This winter they will complete the work for a list of 2,000 relatives, and will then commence upon another list of 2,000 names of their ancestors, which they have collected, among whom were the famous Revolutionary Hancocks.

FARMINGTON.

Farmington, Feb. 10.—The second winter session of the Davis Stake academy of this city was a great success. In addition to the more advanced in years to whom special attention was given, all above 16 were also invited as well as the sickly, orphans, the halt, lame and blind. The attendance slightly held filled the air with music, and the happy faces of veterans were all brought to the mind by the sight of the Nonesters of young men attended to this part of the proceedings. The hall was tastefully decorated and photos of the founders of Farmington, whose life's labors were coupled, embellished the walls. The Bishop, led by Captain Cottrell, discovered stirring music both outside and inside of the hall. The old Fiddler's convention, consisting of H. Clark, David Hess, E. A. Cottrell, Lucy Sanders and Emmeline Boyce, with their several musical instruments, mingled to provide the creature comforts without which such gatherings would be incomplete. Dancing duly timed and stated from 11 a. m. until 5:30, when the more aged were carefully taken home to their homes, the continued the fun until midnight. There were present of the Old Folks' Central Committee Esther Knight and Savage, with their wives, the presidency of the Stake and invited guests. Old time music, old time dances, were the features which prevailed. Everybody was made to feel at home. Plenty of refreshed and social chat made six hours pass away more joyfully than any six hours enjoyed for the past six months by the old folks.

BRIGHAM CITY.

Next Sunday and Monday the regular quarterly conference of the Box Elder Stake will be held in this city. Saturday, this city, at which, if the weather is favorable, there will undoubtedly be a large attendance.

The evening was spent in social conversation and a bountiful repast was provided. Mrs. Angie Vance, in behalf of the association, presented her, but with an engraved portrait of President Snow, to which Mrs. Valentine gave a feeling response. Mrs. Valentine was formerly a counselor to the Stake presidency of the Y. L. M. I. association, but on account of ill health was forced to resign at the last conference.

FARMERS' INSTITUTE.

During the past week A. H. Ricks has been holding correspondence with Professor Tanner of the Agricultural College of Logan relative to holding a farmers' institute in this city some time during the present month. As a result of these communications it has been decided that an institute will be held in this city February 24th and 25th, under the auspices of the Agricultural College and the following program is expected to be carried out:

The faculty from the college, about six in number, will reach this city Thursday evening, at which time a meeting for the general public will be held in the tabernacle. The meeting will be addressed by Professor Tanner, one or two local speakers and by the Governor of Idaho. Friday morning there will be some good singing between the short addresses. The two following days, Friday and Saturday, will be devoted to the interests of the general farmer, dairyman and horticulturist—two meetings each day—the speakers to consist of the professors from the college as well as local speakers, after which there will be ample time for asking and answering questions, and to short discussions of the subjects previously treated upon. Music will also be interspersed between the speeches.

The following local program is expected to be carried out:

Dry Farming ..... W. S. Hansen
Dairy Interests ..... Dr. R. White
Alfalfa ..... John P. Holmgren
Short Lectures ..... J. M. Jensen
Fruit Packing ..... C. W. Knudsen
Peach Culture ..... A. H. Ricks

Besides the above the college speakers will give some very interesting talks on various topics.

It is also expected at this gathering to organize a farmers' union and perhaps a horticultural society for this county.—Box Elder News.

SPRINGVILLE.

Special Correspondence.

H. J. Mortensen of Spanish Fork has filed a petition in voluntary bankruptcy with the court at Provo. It is not known whether his lumber mill at Lake Creek is included in the assets, but creditors are planting suits against him. His assets are over $5,000 and liabilities over $3,000.

On Monday evening the city fathers made nightly tales on the subject of water rates, water meters, electric light, etc. The gentlemen evidently are alive to the city's needs, but we venture to say that just how to overcome the propaunish scruples of an element of strict-conservative tax payers here is a problem some of them can solve.

Last Sunday afternoon Drs. Stuart and Dunn, assisted by Dr. Slater of Spanish Fork, completed the operation upon Mrs. Erastus Thorn. The doctors removed about 20 large gall stones from the gall bladder, some of them being large as pigeon eggs. The patient rallied quickly from the effects of the operation, and has suffered no pain at all since, and is in a fair way to make a quick and complete recovery.—Independent.

Senator Rawlins has visited the interior department to urge action upon the memorial of the State of Utah Legislature, asking that Fish Lake and adjoining lands in Sevier county be set aside for a forest reserve park.

R. A. Noyes, the most man, was the victim of a painful accident Sunday morning at 11 o'clock. While at work in his office he fell from a table, bruised his face fearfully and bled for a time. At the other eye is also black and blue, but Dr. Griffith, who is attending him, believes sight will be completely restored in both eyes.

OTTER CREEK RESERVOIR.

W. H. Clark, J. A. Rich and Simon Christensen returned last week from their trip to Salt Lake, where they went to see what could be done by way of water association for Otter Creek reservoir. They were disappointed in finding out that under the present laws the reservoir cannot be built very conveniently received by all whom they met.

The gentlemen interviewed several of the legislative members and received suggestions as to the manner in which amendments to the existing laws could be made to meet the case. Acting upon these suggestions, after their return, they have drafted a section to be added to the irrigation laws, providing for the payment of the money donated by the United States government to the State of Utah can be used to assist the building of reservoirs and canal systems, owned and operated by bona fide residents adjacent to them. It is proposed that when a reservoir is completed it shall be examined by the State engineer, and if accepted the State shall donate a certain portion of its lands by or near the enterprise for the purpose of helping the industry above, at least of the cost of construction.

One of the most pleasant evenings ever enjoyed by the members of the A. O. U. W. lodge of this city was that of last Tuesday evening.

THE LODGE SURPRISED.

There was a good attendance, and anticipating this the women folks made up a bountiful repast, some fun and pleasure at the expense of their husbands. It was planned to surprise them just before adjournment, but they were on hand. When the watchman responded to the alarm at the usual hour his lodge was nowhere near any and he hastened back and told the brethren to jump for their lives.

The expected surprise was without a chet, for with the ladies came invitations (?) to Test. Unfolding these envelopes, the ladies soon fished out their goodies, and ordering the men to be seated, presented each with a plate of sandwiches and delicate relishes and a cup of coffee.

After hands, there were short and humorous remarks by several of the members. Mr. Durkee gave a sketch of the organization of the order, of its order, and outlined its purpose and objects. For the benefit of the ladies he gave participation in the degree of home branch of the order and showed how it was of great assistance and benefit to the order.

After a number of lodge songs by the crowd the meeting was adjourned.—Advocate.

DESERET.

The teachers of Millard county met at Deseret last Saturday. Prof. N. A. Nelson, of the B. Y. A., gave two lectures, one on "Reading in the School," the other on "Reading in the Home."

Prof. Nelson says that good oral reading requires effort and a desire to be understood. The reader should have the teacher's having a clear conception of what he is reading. Thought, not words, is the object of reading, but this can be gained only after words and their meanings are understood. Not every faculty can have an organ, but almost every faculty can have a good reader, who can make home and home life happy. Reading is adding to gain access to the free and thoughts of great doers and thinkers.

Prof. Nelson will come down to Millard county again in four weeks and Deseret being near the railroad has selected the next meeting place.—Millard Progress.
