DESERET EVENING NEWS.

Friday, March 8, 1895.

EASTERN CAPITAL.

Already Being Attracted Hither by the Natural Gas.

SMALL WE HAVE A CELEBRATION

Chamber of Commerce Stockholders to Answer the Question Monday Night—Mains Tested.

Already has the news spread in the East that natural gas has been discovered here, and business men are turning interested in the subject. It is only a few days since a gentleman from Pittsburg arrived in this city with the avowed purpose of investing capital here. He stated that he came here purely on account of the natural gas discovery, for, said he, "I have made money in every gas producing area in the country, and do not propose to miss the opportunity afforded in Salt Lake." He is the advance courier of hundreds of other such men, who will bring hither their money for investment of a proper advertisement of the natural gas is made.

NATURAL GAS DAY.

The natural gas display advertised to take place during Conference week will be a grand event, providing the people give the proper support to those having the matter in hand. Importunities for the celebration have been very numerous, but it became apparent to the Chamber of Commerce officials that nothing could be done without a united effort, and therefore a meeting has been called for Monday evening next at the Chamber of Commerce, for the purpose of presenting the matter to the stockholders and giving them an understanding of the great amount of good that would come from such a display as it is proposed to give. For if the design of the committee shall be carried out, the celebration of natural gas day will be of such magnificent proportions as to attract the attention of not only the people of the Territory, but of the entire nation.

The committee have worked energetically in this matter and what they need is the support of the business men and the entire community. Letters are being sent out by Secretary Clithero for the purpose of getting a large representation of the leading men of the city to attend the meeting and assist in making the proposed event one that will cause it to be heralded throughout the entire country.

WILL BE REMODELED.

The work of remodeling the offices of the Chamber of Commerce will begin next week, when a great change will be made in the appearance of the place. The exhibits will be removed to the front of the building and the entire place will be made attractive to both citizens and strangers.

TEST MADE.

As announced in yesterday's News, the gas mains were completed to East Temple street and later in the day the gas was turned in; a test was made and they were found to be in good condition.

In Wayne Stake.

QUARTERLY CONFERENCE.

Minutes of Wayne Stake quarterly conference, held at Lou, Wayne county, Utah, Feb. 23 and 24, 1895. Pres. Willis E. Robson, presiding. There were present on the stand, Bishop Henry Teepies and Elder Jos. Whiteneel, of Burville; Elders John R. Young and Ira Hatch, the Stake Presidency, High Councilors and Bishops.

Pres. W. E. Robson reported the Stake in a very prosperous and progressive state. The Saints generally are seeking to observe the Word of Wisdom, and we are paying more tithes and fast offerings than ever before in the history of the Stake.

Counselor Hans M. Hansen said he was greatly pleased to note the progress being made by the Saints of the Stake. He remembered in the year 1878 that this valley was a wild, desolate country. At that time the Apostles visited the place and promised the people they should be blessed and the elements should be tempered for their good. We have lived to see the realization of those promises, and if we continue to serve the Lord, this valley will become rich in the products of the earth. He exhorted ward teachers to be faithful, always walking in the fear of God continually.

Elder F. W. Young believed the Church in general was making very rapid progress. He referred to the situations established among the Saints wherein the young men are being trained in the ministry and the young ladies to become good, wise and noble mothers. Spoke upon the necessity of every member of the Church keeping a record of their lives, that the rising generation may profit by reading the same. Spoke briefly upon the Word of Wisdom.

Bishop Matt. W. Mansfield reported the Thurber ward in a very healthy and progressive condition. He spoke in regard to the power and efficacy of prayer, showing that adherence to the principle brought the Father and the Son from their mansions in glory to administer to the Saints by Joseph Smith; later the Gospel was restored and all the powers Priesthood conferred in this dispensation were given in answer to prayer.

The Lyman and Teasdale wards were reported in good condition by their respective Bishops—Peter J. Christensen and Geo. Coleman. Bishop Hiett E. Mansfield addressed the Saints in his afternoon. Today many principles are being taught to the Saints that it taught a few years ago would have been rebelled by some; but we are living in a day of progression, and God has designed to make of the Saints a good and holy people. No person can break any law of life being without suffering. God's laws cannot, and it we wish to escape punishment we must obey the law. God is merciful and it we repent of our sins He will forgive, for Jesus came to seek and to save that which was lost. He believed the Fremont ward to be in good condition, the various quorums of the Priesthood and ward organizations in good running order.

