A MAN

WHO IS UNACQUAINTED WITH THE GEOGRAPHY OF THIS COUNTRY, WILL SEE BY EXAMINING THIS MAP, THAT THE

CHICAGO, ROCK ISLAND & PACIFIC R'Y

By reason of its central position, close relation to principal lines East of Chicago and continuous lines at terminal points West, Northwest and Southwest—is the only true middle-link in that transcontinental system which invites and facilitates travel and traffic in either direction between the Atlantic and Pacific.

The Rock Island main line and branches include Chicago, Joliet, Ottawa, La Salle, Peoria, Geneseo, Moline and Rock Island, in Illinois; Davenport, Muscatine, Washington, Fairfield, Ottumwa, Oskaloosa, West Liberty, Iowa City, Des Moines, Indianola, Winterset, Atlantic, Knoxville, Audubon, Harlan, Guthrie Centre and Council Bluffs, in Iowa; Gallatin, Trenton, St. Joseph, Cameron and Kansas City, in Missouri; Leavenworth and Atchison, in Kansas; Albert Lea, Minneapolis and St. Paul, in Minnesota; Watertown in Dakota, and hundreds of intermediate cities, towns and villages.

THE GREAT ROCK ISLAND ROUTE

Guarantees Speed, Comfort and Safety to those who travel over it. Its roadbed is thoroughly ballasted. Its track is of heavy steel. Its bridges are solid structures of stone and iron. Its rolling stock is perfect as human skill can make it. It has all the safety appliances that mechanical genius has invented and experience proved valuable. Its practical operation is conservative and methodical—its discipline strict and exacting. The luxury of its passenger accommodations is unequaled in the West—unsurpassed in the world.

ALL EXPRESS TRAINS between Chicago and the Missouri River consist of comfortable DAY COACHES, magnificent PULLMAN PALACE PARLOR and SLEEPING CARS, elegant DINING CARS providing excellent meals, and between Chicago, St. Joseph, Atchison and Kansas City—restful RECLINING CHAIR CARS.

THE FAMOUS ALBERT LEA ROUTE

Is the direct, favorite line between Chicago and Minneapolis and St. Paul. Over this route solid Fast Express Trains run daily to the summer resorts, picturesque localities and hunting and fishing grounds of Iowa and Minnesota. The rich wheat fields and grazing lands of interior Dakota are reached via Watertown.

A short desirable route, via Seneca and Kankakee, offers superior inducements to travelers between Cincinnati, Indianapolis, Lafayette and Council Bluffs, St. Joseph, Atchison, Leavenworth, Kansas City, Minneapolis, St. Paul and intermediate points.

All classes of patrons, especially families, ladies and children, receive from officials and employes of Rock Island trains protection, respectful courtesy and kindly attention.

For Tickets, Maps, Folders—obtainable at all principal Ticket Offices in the United States and Canada—or any desired information, address,

MOST PERFECT MADE

Prepared with strict regard to Purity, Strength and Healthfulness. Dr. Price's Baking Powder contains no Ammonia, Lime, Alum or Phosphates. Dr. Price's Extracts, Vanilla, Lemon, etc., flavor deliciously.

PRICE BAKING POWDER CO. Chicago and St. Louis.

$1 000 REWARD for any medicine in the world that will cure as bad a case of Itching, Ulcerated and Bleeding Piles as will one fifty-cent box of Dr. Emall's Magic Balm of Healing Ointment. It acts as a soothing lubricator, absorbs the tumors and allays the intense itching at once as nothing else will. No pile cure ever acquired so large a sale in so short a time. Sold at every drug store, or sent by mail. Address Zion's Co-operative Mercantile Institution, Salt Lake City. Cleveland, Ohio, January 21, 1887—Send me five gross Emall's Magic Balm soon as possible. This will make nearly one hundred and fifty dozen I have bought since July 15, 1884. I now sell more of your Balm, or Ointment, at retail over my counter than of all other balms and ointments combined. It sells better than any medicine I have in my store.—S. P. Churchill, 30 Euclid avenue.

EVENING NEWS.

Tuesday, - - July 19, 1887.

ABOUT BATTLE-FLAGS.

HOW CLOSELY SENTIMENT AND COLD BUSINESS GET TOGETHER.

