

FIGHTING BETWEEN BRITISH AND BOER

Gen. Buller Attempting to Cross
Through Zululand at Helpmakaar.

TROUBLE IN CAPE COLONY.

So Serious That Gen. Kitchener Has
to Return to Organize Against
It—Kruger at Pretoria.

Pretoria, March 9, Friday.—The president has returned from Bloemfontein. Gen. Joubert is expected here shortly. Fighting commenced in the direction of Helpmakaar this morning.

CAPE COLONY DUTCH REBEL.

Carnarvon, Cape Colony, March 10.—Gen. Kitchener has arrived at Victoria West to organize various columns for the purpose of suppressing the rebellion which is spreading in this district. Minor fighting has occurred in several directions.

GEN. BULLER ADVANCING.

London, March 10.—The only important change in the general situation in South Africa indicated by the news received up to noon today is that Gen. Buller is again on the move. The news comes in a dispatch from the Boer camp at Biggarsburg, dated Thursday, March 9, saying:

"Twelve thousand British are threatening the Boer positions from the direction of Helpmakaar, while a party of British scouts was encountered at Vachbank March 8."

This force was probably Gen. Hunter's division and it is considered quite possible that an attempt may be made to traverse the neck of Zululand into the Transvaal, thus effecting the double purpose of outflanking the Boers at Biggarsburg and threatening Vryheid and Utrecht. The Boers are reported to be at Biggarsburg in considerable numbers, but it is said they already sending their stores to the rear.

GEN. JOUBERT AT PRETORIA.

Gen. Joubert appears to have left active service to take charge of the war office at Pretoria. Lorenzo Marques' stories attribute his action partly to the alleged fact that he has lost both control over and confidence in the burghers and partly in his wish to push the preparations for the siege which are supposed to be being made at the capital.

Lord Roberts has not reported up to this hour today but the military authorities are of the opinion that Gen. French must be nearing Bloemfontein. In some quarters Gen. French is accredited with the design to corral both presidents, whose exact whereabouts, however, are difficult to ascertain at this distance.

The war office is unable to confirm the rumors of the relief of Meking, but the service clubs' trend of belief is that the relief will be effected within a few days.

Possibly this belief is the outcome of the recent revelations indicating that if the relief comes it is to be accomplished by anything it must arrive without delay.

BRITISH SCOUTS RETIRE.

Boer Headquarters, Biggarsburg, Friday, March 9.—Scouts were exchanged this morning near Helpmakaar with a small body of British who retired hastily.

Scouts report that the British main advance is coming from Ladysmith toward Sundays River.

RUSHING FOR WAR LOAN.

London, March 10.—The rush of applicants for the war loan commenced at the bank of England and the various other banks where prospectuses were obtainable, immediately after they were opened today and a steady stream of people continued throughout the day. All sorts of conditions of persons were present, silk hat financiers, fine ladies, farmers, clerks, grocers and thrifty representatives of all classes.

They appeared anxious to stuff their money into Britannia's pockets, and it is estimated that the loan was over subscribed within two hours after the opening of the banks.

WAS THERE BY CHANCE.

Story of a Miner at the Warden Outrages.

Washington, March 10.—The cross-examination of Fred A. Martin, a miner, was continued at the Cour d'Alene investigation before the House committee on military affairs today. He was closely questioned by Representatives Mondell and Dick as to his presence on the train which carried the riotous party to Warden.

He maintained that he was there by chance and had no knowledge of the part in the attack on the mill. He saw some armed and masked men, but the seriousness of the situation did not appear to him until after the mill was blown up. At one time, he said, an unknown man pinned a ribbon on his coat, but there was no explanation of its meaning. From a distance he saw the explosions and afterward saw one of the men, Shaven, lying shot on the road.

Thirty Seven Dead Recovered.

Charleston, W. Va., March 10.—Six more bodies were recovered from Red Ash mine today. The total number of dead so far is 37. All the bodies recovered today were burned beyond recognition. It is thought others are still in the mine.

SHOOTING AT CHICAGO.

Strike There Reached a Dangerous Point Today.

Chicago, March 10.—Renewed disorder, which at one time threatened to develop into a riot, attended the attempts today of the contractors to place non-union men at work at the new Ogdenburg dock. Seventy-five non-union men, guarded by five special policemen, marched to the docks and went to work under the glaring and hostile gaze of a crowd of about 300 union workmen, who were, however, kept at a distance by a strong force of police. When the special officers left the scene they were followed by a large crowd and at Erie and Wells street the crowd closed in on the officers, hurling ice and snow at them. For a moment serious trouble was threatened. The officers fired a few shots in the air, which scattered the crowd in a hurry. At one or two other points, non-union men were pelted with snow balls, but the police prevented actual conflict.

