The flooring of the new postoffice in the federal building is being laid, which means that the completion of the building is not far away. Two of the largest slabs of marble in the west have just been set at the end of the north corridor on the first floor. They are 7 feet 3 inches by 5 feet, and weigh 600 pounds apiece.

Now that there is no doubt as to the sale of the city's special water and sewer bond issue of $1,000,000, the United States Mortgage & Trust company will proceed with the work of engraving the bonds. The state board of equalization would like to stick a pin in the official chairs of the assessors of a number of counties in this state, to spur them up to a sense of their duty. According to law, all of the various boards of county assessors should have had their reports handed in to the state board of equalization June 1; whereas up to date, only these countries have obeyed the law: Cache, Carbon, Davis, Garfield, Salt Lake, Summit, Tooele, Utah and Weber. Secy. Thomas says that this delay is causing considerable annoyance to the state board.

A remarkable record in school attendance is that of Miss Lynn Knowlton, daughter of Mr. and Mrs. Eph Knowlton of Salt Lake, one of the graduates of the Lafayette school this spring. The young lady in nine years of schooling has never been tardy or absent—a record that will hardly be excelled. So great has been her devotion to the building of it, that neither sickness nor pleasure has tempted her to break it. She is deservedly the recipient of many congratulations, and also of many beautiful gifts presented as tokens of remembrances of her exceptional feat which is some years better than that of young Miss Haywood of the Washington school whose record is printed with her picture on another page of today's paper.

UTAH COMPLIMENTED.

Prof. Stewart Asked to Speak on Manual Training Work.

A decided compliment to Utah is the request from the director of the elementary section of the National Educational association, which holds its annual convention at Asbury Park, N. J., in July, for Prof. William M. Stewart of the University training school to take part upon the program, addressing the convention on "Hand Work in the Grades." However, Prof. Stewart will be so engaged at the time as to be unable to attend, so he has delegated a teacher in the training school to take his place, and he will go to the convention prepared with a paper on the subject named. Prof. Stewart's inability to attend is due to the fact that the summer school will be in session at that time and it is imperative that he be there to carry out his part of the work. The distinction thus accorded Utah doubtless arises from the splendid exhibit made at the world's fair, the excellence of which has evoked many inquiries from leading educators.

A SUCCESSFUL LUMBER BUSINESS.

George Romney, president, and O. D. Romney, manager of the George Romney Lumber company, are to be congratulated on the striking success their new lumber business has attained. Having revered connections with the Taylor, Romney, Armstrong company, about two years ago, they, with William Service and Alma J. Brown opened their new yard at 65 north First West street, where the huge piles of lumber and the busy men and teams testify to a big, steadily increasing trade. Sound methods coupled with a thorough knowledge of the business has already placed this firm in the front ranks of the western lumber world.

MONEY TO LOAN.

WHEN YOU OWN A VACANT LOT and borrow money to build a house on it, you go in debt for the sum you have borrowed, and sometimes at the risk of losing your lot. We offer an opportunity, so there is positively no danger of losing your property. You may build a house on your lot, borrow the money from us, and we will agree to look to the rents derived from the house for our payments, asking no more, unless you desire to pay more. In this way the house soon pays for itself, and the time will be short until you are receiving a good income from your improved property. Open Monday evenings.
