Furthermore, the association reserves the right to throw out votes cast for any nonprize that seems. Thus far everything about the Salt Palace association has been open and aboveboard, and we have kept on a high plane throughout. We want to have it so and nothing will be allowed lowly grounds that is not fair and fair play. We want the people to know that the Salt Palace is there, and that it is conducted as an advertisement for our state and our city. It is no profit on surplus, and I feel sure that the public will back us up in our determination to conduct the entire affair on the best I have believed."

This, in turn, gives two tickets inside the north entrance, where they are deposited and caused a general observance of the fact with enable all to vote.
