CONGRESSIONAL

HOUSE.

Hog Packers and others not Manufacturers—Retrenchment Discussed—Saul of Tarsus and Butler Compared, Butler Objects.

Maynard offered a resolution, instructing the committee on education to inquire into the method of investing funds arising out of the sale of land scrip for school purposes, in Tennessee, and whether they are applied in accordance with the law.

Starkweather introduced a bill to regulate the rank of staff officers in the navy; referred.

Judd introduced a bill to construe section four of the Act exempting certain manufacturers from the internal tax, so as not to treat as manufacturers hog packers, land renters or persons engaged in curing ham or canning meats, or in the provision trade etc., and to refund all such taxes already collected; referred.

Garfield, of Washington Territory, introduced a bill to grant lands to aid the construction of a railroad from the Columbia river to Puget Sound.

Breck offered a resolution, directing the Secretary of the Treasury to state the amount of unexpended balances for the various departments, at the end of the fiscal year; adopted.

The House went into a committee of the whole on the legislative appropriation for the reporters of the Congressional Globe. The proposition was rejected, only three members voting for it.

Funkhouser moved a resolution of the appropriation for public printing, from a half million to fifty thousand.

Lafin, chairman of the committee on printing, suggested that this would not be desirable, as it was not too much for the absolute necessity of the public printing; he promised that his committee would report a bill on the subject, which would meet the most economical desires of the House.

Dawes, chairman of the committee on appropriations, complimented the chairman of the committee on printing on his well earned reputation for economy in the public printing and said he did not know any one to whom the country was more indebted for an industrious, faithful and constant attention to cutting down expenses in that department. The discussion was continued by Ely, Sargent, Maynard, Lafin and Butler, of Mass. The latter suggested that if the heads of departments or bureaus were not fit to be trusted with ordering the amount of printing which they required, they were not fit to be trusted with their positions, and he thought that was a matter which might safely be left to those officers without interference on the part of the House.

Dawes commented upon the lecture read to the House by his gentle colleague, whose conversion seemed to be as sudden and as remarkable as that of him who traveled to Damascus; but he apprehended it to be his duty, whenever such a question was before the House, to faithfully, calmly, justly and impartially, but without fear, favor or affection, make diligent inquiry where every dollar of the public money had gone or might go, and as long as he had the confidence of the House and country, he should continue to pursue that course without regard to such lectures.

Butler disclaimed all intention of lecturing the House, and desired once for all to put a bar against the analogy between Saul of Tarsus and himself.

The amendment was rejected.

Some discussion occurred with regard to the appropriation for the library, Wood charging that the librarians allowed improper and scurrilous books on the shelves. This charge provoked the usual criticism, but it was passed without amendments, when the House adjourned.

VIRGINIA.

Accidentally Shot—Execution.
RICHMOND, 12.—Dr. Chas. R. Bricken, a well known physician, theatrical lessee and dramatic author, was killed yesterday by the discharge of a pistol. Alexander Gardner, colored, was hanged in Keat county yesterday, for the rape and murder of Mrs. Stewart, and the murder of John Baker, her colored farm manager.

GEORGIA.

Steamboat Explosion.
SAVANNAH.—The steamer *Two Boys* exploded her steam drum, off the Naylor Bar and steamed in a gale. The crew and passengers, except eight of the crew who swam ashore, were carried to sea in the vessel. The U. S. steamer *Norsemond* has gone in search.

TENNESSEE.

The "Maggie Hayes" Explosion.
MEMPHIS.—The steamer *Commercial* has arrived with the survivors of the ill-fated steamer *Maggie Hayes*. They are twenty in number. The passengers lost everything. The pilots, after the explosion, succeeded in getting the boat made fast to the shore, but the fire got such headway, that it soon wrapped the entire boat in flames. A lady sitting near the clerk's office was blown through the bulkhead into the cabin, but was not hurt. The pilots say that the boilers were patched at Natchez; at Picksburg, at the mouth of the Chute the boilers were tied up again to patch the larboard boiler, and they had just gotten fully under headway when the explosion occurred.

MISSOURI.

Free Trade and Protection Agitation.
St. Louis, 12.—The Anti-Protection League held a fine meeting at the Man-

son Hall last night; able speeches were made by two prominent citizens. The protectionists hold forth to-night. These meetings are creating a good deal of interest on the tariff question among people of all classes.

ILLINOIS.

Congressional Items—Postal Service to France.

CHICAGO.—Washington specials say that Julian, chairman of the House committee on public lands, has prepared a bill prohibiting further grants of public lands to railroad or other corporations under any circumstances whatever. The bill, it is believed, will encounter serious opposition in the House. It is understood that the French government lately submitted another draft for a postal treaty, which our Government rejected on account of its liberality. The Postmaster General has notified the French authorities that it will afford him pleasure to reopen negotiations whenever they submit proposals for moderate charges and equal benefits, and that any agent they send will be cordially received.

MINNESOTA.

Land grants to Railroads.

MINNEAPOLIS, MINN.—The ruling of the Secretary of the Interior, that all land grants to railroads must be located on an air line, unless a natural barrier intervene, has changed the Northern Pacific programme materially, and orders have gone forward to stop the survey until further orders.

ST. PAUL.—The *Winnepeg New Nation*, of January the 28th, says the Red River Convention met at Winnipeg, on the 25th, and after three days' session decided to draw up the list of rights demanded by the people and to submit it to the Canadian government through Donald Smith, the Canadian commissioner, as the basis of their becoming part of the Dominion of Canada.