Bishop Hall P. Brown took pleasure in reporting his ward to be in a better condition than before. The Saints in Low are trying to live the law of the Gospel. Ward teachers are doing their duty, the various organizations of the ward are in a healthy state and all is prosperous.

Bishop W. E. Hansen said the Priesthood in the power of God unto salvation, "and all who will visit the lock of heaven will prove the unchanging power of God to save. He said the Carbonate ward was in better condition than he had ever been since to serve report.

The Blue Valley ward was reported to be in a healthy condition by Elder Jonathan Hall. The position was very encouraging in seeing the Word of Wisdom and a gospel need in the ward numbering twenty-five years of age was some tomorrow.

Bishop Henry Teepies addressed the youth, exhorting the young men to prepare themselves for the ministry. He was happy to know that was working in the hearts of the people and let the day of redemption be speeding with.

Elder John D. Young spoke at some length upon the law and authority of the Priest and the great work in which he is in this day by the Prophet Joseph Smith. He briefly alluded to the persecutions endured by the Saints in our day.

Counselor Gomer S. Hallen spoke of the various duties extant in the earth. The subject of the Godhead, tithing and the proper training of children was treated by the speaker.

A Priesthood meeting was held in the evening at which much good instruction was given by the Stake presidency and Elder F. W. Young.

Sunday morning Patriarch E. H. Hansen was the first speaker. He said he had been connected with the Church for more than fifty years and had always been pleased to bear testimony of the truth of heaven, and was convinced that he would make of this people the glory and excellence of the whole earth. Give security unto that we seek for faith to excel in all things, she rejoiced in his labors as a Patriarch, for his heart was full of blessings for the Saints.

Elder Ira Hatch said most of his life since the year 1849 had been spent laboring among the Indians. He related many interesting experiences he had passed through and told of hardships and sufferings endured while laboring to ameliorate the condition of the red man.

Elder Joseph Whiteneel had greatly enjoyed the spirit of the conference. Said we are born and raised in the Church, and related some of the experiences he encountered when coming to the Saints to come that place, with an earnest appeal to the youth to investigate the truths of the Gospel and seek for testimonies concerning the work.

Elder Jos. Emmerey addressed the Saints on the necessity of a core life, urging that no person was fit subject to teach the youth of Zion who neglected strictly to obey the Word of Wisdom and to observe the law of tithing.

At the afternoon meeting the general and Stake authorities were present by Counselor G. S. Hallen and addressed by the conference. Elder Jos. Emmerey read the statistical report.

President W. E. Robson discoursed at some length upon the apostacy from and revelation of the Gospel, adducing scriptural evidences to substantiate his arguments. The necessity of continuous revelation was very clearly shown and Elder Robson closed by exhorting the Saints to diligence and good work.

Elder Seth Taft referred to the development of the work of God in the earth; the Gospel should make us better men and women; the Lord has gathered the Saints from the nations of the earth to these valleys that He may raise up unto Himself a pure seed; the Gospel is in harmony with all the sciences.

Counselor Hans M. Hansen spoke upon the necessity of the Saints continuing to practice the teachings received during this conference. We shall be judged by the light that we receive, and the Lord will toward us according to our works.

On Friday afternoon, February 22, Sister Hannah Sorenson, by request, delivered a very able discourse in the Priesthood of the Stake on the "Science of life and the laws of social purity."

On Sunday evening a meeting under the auspices of the Sunday school authorities was held, at which Sister Hannah Sorenson delivered a discourse to parents and teachers of the Sunday school, beautifully setting forth the duties and responsibilities incumbent upon them.

All the meetings were well attended. The weather was favorable, and the spirit of peace and refreshing were poured out upon the people.

JOSEPH EGBERTSEN,
HOKE UBERS.

One of the largest and most interesting meetings ever held in Wayne Stake convened in the Lou meeting house, Wayne Co., March 2nd, 1895. The occasion was the closing exercises of the W. H. P. R. class, taught by Sister Hannah Sorenson, which has been in session for the seven weeks just past. There were present of the Stake presidency, Elders H. M. Hansen and G. S. Hallen, a large body of members of the Priesthood and leading brethren in the Stake, besides a large body of women and sisters from all parts of the Stake. The meeting house was elegantly decorated for the occasion, over the stand hung a very beautiful motto bearing the inscription, "The Physical Regeneration of our Race by Obeying the Mandate." After the opening exercises Sister Sorenson made a few remarks in regard to the power and efficacy of prayer, showing that adherence to the principle brought the Father and the Son from their mansions in glory to administer to the Saints by Joseph Smith; later the Gospel was restored and all the powers Priesthood conferred in this dispensation were given in answer to prayer.

