SMOKING FATALITY.

Sad Fate of a Six-Year Old Idaho Boy While Hunting.

[Correspondence of the News.]

MALDEN, Oneida county, Idaho, March 31.—A startling accident occurred here today. A whole family of Wesley Buckland was in the field plowing with a team in one gang plow. The animals became restless, two going on one side of a stump the other and one on the other. From inexperience they actually drove both out and jammed a little boy who was following the plow into the beam, but he continued to follow on for another twenty rods or more. There he fell dying beneath the wheels under which he was rolled and dragged for a few minutes. Removing a cartridge he got up and started back to where his father was. He, however, proceeded but a short distance when he fell to the ground unconscious. Shortly afterwards he regained sufficiently to tell his father what was to the house and needed no assistance, but he died before the doctor arrived.

Examination showed that one or two of his ribs were broken while other serious internal injuries had also been sustained. The accident was a most sad one, he not 7 years of age. To the house it dying words were, "Papa, I tried to hold them (the horses) out especially." This he repeated several times. He was very bright and quick for one only needing to cross a stream or window to pass over our community.

PRIMARY CONVENTIONS.

Conventions will be held in the various precincts of the city this evening for the purpose of electing delegates to the State convention. The delegates are first to be chosen by the different wards and then submitted to the committee for approval. The precinct conventions will be held at the following localities: First precinct, Ninth Ward meeting house; Second, the Eighth Ward meeting house; Third, the Sixth Ward meeting house; Fourth, Bennion school house; Fifth, Third Ward school house. Ladies are expected to take a lively interest in these conventions.

John Cook.

John Cook, concerning whom inquiries have been made by London friends, desires to acquaintance through the columns of the NEWS for their benefit, that his address is P. O. box 48, Mill Creek, Salt Lake county, Utah.

CHAMBER OF COMMERCE.

Insurance Proposition to be Made a Bank-only Inducement.

It is a well known fact that the Chamber of Commerce during the past few years has been an exceedingly inactive institution scarcely able to carry on its work for lack of funds. The direction are now determined, however, to make known the manifold resources of the city and State. A meeting to that end was held last night.

At the recent annual meeting of the chamber, it will be remembered that Secretary Colburn proposed a unique fire insurance policy as an extra inducement to citizens to identify themselves with the association. The proposition was taken on a pro rata basis to be in successful operation in Indianapolis, where where a number of the leading business men assumed one of the dollars each for the benefit of the deceased family. It was proposed to make an assessment of $2 per head and the widow would get an insurance of $1000. The matter was discussed some time and it was resolved to address an individual letter to the business men and prominent members of the organization inviting them to join, and a committee was appointed to see that this was done.

The committee is President Ansch, Secretary Colburn, John A. Weite and E. G. Higbee, was then adjourned until Tuesday evening next at 8 o'clock.

BULL HILL BUGABOO

Nothing Known Either in Utah or Colorado of any Contemplated Arrest.

A special from Colorado Springs to a Denver paper says: The officials of this county believe the district attorney and sheriff intend to be entirely innocent of any contemplated arrest of Bill Hill here in Utah for conspiracy in the burning of the jail, and say that they believe that the Utah authorities are even guilty in the same manner with the Wells Fargo detectives, Burr and Morrison, Arthur and Walsh, who brought all this over a year ago. The officials of this county say that if there was anything later than of Bill Hill now in Utah, he did not commit it and did not know of it. The officials say that the Utah officials have never made any attempt to get hold of Bill Hill, and that if they had they would have had to get hold of Bill Hill's brother, who is now in the Utah penitentiary for a term of years.

From this it is inferred that the officials of this county believe that there is no foundation for the story that Bill Hill has been in Utah, and that the Utah officials have never had any of the trouble in hand.

Nothing has been heard in Colorado of Bill Hill since he left Colorado Springs, and the officials here say that if he is in Utah he is not in any of the trouble in which he was involved in Colorado.

Nothing has been heard in Colorado of any contemplated arrest of Bill Hill, and the officials say that if there was any such thing in contemplation they would be the first to know it, as they would be called on to furnish the money to pay the expenses of the officials who would go after the man.

Nothing has been heard in Colorado of any such thing, and the officials say that if there was any such thing in contemplation they would be the first to know it, as they would be called on to furnish the money to pay the expenses of the officials who would go after the man.

GOOD NEWS FOR FISH EATERS.

Prospects of Rare Treat for Utah Citizens.

The following letter is self-explanatory:

March 31, 1896.

Hon. A. Milton Musser, Salt Lake City, Utah:

Dear Sir—I have the honor to acquaint you that the management of the Board of Commissioners of the World's Fair, by vote passed at your Legislature assembly, thinking this commission for the purpose of exhibiting the public waters of the state of Utah, also the Hydrographic engineering exhibit in the Mines and Mining building, have decided to place the exhibit of the state of Utah also the Hydrographic engineering exhibit in the Mines and Mining building, the public waters