NEW YORK.

Counterfeit Nickel Money.—Free Love Tragedy.—New Naturalization Treaty.—Sherman's Cuban Resolution to be voted down.—Robbery and failures in London.

NEW YORK.—The subtreasury officials have discovered that counterfeit five cent nickels are circulating in large quantities. About twenty per cent of those in circulation are spurious. It is difficult to distinguish the counterfeits, even experts disputing about them. All those in circulation will probably be called in and new issue made.

A Havana correspondent gives news of the brutal murder of another American citizen, named Vincent Downey of Bristol, Mass. Vincent Downey was on the same steamer that conveyed the remains of Castenon, editor of *Voces de Cuba*; and for relating a somewhat modified account of the assassination, he was set upon in San Jose street, in the evening, by a band of volunteers and put to death. No arrests have been made. After the Castenon obsequies were over, nine Cubans were massacred.

Another free love tragedy has occurred at Brooklyn. John Goulding, a well known politician, was discovered on intimate relations with the wife of Joseph Smetton, or Seamer, residing at number 62, Wagstaff street. He fled from the wrath of Smetton in the evening. The wife at once cut her throat with her husband's razor.

NEW YORK, 12.—Advices from Washington state that the whole force of the Administration is to be thrown against Sherman's Cuba resolution, and its ultimate passage is doubtful.

A late telegraph announces a theft, in London, of ten thousand pounds in bank of England notes, and the failure of Halstead, Stiles & Co., importers of woolen goods; their liabilities are reported at three hundred and fifty thousand pounds; their assets are two hundred and eighty thousand. It is said that the members of the firm own sufficient real estate to make an amicable settlement.

Petrie & Co., importers of dry goods, are also reported to have failed. The reported failure of Fredlander, Stick & Co., is entirely incorrect.

A petition, signed by several hundred residents and property owners of 129th Street, protesting against the Flat concrete pavement now going down that street, was sent to the Board of Health yesterday. The petitioners ask the Board to interfere and stop the work, as many of the residents of the neighborhood are now dangerously ill from exhaling the composite matter. The Board took prompt action on the subject.

Specials state that the principle features of the new naturalization bill, now before the House judiciary committee, will take the matter from the State courts and put it in the hands of United States officers. It requires four years' continuous residence before application for naturalization, which must be proved by the intending citizens.

The people of Long Island are greatly exercised over the subject of "Mormonism." The enemies and friends of the faith meet frequently in the villages to listen to anti-"Mormon" and pro-"Mormon" discourses. Superintendent Kennedy is still engaged in collecting the evidence in the case of the Prince Arthur assassination hoax. It is understood that he acquires the representatives of the press from any intention to misrepresent the case. He has evidence that the story originated with the police.

MASSACHUSETTS.

Daring Robbery—Police Retreated.
BOSTON.—At noon to-day a clerk employed by Manning, Howland & Co. was knocked down, choked and robbed of twenty-seven hundred dollars in the entry to the first national bank; the

robber was captured by a teamster and all the money recovered.
In accordance with a legislative edict the State police were reduced this morning from 120 to 63 men.

NEW BRUNSWICK.

Ministry Resigned.
ST. JOHN, N. B.—The Ministry has resigned; Charles Fox Mount has been called upon to form a new government.

FOREIGN NEWS.

WEST INDIES.

Murder!—Subscription for Greenwald's Family.—Assassin Arrested.—Havana Quiet.

HAVANA.—Felish Valdesee was murdered on Sunday night. The murder was committed for motives of private revenge. No politics were involved.

The subscription for the family of the murdered American, Greenwald, are coming in rapidly. The captain General gives a thousand dollars.

The assassin of Greenwald was arrested last night; he is a sergeant of the 5th battalion of Volunteers. A court martial will be immediately convened for the trial of the murderer. The city is now perfectly quiet; no disturbance has occurred since last Sunday.

A dispatch from San Miguel states that the troops now occupy that city; many families from the insurrectionary districts have arrived and are settling in the town.

CREAT BRITAIN.

Champion Billiard Game

LONDON, 12.—In a game of billiards for the champion cup, twelve hundred points up, in St. James Hall, last night, between John Roberts, English Champion, and W. Cook, Jr., the latter won by a hundred and seventeen points. The Prince of Wales and suite were present. Only five hundred tickets were issued, but twelve hundred persons were present.

FRANCE.

Arrest of Suspected Conspirators.

PARIS.—Thirty-five persons were arrested yesterday, on suspicion of complicity in a plot against the State and the life of the Emperor; in all the cases arms were found upon the persons of the prisoners. Those arrested were incarcerated in prison and will soon be proceeded against. More arrests are to be made.

CANADA.

American Silver at a discount.

OTTAWA.—A proclamation has been issued declaring that after the 15th of April American silver will pass current at twenty per cent. discount.

COLORADO.

Legislature Adjourned.

DENVER.—The Legislature adjourned last night. The following bills, among others, were passed: one granting five thousand dollars reward for the first artesian well sunk, to a depth of one thousand feet or less, to be not less than three inches bore; one for the organization of a Territorial Common School system, and providing a Superintendent of the same. The law providing for the introduction of Texas cattle was repealed; the Woman's Suffrage bill failed. The Governor has appointed a Council and confirmed a full set of Territorial officers. They are all Republicans except the Assayer.
