The news of the shut down had a bad effect on the stock yesterday afternoon, but there was no cause for any alarm. Through some means the mine was almost out of coal when the engine was temperarily disabled and a shut down of a few hours at the mine was unavoidable. A telephone message from the mine conveyed the information that everything is working smoothly

LEFT FOR THE ELY MINE.

Supt. W. H. Wickham Will Give At tention to the Details Once More.

Superintendent W. H. Wickham of he Ely mine at Ely, Nev., left for camp today, after being away from the mine for the past two weeks on account of the death of his wife. During that time Mr. Yearsley of the Butter's La-boratory has been acting as superintendent. Secretary Lynn received a report from the mine yesterday which states that the mill is handling about fifty tons of ore per day, the value of which runs between \$18 and \$20 per ton. Everything is said to be very satisfactory through some more experimenting will doubtless be necessary in order to attain the full standard of excellenc. The initial shipment of cyanides is expected about the 10th inst.

SEVEN DEVILS SHIPMENT.

First of the Season Reached Salt

Lake from This Idaho Camp Today. The first consignment of ore from the Seven Devils country, Idaho, this year, reached the Sait Lake market today. The lot consists of 5 cars of high grade copper ore and was shipped by the Boston and Seven Devils Company. The ore is bought by J. C. Griffittes who was first to secure the shipments for this market. It will be followed by other shipments and it is probable that the Blue Jacket will shortly appear among the shippers from that district. Some excellent ore was shipped from this mine last year, but the mass of the ore is too low grade to ship to this market. The company is sinking to the 300 foot level and expect to continue un-til the water level is reached, which will be below 400 feet. Development from the main shaft is in levels 65 feet long in each direction on the 100 foot level. On the 200 foot level each of the

drifts is 100 feet long.

The ore body is 50 feet wide throughout, though values are low except in eight feet of the ore, where there is from 9 to 10 per cent copper and an average gold value of \$7 a ton. Conservatively estimated, the ore is worth \$25 a ton in gold and copper, and those about the mine estimate that there is between \$50,000 and \$60,000 worth of it on the

BOUNTY ON LEAD.

Mine Owners of the Kootenays Desire \$5 per Ton for Lead Refined.

The Nelson, B. C., correspondent of the Spokane Review, says the largest transcontinental delegation that ever left the Kootenays for the east will assemble at Kootenay landing and em-bark on a Canadian Pacific palace car for Ottawa this week.

The promoters of the delegation fig-

ure on having not less than 30 promi-nent mining and business men as accredited representatives of the mining and commercial organizations throughout the district, and their mission is to impress upon the federal government the necessity of extending to the min-ing interests of British Columbia a measure of encouragement similar to that extended to the steel industry in he east, which is bonused to the tune f millions per annum.

A special effort is to be made to procure a bounty of \$5 per ton on pig lead mined and refined in Canada. It is maintained that a subsidy of this description will cause the erection of a Canadian retinery and bring about a solution of the difficulties hampering the development of silver-lead camps. The proposition is heartly backed by every element in the country, the last interest to fall into the line being the miners' union, James Wilks, president of the union, acting as spokesman for the organization.

Returns From the Yankee Con. Secretary A. T. Moon of the Yankee Con. came in from Tintic today and reports very favorable indications in

the face of the drift and also in the upraise from the tunnel level. It is the opinion of Mr. Moon that ore will be encountered almost any shot.

Up Nearly Seven Points Over the Closing Yesterday Afternoon.

Majority of Stocks Showed Small Opening Changes Either Way-Big Deals in Erie.

New York, April 3.-The majority of stocks showed small opening changes either way, but there was excited trading in a few stocks, Burlington sold at 181 to 181% for 6,000 shares, compared with 179% at last night's close. Nothern Pacific also opened wide at an extreme advance of % and Amalgamated Copper was run up over a point, On the other hand, Rock Island broke 11/2 below last night's closing on running sales of 3,000 shares and Manhattan and Metrepolitan broke 1% and 14 respectively. United States Steel stocks yielded a fraction on heavy deatings. Prices were nclined to sag in sympathy with the weakness of the tractions, but the losses only reached a point in Delaware and Hudson. Texas and Pacific and Western Union before bull manipulation of Burlington and some of the spechaltles pulled many stocks up. Bur-lington rose 61% to 185%, and Northern Pacific advanced simultaneously to 98% Rock Island raffied 1%. Gains of 1 to 3% were also made by Northwest common and preferred, Sugar, People's Gas and Consolidated Gas. Manhattan railied to o and Louisville extended its rise 24. This decided exhibition of strength falled to benefit the coalers Southwestrns or steel stocks to any extent. U. S. Express brake 5 points. The strong stocks were lower to the extent of point or more in some stocks before 11 o'clock. The execution of enormous purchasing orders in Eric common, ranging from 1,000 to f.000 shares, infused strength into the coalers and a sensational rise of 10 points in Deleware and Hudson revived rumors of New York Central lease with a guaranteed

dividend. The trunk line stocks ad-vanced vigorously and some of the less prominent stocks were in demand. Lackawanna rose 4½ points, Improvements reached 7 to 2 points in Eric, N. J. CHICAGO MARKETS.

