Have You a Home?

If not it will pay you to investigate the advantages of Forest Dale before buying elsewhere. We have our own water system: water piped in most durable cast iron pipes, and the ownership of the water, including the extension of the pipes past your door costs purchasers in Forest Dale little if any more than laying the mains in most cities. The advantage this affords will be readily seen, for the water belongs to the residents (each purchaser of a lot being allowed his proportion of the capital stock of the Forest Dale Water Company) and it rests with them to fix the water rates charged. The expense of running the system is very small; and after the first expense of laying the mains is paid the rates need not be more than one-tenth those charged by Salt Lake City.

Have You Saved Anything?

Some people have been waiting for years for land to reach bottom prices. In the meantime they have paid rent, and if they have made any improvements or does any work on their residences, the improvements have been made, or the work done, for their landlord. Many other people have built homes, and while these first mentioned have been "waiting for something to turn up," have paid for their property and now own the home that shelters them.

Don't Get in Debt

unless you feel assured you can get out again. But if you have money saved, buy a home. If you have no income, buy a home. It pays to have an object in view, and there is no more worthy object than procuring a home for those dependent upon you.

My clerks, at room 351 Constitution Building, will give you prices and show you the property.

DESERET EVENING NEWS

TUESDAY, JUNE 19, 1894.

OCTOBER FAIR MATTERS.

Miscellaneous Questions Considered by the Board of Directors.

At the meeting of the board of directors of the D. A. & M. society held Saturday afternoon, Secretary Pyper reported that he had received from the territorial auditor only half of the appropriation for the fiscal year 1893, the other (amounting to $1,000) being held back to force the society to pay the warrants quarterly. It was claimed by the board that the society was entitled to all the appropriation for the fair, and Moses, Jennings and Sears were appointed as a committee to press this view upon the auditor.

The secretary also reported that the president had issued the advance advertisement at the last meeting, and has also sent out an appeal for special premiums; that the call for premiums had already been generously responded to by some and the letters are still coming in.

President Winder reported the names of department superintendents appointed some time since.

Mr. Simons presented a telegram from M. O. Thompson & Co., of the Midwinter fair, asking the dimensions of the Utah fair buildings and if they would be vacant to lease for a space from July 15 to August 15, 1894. The question was discussed at length and finally, on motion of Mr. Melville, was referred to the executive committee with instructions to meet with the president of commerce and ascertain if some plan cannot be formed to help the great inter-mountain home industry convention, the Utah fair and the Midwinter exhibits at the same time in October. As Mr. Beatie was about to leave for San Francisco he was authorized to confer with Messrs. Thompson & Co., and secure all the particulars as to the character of their proposed exhibit and the space needed.

Bids for printing the 1894 premium list were presented from the Deseret Printing company, Tribune Job Printing company, Salt Lake Lithographing company, George Q. Cannon & Sons, Register Printing company and Deseret News company, and the same were referred to the committee on printing.

The matter of the engagement of Mr. Hitchcock, of Kansas, as an expert judge of the poultry department was discussed, and upon a vote it was decided that all of the judges for the fair of 1894 be selected from residents of the Territory, this to include every department.

Judge Smith's bond in the sum of $10,000 was presented and approved.

Dr. Faust protested against a stock show and urged the establishment of a permanent exhibit from some fine cow. He claimed that a stock show now would be an unnecessary luxury, and added his communication as follows: "Times will be better another year. By that time we will have stabled, free silver and a Deep Creek road; then we will have a rousing fair." Filed.

Mr. Holdaway, of Provo, in a letter to the board, opposes the admission of grades to the stock show and closes "To omit a stock show would make of our exposition a very slim affair, more so than any other one of the exhibits—but I am so much opposed to a show of stock." Filed.

On motion of Mr. Simons, it was agreed that no live stock should be entered in a premium unless the stock has been in the Territory for a period of six months immediately prior to the fair.