The Lyman and Teasdale wards were reported in good condition by their respective Bishops—Peter J. Christensen and Geo. Coleman. Bishop Hiett E. Mansfield addressed the Saints in his afternoon. Today many principles are being taught to the Saints that it taught a few years ago would have been rebelled by some; but we are living in a day of progression, and God has designed to make of the Saints a good and holy people. No person can break any law of life being without suffering. God's laws cannot, and if we wish to escape punishment we must obey the law. God is merciful and if we repent of our sins He will forgive, for Jesus came to seek and to save that which was lost. He believed the Fremont ward to be in good condition, the various quorums of the Priesthood and ward organizations in good running order.

Bishop Hall P. Brown took pleasure in reporting his ward to be in a better condition than before. The Saints in Low are trying to live the law of the Gospel. Ward teachers are doing their duty, the various organizations of the ward are in a healthy state and all is prosperous.

Bishop W. E. Hansen said the Priesthood in the power of God unto salvation, "and all who will visit the lock of heaven will prove the unchanging power of God to save. He said the Carbonate ward was in better condition than he had ever been since to serve report.

The Blue Valley ward was reported to be in a healthy condition by Elder Jonathan Hall. The position was very encouraging in seeing the Word of Wisdom and a gospel need in the ward numbering twenty-five years of age was some tomorrow.

JOSEPH EGBERTSEN,
HOKE UBERS.

Highest of all in Leavening Power.—Latest U. S. Gov't Report.

Royal Baking Powder

ABSOLUTELY PURE

Miss Eugenie Hall; a quartette by Sarah Little and the Juvenile class was then sweetly rendered, followed by remarks from a number of the business and professional men by a number of the sisters attending the class.

In the evening a free concert was given by the members of Sister Sorenson's class, to a large audience and overflowing. The program consisted of speeches, songs, recitations and a well rendered answer in physiology.

On Friday afternoon, March 1st, an organization of the W. H. P. R. class was effected at Lou, consisting of a president, four counselors, two secretaries and fourteen committees, all of whom were blessed and set apart for their labors. The labors of Sister Sorenson in this Stake are very much appreciated by all. Not only has she taught the female sex, but also the male, and every man, free of charge, she has taught a class of girls ranging from ten to sixteen years. Two nights a week she has taught physical culture in Lou, and one night each week in Fremont, lectures in physical culture at Fremont, all free of charge. Very frequently she has spoken in the evening in the Saints in the different settlements and has labored amazingly to benefit, bless and elevate the people. She is performing a great labor among the daughters of Zion, and leaves with them and reward her for the noble work put forth and the uplifting and manifestations to come manifested by a higher plane of social purity and happiness.

Today our good sister leaves for Salt Lake City, where, in the near future, she will continue her work. May she meet success that characterized her labors here continue with her.

JOSEPH EGBERTSEN.

SCHOOL BOARD MEETING.

Long List of Teachers Who Apply for Employment.

The Question of Attempted Tax Levy On School Property Quickly Disposed of.

The city school board met in regular session last night and among other matters which came up for consideration was the question of a proposed special tax levy on all school property within the city, for street lighting purposes.

The question was called up by Mr. Thomas who said he had been asked and had the clerk had also been requested by Jewish men to the committee should be called that they might make the levy. After a very few minutes' discussion the board decided that neither it nor its employes were obligated in any way to comply with the request, basing its conclusion on the Territorial statutes which contain this section, "All property, real and personal, held by the Board of Education, shall be exempt from taxation and shall not be taken in any manner for debt."

All of the members were present and President Dusy occupied the chair.

Applications for positions in lieu of Mrs. Hy. Greenwald, Mrs. Jessie Brown, Miss Jessie E. Johnston, Miss Louie Post, Miss Mabel Westcott, Miss Lucy Dunn, Mrs. Irene M. Clarke, Miss Katherine Lynch, Mrs. E. E. Barnett, Miss Myrtle J. Wells and Miss Ina Crawford were referred to the committee on teachers and school work.

Treasurer Whitney's report of receipts and disbursements for the month of February showed:

RECEIPTS.

Balance, February 1	$ 65,224 33
Received from F. Armstrong	10,000 00
Received from Treasurer	2,000 00
Received from D. R. Allen, timber sale	9,224 33
Total	$ 86,448 66
Disbursements	19,911 67
Balance March 1	$ 66,536 99

Received to the Statute committee.

The committee on buildings and grounds recommended that the contract for placing new pipe falling around the area ways at Lowell and Bryant schools be awarded the Sugan, Anderson & Hamlin company in the sum of $195, as the lowest bidders. Adopted.