Geo. H. Phillips Passes a Crisis in His Board of Trade Career.

Chicago, April 3 .- George H. Phillips, whose daring operations in grain have made him the cynosure of all speculaive eyes interested in the local market. a crisis in his career on the poard of trade today. He was driven from the wheat pit, the weakest of his lefenses, but stood firm behind the breastworks of corn and oats he has thrown up during the past few weeks. Monday a call for additional margins was made and the young speculator put up \$220,000. Yesterday it was reported hat an additional call would be made oday, and that a tremendous on-slaught, calculated to force him to the would be made by big operators. At the tap of the opening gong the attack came. Phillips produced \$200,000 additional margin money in response to the second call. Severely pressed he retreated from the pit after selling 1,500,000 bushels of May wheat at a loss which will probably average 1½ cents per bushel. May wheat opened ½ to 1% cent under Monday at 73% to 73 under the deluge of sales but steadled at the decline and reacted to 731/2. The corn market, in which Phillips is said to be interested to the extent of eight or ten million bushels, broke % to 1% cent at the opening, selling simultaneously from 42% @42. The volume of business during the first ten minutes was normous but the market received spirited support from the young bull leader who absorbed heavy lines through brokers. Weak longs scrambled to get a crumbling market, but others rallied over, trade became less excited and Maorn worked gradually back to 43. oats the attack was also etremious by Phillips, holding a line estimated 00,000 bushels, defended himself 5,000,000 bushels, ith great spirit and the opening 4 cent was nearly all recovered dur-

BOSTON WOOL MARKET. Boston, April 2.—With a much better demand and with larger sales, the wool market here had a better tone this week than for a year past. The market appears to have settled down to a firm basis, and there is a feeling that values cannot be forced any lower. Holders of wool are not as anxious to sell as they not got to the point where they are pre pared to pay any advance. The bulk of the trading was in three grades, and these wools are in good demand. For fine medium and fine scoured staple 40

@43 cents is asked, while strictly staple lots call for 45@46 cents. Quotations: Territory, scoured basis

STRUCK IT RICH. An Idaho Convict Makes a Fortune From Idaho Oil.

Ray Gardner, who is very well known n this section, is said to have made a fortune in oil in California. He was in Boise some time ago, leav-

ing for the oil fields about a week since. The fact of his making a fortune there was disclosed yesterday, says the Boise Statesman. There is an interest-ing history in connection with Gard-ner. It will be remembered that Gardner was sent to the penitentiary com Ada county, serving a term of two cears for forgery. I'pon release he wen o Mr. Moseley, who was sheriff when he was sent up, and asked for some

by shorts and buying for a turn caused | work. He was allowed to do odd a rally from this to 42%. The closing jobs for the sheriff for his board. In price was 41%, 1740 under Monday's a week he told Mr. Moseley that Sher. man Coffin had given him \$5 to assist

couple of weeks ago.

About the middle of last month a well di ssed and nice appearing stranger caued at the Moseley residence and asked for Mr. Moseley. Being told he was not at home, he asked Mrs. Mose ey if she knew him, and her surprise was great when he said he was Ray

Gardner.

He said while here in talking with old friends, that he had gone from this city to California. After trying to secure work at different places he at last succeeded in getting a place at a placer. nine, doing very well, though working or wages. Then the oil excitement ame on and he drifted into the "fields." for wages. Work was plentiful, so he had no trouble in making a living. A little ater he secured a Every day after that this land increase n value, with oll being struck on all sides. He could not work it, but would net sell. Prices kept going higher and higher, till at last, some months ago, he was offered, he stated, \$350,000 cash for the land. He concluded to let it go,

and sold for that price.

Gardner gave no intimation while here of what he should do in the future, but said that the money would put him in ease for the future, and hat he intended so investing it that there would be practically no possibil-ity of loss. He has a number of friends here who will be pleased at his success.

····· WARD ENTERTAINMENTS.

TENTH WARD. The Tenth ward Sunday school fair

opens tonight with the charming operetta "The Sleeping Queen," by a local company under the direction of Prof. W. E. Clive. Tomorrow night there will be a miscellaneous program given by numerous well known artists, while something called Symons' Circus will be given as a matinee tomorrow afternoon. Friday night will be devoted to a character ball. These special fea-tures are given in addition to the regutures are given in addition to the regular attractions in the shape of exhibitions of novelties of various kinds, many of them the workmanship of Sunday school members. Prof. Mutch will give an exhibition of character reading on Friday night, and will read on scientifle principles, the characters of those who wish to "know themselves." Several novelties of a somewhat mysteri-ous nature are billed for each evening, ronage. A special attraction will be the taking of photographs, especially for the character ball. For this pur pose C. W. Symons has offered his ser vices, and fine pictures will duced at slight cost for all patrons that desire them.

You will waste time if you try to cure indigestion or dyspepsia by starving yourself. That only makes it worse when you do eat heartily. You always need plenty of good food properly gested. Kodol Dyspepsia Cure is result of years of scientific research for something that wuld digest not only some elements of food but every kind. And it is the one remedy that will do it. F. C. Schramm.