Speaking of battle-flags (by the way, who was speaking of battle-flags?), there was an advertisement in the papers the other day, says the Boston *Transcript*, that made manifest how business-like are the methods of the modern military world. It was a government "ad.," and invited proposals among other things for complete sets of colors for the forty regiments, the engineer corps, etc., of the regular army. Colors are but bits of silk, after all—so many yards of silk, so much bullion fringe, so many feet of staff. A statistician—and statisticians are the foes of sentiment — will you tell that forty regiments will require eighty flags, besides those carried by the special corps, which will take at so many yards each, a total of such and such a quantity of blue, yellow, red and white silk, which at so much per yard will represent etc., etc., until you grow tired of the whole subject. But a soldier will tell you that the colors are precious things, to be fought for, to die for, to endure for; to be protected by the whole regiment, to be dyed with a red beyond the dyer's art before they are given up or surrendered. A regiment without colors is but one remove from a regiment without a uniform. The blood that was shed in seizing or protecting this or that color in the war would make a small lake. When it is considered how sacred are these yards of silk it seems as if they should be exempt in their manufactures and supply from the coarse materialism of the contractor; that some military artist should weave into them the fire of his own spirit; that they should seize and imprison in advance the fierce light of battle in their folds. But the officer in Washington whose business it is to keep the army well controlled will have nothing to do with so unbusiness like an idea. He simply advertises for sealed proposals, and that is all.

Horse-Teeth Developments.

There is a wonderful uniformity in the first appearance, number coming at a time, annual stages of maturing, markings, and decay of horses' teeth. If the time ever comes when the human species sufficiently conforms to wholesome diet and other sanitary requirements as to enjoy even an approach to a horse's uniformity of dental development, a prolific source of misery among the present generation will be avoided. A mouthful of sound and regular teeth—rarely appreciated by those who have them, but intensely coveted by the toothless—is of more value than much gold.

The colt is either born with eight front teeth, or these soon appear. They are called milk teeth, four of which are above and four below. When one year old four more teeth appear, one at each outer end of both the upper and lower rows. These latter are only shells at first, but become filled out for use during the colt's second year. At or a little before three years of age the center two of the colt's upper teeth fall out, and soon after, the corresponding two below, and all four are soon replaced by permanent ones. At about four years old the four next to the new center four drop out and are replaced with new ones; and at about five the outer four original milk teeth are shed, permanent ones taking their places. In the meantime the 24 back molars have developed.

At six years of age the marks in the two central upper front teeth disappear; at seven the marks in the two adjoining, and at eight those in the two outer uppers disappear. At nine the marks in the two lower central front teeth become obliterated; at 10 those in the two contiguous ones; and at 11 those in the remaining lower front teeth disappear.

Thus the age of a colt, or of a horse under twelve years of age, can be pretty accurately told by any close observer who has learned the facts relative to horse-teeth developments. Although the age at which teeth become so worn off that the marks do not show is varied somewhat by kinds of feed—hard corn in the ear, for instance, wearing them a little faster—the variation is small.

Salt in the Garden.

Thirty years' successful use of salt upon all kinds of crops has proved its value to me. It should not be used on cold, heavy or moist soils, and, if anyone does, he will be disappointed in the result, as its tendency is to keep the ground cool and moist. It will do such soil more harm than good. It should not be cast upon very young and tender plants of any kind, as it will be very sure to kill them. Judgment should be employed in using so strong an agent. I had a friend who heard me recommend salt on onion beds, when I strictly urged that it should be dragged or worked in before the seed was sown; but, forgetting what I said, he did not salt until the onions were about two inches high, and it killed them all; but sowing another crop properly it turned out splendidly. Had he waited until the tops were as large as a pipe-stem, he might have covered the ground an inch deep, and his onions would have done finely. Onions should be sown on the same ground year after year, as they continue to improve. There are yards a hundred years old, and their yield would astonish the common grower. The tops when cut off should be scattered over the ground (do not leave them in lumps), as they make the best food for the growing onions; then sow salt, and then put on a coat of manure. Salt is not much of a fertilizer in itself, though plants take it up, as you can tell by tasting and by the stiffening and glazing of straw of a plant grown in salted ground. I think it acts upon and assimilates the gross matter in the soil, so as to make it available food. It should be in every garden.—*Cor. London Horticultural Times.*

How to Increase Your Wages.

Every thinker knows that the man who would succeed must do more work than he gets paid for, in every profession and trade. We take it for granted that the man who will do only twenty dollars worth of work a week, because his salary is but twenty dollars, will never get more than twenty dollars a week, for the simple reason that he has never shown his employer that he is worth more. We figure it that an employe who means to succeed has to do from ten to twenty per cent. more work than he gets actual pay for. This he has to do until he reaches a certain point, and, having reached the point, he will find that by as much as his income has increased, by so much has the demand for amount and intensity of his labor diminished. Labor brings its market value, and is seldom overpaid, often unpaid. It is the experience—"Know How," that brings the money.—Philadelphia *Leger.*

PILES! PILES! PILES!

