TRUTH AND LIBERTY.

NO. 173. SATURDAY, JUNE 16, 1894. SALT LAKE CITY, UTAH. VOL. XXVII.

CONGRESS RECORD.

The Bill Defending the Lands of the Ute Indians.

PRICE ON DESERT LAND FIXED.

Editor's Free Road Amendment Lost. —The Wool schedule Discussed in Earnest.

WASHINGTON, June 16.—In the Senate today Teller asked unanimous consent to send for the House bill approving of the negotiations of the United States commissioners with the Southern Ute Indians and confirming the treaty provisions of June, 1880, for the allotment of lands in severalty, etc.

Title did not like to consent to a bill that would overrule the treaty and take away the Utes two-thirds of their land, giving in return a tract of less extent.

Teller decided to allow the bill to go over until Monday.

A bill was passed authorizing Commissioner Dennis W. Mahon to accept a medal from the Chilean government.

Another bill passed the Senate providing that the Canadian price of pelts should be $1.25 and authorizing the relanding of payments in excess.

Peffer's amendment to the tariff bill to counter all manufactures composed entirely or in part of wool to the free list was defeated—8 to 45. Allen, Kyle and Peffer cast affirmative votes.

Although announced that its would be voted aye, bill be not taken place.

The Senate then plunged into actual consideration of the woolen schedule. Gorman explained that the Finance committee had been moved to place a duty on unclean and waste in order to exclude them from the country. One of its purposes in placing wool on the free list was to discourage the manufacture of shoddy, which under the McKinley act had doubled. Last year it imported $24,000,000.

Gold and Silver.

KEARSARGE, Mass., June 16.—An immense body of auriferous ore in one only a mile wide by two long, is stated to have been discovered between Keyes and Fort Arthur, on a spur of mountain of the Canadian Pacific survey. Assays average $6 in gold and 14 in silver.

Decision Reversed.

ST. PAUL, Minn., June 16.—Judge Bunell, of the supreme court, has handed down a decision reversing the action of the lower court in the case against Father James E. Connelly, serving a twenty years' sentence in the state prison for criminal assault said to have been committed upon Ida, the adopted daughter of a Mrs. Hansen, at Tower. Conviction was secured solely upon the testimony of the girl.

IN THE INTEREST OF SCIENCE.

Blows and Friends Witness a Prize Fight.

NEW YORK, June 16.—A prize fight in the interest of science is rather a unique event, but that is what is reported to have taken place in the vicinity of Thomas A. Edison, the wizard, near Orange, N. J., last night. The mill was between Mike Leonard and Jack Cushing, both of Brooklyn, and Mr. Edison and a party of six gentlemen, all intimate friends of the inventor, were the spectators. Six rounds were fought and then Leonard put the man out with a clever right hand punch.

The preliminaries, it is said, were all arranged several days ago by Mr. Edison's representatives and a purse of $50 subscribed, all of which was to go to the winner. The fighters weighed in at 130 pounds when they entered the 12 foot ring, which had been pitched within the force of Mr. Edison's last invention, the kinetograph, which was to catch and preserve every movement of the pugilists for the purpose of reproduction later on.

It is said that some time ago Jack McAuliffe and his sparring partner taked a few rounds before the camera, but the exhibition was far from being a real fight.

FRAUDULENT TELEGRAMS.

A Discharged Messenger Boy Makes Money in His Own Way.

CLEVELAND, O., June 16.—A discharged messenger boy has been doing a land office business here during the past week on account of his knowledge gained in the service of how Western Union messages look and are delivered. His plan has been to write a letter addressed to some well known firm in Cleveland, number it in an envelope, and put charges on the envelope.

Of course the clerks will pay, and as they did not notice until the guests began to comment on the peculiar messages they were receiving, what particular messenger boy had delivered the message in question, the boy did business some time before it became necessary for him to keep in the background. A theatrical manager received a message reading: "Why did you not answer my last telegram? Number and the rest of us are all well." For this he was paid $1 cents.

Another time, a bachelor, paid 20 cents for a message reading: "Baby has cut a new tooth and is doing well. Mary."

The Western Union company has refused a refunder of these payments and is investigating the case.

THE GOLD EXPORT.

Gloom Indicating Idea it is Reaction to a Close.

NEW YORK, June 16.—The city banks have created a good deal of talk by drawing from the new vaults the $500,000 in gold which Heidelbach, Ickelheimer & Co. will ship to Germany today. Some has it that this was done at the request of the treasury department and in agreement with the clearing house banks. President Stillman, of the City bank, simply said that the bank had decided to furnish gold to any depositors who were in the gold exporting business. This action of the City bank has a reassuring effect in some financial circles, who have been watching with some alarm the growing gold shipments lately and the diminishing gold reserve of the government. It was argued that the bank had been satisfied that the gold movement Europeward was about at a final end, it had acquired from its point of view a protective policy and had parted with its protective policy. The fact that Lowell Fraser has sat down once last night on Thursday from $1,250,000 to $15,000 was regarded as indicating the end of the present gold movement. Accounts observers say that $5,000,000 more will and the shipments.

Suit for Divorce.

CHICAGO, June 16.—Suit for divorce against Charles E. Judson, president of the Economic Fuel Gas company, has been filed by Mary Hatch Judson. Unfaithfulness is charged by the complainant and Nettie Swaim is named as co-respondent.

FELL UNDER THE WHEELS.

A Boy Kicked off an Engine by a Resisted Person.

CINCINNATI, June 16.—Late today Joseph Gasser, aged 15, jumped on the pilot of an Cincinnati, Hamilton & Dayton engine at Sixth and Mill streets. Fireman Martin Wygall discovered the boy after the engine had started and ordered him to jump off. The boy pointed that the engine was going too fast and that he would get off when its speed was checked. Wygall thereupon kicked him off. The boy fell under the wheels and one of his legs was cut off at the flesh of the other split open to the hip. The boy may die. Wygall has gone to Indianapolis.

Earned a Medal.

RICHMOND, Ky., June 16.—One of the most heroic rescuing feats was accomplished by Jack Oswalt, a farmer in the Waco vicinity, last night. Six young fellos were capsized at Flint, on the Kentucky river. Their cries were heard by Oswalt, half a mile away. He first rescued one, returned and swam to shore with two, then saved two more. The sixth took hold of the boat and he could not get it. He dived and recovered the body. Oswalt will be presented with a medal.

Probably Fatal Prize Fight.

CANTON, O., June 16.—A prize fight will probably fatal results was fought at Meyers lake, near Canton, last night. The pugilists were Jimmy Carney, who claims to be lightweight champion of Michigan, and Tommy Miller, a boxer and Fort Arthur, a village outskirts of the Canadian Pacific survey. Always average $6 in gold on 14 in silver.

Decision Reversed.

ST. PAUL, Minn., June 16.—Judge Bunell, of the supreme court, has handed down a decision reversing the action of the lower court in the case against Father James E. Connelly, serving a twenty years' sentence in the state prison for criminal assault said to have been committed upon Ida, the adopted daughter of a Mrs. Hansen, at Tower.
