TELEGRAPHIC.

INTO THE MOUNTAIN.

Caves of Gigantic Size and Fantastic Architecture.

DISCOVERED BY PROSPECTORS.

Steps Taken to Lay These Wonders of Nature Open to the Public.

SAN DIEGO, Calif., Oct. 13.—A party of prospectors a short time ago discovered a series of caverns in the rocky sides of Cajon Pass, a spur of the Cuyamaca range, the extent of which they were unable to ascertain, having no lights with them. Subsequently a party was organized for the purpose of exploring the caves, which were found to rival the mammoth cave of Kentucky in interesting features as well as in the size of its chambers. There are several external openings from south of where a vertical scarp is made into a chamber with several in ends opening to other chambers, some of gigantic size. The rocks and floors are ribbed with stalactites and stalagmites, and although the interior caverns were entirely it is apparent that a wonderful discovery has been made. Other passages leading in various directions into the heart of the mountain were traversed for considerable distances and several mineral springs of strong saline qualities were found.

Steps are being taken to secure title to the land of which the caverns were found, which is still vested in the government. A company will be organized to thoroughly explore the caverns, which are said to be of immense extent, and lay the wonders of the mountains open to the public.

Women Name Candidates.

SAN BERNARDINO, Calif., Oct. 13.—The women of San Bernardino held a convention and nominated a full county ticket, embodying candidates from the four towns in the field. It purports to be nonpartisan, but the Democratic element predominated and candidates were chosen with that qualification in view.

On November 3d an election will be held to all the precincts of the county, and the women will turn out in force to elect their men. The convention consisted of sixty-five delegates and was conducted in a creditable manner. A dispute arose as to the nominating platform but was soon settled. Many stirring speeches were made and all the delegates were on the qui vive of ecstatic delight.

He Goes Breathless.

CHICAGO, Ill., Oct. 13.—The Reichs Anzeiger, the leading German paper of Germania Iowa, today denounced Dunnemann and swore out square for the 8 pot-and-tinsel. George Herbert, the editor, charges the Democratic party with failure to perform its pledges.

Indictments Returned.

KANSAS CITY, Oct. 13.—The grand jury which has been investigating the cruelty of the county by Justice Ross W. Lanham and Justice W. H. Gowan, reported this afternoon, returning indictments against both men.

Lanham failed to account for several thousand dollars of fees collected from delinquent women.

Browne, whose court has long been notorious for low grafting, was also indicted for failure to report fees.

KILLED BY MISTAKE.

Carbolic Acid Poured of Whisky in a Drug Store.

PLATTSMOUTH, Neb., Oct. 13.—Martin Meserve, a prominent citizen of Avoca, about ten miles from this place, died with a week and about 8 o'clock last evening. He in a manufacturer of buggies and just before quitting turned his hand very badly. He went to a drug store and told the physician who was preparing a prescription Meserve asked the clerk for some whisky. Through mistake the clerk gave him a half pint of carbolic acid, of which Meserve drank six. Still and in his minutes afterwards was dead quite. He was 51 years old and leaves a widow and four children.

Cash Balance.

WASHINGTON, D. C., Oct. 13.—The cash balance in the treasury today was $117,805,308, gold reserve, $64,749,000.

PENSION MATTERS.

Abstract of the Report of Commissioner Lochren.

WASHINGTON, D. C., Oct. 13.—The report of Commissioner of Pensions Lochren for the fiscal year ending June 30, 1894, has been submitted to the secretary of the interior, and the following abstract has been sent out for publication: The report states the number of pensioners on the roll June 30, 1893, was 966,012; that during the year 50,183 new pensioners were added to the roll, 37,931 were dropped for death and other causes, and 2,599 previously dropped were restored to the roll. The number of pensioners on the rolls on June 30, 1894, was 976,364.

The number of pensions restored to date during the year was 2,273, and 182,872 claims of all classes were rejected. On July 1, 1894, there were undisposed of and in different stages of preparation and adjudication, claims for pensions and for increase on the account of 919,062, for which 237,5 claims, original, widows and dependents, are on behalf of persons not already on the rolls. These claims, save some twenty-five, have been examined and their dates and status bearing in essential evidence. They are the same class that have come in during the past years. The fact is stated that under the law the number of accrued claims (from 26,177 in 1890 to 90,017 in 1893) would be greatly increased by a large number of new claims, increasing the widowers, and the statutory act of June 27, 1890, caused 325,707 claims to be filed in one year. As most of the claims were meritorious and simple as to proof under that law and under regulations 1884 which were begun in the law and rules conditions of service original, the work was very and an expert examiner could examine the papers and allow fifty or more in a day. Most of the cases of special examiners were called in and put at this work. Difficult cases and such as were lacking in proof, or requiring special examination, were passed over and a considerable large part of the cases coming on for adjudication. Now cases of all kinds have fallen off from 537,707 in 1891 to 85,149 in 1894.

The amount paid for pensions during the year was $139,331,661, leaving a balance in the treasury of $16,368,712 of the appropriation. Many unknown and fraud, merely attributable to unscrupulous claim agents, was discovered, and there were 191 convictions in the United States within the year for pension frauds, perjuries and forgeries.