On motion of Mr. Holdaway, exhibitions of horses and cattle, except for cattle, were required to furnish pedigrees at time of making entries.

In answer to inquiries from the secretary, A. G. Fonda, agent of the Bingham & Ute Grande Ronde company, and F. G. Gardner, assistant agent of the Pacific Express company, advised the area express rates on poultry as in 1892, viz.: Poultry upon which regular rate in the fall has been paid will be returned free.

S. W. Eccles, assistant general freight agent of the Union Pacific system, sent in the joint freight tariff for the fair of 1894. The tariff provides that freight will be way-billed at the owner's risk of damage and regular rates will be charged to the fair. On presentation of secretary's certificate that such shipments have been placed upon exhibition, they will be returned free. Exemption on shipments of fruit, grain and vegetables exhibited at the fair the freight charges will be refunded upon the secretary's certificate that such shipments have been exhibited.

The committee on premiums was instructed to make an early report and the board adjourned.

After the board adjourned the committee on printing, consisting of Messrs. Cross, Simons, Holdaway, Cragun and Wiley, examined into the bids for printing the premium list and awarded the contract to Cannon & Sons, the lowest bidders.

The following offers of special premiums have been received:

Mr. George D. Pyper, Secretary:

Sir—Hoping to your cover commencing spring premium list I beg leave to offer the following: For the best drawing from nature of the Art Hall, done by the pupil of Deseret Academy, a gold watch; 15 years of age; 2d, the drawing to be my property. For the second best drawing, one dozen cabinet portraits in best style, value $5; all of which is respectfully submitted.

C. R. SAVAGE.

Z. C. M. I. shoe factory will duplicate the offer of 1892. It is as follows: For the best display of handiwork by pupils of any public or private school, under 20 years of age, work to be done at school, the pair of home-made fine school shoes.

Sunday School Meeting.

The regular monthly meeting of Sabbath school workers of the Salt Lake Stake of Zion was held on Monday evening, the 18th inst., in the Fourteenth Ward meeting house.

The meeting was presided over by Stake Superintendent T. C. Griggs. The singing for the occasion was by the Twenty-first ward choir, under the direction of Bro. Thomas McIntyre. Prayer was offered by Brother Joseph A. Mayne.

The calling of the roll showed there were representatives from seventeen of the city wards and from Brighton, Forest Dale and south district Big Cottonwood.

Bishop William Touro, of the Seventh ward, addressed the meeting for a few minutes. He said he was interested in the Sunday school cause, and considered it profitable for persons of his age as well as the youth to attend Sabbath school. Parents, he said, should not send their children to Sunday school merely to get them out of their way. They should take a greater interest in them and help them during the week to prepare their lessons for the Sabbath morning. They were held responsible for their children and should seek to train them in the way they should go.

Elder Joseph E. Taylor said he was deeply interested in the Sunday school work. He always made it a point to attend Sunday school wherever he happened to be on a Sunday morning. There were certain qualifications necessary to make a success in teaching. Many of these qualifications can be acquired by cultivation, by study and practice. In some theological classes questions were sometimes brought up that were not appropriate for such places. The aim should be in these classes to teach such principles as can be understood alike by the whole class, and not to introduce ideas that are only understood by a few who are always reaching out for new doctrines. A spirit of skepticism seemed to be exhibited in some localities more noticeable among the young men. These seemed to be skeptical should not be ridiculed nor neglected. They should be treated with in a kindly spirit. Things they do not understand should be explained to them. He had never complaints made by some Bishops that Sunday school workers in some instances neglected to attend the sacrament meetings in their wards. Because the sacrament is administered in the Sunday school people should not take occasion from this to absent themselves from their sacrament meetings.

Elder John Morgan, of the general superintendency of Sunday schools, rejoiced greatly in the organization and growth of the Deseret Sunday School Union. In relation to Sunday school teaching, he said we should not overlook the important matter of presenting the positive, living principles of the Gospel to our pupils, and not make ourselves too nearly to teaching historical points. It is possible for us to conflict our teachings in such moral lessons that our pupils will be unable to distinguish our teachings from those of the Christian world in general. The work for our children's good has been taught recently, but the saving principles of the Gospel have not been instituted, and hence the world is no better today than it was in past ages.

