AFRAID OF ANARCHY

New York Money Kings Take Extra Precautions.

THREATENING PLACARDS FOUND.

Superintendent of Police Byrnes Makes a Reassuring Statement—Riot in Brooklyn.

NEW YORK, Sept. 24.—While the moneyed men of New York will tell you that they have not the slightest fear of danger to person or property from the alleged great army of hungry men now in the slums of New York, they will admit that they have taken precautions. One of the first discoveries made by the reporter was that Collis P. Huntington, the railroad magnate, and Cornelius Vanderbilt were notified quite recently by an alleged Anarchist that their new palaces on Fifth avenue would shortly be blown skyward by dynamite. One of the workmen at the yet unfinished Vanderbilt residence also discovered a card tacked upon the covered entrance to the building. The card was covered with a crawl, which declared that the time was come for the rich man to suffer for the so-called wrongs of the poor. It was very remunerative to him, for Vanderbilt believed it the work of some crank who became agitated over the recent newspaper discussion about the anarchists and their threats.

However, another card was tacked upon the house of the latest of C. P. Huntington's mansions, across Fifth avenue. Both cards were unmistakably of the same origin, and if it is really an anarchist, he is one of the most pronounced type of the disciples of Herr Most.

There are now four times as many watchmen and detectives along Fifth avenue and in the vicinity of the residences of the money kings as a few months ago. Superintendent of Police Byrnes was asked if he believed the anarchists would dare to molest the Fifth avenue property owners. "I do not intend telling," he said, "just what our plan is in dealing with those so-called anarchists, but suffice it to say that they are absolutely under control, and the Fifth avenue mansions are in no danger of destruction by bombs, I assure you."

RIOT IN BROOKLYN.

NEW YORK, Sept. 24.—The Brooklyn streets were the scene this afternoon of bloody riots, in which Italian and Irish laborers and policemen participated. Many fighters were badly injured. The Italians were preparing to knock off work on a city railroad contract, when Inspector Cassidy became involved in an altercation with Padrone Sugarotti. Cassidy knocked the Italian down twice. A dozen Italians rushed to his assistance. Told to a battle, both gangs taking sides in the melee. The men were armed with axes, spades, iron rivets and pickaxes, and a serious fight followed.

The police were soon on the scene. Four severely wounded were taken to the city hospital. Almost all the officers suffered cuts and bruises.

FROM THE CAPITAL.

The Week's Program for the Senate and House.

WASHINGTON, Sept. 24.—The Senate this week will be given up entirely to speech-making, unless the unexpected should happen. There is no chance for the material change of program unless, it should come through a compromise.

Dubois, although scheduled to speak Tuesday, will in all probability give way to Senator Perkins and will not speak till later. Perkins will suggest a compromise looking to the coinage of the American product of silver, with a duty upon foreign silver. Jones of Nevada may speak during the week and it is understood that when he takes the floor he will keep it for two or three days.

THE HOUSE PROGRAM.

The House will devote its entire attention for the coming week, excepting tomorrow, to the Vandeever bill for the repeal of the federal elections law.

Some of the Democratic members who hold chairmanships of the more important committees that were deprived of sleep by the "watchfulness and vigilance," are arranging a surprise to meet the evenings' platform. They intend to offer a bill or resolution to abolish, or at least cut down, the mileage allowance of the members. The reduction in mileage allowance would not affect the eastern members to any extent, and now they propose to see in a practical way whether those who have been conspicuous in cutting off clerks will vote to reduce mileage.

Ives the Winner.

CHICAGO, Sept. 23.—Frank C. Ives of Chicago won the sixth and last game of the series that has been contested here this week, winning from the English champion, Roberts, by a total score of 801 against Roberts's 649. Ives made a run of 152 during the evening, while Roberts's best record was 106. The contest was a sharp one until the 15th inning, when Ives made a big score and the result became apparent.

Reporters Lose Confidence.

WASHINGTON, Sept. 24.—The situation in the Senate bids to show any encouragement for those who are making battle for unconditional repeal. The repeal forces are apparently no nearer victory than ten days ago. It does not appear that they have made a convert in the Senate for two weeks, and the prospect for unconditional repeal is not so bright as when the repeal bill passed the House. The repeal senators have apparently lost confidence and the anti-repeal senators have gained all the courage they lost after the passage of the measure by the House.

No one acquainted with the Vice President and his antecedents gives the least credence to the story sent out from here that he will at given time energize Voorhees for the purpose of having the passage of the bill and cause to repeal also any one else.

