OGDEN.

OGDEN, UTAH, - OCT. 23, 1893.

Charged With Rape.

M. T. Otis was placed under arrest on Saturday on a charge preferred by Mrs. Otis, his wife, alleging criminal intimacy with a little thirteen-year-old step-daughter. The examination will be conducted today before Commissioner Gideon.

Mrs. Otis claims that the crime has been carried on for the past two months, but that she knew nothing of the matter until last Fri day. The particulars as given by her mother and daughter are horrible.

California Veterans Returning.

Today at noon the California Bremen will arrive at Ogden on their return from a visit to the White city. Arrangements have been made whereby the "vets" will be met at the depot by the Ogden Bremen, chamber of commerce, members of the city council and many others. A procession will be formed and the guests conducted in royal style through the principal streets of the city, finally winding up at the New hotel, where they will be tendered. In the afternoon an excursion will be run to the Hot Springs, after which the local fire engines will be inspected, and the day will be brought to a close by a grand reception and ball at the opera house.

Ingraham's Examination.

Frank P. Ingraham, arrested last Friday on the charge of embezzlement, will be given a hearing today by Commissioner Hawkins. Ingraham is accused to have swindled differently which caused the arrest of James Hamby on Wednesday last. His side of the matter is that during the early part of the year he leased the McIntosh farm and twenty cows for a period of five years, at a monthly rental of $50. Among the cows were a number of old cows which were of no use as a part of his dairy. These he sold in Hamby with the intention of replacing them with milkers, as the agreement, he claims, was that at the expiration of the lease the McIntosh people were to have the number made good, but not necessarily the same ones. He denies flatly that any embezzlement has been committed.

Democratic Primaries Tonight.

The Democrats of Ogden city meet tonight at the usual places in the different precincts and will nominate two city commissioners from each ward. Delegates will also be elected to the city convention which will meet at 12 o'clock noon, on Wednesday, the 25th, for the purpose of nominating the city officers at large, which consist of a mayor, city marshal, recorder, treasurer and police justice.

The primary pot has thus struck the boiling mark at last.

How Is This?

Marshal Davenport this morning showed the News representative the "record" of one John Allen, until recently a jailing prisoner at Leavenworth, Kansas. The record reveals the fact that Allen, though but 25 years of age, has been an inmate of thirty-six prisons, in Europe and America, during his short career. He is wanted at Leavenworth to fill out his unexpired term.

General and Personal.

Ten cars of Phillips & Judson's excursion went west yesterday.

Ten cars of Utah "spuds" were consigned to eastern points yesterday.

The grand encampment of the I. O. O. F. meet at Salt Lake tomorrow and a number of the Ogden boys will be in attendance.

Rapid Adams, having been found guilty on Saturday, will be sentenced to Wednesday.

L. S. Hills Esq. came in this morning on the Union Pacific.

The Most Enlightened Country.

A recent writer, Mr. King, makes the assertion that Switzerland today is the most enlightened country in civilization. It has employed the referendum for many years, while other nations have not yet even tried the method of ascertaining the popular will in regard to legislative measures. On questions of reform and human progress Switzerland has taken the most advanced ground and leads the world. Mr. King mentions some of the reforms the little republic among the hills is accomplishing:

As far as known we are John and Jonathan we can, the Public mind not only to have developed the natural virtues and vices Christian, enlightened more complete than any other nation, yet to have lower hours of whitewashing the danger which are now threatening more or large. The Swiss drink they have already attacked by placing the manufacture and a monopoly trade in spirits in the hands of a government monopoly, and then have begun reducing the average consumption of spirits per head of the population. The school regular and system connected with social, civil and religious life; and very the number of illegitimate births and of abortions are proportionately low and decreasing in fact of all factors of the population. The relations between the laborers of capital and labor is much one western folk than in other lands, the rate of interest is low, and the rate of wages is high, at least compared with the surrounding lands. The political bodies of progressive and democratic views are as a rule not antagonistic to the Christian faith and observances of Christian morality, as is so generally the case in the countries of Europe. A remarkable sign of the times is the Swiss political wisdom, in which a more various and deeply Christian spirit breathes than in any other European political work of the same importance.

