NO. 37. FRIDAY, JANUARY 5, 1894. SALT LAKE CITY UTAH. VOL. XXVII.

A STORMY SESSION.

The House of Representatives Opens in an Uproar.

THE CONFLICTING INTERESTS.

Beltle Demands a Vote on the Hawaiian Resolution—The Tariff Debate.

[Deseret News Bureau
W E N S., N. E.,
WASHINGTON, D. C., Jan. 5—(9 a.m.)—The Republicans renewed their obstructive tactics today. Hawaiian resolution was passed under by the report of Democrats on rules taking up the tariff bill on the motion to adopt the report there were been incessant roll calls, resulting in no quorum. About twenty Democrats are helping the Republicans to break the quorum by refusing to answer.

At three o'clock there seems no probability of any business today.

C. R.

[By Associated Press.

WASHINGTON, Jan. 5—The House opened in an uproar. Catchings is trying to report from the committee on rules, Boutelle demanding a vote on the question of privilege on the Hawaiian matter.

The House committee on rules has decided to report a rule for the final vote on the tariff bill on January 25.

On a vote to allow the committee on rules to report, the Democrats lacked eight of a quorum.

At 1 p. m. the chances of securing a quorum to take up the tariff bill were so slim that they caused the committee to agree that unless a quorum developed at once adjournment would be taken and a caucus set for tonight. This should begin at once and continue till some plan of action had been reached by the Democrats.

Several absentees are expected on the afternoon train and it has been decided to continue the fight for an hour or two at least, instead of adjourning to go into caucus, in the hope that the arrivals will give a quorum.

The Democrats still lacked twelve votes of a quorum at 3 p. m. The Populists who have returned from voting say they do so because they want more time for debate. They insist on all of next week for the general debate. They have informed the Democrats that they will furnish a quorum if their demands are granted.

At 3:50 p. m. Catchings moved that the House adjourn. The motion was carried to small the cheers of the Republicans.

Several Singers Hang.

KANSAS CITY, Jan. 5.—Martin Bond, colored, was hung this morning for the murder of his wife in September, 1893, in a fit of jealousy, after which he made a nearly successful attempt at suicide. He was old and his wife young. The neck was broken.

ANOTHER EXECUTION.

BARDSTOWN, Ky., Jan. 5.—Phil Evans, colored, was hanged here this afternoon for the outrage and murder of the 12-year-old daughter of Eli Hall, with whom Evans was on a drunk. Hall being unable to take care of himself, Evans went to his home, took the daughter to the outhouse and committed the foul crime. The trial was held under military guard to prevent lynching.

JEALOUSY'S ANNUAL CONSEQUENCES.

TUSCALOOSA, Ala., Jan. 5.—Will Palmer was hanged here at noon for the murder of his wife last August in a fit of jealous anger.

Knocked Senseless.

BEATRICE, Neb. 5.—While crossing the street last night with his wife, who is a sister of President Cleveland, W. E. Hoyt was run into by a buggy and knocked senseless. He remains in a semi-comatose state, though the physician believes he will recover. He is seriously injured about the head.

MORE WITNESSES.

New Testimony in the Coughlin Trial.

CHICAGO, Jan. 5.—The testimony in the Coughlin case opened today with the oft-repeated story of the white horse which drew Dr. Cronin to death, by the widow of Livermann Dunan, from whom the horse was hired.

Next came Mrs. Horton, the new witness for the prosecution, to whose evidence the defense objected on the ground that it had not been properly notified that she was to be a witness.

Judge Tuthill finally ruled that her testimony would be heard after the other witnesses of the day. The prosecution will have another new witness in the person of Frank Barnum of Omaha, Minn., who it is said, will implicate Coughlin, in a sensational way.

FOR REFRESHMENT.

Reduction in the Salaries of City Officials.

[Special Telegram to the News.

CHEYENNE, Wyo., Jan. 5.—Several sweeping reductions in the salaries of the city officers were made by the city council at the meeting last night. Other propositions in the general appropriation for the expenses of the city government are contemplated, in all aggregating $10,000 a year. The largest reduction of official salaries was the city marshal, which was cut from $1,800 to $1,200. There is a popular demand for a reduction of the number of officers and the council is endeavoring to meet it.