Delagoa Bay Award Made.

Berne, Switzerland, March 10.—The band announces that the arbitrators' tribunal has pronounced judgment in the Delagoa Bay arbitration, but on the principal points only.

The question of the indemnity to be paid by Portugal remains and that will shortly be decided.

The judgment will then be communicated to the parties concerned.

SALT LAKE STAKE CONFERENCE.

Opened in the Assembly Hall This
Morning.

INTERESTING DISCOURSES.

Apostles Lund, Grant and Teasdale
and Elder McKenzie Occupy
the Time.

The quarterly conference of the Salt Lake Stake was begun in the Assembly hall this morning. President Angus M. Cannon presiding. The meeting was opened by singing the hymn beginning:

"Come Let us anew."

Opening prayer was offered by Elder John T. Caine.

Continuing by singing:

"Redeemer of Israel."

Stake roll called and responded to by five High Councilors, three patriarchs; Elders David McKenzie, William Asper and Hamilton G. Park, of the presidency of the High Priests' quorum, five presidents of the Seventies, and nine home missionaries.

All the wards of the Stake were properly represented excepting the Third and Fifth city wards. The First, Second, Fourth, Fifth, Sixth, Ninth, Tenth, Eleventh and Twelfth quorums of Elders were represented by their presiding officers.

The Relief Societies, Sunday schools, Young Ladies' Mutual Improvement Associations, Primary associations, and the kindergarten schools were represented by the Stake officers thereof.

Elder Anthony H. Lund of the Apostles' quorum was the first speaker. He thought that there should be a larger attendance at the conference, although many had to work on Saturday there was a sufficient number who could come to fill the building. The Priesthood, he said, was not an honorary title, but when one received the Priesthood it was supposed that he would work. Everyone who holds an office or calling in the Church should realize how important it is, and should qualify himself to perform the duties of this calling, if he will do this the Lord will help him.

Elder Lund urged all the Saints to improve their opportunities, and closed by stating that the people throughout the State were in the performance of their duties.

Elder McKenzie, recently ordained president of the High Priests' quorum, was called to address the meeting. He said that there was a weakness in human nature, which was manifested in a tendency to neglect the most important matters in life. He stated that the first duty of the Latter-day Saints is to seek the mind and will of God concerning them. The Saints should not be negligent in their religious and commercial interests. If they do this their heads will always be under water. But if they seek first the kingdom of God, they will keep their heads above the water.

The traditional doctrine that we will jump from this life which we have not improved, into eternal glory, is absurd, we are what we make ourselves, and we will rise very much as we laid down.

Elder McKenzie spoke of the good effects of virtue and unselfishness, stating that all should work to promote the interests of the whole.

A son of Robert Williams of Bountiful asked the privilege to speak and began in a very vehement tone. He said he could endorse what he had said although he was not a member of the Church, and the question with him was do the Latter-day Saints do what they say. He was waxing warmer and warmer as he proceeded, until President Cannon was under the necessity of questioning him to sit down. The choir and congregation sang "We Thank Thee O God, for a Prophet."

Elder Heber J. Grant was the succeeding speaker. He said that he realized that the blessings of God attended those who performed their duties faithfully and he also realized that faith without works is dead.

He thought the reason that the Saints in the outer States attended their conferences more faithfully, was that they were do the Latter-day Saints do what they say. He was waxing warmer and warmer as he proceeded, until President Cannon was under the necessity of questioning him to sit down. The choir and congregation sang "We Thank Thee O God, for a Prophet."

LAWMAKERS LAWBREAKERS.

Inquiry Why Senate Employees Have Not Been Reported.

Washington, March 10.—Mr. Allen (Neb.) introduced a resolution directing the committee on rules to report to the Senate why the secretary of the Senate had not for several years reported at the beginning of each session the number of clerks, messengers and other employees, together with their salaries, in accordance with a provision of the statutes.

Mr. Allen said that the statement had not been made for several years.

An agreement reached a number of years ago by senators had been violated, and the Senate force had been rapidly increased until now it numbered about 300 persons drawing aggregate salaries of \$150,000.

A resolution reported from the committee on contingent expenses authorizing the committee on relations with Cuba to have a sub-committee visit Cuba was objected to by Mr. Cockrell (Mo.). He had noticed, he said, several propositions to send committees and sub-committees of Congress on expeditions to various places, and he now wanted to enter his protest against these junkets.

The resolution went over.