The contract for furnishing ten laborers at school grounds at the lowest school was awarded to the Salt Lake Building & Manufacturing company, whose bid of $40 was the lowest received. The contract for the delivery of yard stores at Emerson, Uintah and Bonneville schools was awarded to A. L. Hamlin in the sum of $1.00. The respective bids of the following teachers were rejected and accepted:

Mrs. Verde R. Watson, first grade, Lowell school; Miss Bertha Lyons, Adams beginners' grade, Washington school; Miss Mary E. Acomb, beginners' grade, Grant school; Miss Jennie Green is transferred from Lincoln school to Lowell school, first grade, Miss Ada Alston is employed in place of Miss Alston at $50.00 per month, and Miss Sarah E. Lewis for the third grade, Lincoln school, at $50.00 per month.

The committee on buildings and grounds were authorized to have the blackboards at Lincoln school painted.

The petition of John Ryan for a position as janitor was referred to the committee on sites and buildings.

The Thomas and Rennie was authorized to purchase supplies for the different schools.

A letter was received from Mrs. M. B. Jordan, formerly employed from the Thirteenth school, on account of what appeared to be a case of absence from school without excuse. Inasmuch as there was some doubt concerning the case, it was referred back to the committee on teachers and school work for investigation and report.

On motion of Hansen the committee on buildings and grounds were authorized to have shade trees planted in the school grounds whenever expedient.

Appropriations were made amounting to $2,317.10, after which an adjournment was taken for two weeks.

THE WEATHER MAN'S.

Why Our Bulletin is Looked to Great Extent by Men and Gods.

In the weather bulletin is an important effect of an atmosphere. I need do little more than cite the case of the press. Our bulletin is practically at the same distance from the sun as the earth, and in the same atmosphere. Just how far present effect the operations of its superficial portions. It would therefore seem that, as far as our need is concerned, the press need to be made the same condition as the earth. Still to those defined in the bulletin from the temperature conditions prevailing on our earth the best our conditions to the temperature conditions prevailing on the earth we should make a good medium.

Now, the bulletin is supposed to be that the sulfuric is exposed to a temperature range of temperature extending to hundreds of degrees. It has been demonstrated that the temperature of the sun is above the boiling point of the sun. Now, we know that of that of boiling water, while it is generally certain that when the sunbeams are withdrawn the temperature of the sun sinks to a point far below that with which any one is familiar. Now, the bulletin is supposed to be, then, is a globe full just as we are, with sunbeams, and yet managing temperature vicissitudes of climate, surpassing any change endured by the earth.

The effect upon the bulletin of these two conflicting forces is certainly unexpected with the fact that the press has very little atmosphere, even if it be not completely destitute thereof. Our atmosphere serves as a blanket to the bulletin, it relieves the press in which the intense force of the sun affects the earth, and it mitigates the effect of the cold to which the earth would be exposed when the sunbeams are withdrawn. Such an unfortunate agent is absent from the press, and hence arise those violent extremes of its climate condition.

We can see what would become the sulphuric and the press of an atmosphere heated to the boiling point in one of the climate that a planet is to have. We do not have enough regarding the atmosphere of Mars, Venus and Mercury to be able to draw any certain conclusions with regard to their climates. But Gods way of best effects, that is, as many as possible for the different influences we have named to go a long way toward neutralizing the extremes that the climate of those planets would otherwise become to our experience of the different conditions of our homes that they confer at their actual solar distances. So far as some climate is concerned, it seems quite possible that opposite atmospheres and land distribution might be adjusted on the earth and Mars, Mercury and Venus in such a manner that certain opposite types might be common to all the four globes.—Sir Robert Ball in Fortnightly Review.

The Burlington route is the only line retaining dining cars on its "A. la carte" plan, between Denver and Omaha, Kansas City and Chicago. Passengers have to pay only for what they eat. Be sure that your tickets read via the Burlington route.

AN OPINION GIVEN.

Recently Mr. J. B. Thomas, of North Dakota, visited the Shenandoah Valley, Virginia, and after carefully examining the country located in Winchester, he wrote to Mr. V. Richards, Land and Immigration Agent, Baltimore & Ohio Railroad, Baltimore, Maryland, as follows: "I have been in nearly every state and territory of the United States, and am thick in my opinion that this valley surpasses all other sections in the Union. The lands are low in price, and produce profitable crops. I thank you for directing me here, and submit these seeking pleasant and profitable homes to look in this country."
