TINTIC'S MINES.

What the Latest Issue of the Eureka Democrat says of Them.

Manager Smith of the Brooklyn-Eagle reports the work of sinking the shaft progressing satisfactory and the ores is showing to be well mineralized.

The Buckeye shipped a car of high grade ore this week. The mine is reported looking exceptionally well and another shipment will soon be ready to market.

Col. W. P. Patrick of Colorado, one of the principal owners of the South Eureka, started work upon that property with a force of men on Monday. The South Eureka lies east of the Herkimer and is considered valuable property.

It is reported that a rich strike was made the first of the week on the 300-level of the Bullion Beck mine. The ore body is the same that has been followed for some distance to the north and has developed in the most satisfactory manner both in extent and quality.

The great Sioux-Ajax tunnel is being pushed rapidly ahead with three eight-hour shifts and two machines wheeled in the face, which is now 800 feet under cover. The old portion of the tunnel is being enlarged and repaired to conform to the new work which is 7x8 feet in the clear. This will be one of the most extensive, commodious and extensive pieces of tunnel work in the State when completed.

The management of the Uncle Sam Mining company will in the near future begin development work upon their property on an extensive scale. The engineers have completed the exterior surveys of the ground and it has been decided that the most practical system for opening the ground will be by a tunnel and shaft. Measurements show that a tunnel 600 feet will cut the center ore chute, upon which the shaft is being sunk, at a depth of about 275 feet from the apex, while at 700 feet it will cut the first of the veins to this zone at a depth of 110 feet from the surface. The croppings on this vein give an average result of $8 ounce in silver and $1.50 to $2.50 in the mint. The belief is general that the Uncle Sam is destined to develop into one of the greatest properties in the district.

CARNIVAL WORKERS WANTED.

Colonel Theaker should decide to do so the display of soldiery in the Independence Day parade will be the greatest and most brilliant in the history of the West.

The work attendant upon arranging for the Carnival is now so great that volunteer assistance is imperatively needed. The great lever with which the Carnival project has been received throughout the intermountain country, while not a surprise to the managers, has caused them to be flooded with inquiries concerning it to such an extent that it is impossible for the present office force to keep up with the correspondence and at the same time attend to the many onerous committee duties. Volunteers for committee work are therefore needed, and the right kind of men will receive a cordial welcome at headquarters.

OGDEN, UTAH, June 10, 1896.

Junction City Items.

Hall has been elected by Fred Bennion to succeed Mr. Clapp with the latter's resignation, which was accepted from Superintendent, 1892, from C. Stephens and W. J. Stephens. It is alleged that through the representation, stock in the Rich-Ogden Coal and Manufacturing company would earn 10 per cent on investment that if it did not earn the interest, the stock would be taken up by defendants. Plaintiff on these representations invested his money. The stock did not pay any interest and defendants refused to take up the stock, hence the suit.

Breath Brought Back

A Curious Case of Weakened Heart-action.

A Man Thought Who Could Not Move Without Exhaustion Within Two Weeks Been Hallow-Site Without Effort.

Harrisburg, Pa., (special)—The accompanying illustration represents a well known citizen of this place who was so prostrated by a weakness of the heart that he was unable to walk a few steps without fainting. Mr. Shoop, the subject of the sketch, is well known in this city, being a member of the firm of Shoop & Bro., druggists, and is a son of the late Judge Shoop. He says: "For years I had been troubled with a weakness of the heart, which would cause me to faint if I walked a few steps. I could not lie on my left side, or even sit down without being in a state of suffocation. I was so nervous that I could not sleep at night, and was in a state of constant fear that I would die in my sleep. I had tried many remedies, but they did me no good. I had given up all hope of ever being well again, when I read of Dr. Miles' Remedies. I at once began taking Dr. Miles' Nervine and Heart Cure and Nervine Tablets, and before I had taken two bottles I was so much better that I could walk a mile without fainting. I continued the use of the remedies for a few weeks longer, and they have cured me. I can now walk or run a mile without fainting, and I can sleep all night without being disturbed by my heart. I can now lie on my left side, and I can sit down without suffocation. I can now do my work without fear of fainting, and I feel like a new man. I cannot say too much in favor of Dr. Miles' Remedies."

Dr. Miles' Nervine and Heart Cure and Nervine Tablets are sold by druggists, or sent by mail, postpaid, on receipt of price, $1 per bottle, six bottles for $5. Nervine Tablets, 25 cents per box. Dr. Miles' Medical Book, "Nervous Diseases," sent free. Address, Dr. Miles Medical Co., Elkhart, Ind.
