SENATE.

Resolution referred and bill defeated

WASHINGTON, 22.—The resolution lately introduced by Howard, looking to the acquisition of the British North American possessions, west of Hudson Bay, through the high commission to assemble in Washington, was referred to the committee on foreign relations.

Rice's bill for a new judicial district in Western Arkansas, was discussed and defeated by a vote of ayes 22, nays 24. The result was regarded as the expression of the Senate, averse to any action at the present session upon a dozen similar measures for the creation of new judicial districts and the appointment of additional United States district judges.

WASHINGTON.

Williams, G. W. Spenser, L. J. Higby, W. C. Kimball, and all such persons who shall or may be associated with them and their successors. It requires the corporators to meet in New York within ninety days from the enactment of the bill, to open subscription books, and organize the company when two millions of stock is subscribed and twenty thousand paid in capital. The company is limited to fifty millions, unless Congress authorizes an increase. Purchase of and consolidation with any existing railroad companies on the route, with all their franchises and land grants, is authorized, though forbidden with any competing line to the Pacific, and the right to purchase or accept State or individual grants of land for legitimate purposes. The company is conceded a right of way of four hundred feet wide, through the public lands, and forty acres of land, wherever necessary, for station purposes; together with twenty alternate sections per mile of public lands through the Territories, and ten sections per mile in California, which is granted with the provision that the land shall not be sold within three years from the completion of the entire road, and shall be subject to settlement and pre-emption at not over two dollars and a half per acre. Construction bonds secured by mortgage on the road, rolling stock and franchises; and land bonds, secured by mortgage on the land grants, are authorized. The construction of the road will be begun at both ends. Land patents will be issued on the completion of every twenty miles, and the entire road is to be finished in ten years. The company can only use steel rails, manufactured from American ore, except that already purchased to be used. The government is to have the use of the road on the same terms as private individuals, and to have precedence in its service; and Congress has the right to fix the passenger and freight traffics, though they shall not exceed those of the Central and Union Pacific railroads. Full liberty is given to other companies to connect and intersect with the Southern Pacific, and the latter is forbidden to discriminate in favor of, or against any such companies. The directors of the company are forbidden all share or interest in contracts for the construction, equipment or running of the road, and any such existing contracts are annulled.

OHIO.

Republican organization.

CINCINNATI, 22.—The Secretary of the *Freres de La Republique Universelle* of this city has received a letter from the President in Hungary, ordering him to hold his command in readiness for immediate action. The order may arrive by the next mail. The society numbers nearly seven thousand in the United States. Louis Blanc, Kossuth and Guiseppe Mazzini are the leading members. The headquarters are in Leicester Square, London, with branches in Vienna, Berlin, Paris, Naples and Florence. The President in the United States is said to be ill, in New Orleans. It is reported that all their dispatches are sent in cipher.

The Senate discussed the centennial celebration bill without action, and laid it aside to take up the Indian appropriation bill in committee of the whole.

A number of amendments, reported from the committee on appropriations, were afterwards disposed of.

ILLINOIS.

Political.

CHICAGO, 22.—The Michigan Democratic State Convention, held at Lansing, yesterday, nominated candidates for Associate Justice of the Supreme Court and for Regent of the University. For Associate Justice, Darwin Hughes, of Marshall, was nominated by a large majority on the second ballot and the vote was then made unanimous. For Regent, J. M. Sill, of Detroit, Michigan, was nominated on the first ballot. A resolution was adopted, declaring allegiance to the Constitution, favoring a strict party organization, declaring against the corruption of the administration and against the use of U. S. troops at elections.

VIRGINIA.

Fire—Dead.

RICHMOND, 22.—A fire in Petersburg, last night, destroyed two buildings occupied by J. T. Morris, furniture dealer, and R. A. Martin & Co., commission merchants. The latter contained 800 bales of cotton, of which 500 were destroyed. The loss is $80,000; insurance $60,000.

Josiah L Lyon, colored, a member of the Virginia Senate, died this morning in New York.

NEW YORK.

Suffocated by Charcoal—Arrived—Extensive Fire.

NEW YORK, 22.—This morning seven firemen on a ship at pier 10, North River, were suffocated by burning charcoal in a close room. Five are dead, and the others are in a hospital, with little hopes of recovery. All are natives of Scotland.

The steamer Cuba arrived late this afternoon with most of the British members of the high commission.

At a fire early this morning on the second floor of a four story brick building, at 29 Beekman Street, the interior of the building was destroyed with a large amount of goods; damage $30,000.

While the fire was at its height, flames were seen rising from the centre of the block bounded by Fulton, John, William and Gold streets, and it was soon discovered that a four story brick building, in the rear of No. 130 William street, and No. 42 Gold street, was a mass of fire from the basement to the roof. Before a single stream could be brought to bear on the flames, smoke was creeping through the front windows of the wholesale drug store, No. 130 William Street, and it seems likely that the whole block will be burned. The heat is intense and the coal in the yards of J. W. Mason, in the rear of No. 42 Gold street, is all on fire. The extensive machine shop of A. Bartholf, 33 to 43 Gold street, is also in danger. The loss will not be less than $100,000.

The orders from the navy department to fit up the *California* and the sloop of war *Narragansett* to proceed to sea at once from San Francisco, to join the Pacific squadron, were yesterday countermanded by telegraph from the Secretary of the navy, and they are awaiting further orders. The *Narragansett* is to be relieved by the corvette Ticonderoga.

FOREIGN NEWS.

