TRAINS ARE NOW RUNNING.

Park City Line and Colorado Roads Open After the Storm.

DIAMONDVILLE FATALITY.

No Passenger Association Fears of Washouts on Short Line—Trains Behind Time.

A dispatch from Denver says that the Denver & Rio Grande is open for traffic over the entire system, with the exception of the Blue River branch.

There was a more cheerful feeling in Rio Grande circles this morning than at any time since the storm. Mr. Nourse, the general agent here, said that the freight that has been piling up would be rushed through. No. 1 on the R. G. W., came along this morning a little late, but made the Denver connections at Grand Junction.

The Colorado Midland though not clear throughout, is open as far as Leadville, and is rushing coal into the mines.

The force of men at work in Parley's canyon succeeded in opening up the Park City branch of the R. G. W., and the train is expected to reach Park City this afternoon.

The Union Pacific, which though not blockaded yet was obliged to run its passenger trains along through on Sunday, is now running on its schedule time.

No Western Passenger Bureau.

General Passenger agent Burley of the Short Line came in from Denver this morning. Mr. Burley said that it took only twenty minutes at the meeting of the trans-Missouri general passenger agents held at Denver last Friday to see that they could not get together in the formation of a passenger bureau for the lines west of the Missouri river. Mr. Burley has little hope of an association being formed at all. He thinks the meeting called for Chicago will end the same way as that in Denver, as he does not believe the various interests will be amalgamated. Mr. Burley does not know yet whether or not he will attend the Chicago meeting.

The Diamondville Fatality.

A dispatch from Rock Springs of the Short Line, of Diamondville was received today by Mr. Jenkenson of that place. Calvin reflos, stating that at 7 p. m. yesterday several men were overcome by black damp in the mine. Seven thinks were severed hundred men at the shaft who worked with a will to rescue the others. Great difficulty was experienced in reaching the men, owing to the foulness of the air. When the unfortunate miners were reached two of them were beyond the power of recovery.

The dead men are L. E. Wright and John L. Russell, the latter from Provo, Utah, where he has a wife and several children. Work in the mine will not be stopped by the accident.

Mr. Wadlich, the general passenger agent of the R. G. W., is in Chicago, having gone east at the close of the meeting of passenger agents at Denver last week.

General Superintendent Welby of the Rio Grande Western, who has been on a trip of inspection as far as Grand Junction, came home on Saturday night.

Austin Davis of the Colorado Midland came in from Denver Saturday night. He says there is some fear along the track of the Short Line of washouts between Pocatello, Idaho, and Huntington, Oregon.

M. D. Darnell, former contracting agent of the Missouri Pacific at Kansas City, has been appointed commercial agent of the road at the same place. Mr. Kenney will probably still keep the Salt Lake agency.

General Traffic Manager Babcock came in from the east last night over the Union Pacific. Mr. Babcock says that all railroads in the west have suffered from the late storm. The U. P. train he was on was only eleven hours late.

The Burlington and Missouri River Railroad company has made a new appointment in the passenger line. Chas. S. Young as press agent of the road. He also placed the appointment of agents of the country upon its correspondence list, with the view of keeping them fully informed of the action taken by the company.

COURT MATTERS.

SENTENCE DEFERRED.

Curtis Boys on Trial on Another charge of Burglary—Dismissal of Louis.

Norton Curtis and Arthur Curtis, tried last week on the charge of burglarizing the grocery of Homer Mackay in Grangeville, and convicted on Friday of petit larceny, appeared before Judge Norrell today for sentence, but at the request of County Attorney Putnam a continuance was had until the other charges against the defendants have been disposed of.

Jack Richards, charged with complicity in the same offense, was convicted by the jury on Saturday evening of burglary. His time for sentence was set for tomorrow, but as there is still another charge against him of similar nature against him it is quite likely that sentence will be deferred in his case.

Al. V. Louis, an old gray-headed man, the other defendant, secured a dismissal today, on motion of the prosecution. There is still another charge of burglary against him, however, and he is held pending the trial.

Richards and Richards guilty of burglary and the Curtis boys guilty of only petit larceny was the subject of considerable talk among the officers and the jury in the Curtis case was severely criticised.

One of the jurors, when approached today and asked how it was that the Curtis boys got off so light, said that he had thought they were guilty but was misunderstood the court's instructions, and had in some way received the impression that they could not find the defendants guilty of the offense charged.

The other charge of burglary against Richards, Louis and the Curtis boys was taken up this morning, and by consent the two last named defendants will be tried first. The information accuses each of the defendants with having, on the 7th of January, 1898, entered the dwelling of Rebecca Mackay at Gennett, and of getting away with a set of double harness, valued at $35.

MORE JURORS WANTED.

The whole of the morning's session of court was taken up in an endeavor to secure a jury. The majority of the present panel has already sat in the Curtis and Richards case, and formed an opinion. In consequence, it was found necessary to send a special venire for eight more jurors, which was issued and placed in the hands of Bailiff Jones, and will be served at once.

The names of the parties summoned today were Charles Ballard, Charles M. Nebeker, Joseph S. Grow, John L. Nebeker, Ed. W. Duncan, William J. Newsom, C. H. Post and James H. Powell.

