidder was P. J. Moran, whose bid was $10,979.90 for Utah asphalt and $10,649.90 for California product.

INDUSTRIOUS NOTARY.

Complaint Made to Governor Cutler by Commissionor Richards.

Gov. Cutler this morning received a letter from Commissioner Richards at Provo stating that a notary public in Ogden who had agreed to take the customary acknowledgment of applicants for registration at the usual rate of 25 cents had been filling other blanks than those furnished by the commissioner and charging them 50 cents for the same. When they were presented at Provo this morning they were rejected and the people were put to extra expense for the preparing of new papers. Commissioner Richards gave the name of the notary to the governor, who declined to disclose it for publication at present. The matter will be investigated.

"Yes" or "No" does not answer all the questions of this world. There are generally some "If's" and "And's" to be considered.

IF you depend upon the Home Fire Insurance Company of Utah to protect your best interests in case of fires AND follow the example of the money wise people who are the policyholders—you'll get there.

Home Fire Insurance Co. of Utah,
26 SOUTH MAIN STREET.

DON'T BELIEVE

The man who tells you that we cannot issue a RELIABLE RATING BOOK. It will contain more names and be more accurate than any heretofore published in Utah.