TO SEE UNCLE SAM.

One Result of the Abrogation of the Reciprocity Treaty.

WASHINGTON, D. C., Oct. 12.—The abrogation of the reciprocity treaty between the United States and Brazil is to have a sequel in the filing of claims and beginning of suits against the government for the total amount of duties collected on Brazilian goods covered by the reciprocity treaty from August 28, 1894, the date the new tariff law went into effect, to January 15 next. In the aggregate these duties will reach several hundred thousand dollars, and may reach into the millions. The claims, which are made by Brazilian importers, will involve a test of the right of Congress to pass a law which violates what, it will be asserted, is a solemn provision of a treaty. In the exchange of official notes leaving it to the treaty, necessary for its repeal by the Brazilian authorities of Brazil, stated that the arrangement would not be terminated except on six months' notice. The official notice was made a part of the numerous arrangements made the President's proclamation. Notwithstanding this provision, the new tariff law abrogates all reciprocity treaties except that with Hawaii, without notice.

HIS MEMORY A BLANK.

A Missing Druggist Returns the Brooklyn Neighbors of the Poor.

PORTLAND, Oregon, Oct. 13.—J. H. Morrison, the broker from Tacoma, Washington, who disappeared mysteriously about a month ago and who finally turned up in Ohio, has arrived here. He claims that his mind is perfectly blank concerning the intervening of the past two years. He says that his memory first returned to him while in Ohio at the home of relatives about two weeks ago. He now remembers having been in the hotel business at Seattle, Washington, but does not remember having engaged in the banking business. While his memory is not entirely restored he hopes to recover it with rest.

Morton's Congressman.

NEW YORK, Oct. 12.—Hon. Levi P. Morton, in reply to a story published today that he had violated the current labor law by bringing help from England under contract to act as his coachman, John L. Howard, has given out the following statement:

"It is true that John Howard has been constantly in my service since May, 1891, I having employed him as a coachman in London. When I left London for the continent, having no further use for his services there, he came to my home here and has since been in my employ at Rome Cliff. His duties are confined to services rendered to my family. I regard him as a household servant, and as one acting within the exception of the law. I consider my action of strictly within the statute, and believe then as I do now, that he is to be regarded as a family servant. If Howard has made any statement, which I doubt, to the effect that I suggested that he should assume to have been in my service twelve months, he is mistaken, as word passed between him and me on the subject. This publication marks the first intimation I have had that any such exception or as claimed is contained in the statute."

John James Howard, who, it is claimed, seems to be country as a contract laborer, having been engaged in England by Hon. Levi P. Morton to enter his employ as coachman, was taken to Ellis Island this afternoon. Howard is a prisoner, although not confined, and is under close surveillance. It is expected an effort will be made tomorrow to have Howard's case brought into court. Otherwise he will be sent back to England on the Paris next Wednesday.

TERRIBLE DEATH.

A Young Woman the Victim of a Gasoline Explosion.

NEW YORK, Oct. 13.—A traveling tent show, owned by a man named Lind was stranded in White Plains last night by an explosion of gasoline and one of the company, Mae Elma G. Hurlert, was burned to death. For several days the show has been exhibiting here. Evening performances consisting of optical illusions and tableaux. The stage was a large wagon in which the company dressed, as the audience was seated in a tent attached to the wagon. The interior was lighted by means of gasoline apparatus.

Lind was in the tent and Miss Hurlert on the stage arranging the apparatus and to an performance. They were the only members of the company present. The gasoline took fire from some unknown cause and an explosion followed, filling the tent with flames. Lind escaped with his clothing on fire and was taken to the office of Dr. Smith not far off. His face, arms and legs were severely burned, but it is hoped that he will recover. Miss Hurlert was unable to get out of the tent and her agonizing screams for help attracted passersby. Efforts to get through the side of the wagon were made, but the heat was too intense to permit any entrance. The fire department had arrived meanwhile and the firemen reached the imprisoned young woman. It was too late however, and were taken out the she was dead. Her body was terribly burned and the clothing was a mass of charred rags.

Miss Hurlert was a remarkably handsome woman of 25 years. She was the mistress of an optical illusion which was part of the program of the show. It is said she was in the gasoline lighted. Lind states that he saw Miss Hurlert after the accident at the interior of the tent seemed to be filled with fire at least. There was no lighting at the end of the stage where the young woman stood and it was impossible to tell in any way for her to escape unless she was burned.

DECLINED TO INTERFERE.

European Powers Invite Uncle Sam to Join Them

It is an Effort to Bring Peace in Asia—The Invitation Will Not be Accepted.

NEW YORK, Oct. 12.—A special dispatch from Washington says: The United States has been invited by the quadruple alliance composed of Great Britain, France, Germany and Russia, to join it in a friendly intervention in the war between China and Japan.

The invitation will be declined. The determination is based on the adherence of this government to avoid entanglements with foreign powers.

Acknowledgement is made of the courtesy which the invitation has to say at the instigation of the five powers, and, in the polite language of diplomacy it is intended so that friendship may be cared and very well according to known business, and that as long as it continues to prosper by that policy it will not depart from it.