Lower Court Sustained.

The Supreme court has handed down an opinion in the case of Rachel M. Miles administratrix, appellant, vs Alfred Johnson, affirming the judgment of the lower court. Plaintiff sued to recover possession of certain land in Summit county. Defendant claimed the land became it by having been entered by the government under the survey. The lower court found for the defendant, Johnson, and the Supreme court affirms the judgment.

George W. Beebe, a petit juror in Judge Morrell's court, was today fined $2 for being absent when his name was called.

Jurors Edward L. Chouinard and Samuel D. Walker were examined on their qualifications in Judge Morrell's court today and accepted.

One Large Scar

Is All That Remains of Great Scrofula Sores

Neighbors Could Not Bear to Look Upon Her—A Grand, Complete Cure by Hood's Sarsaparilla after Others Failed.

"I was taken with neuralgia in my head and eyes. Not long after this, a scrofula sore appeared on my left cheek, extending from my upper lip to my eye. Other sores came on my neck and on my right arm and one of my limbs. They were very troublesome and painful and soon became great running sores. My face looked so bad that some of my neighbors could not bear to look at me and advised me to wear a bandage, but I feared this would irritate the sore and make it worse. So I

Could Not Hide the Sores.

My niece, who was troubled with a case similar to mine, which had been cured by Hood's Sarsaparilla, urged me to try it. Finally I was persuaded to do so, and in a short time I saw it was helping me. The sores began to heal and the neuralgia in my head was better. In a few months the sores on my arms and limbs all healed; those on my neck gradually disappeared and now they are all gone. I have never had any symptoms of scrofula since. One large scar on my right arm is all the sign that remains of my terrible affliction. The neuralgia is also cured." MRS. J. M. HATCH, Etna, New Hampshire.

E. P. TELEGRAPHERS' GRIEVANCES.

Committee of Union Pacific Employes Wait on Manager Dickinson Today.

Omaha, Feb. 12.—The grievance committee of the Union Pacific telegraphers, which has been in session in this city for a couple of weeks, had a short conference with General Manager Dickinson today. They have formulated a scale of wages and regulations for hours and terms of employment, which are here reproduced in full for company. General Manager Dickinson asked to have the settlement of the matter deferred to March 1, on account of pressing business, and to this the men acceded. At that time the whole matter will be taken up and if not settled satisfactorily the committee expect to leave the road.

Cold in Pittsburg, etc.

Pittsburg, Pa., Feb. 12.—The mercury continues to hover about zero. Last night it dropped to 4 degrees below and today it is not far from that. Yesterday and last night many of the large mills were kept in operation to prevent the machinery from freezing.

There is a continued stagnation of river navigation, but no further damage to boats and other craft has been reported. There is much ice in the Ohio and minor rivers remain frozen tight. The river are still falling and the greatest danger feared by rivermen is that craft will suffer when the breakup comes.

Pottsville, Pa., Feb. 12.—The coal region ice situation has taken a turn of several feet. The snow drifted in a manner never equaled before. Railroad traffic is completely stopped for a few small trains which are being forced through the drifts hours behind time. Yesterday and today the temperature has been several degrees at zero.

The greatest difficulty now is thought to be the freezing of water pipes and the freezing of streams and reservoirs. The thermometer is five degrees below zero.

Over the Morphine Route.

Los Angeles, Cal., Feb. 12.—Eugene Brandion, a traveling salesman for the Mammoth Pottery company of New York, was found dead in his bed here. A package of morphine was on a stand, near his bed, and it was evident that Brandion had taken a dose of the drug.

Murdered Cleveland.

Cleveland, O., Feb. 12.—Jacob Gertland, night fireman at the Hunt Stamping works on Hickox street, was found dead in the boiler room in the plant today having been stabbed through the heart. The case is shrouded in mystery. The motive for the crime evidently was not burglary, for Gertland's money and watch were found on his body. Appearances indicate that the murdered man made a valiant struggle for life.

The only clue found was a woman's hair fastener which was lying near the body. The theory advanced by the police is that Gertrandt may have been holding clandestine meetings with the woman and that a lover or husband

Resolutions have been adopted favorite the organization of a national Lincoln memorial association, and a committee which includes Senator Mason and Congressman Lorimer, appointed to secure funds for the purpose. The Pennsylvania railroad is moving about half of their regular scheduled passenger trains but has abandoned freight and coal trains.

Experiments in Smokeless Powder.

Penns Grove, N. J., Feb. 12.—At the big powder works of the Dupont's at Carneys Point, interesting experiments in smokeless powder are being made by experts in the employ of the government. One of the difficulties that has attended the manufacture so far is that the powder is not wholly smokeless and that it apparently loses strength through storage. The experiments, it is said, lead to the discovery that cotton could not be ground fine enough to bring about the best results and that the powdered pits of cornstalks grove somewhat better results.

This fact is only partly authenticated. If it should prove of lasting value, a new source of revenue is opened up for the farmers, since thousands of acres of corn stalks annually go to waste in the field although such is being used in the manufacture of cellulose.