INDIAN AFFAIRS.

WASHINGTON, D. C., Sept. 25.—The commissioner of Indian Affairs submitted his annual report to the secretary of the interior today. Of the fifty-seven Indian agencies now twenty-six are in charge of army officers. The estimates of appropriations for the fiscal year ending June 30, 1894, amount to $8,305,325, or $1,191,014 less than the estimates for the current fiscal year. The total number of pupils enrolled in the Indian schools is 21,136. Six new training schools and various boarding schools were opened with inroads of about $60,000. A profitable irrigation system will be established on the Navajo reservation in Arizona. Over $3,000,000 was paid to Indians, other than the five civilized tribes, during the past year for the tribes on their lands, treaty stipulations and other debts. Appropriations for the services for the fiscal year 1894, amount to $7,893,932.

MURDERERS MURDERED.

WASHINGTON, Ind., Sept. 25.—It is stated that the murderers of the Wrightsman family have been traced to a large swamp. Thirty-six hours of hard and a hot-bed men from Harrison township, where the Wrightsman lives, have surrounded the swamp.

Most Foul Murder.

NEWTON, Ia., Sept. 24.—Samuel Bagkly, aged 84, and his wife, Hannah, aged 81, were brutally murdered in bed last night and the house fired to cover up the crime. Deep gashes on their face and heads showed as if a hatchet had been used to do the bloody work.

A DYNAMITE OUTRAGE.

Sam-Cuban Sailors Given to Flames in San Francisco.

SAN FRANCISCO, Sept. 24.—One of the most heinous crimes in the annals of the city, which resulted from a long-standing feud between union and non-union sailors, was perpetrated last night. Shortly after midnight the southern part of the city was shaken by a terrific explosion. A dynamite bomb had been fired in front of a water front boarding-house filled with non-union sailors.

Six of the inmates were horribly mangled. Two of these were instantly killed and others may die. By whom the bomb was fired is not definitely known, but the owners directly charge the deadly deed upon some of the members of the seamen's union. One of the suspects in the case is John Tyrell has been arrested.

The entire front of the boarding house was torn away, carrying the front of the adjacent structure with it. The men were thrown from their beds across the street. The sidewalk where the explosion took place was ripped into atoms. A black hole, with smouldering beams about it, showed where the bomb blew up. Four stunning victims lay in the street near by. Beside them were two corpses, stripped of nearly every bit of clothing. They lay in blood and cinders.

The killed and wounded are as follows:

Dead—George Holmes, Brick McGinness, Wm. J. McKenzie.

Fatally wounded—Charles Owen, Ed Murphy, John Cotton Jr.

Attempt at Safe Robbery.

VALPARAISO, Ind., Sept. 25.—Two men made an attempt to rob the safe of the Northern Indiana normal school tonight. They were chased and fired shot, one died and the other seriously wounded. The dead man is C. E. Robinson. The wounded man, who was lodged in jail, is C. E. Moody. The men entered the banking office of the college at 8:30 and covered the young lady secretary and assistant with revolvers. The girls knocked the weapons from the hands of the men and ran screaming down stairs.

The robbers realizing that their efforts were frustrated ran out of the building through the campus and down the Fort Wayne tracks, followed by a yelling mob of students to the number of fifty a thousand.

WOULD MURDER A GENERAL

The Cowardly Attempt of a Notorious Spanish Anarchist.

Great Excitement in Madrid—Powerful Explosives—A Narrow Escape.

BARCELONA, Sept. 24.—An attempt was made today to murder General Martinez Campos, ex-president of the council, who made the military pronunciamento which gave the throne of Spain to Alfonso II. General Campos was present at the review of troops, commanded by a brilliant staff. He watched the maneuvers and seemed highly pleased. Many thousand people had gathered to witness the review. The troops had commenced to march past, when a wind looking man pushed through the crowd, point what appeared to be a ball from his thumes packet and throw it at General Campos. He quickly drew a second ball from an inner pocket. A man in the crowd struck the bomb thrower's arm just as the second bomb missile was thrown and it exploded among the staff officers close to the general. The man who threw the bomb was seized and thrown to the ground. The first bomb exploded right under the horse upon which General Campos was sitting, shattering its legs and beating upon the body. The general fell heavily, and it is thought he sustained internal injuries. However, he was only partly stunned, and was staggered to his feet, when the dust and bomb from his brilliant, mounted his horse of an aide-de-camp and calmly ordered the review to continue. But the excitement was too much for the veteran. Suffering from the loss of blood, he was called to allow his staff officers to assist him out of the saddle. Meanwhile, the wind was attended by charges, who tried to persuade him to leave the field. The general laughed at the suggestion of the officers and, entering a carriage, had it driven to the front of the reviewing point and then the march continued, the crowds cheering the general with honors.