Fire Not Satisfied.

PHILADELPHIA, Oct. 12.—After receiving by mail a copy of the fighting editorial from New York today, Fitzsimmons declared he would not yet quit the fight in the shape. He refuses to fighting for the championship and urging by saying that he is not a boxer. He put up for advertising purposes. Also, in the size of the gloves, which should be five ounces, the same as used by Corbett, Sullivan, Mitchell and almost also in the clause leaving the referee, unless a course be reserve that shall be satisfactory to both parties.

Fitzsimmons said: "I do not know anything about the Florida club, but I hear that Corbett's backers, the Dwyers, are behind it, and as he has had everything his own way so far I think I should at least have a say as to who shall be the referee."

War in Venezuela.

NEW YORK, Oct. 12.—A special to the World from Kingston, Jamaica, says: The Venezuelan lines have crossed Yuruari territory and have occupied the Cuyuni valley region, driving off the police.

A special to the World from Caracas, Venezuela, says: The government is sending reinforcements to the disturbed city. The work has been suspended on railways. Even men who were repairing bridges damaged by the floods have been forced into the army. The government is preparing for the inevitable revolution. Workingmen prefer joining the rebels to serving as conscripts and are making their way to Ara and Coro.

Mexico and Guatemala.

CITY OF MEXICO, Oct. 12.—The Official Diary tomorrow says the report published by the press here that the issue between Guatemala and Mexico is solved or that the country has already settled Guatemala that it will send an envoy, is untrue. The affair stands as it did at the time the President read his message of Congress, when he gave an account of the affair, but the government expects the matter will be settled through diplomatic channels.

THE FARTO BURNING.

An Area of Hundreds of Acres Covered with Ashes.

SIOUX CITY, Iowa, Oct. 13.—The earth near the little town of Hawarden, twenty miles from this city, is burning and an area of 320 acres is covered with from six inches to six feet of ashes. Five years ago this land was the bed of a swamp. It has been drained, part of it has been under cultivation, while the rest has been used for hay land. The fire was first seen in June and heavy rains since then have failed to extinguish it. At times the fire appears to have gone out, but an investigation shows it to be burning beneath the surface at red heat. At other times the fire gives forth great clouds of smoke. An area of about 300 acres are threatened.

Right Arm Paralyzed!

Saved from St. Vitus Dance.

"Our daughter, Blanche, now 17, began eight or ten years ago to be terribly afflicted with nervousness, and had lost the entire use of her right arm. We feared St. Vitus dance, and tried the best physicians with no benefit. She was taken into the care of Dr. Miles' Nervine and has gained 35 pounds. Her nervousness and symptoms of St. Vitus dance are entirely gone, she sleeps soundly nightly, and has recovered complete use of her arm; her appetite is splendid." Mrs. E. B. McLeod, Syracuse, N. Y.

Dr. Miles' Nervine Cures.

Dr. Miles' Nervine is sold on a positive guarantee that the first bottle will benefit, or money back at druggists. 7 sizes, 25c, 50c, $1. Dr. Miles' Nervine Pills, 25c. Sold by all druggists.

Catarrhal Poison

Successfully Eradicated From the System by Drs. Shores & Shores' New Treatment.

Mrs. H. A. Baxter, residing in the Eleventh Ward, has lived here for twenty-five years. She has for years passed through an entirely successful course of treatment with Drs. Shores & Shores. Mrs. Baxter had catarrh poison in her blood and system for years, but last winter it grew very serious. Her head and nose became entirely closed up, compelling her to breathe through her mouth.

"There was a constant hawking cough, daily heavy pains over the eyes, ears, nose and throat.

"When I went to Drs. Shores & Shores," says Mrs. Baxter, "the nasal bones had almost rotted away, my eyesight was weakened, and I was almost a confirmed invalid.

"Now, thanks to Shores have certainly done wonders for me. I can hardly realize that I am the same woman. My friends and neighbors are so glad to see me so well.

"I am glad to be able to make this statement and to recommend the Shores & Shores, because I think it my duty to help fellow creatures, and I hope some poor despondent sufferer will read what I have said and find relief, as I have found it."

CATARRH AND HEART TROUBLE.

"I Was as Near the Grave as Could be and Still Live."

Mrs. Phoebe J. Ellis, of Bountiful, Utah, says:

"I have had heart trouble ever since childhood; that is nearly forty years. Later I contracted catarrh, which ruined my general health and aggravated my other trouble to such an extent that when I went to Drs. Shores & Shores for relief I was certainly just as badly off as any one ever was. I was as near the grave as could be and still live.

"Drs. Shores & Shores have certainly done wonders for me. I was almost a physical wreck when I went to them, and now I feel as if I had a new lease on life. My friends all remark how much better I look. The nasal discharge has ceased, the catarrhal poison is removed, the heart trouble is improved, I am very glad, indeed, to recommend Drs. Shores & Shores to my friends and the public."

If You Cannot Come to Salt Lake

Write for the small treatment. Upon the symptoms in personal, strictly confidential. Medicines shipped carefully. Try this treatment.
