PROVO TEAM WON FROM L. D. S. U. BOYS

Track Meet Taken by Garden City Athletes by a Big Score.

M'ALLISTER'S GREAT WORK.

Dubel's Team Shtus Out Soldiers—Ogden Tournament Comes to an End—Kramer Arrives.

The annual track meet on Cummings field Saturday afternoon between teams representing the Latter-day Saints' University and the Brigham Young University of Provo, was won by the latter in a most decisive manner, the score being 76 to 27.

In spite of the big score made by the visitors the contests were highly interesting. The only feature that was not pleasing is blamed onto the weather man. A cold wind was blowing most of the time, and made it decidedly unpleasant for the spectators. The attendance was not what was expected but those who saw the meet enjoyed it in spite of the disagreeable weather.

As predicted, the Provo boys proved too strong in weight events and distance runs but in the short races the L. D. S. U. boys, realizing there was not much chance to win, put up a game fight just the same to keep the score down.

McAllister, for the L. D. S. U., was the star member of that team and did great work, especially in the relay race when he made a wonderful run. Again, in the 100-yard dash, he showed remarkable speed, equalling the state record of 10 seconds flat, and in the 220-yard run he easily distanced his opponents.

In the distance runs, Stallings of the B. Y. U. had everything his own way, taking the 440 and 880 events with a yard or two to spare. The mile event was easily won by the Jacobs brothers leaving Woolley far to the rear. In the weight events the Provo athletes were entirely too much for the locals. Had it not been for McAllister the L. D. S. U. defeat would have been overwhelming. He alone captured 16 points for his team. The results follow:

100-yard dash—McAllister, L. D. S. U.; L. Parry, L. D. S. U.; Riddle, B. Y. U. Time—10 seconds.

220-yard dash—McAllister, L. D. S. U.; Hansen, B. Y. U.; Schofield, B. Y. U. Time—24 seconds.

440-yard dash—Stallings, B. Y. U.; Chamberlain, B. Y. U.; McCloskey, L. D. S. U. Time—53 4-5 seconds.

880-yard run—Stallings, B. Y. U.; Chamberlain, B. Y. U.; Winder, L. D. S. U. Time—2:19.

Mile run—E. Jacobs and E. Jacobs, B. Y. U., tie for first; Woolley, L. D. S. U., third. Time—5:15 1-5.

EUREKA TEAM WON.

The socker football game at Eureka yesterday between the Salt Lake and Eureka teams was won by the former, the score being 5 to 0. Eureka set a warm pace from the beginning and Salt Lake had little chance to avoid the shut out.

TOURNAMENT IS ENDED.

Becker Proved to be Best of the Crack Shots and Took Everything.

The big shooting tournament of the Utah-Idaho Sportsmen's association held at Ogden is now a thing of the past and members of the organization are congratulating each other over the success of the three days' shoot.

On the last day Becker proved to be the whole show. He was out to win and managed to capture about everything in sight. He won the Browning medal, Idaho Falls medal, Becker trophy and high average meadl. In the shoot he broke 383 blue rocks out of 425, making an average of 90.5 per cent. There was a tie between Becker and Bush in the trophy event, but in the shoot off Becker won.

For the second time Love and Vince tied in the live bird shoot. Their shoot last year was a tie, and it was repeated this year. Each killed 11 birds out of 15. The Confar medal shoot resulted in a tie between Bigelow, Bybee and Mosley. The latter won by a toss of a coin. Lohr won the individual championship medal event. Salt Lake won the team shoot.

During the evening following the last day's shoot the members were banqueted at the Weber club by Matt Browning.

SOLDIERS BADLY BEATEN.

Dubel's Ball Tossers Shut Out Uncle Sam's Ball Players.

John Dubel's team of ball tossers got even with the Soldiers at the Fort yesterday and presented them with a goose egg. The shutout was due principally to the splendid twirling of a new pitcher John has managed to land. His name is Sponberg and he certainly had the "Indian Sign" on the boys in blue in yesterday's game. Of the first 12 batters who faced him, seven died at the plate. One put out and two assists are also part of his achievements and he had a hand in 12 putouts. Six hits, half of them scratchy, were all the Fort batters got.

The game was a fast one from start to finish and full of interesting features. Following is a detailed score:

CHAMPION KRAMER HERE.

Speedy Bicycle Rider Will Begin Training for Season's Races.

"Welcome to our city," said a bunch of cycle fans to Frank L. Kramer, the world's champion rider, when the latter arrived at the Kenyon and registered last evening.

Kramer, who looks considerably heavier than when he showed a clean pair of hels to Iver Lawson, stated that he had done no training this year but would soon be in good shape. "I am glad to return to Salt Lake," said he, "and I expect to remain here all summer and race at the saucer track." Kramer will be warmly welcomed by the saucer patrons when the game opens as he is recognized as a great racer and a sportsman.

It is put up under the guarantee of the Pure Food and Drug Act, but my guarantee I consider the best. Try the remedy, and if you are not satisfied, bring the empty bottle to me and I will refund your money.