According to reports, there are now more than 10 thousand wheels flutting wild and crazy over the great lines of ocean travel in the Atlantic. At any time they might come in collision with a sailing vessel or passenger steamer and send it to the bottom of the sea. This it may have been that the Victoria was lost, by having one of the derelicts drive down upon her in a storm. The commercial nations of Europe and our own government should seriously take in hand the task of during these half unknown wrecks and destroying them. Some think they ride so low in the water as scarcely to be discernible. The Philadelphia Telegraph suggests that this would be a fitting service for our navy in the present time of peace to sink, burn and blow up the floating hulks before the stormy season sets in."

DR. SCHENCK'S

Mandrake Pills have a value as a household remedy far beyond the power of language to describe. The family can hardly be true to itself that does not keep them on hand for use in emergencies.

MANDRAKE

Is the only vegetable substitute for that dangerous mineral, Mercury, and while its action as a cathartic is fully equal, it possesses none of its pernicious effects.

In Constipation, Mandrake acts upon the bowels without disposing them to subsequent costiveness.

No remedy acts so directly on the liver, nothing so speedily cures Sick Headache, Sour Stomach and Biliousness as these

NATURE'S REMEDY.

A Tonic and a Regulator.

HAS CURED

Insomnia, Incipient Bright's, Diabetes, Kidney Troubles, Indigestion, Nervous Dyspepsia, Nervous Debility, Constipation, Gravel, Rheumatism, Catarrh of the Stomach, Liver Difficulties, Female Complaints, Catarrh and Inflammation of the Bladder.

SEE WHAT IT HAS DONE FOR ME.

I am as good as any three men for present. A few months ago I had given myself up to die, and by most chance I heard of Miller's Geneva Mineral Water, from Geneva, New York. I called at the Water Depot in Portland, Oregon. I told the agent I had been afflicted for many years with what is called Cystitis, or inflammation of the bladder, also diabetes, that I had lost fifty pounds weight in the last year, and that I would sooner pass from blood sights. I have spent thousands of dollars on doctors and medicine, and all to no avail, and was using medicine all the time for the past six years, by the time I had used five gallons of the Geneva Mineral Water I was cured. Yes, sir, I, Or, hear me, all you that are afflicted and suffering with Urinary troubles of Stomach Affections of any kind, the Geneva Mineral Water will cure you. It has cured me.

Come and see me and judge for yourself. 108 Post office Block, Salt Lake City.

WHY THE DESERET NEWS SHOULD BE SUBSCRIBED FOR IN PREFERENCE TO ANY OTHER PAPER.

1.—It is the organ of the Church of Jesus Christ of Latter-day Saints, and the authorized medium through which the views, wishes and instructions of the Church Authorities are expressed and given to the Saints.

2.—It may always be relied upon as advocating or defending the right side of every question proper for public journals to treat upon.

3.—It is devoted to the interests of the Latter-day Saints, and has, from its inception, valiantly defended their rights and advocated the principles in which they believe, and every Latter-day Saint should therefore feel under obligations to do his part in helping to sustain it.

4.—It is not published for speculation, and never has been, but for the good which it is capable of accomplishing; the profits, if any there be derived from it, being devoted to extending its sphere of usefulness and benefiting the community.

5.—It is doing its utmost to establish home industries, among which are paper making and type-founding, stereotyping and electroplating—branches necessary to the development and independence of the community, but which, during their infancy (which in this Territory they have not yet passed), can only be carried on at a pecuniary loss.

6.—There is no danger of any subscriber to the News failing to get what he subscribes for through failure of the business and a suspension of the publication—a result in the case of hundreds of newspaper ventures every year.

7.—It is printed in readable type, so that even the aged can peruse it without difficulty or danger to their eyesight.

8.—It is free from objectionable advertisements, so that no parent need fear that his children will have their minds corrupted from having access to it. In fact, it rejects three-fourths of dollars worth of the best paying advertisements annually, because it is devoted to the moral and spiritual interests of its readers instead of to getting gain at their expense.

9.—The News is not regulated by public opinion nor the hope of gaining subscribers or advertisements. It advocates that which is right and condemns that which is wrong, regardless of results, financial or otherwise.

10.—It never measures its readers by pilfering off columns of self-praise for news items.

11.—The News practices no deception and resorts to no subterfuges to induce people to subscribe; but on the contrary, prefers to stand or fall on its merits, as the people's newspaper, with a promise only to do its utmost to give its patrons the full value of their money—a promise which it has endeavored to faithfully keep in the past.

Having considered, if a Latter-day Saint can afford to subscribe for only one newspaper, that paper should be the Deseret News, and if some there are, the News should invariably be the first.