A SURE CURE FOUND AT LAST. NO ONE NEED SUFFER. A sure cure for the blind, bleeding, itching and ulcerated piles has been discovered by Dr. William (an Indian remedy), called Dr. William's Indian Pile Ointment. A single box has cured the worst old chronic cases of twenty-five and thirty years' standing. No one need suffer five minutes after applying this wonderful soothing medicine. Lotions, instruments and electuaries do more harm than good. William's Indian Pile Ointment absorbs the tumors, allays the intense itching, acts as poultice, gives instant and painless relief and is prepared for Piles and nothing else. Thousands of cured patients attest its virtues, and physicians of all schools pronounce it the greatest contribution to medicine of the age. It matters not how long or severely you have been suffering, you can be cured.

Judge Coons, Maysville, Ky., says: "Dr. William's Indian Pile Ointment cured me after years of suffering."

Judge Coffinbury, Cleveland, O., says: "I have found by experience that Dr. William's Indian Pile Ointment gives immediate and permanent relief."

We have hundreds of such testimonials. Do not suffer an instant longer. Sold by druggists. deod & s

The great triumphs of Maud S. are largely due to applications of St. Jacobs Oil.

DISEASE IMPOSSIBLE.

Yes; utterly "impossible" when all malarial poisons are driven out of the system, leaving the Blood New, Rich, and Pure. No place for eruptions, ulcers, or Rheumatism, when all Blood taint has been eradicated by the use of BROWN'S SARSAPARILLA and Dandelion with Iodide of Potassium. Thousands of witnesses, among them the best Druggists and Physicians, testify to the wonderful cures wrought by BROWN'S SARSAPARILLA, all diseases of the Blood, Liver, and Kidneys. Use only the BEST Medicines.

SIMMONS LIVER REGULATOR

DYSPEPSIA

Up to a few weeks ago I considered myself the champion Dyspeptic of America. During the years that I have been afflicted I have tried almost everything claimed to be a specific for Dyspepsia in the hope of finding something that would afford permanent relief. I had about made up my mind to abandon all medicines when I noticed an endorsement of Simmons Liver Regulator by a prominent Georgian, a jurist whom I knew, and concluded to try its effects in my case. I have used but two bottles, and am satisfied that I have struck the right thing at last. I felt its beneficial effects almost immediately. Unlike all other preparations of a similar kind, no special instructions are required as to what one shall or shall not eat. This fact alone ought to commend it to all troubled with Dyspepsia.

NOTICE
OF EXECUTOR'S SALE OF REAL ESTATE AT PRIVATE SALE.

NOTICE IS HEREBY GIVEN, THAT in pursuance of an Order of the Probate Court of Salt Lake County, Utah Territory, made on the Twenty-ninth day of June, A. D. 1887, in the matter of the Estate of George Nebeker, deceased, the undersigned, Executors of the Will of said deceased, will sell at Private Sale for Cash, in gold coin of the United States, and subject to confirmation by said Probate Court, on or after Monday, the Twenty-fifth day of July, A. D. 1887, all of the right, title, interest and estate of the said George Nebeker, deceased, at the time of his death, and all the right, title and interest that the said estate has by operation of law or otherwise, acquired other than, or in addition to that of the said deceased at the time of his death, in and to all those certain lots, pieces or parcels of land situate, lying and being in the said City and County of Salt Lake, Utah Territory, and bounded and described as follows:

(1st.) Part of lot five (5) in block one hundred and sixteen (116), Plat A, Salt Lake City, Survey, commencing at a point four and a half (4½) rods north of the southwest corner of said lot, and running thence north eight (8) rods, thence east ten (10) rods, thence eight (8) rods south, thence ten (10) rods west to place of beginning.

(2nd.) All of lots five (5) and six (6) in block eighty five (85), Plat C, Salt Lake City Survey.

(3rd.) Part of lot four (4) in section thirty-four (34), Township one (1) N. R. 1 West U. S. Survey, beginning 52 rods south and 15 rods west from the northeast corner of said lot, thence west 59 rods, thence south 28 rods, to bank of Jordan River, thence up the river 58 rods, more or less, thence north 35 rods to place of beginning, containing 19 acres of land, more or less.

(4th.) Part of section five (5), Township two (2), South Range 1 West, beginning at the northwest corner of said section 5, thence east 80 rods, thence south 160 rods, thence west 80 rods, thence north 160 rods to place of beginning, containing 80 acres of University land.

(5th.) Part of section six (6), Township two (2), South Range 1 West, being the east half of the southwest quarter and lots six (6) and seven (7) of said section six (6), containing 156 49-100 acres of land.

Deed at the expense of the purchaser.

Bids may be made at any time after the first publication of this notice and before the sale is made.

All bids must be in writing, and left with George D. Nebeker, 376 N. Fourth West Street, Salt Lake City, or be delivered to the undersigned personally.