The name of the bomb thrower is ascertained to be Pallas. He is known as a notorious anarchist, and when questioned concerning the crime sullenly admitted that he intended to kill General Campos and staff.

The news caused great excitement in Madrid and the review which was to have been held there in honor of the birthday of the Queen presumptive, Infanta Doña Maria de la Soccorro, was postponed.

The bombs used were large iron spheres charged with dynamite, and the explosion was so powerful that it broke the windows in houses a long distance from the reviewing point and caused a stampede in which many persons were injured.

Germany's Succession.

BERLIN, Sept. 25.—Prince Bismarck is still said to be improving, but the question of a change of residence is yet undecided.

A Valuable Manuscript.

BERLIN, Sept. 25.—Dr. Hockwalt of Leipzig has discovered among the forgotten manuscripts in the University of Jena, Martin Luther's political correspondence the theological faculty of the University of Louvain, Belgium, which manuscript was supposed to be lost.

ANARCHISTS IN VIENNA.

A Widespread Conspiracy said to be Spread in the bud.

VIENNA, Sept. 25.—Anarchists of Bohemia have undertaken an entire campaign. Anarchist pamphlets are scattered broadcast and violently worded placards are posted about the city. The police learned where secret meetings were held, surrounded the house, broke in the door and arrested the assembled. The detectives searched the building and found a printing press, piles of paper, a large supply of type, and loads of anarchist pamphlets, ready for distribution. In the cellar were cases filled with dynamite and a large chest full of bombs, ready for bolting and with all the necessary explosive chemicals to hand.

Among the things found in the anarchist strongholds were coats with leather facings, to which hooks were attached for carrying bombs.

THREE MORE BOMBS CARRIED OUT.

VIENNA, Sept. 24.—The arrest of anarchists here continues. Papers found upon the men in custody show that the anarchists are intimately connected with the anarchists of England and America, and the bombs now in possession of the police are made exactly according to the rules laid down by Herr Most.

A Russian Gunboat Lost.

ST. PETERSBURG, Sept. 24.—Fragments of woodwork, boats and other wreckage have floated ashore to the Gulf of Finland, showing that the Russian warship Pamiatko, with his officers and 150 seamen, has foundered not all hands lost. The body of a sailor, supposed to have belonged to the crew, was washed ashore and it is so was that severe gales swept over those waters soon after she left port.

Applications for Relief.

LONDON, Sept. 25.—The applications to the lord mayor for relief are already ten per cent greater than last winter, consequently it is urged that a system of national relief for the unemployed should be organized. The statement is being made that if the government could raise £300,000 per year for the Irish, it surely can raise £1,500,000 or £2,000,000 for the starving people of England.

5.—It is doing its utmost to establish home industries, among which are paper making and type-founding, stereotyping and electrotyping—branches necessary in the development and to independence of the community, but which, during their infancy (which in this Territory they have now passed), can only be carried on at a pecuniary loss.

6.—There is no danger of any subscriber to the News failing to get what he subscribes for through failure of the trains and a suspension of the publication—a month in the case of hundreds of subscribers receives every mail.

7.—It is printed in readable type, so that even the aged eye peruses it without difficulty or danger to their eyesight.

8.—It is free from objectionable advertisements, so that no person need fear that his children will have their minds corrupted from having access to it; in fact, it refuses thousands of dollars worth of the best paying advertisements offered, because it is devoted to the moral and spiritual interests of its readers instead of to getting gain at their expense.

9.—Its tone is not regulated by public opinion nor the hope of gaining subscribers or advertisements. It advocates that which is right and condemns that which is wrong, regardless of results, financial or otherwise.

10.—It never assumes its readers by padding off columns of self-praise for news items.

11.—The News practices no deception and resorts to no subterfuge to induce people to subscribe; but on the contrary, prefers to stand on its own merits, as the people's newspaper, with a promise only to do its utmost to give its patrons the full value of their money—a promise which it has endeavored to faithfully keep in the past.

12.—In conclusion, if a Latter-day Saint can afford to subscribe for only one newspaper, that paper should be the DESERET NEWS; and if more than one, the NEWS should invariably be the first.