Mr. Thurston (Neb.) had passed a resolution calling upon the secretary of the interior to inform the Senate whether any leases of lands in the Wind River Indian reservation in Wyoming had been made.

Mr. Hale (Mo.) then called up the diplomatic and consular appropriation bill. The measure carries \$1,755,755.

LIFE PRISONER'S PLEA FOR PARDON

Application of Thomas Williams
Before Board Today.

STRONG OPPOSITION TO IT.

Prisoner Was Convicted of Killing
Joseph E. Hutchings in
February, 1883.

The State board of pardons met in special session today to consider the application for executive clemency of Thomas Williams, now undergoing a life sentence for the killing of Joseph E. Hutchings at the Mammoth mine on February 21, 1883. S. P. Armstrong appeared in behalf of the petitioner, while the family of Hutchings, who are strongly opposed to the granting of a pardon, were represented by Judge O. W. Powers.

Quite a number of the relatives of the murdered man were in attendance at today's proceedings, and took a deep interest in all that transpired. They believe the judgment and sentence of Williams to have been a just one; they insist that it should be carried out, and that there are no circumstances in the case which would warrant any clemency.

Attorney Armstrong took the position that Williams could never have been convicted of murder in the first degree, and claimed that the man had been punished enough for what he had done. He read numerous letters, affidavits and petitions to the board in favor of Williams. Many persons stated that the prisoner's character before the murder was good; he was known as a quiet, inoffensive and peaceful citizen. The prison authorities stated that his conduct since confinement has been of a most exemplary character.

Other affidavits went to show that Hutchings had threatened Williams, because the latter, who was a shift boss, had discharged Hutchings from the Mammoth mine.

A number of parties were signed setting forth that Williams did not receive a fair trial, for the reason he was not ready with his witnesses, and that the court (Judge Emerson) refused to grant the murder as brutal in the extreme. The whole of the morning was taken up with the reading of these various papers.

OBJECTED TO BASKIN.

As soon as Attorney Armstrong had concluded the reading Judge Powers began in opposition. He objected to Justice Baskin sitting in the case for the reason that at a former hearing, before the judge became a member of the board, he had made affidavit showing the murder as brutal in the extreme.

Justice Baskin explained that he would sit with the board in open session, but if the other members thought he was disqualified, he would not sit. He had previously presented the affidavit, but he had not taken any part in the final disposition of the case when it was considered in executive session. The incident here dropped.

Judge Powers then asked the privilege of being allowed to keep his seat while presenting his side of the case, stating as a reason that he was worn out by the hourbook trial. The request was granted. He then proceeded to read the affidavit of Henry Kohl, who at the time of the murder was employed at the Mammoth, and an eye witness of the affair. Kohl describes the murder as brutal in the extreme. He was not subpoenaed as a witness at the trial, and says he did not say much about the shooting, as he was afraid of his life. Other affidavits, letters and petitions protesting against the granting of a pardon were read, after which Attorney Hutchinson offered similar documents in rebuttal.

HAS NO COMPETITOR.

One Patent Medicine Which Has the Field to Itself.

A prominent physician was recently asked why it was there are so many "blood purifiers," "nerve tonics" and "medicines" for every ill except one of the most common and annoying diseases, viz., piles.

He replied, there are two principal reasons: First, physicians and people in general have thought for years that the only permanent cure for piles was a surgical operation, and that medicinal preparations were simply palliatives and not a cure for the trouble.

Another reason is that piles, unlike many other diseases, is in no sense an imaginary trouble. A sufferer from piles is very much aware of the fact and for this reason the few pile salves and ointments, etc., have been short lived because the patient very soon discovered their worthlessness.

He continues: However, there is a new pile remedy which, judging from its popularity and extent of its sale, will soon take the place of all other remedies for piles. It has certainly made thousands of cures in this obstinate disease and its merit, repeatedly tested, has made it famous among physicians and wherever introduced. The remedy is sold by druggists everywhere under name of Pyramid Pile Cure.

It is in convenient, suppository form, composed of harmless astringents and healing oils, gives immediate relief in all forms of piles and a radical cure without resort to the knife and without pain or interference with daily occupation.

One strong recommendation for the remedy is that it contains no cocaine nor opium and is absolutely safe to use in any number of cases.

One of the suppositories is applied at night, is absorbed and the cure is natural and painless.

It permanently cures itching, bleeding or protruding piles and is the only remedy except a dangerous surgical operation that will do so.

All druggists sell a complete treatment of the suppositories for 50 cents and the Pyramid Drug Co. of Marshall, Mich., will mail free to any address a little book on cure of hemorrhoids, which may be of assistance in chronic cases.