Superintendent Griggs suggested that teachers be as practicable as possible and always give their pupils to understand that it is the practicing the principles of the Gospel which will be of benefit and not the mere understanding of them. He urged Sunday school workers not to neglect their other duties on the Sabbath.

The Sugar House ward Sabbath school was announced to furnish the musical exercises for the new meeting. After singing by the choir the meeting adjourned for the month. Benedictions by Supt. George Atkin.

E. F. PARRY,
Assistant Stake Secretary.

Methodist Meetings.

Yesterday the services were led by Rev. E. H. Snow. The minutes of Saturday's session were read and approved. The report of the committee on education was taken up seriatim, and with slight amendment, adopted. Among its recommendations accepted were for the discontinuance of the mission schools in Salt Lake City and Provo, and the continuance of those at Mount Pleasant, Richfield and Moroni. The committee incidentally paid a tribute to the public schools of Salt Lake City by saying that the excellent work done by these schools made the maintenance of the mission schools less urgent than would otherwise be the case. This in addition to a lack of funds induced the committee to recommend that the Salt Lake Seminary be not reopened at present.

The report also recommended kindergarten work in this city, and, if possible, the establishment of a deaconess home.

Sisters, F. A. Grant and George F. Goodwin of this city were elected by the mission to serve as an advisory counsel for the mission superintendent during the coming year.

Biff Counts, Ogden and Cutlane, sent in invitations to the mission to hold its next annual session in their respective churches. On taking the vote Biff church was chosen.

The revised report of the committee on temperance was read and adopted, also reports on women's home missions, evening school and trade. A resolution was passed requesting the general missionary committee at its annual meeting next November to provide for the consolidation of the Scandinavian Methodist work in Utah with that of the Utah mission.

On motion, Dr. Biff, E. H. Hunt and J. D. Gillian were appointed a committee to publish the minutes. A subscription amounting to $50 was taken to defray the expenses of publication. The report of the statistical secretary was read and adopted. The report showed the number of full members in the Utah mission to be 1,043; probationers, 240; baptisms during the past year, 110; Sunday school scholars, 1,304.

After announcements the session adjourned to meet at 8 p. m.

At the evening session the usual devotional services were held, after which the minutes of the morning session were read and approved. Resolutions were adopted thanking the railroad authorities and the press for courtesies shown, to Dr. Maitz, his church and the citizens of Salt Lake for their kind entertainment, and to Drs. Hamilton and Crandon for their presence and addresses, and to Bishop Merrill for his wise administrations. Dr. Biff read the missionary appropriations, distributing for the coming year $9,000 for churches and $4,100 to schools. The minutes were read and approved, after which the bishop addressed the preachers and congregation, and then read the appointments as follows:

T. C. Iliff, superintendent; Beaver, M. O. Hilling; Bingham, B. M. Harman; Carbon and Brigham, E. H. Snow; Eureka and Mammoth, J. G. Clark; Heber, F. J. Bradley; Logan, John Teller; Monroe, G. P. Miles; Mt. Pleasant, G. W. Comer; Nephi, Saul Hooper; Ogden, G. M. Jeffrey; Park City, G. W. Biff; Parowan, supplied by W. Murphy; Provo, J. Wilkes; Salt Lake City: First church, W. D. Maitz; Liberty Park, J. D. Gillian; Biff church, E. G. Hall; Sumner church, G. E. Joyce; Tooele, T. J. Hooper. A. W. Hartshorn, principal Sepin academy.

Young Family Association.

A meeting of the Young Family association will be held at the Lion House, June 27, 1894, at 8 o'clock p. m., for the purpose of transacting business pertaining to Temple work.

It is desired that every member be present.