THEY DOUBT IT.

The Auckland Despatch Concerning Honolulu.

WASHINGTON, Jan. 5.—The state department is inclined to discredit the Auckland dispatch to the Associated Press last night, saying that Minister Willis had made a demand on the provisional government of Hawaii to abdicate in favor of the queen, and that upon this being refused he is drawing up his papers preparatory to leaving the Islands and returning to Washington. He also emphatically denied the truth of the report.

Chinese Imposters Detected.

WASHINGTON, Jan. 5.—Secretary Carlisle has received Justice Reynolds, of Arizona, the Chinese Inspector.

THE FIGHT FOR A PRINCIPLE

A Periodical Contest in the Senate About Indian Agents.

Western Senators Opposed to the Appointment of Citizens Not for Western Agencies.

WASHINGTON, D. C., Jan. 5.—There will be another contest in the Senate over the confirmation of the men appointed from an eastern state as Indian agent in the West. During the special session of Congress there was a protracted fight in the Senate against the confirmation of the class of appointments, not because there is any objection to the men personally, but because the principle was opposed. The fight this time will open with the Oregon appointment and both Dolph and Mitchell have said they intend to object to sending appointees from the East and South into their states. It is believed all the Western men will support them. It is claimed by those who support the administration in the matter that Indian agents are not state appointments, but Indian agents are purely under Federal control, and that the appointees can be sent from any section of the country to govern the agencies.

THE SEALING SEASON.

Suspicious Instructions Given to British Vessels.

SAN FRANCISCO, Jan. 5.—The British schooner Ariolus has arrived here to fit out for the season's sealing cruise. Captain Strong says that at Victoria he was told to keep clear of the sealing grounds till May 15, and if he received no further instructions up to that time, he might go ahead and land seals wherever he liked. He says similar instructions have been given to all British sealing vessels. This is taken by the sealers to indicate that Great Britain intends to make it difficult for the United States to come to any satisfactory arrangement with that country for a close season.

Rivals Fight and Die.

LOUISIANA, Mo., Jan. 5.—Wm. Hunter and Wm. Punch, rivals, fought. Hunter shot Punch dead and then blew out his own brains.

THE WINTER IN EUROPE.

Intense Suffering Among the Poor in England.

LONDON, Jan. 5.—The severe cold continues throughout Great Britain. The temperature in many places is the lowest known. Though the thermometer registers five to ten degrees above zero, the suffering is as great as when it is twenty below in the United States. People are entirely unprepared for it and the suffering among the poor is intense. There have been many deaths from exposure. Outdoor work is entirely suspended.

The gale in the channel has somewhat abated and the mail boats have resumed their trips. Tidal streams are frozen solid, and a heavy snowstorm prevails.

Reports from Spain say that most intense cold prevails there. At Zurita the temperature is ten degrees above, at Burgos several people are frozen to death. Snow is still falling and the cold is increasing.

The same conditions prevail in Russia. At Moscow the temperature is 22 below zero; at Nijni-Novgorod, 24 below; at Kharkoff, 25 below.

COULD NOT DO IT.

The Court Refuses to Grant the Request of a Receiver.

DENVER, Jan. 5.—The United States court declined to grant the request of Receiver Trumbull of the Gulf system, to have his authority extended outside of the state of Colorado and over the branches of the system in Nebraska and Wyoming.

RUMOR OF RECEIVER.

The Missouri Pacific to be Road Structured.

NEW YORK, Jan. 5.—A report current in Wall street that a receiver will be appointed for the Missouri Pacific brought this reply from the officers of the company: "The report of a receiver is absolutely false. No receiver has been applied for and none is to be applied."

W. H. Payne, retired attorney for the road, is mentioned as the man for the receiver. He also emphatically denied the truth of the report.

Chinese Imposters Detected.

WASHINGTON, Jan. 5.—Secretary Carlisle has received Justice Reynolds, of Arizona, the Chinese Inspector.

A Law Constitutional.

ST. PAUL, Jan. 5.—The supreme court has decided the law prohibiting the building of grain elevators is the state constitutional.