GREAT BRITAIN.

Turkey recognizes the French government—Rumored signing of peace—Armistice prolonged—Refuses to pay contributions—Assault upon Seward and party.

London, 21.—China papers, received by overland mail, report an assault made upon Seward and his party during their visit to Woo Chang.

LONDON, 22.—Paris journals of yesterday are to hand. The *Siecle* says M. Remsat is appointed ambassador to London, and will also represent France in the Black Sea conference. The missions to Florence and Vienna remain as at present. Some French frigates have been sent to Corsica, for the purpose of repressing possible disturbances.

Senor Olozaga comes to Paris as Spanish Minister.

The proposition for the neutralization of Savoy is under discussion by the government, as are also commercial treaties with other countries.

VERSAILLES, 22.—The official *Moniteur* says France must decide on war or peace immediately. Delay deteriorates Germany. France has long known the conditions on which Germany is ready to conclude peace. These are based upon injuries formerly inflicted and guarantees for the future. Compared with the injuries the demands are moderate, and a longer delay will make harder conditions. We hope this is understood at Bordeaux. If the German terms are rejected, the war continues.

LONDON, 21.—A dispatch from Havre says Alencon, refusing to pay the fresh contributions, the Mayor and ten councilors were taken hostages.

LONDON, 22.—In consequence of negotiations between Favre and Bismarck yesterday, during which Bismarck consulted the Emperor several times, the armistice is prolonged until Sunday evening.

A dispatch from Lille, to-day, says it is rumored that peace is signed, and that Alsace and Lorraine are neutralized. Business is improving.

The Queen has approved of the appointment of Livermore as U. S. consul at Londonderry.

The *Times* says the New York committee sent yesterday £10,000 to the suffering people of France.

The Porte has recognized the French government.

Faidherbe's troops continue to embark at Dunkirk for Cherbourg.

FRANCE.

Trochu condemns the entry of Germans into Paris.

PARIS, 21.—The removal of the government to Tours or Blois is much talked of, but it is believed that after peace the Assembly will prorogue its sitting, to meet at Paris when re-assembling. A letter from Trochu condemns the entry of the Germans into Paris. It deserved the honors of war. He advises to shut the gates and let the enemy open them with cannon.

Thiers and Favre go to-day to Versailles.

LONDON, 22, AMIENS, 21.—A proclamation by Chanzy urges the troops to put the time they are forced to rest to profit and prepare to resume the struggle *a l' outrance*, if arrogant claims are demanded.

The *Rappel* says the treaty of peace may be communicated to the Assembly on Saturday.

BREVITIES.

They are discussing in London whether a late fire there was caused by shocked lines.

"Do you enjoy good health, Zachary?" "Why yes to be sure; who doesn't?"

It turns out that the woman who hasn't spoken to her husband for twenty years never had one to speak to.

A reason why a piano was not saved at a fire was because none of the firemen could play on it.

"Sam, how many logs have you sawed, eh?" "why ma'm, when I've got this and three others done, I'll have sawed four."

An avaricious man, after having kindled his fire, stuck a cork in the end of the bellows to save a little wind that was left in them.

An Indianapolis lawyer recently collected three dollars for a client, and charged him five dollars for his service.

John Calvin wanted for a wife a lady who was sweet, chaste, modest, economical, patient, and careful of her husband's health. None other would suit.

A very penurious lady was so affected by a charity sermon, on a recent occasion, as to borrow a dollar from her neighbor and put it in her own pocket.

We are told "the evening wore on," but we are never told what the evening wore on that occasion. "Was it the close of a summer day?" asks an exchange.

A Florida man lately offered to fight an alligator with a butcher-knife for $500 a side. As the challenge has been open a month, and no alligator has come down with his money or an acceptance of the challenge, the man claims to be the champion alligatorist.

A rough Western Pennsylvanian once said of the late John Covode: "Behman!" much learning, but he knows a heap." The criticism was shrewdly correct. There is another class of men who are the exact opposites of Mr. Covode. They have a heap of learning, but don't know much.

A would-be school-teacher in Alabama recently replied to a question by one of the examiners, "Do you think the world is round or flat?" by saying: "Well, some people think one way and some another, and I'll teach round or flat, just as the parents please."

A quaint old gentleman, of an active, stirring disposition, had a man at work in his garden who was quite the reverse. "Jones," said he, "did you ever see a snail?" "Certainly," said Jones. "Then," said the old boy, "you must have met him, for you never could overtake him."

A traveller asked an emaciated Georgian if the climate of the rice swamps is unhealthy. "Well, no," replied the loyal native, "taint unhealthy; we have the fever and ague all the time in these parts, but then we enjoy a powerful underflow of health."

"Pray bestow your charity, young gentleman, on a poor blind man," said a beggar to a person passing by. "Why you are blind, my good fellow, how did you know that I was young?" "Oh! sir, I made a mistake," said the beggar, "pray give a trifle to a poor dumb man!"

There is a remedy for croup going the rounds, which may, perhaps prove efficacious. It is simply allspice tea, the tea being made of whole grains of allspice. According to all accounts, it gives almost instant relief in cases where other remedies have failed, and seems at once to cut the phlegm loose and relieve the child.

At a school in Green county, Iowa, the scholars caught a skunk and put it in the schoolmarm's desk, thinking she would smell a mice and give them a holiday. She wasn't one of that kind. She took a spring clothes-pin and fastened it on her nose and went on with the exercises, and let the scholars enjoy the perfume.