LAJOIE'S FIRST BASEBALL CONTRACT.

The first baseball contract that Napoleon Lajoie ever signed was written on the back of a common envelope and called for Larry's services for the sum of $100 a month. The story of how Lajoie broke into the professional game was told by Charley Marston of Fall River, Mass., as he sat in the grand stand at Central Park, at Atlanta, recently and watched the team managed by his protege go through its daily practise stunts.

Back in January, 1896, Marston, then manager of the Fall River club, and Selee, then managing the Boston Nationals, dropped in to the office of the sporting editor of the Boston Herald. A few other baseball men were there, including Woodcock, who was once a star pitcher at Brown university. "Do any of you know of any good players that would do for my club?" asked Marston. "I know of a good batte," replied Woodcock. "I don't know his name, but he is a big Frenchman that lives down at Woonsocket.

"I call myself a pretty fair pitcher, but I haven't anything that he cannot hit all over the field. I can't get the ball past the plate." As they left, Selee rather discouraged Marston in going after Larry. Marston, however, could not get Woodcock's tip out of his mind, and the next morning he went down to Woonsocket.

He did not know the name of the man that he was going for, and when he reached the town of shoes he made inquiries at the depot, but without success. Next he visited a newspaper office, but there they did not seem to know whom he meant. Finally, he stepped into a cafe, and when he said he was after a big Frenchman that could hit the ball a mile he was told that he must mean "Larry" Lajoie.

He next went to where Larry was employed and then he was summoned. Marston had neglected to take a contract with him, but an envelope was brought into use and the greatest ball player that ever lived signed up on that. "I asked him where he wanted to play," continued Marston, "and he said he wanted to play second. As I had a good second baseman, however, I told him that there was no chance, and he replied that he could play any place except pitch."

It states that arrangements have been made to play the preliminaries between America and Australia at Wimbledon on Saturday, Monday and Tuesday, July 13, 15 and 16, and the challenge tie with the winning nation against the English holders Saturday, Monday and Tuesday July 20, 22 and 23.

FRANCE IS WORRIED.

American Automobile Invasion of Europe Causes Frenzy.

The French automobile world has been thrown into a state closely approaching frenzy over the announcement which has only just reached Paris, that the American Gold Cup tour is no longer a mere project, and that its consummation and success are assured, says the North American. Pending the development of the ambitious scheme to send a caravan of some forty or fifty American automobiles over 4,000 miles of European roads, the French press maintained an interested but in no way hostil attitude. Now, however, when it is known that the tour is a certainty, and that the number of cars actually entered is already in excess of a dozen, the Paris newspapers have thrown away all reserve, and columns after columns are being written denouncing the tour as an impertinence and a menace.

One of the most authoritative publications in the French automobile world, Les Sports, is particularly vicious in attacking the proposed tour. Les Sports sees in the 4,000-mile journey through France, Spain, Italy, Austria-Hungary, Germany, Belgium and England nothing but a commercial expedition undertaken with the avowed intention of furthering sales of American automobiles in France, to the detriment of the home product. It calls this commercial invasion "the American peril," and seriously advocates the imposing of a 45 per cent duty on the automobiles forming part of the caravan.

"If the Americans wish to prove the superiority of their automobiles to those of French manufacture," says La Presse, another influential Parisian daily, "let them enter in the international events held in France under French auspices, or else allow cars of French manufacture to participate in the Gold Cup tour."

As for holding a moving exhibition of American automobiles on French soil, La Presse rebels at the idea, which it characterizes as unfair and unsportsmanlike. Georges Prade, in Les Sports, goes at once to the root of the French resentment at the proposed invasion by pointing out that the rules which are to govern the Gold Cup tour are so liberal that no confusion whatever can come to the American cars participating.

"With a program which permits the replacing of broken framework, cylinders, crank shafts, clutches, driving shafts, axles, steering posts, gear shafts, flywheels and of practically the entire car," says M. Prade, "there is absolutely no possibility of any of the trade getting machines failing by the wayside and exhibiting their unfitness. They will all finish, and it will be a monster advertisement of the desirability and reliability of the American-made automobile.

"What is particularly galling is that this advertisement will have been secured under our very nose, and that we must suffer from it without in any way having had a chance to counteract it by paralleling and surpassing the achievements of our rivals, whose policy of exclusion leaves us important spectators of a Barnumesque procession."

HOW MILES LOST.

London, May 5.—Eustace H. Miles, who yesterday lost the court tennis championship to Jay Gould, practically attributes his defeat to having to wait while Mr. Gould was suffering from a cramp in the wrist. In a signed article in the Daily Graphic this morning Mr. Miles says:

"It was the closest match, but one, I have ever played. Gould deserved to win, and I never felt less regret at being beaten."

With reference to getting out of his swing and cold while his opponent's arm was being massaged, he says:

"It is one of my weaknesses that when I have stopped and grown cold I can hardly ever recover my form. I made every effort, but I had lost my swing."

Miles admits one grievious weakness, that he starts slow, he can last well, but cannot begin well. He says he was fit for another set or two when Gould was done for.
