HAS WITHDRAWN HIS RESIGNATION.

Major Jackson Will Continue to Serve the Exchange.

COMMITTEE SO REPORTS.

Stock Business in the Pit This Morning — The Exchange Has Money.

Convened by the committee that he having at this time would be detrimental to the exchange, Major J. E. Jackson has withdrawn his resignation as president and will continue to serve the board until the expiration of his official term.

This substantially was the report submitted this morning by Messrs. Joseph, Cairns and Nowell, the special committee. Acting as spokesman, the former stated that Major Jackson had been approached in the matter and that after due consideration he had concluded to lay aside his own feelings in the premises and stay with the board, as its presiding officer, until he shall have served the term to which he was last unanimously elected. The report was received with cheers, demonstrating the feelings of the exchange members towards Mr. Jackson.

STOCK MARKET UNCHANGED.

With Dealer Excepted, Figures Generally Continue at a Low Ebb.

The mining stock market remains practically unchanged. In the pit this morning fluctuations, either way, were of a minor character, and business was done on the old basis, or on the seller, rather, as a return to old conditions is not yet so near at hand. The sales amounted to 32,900 shares with a selling value of $14,425.12.

In the trading Chloride Point took the lead in activity and freely bid $1.01. There then was business in Dexter at better figures than on the day before, while Horseshoe Bonanza bid and $1.45 while Four Aces hovered around 19 cents, but closed with investors at 22. Grover, Dexter, Ontario, Ophir, Iron Colonia started at 11 and sold down to 6, and Grand Central took part at 57. While Horseshoe was a seller at 7 cents and Lower Mammoth subscribed 200 shares between 72 and 75. Northern Light did business at Eighty, ranging from 78 to 80 cents, Sacramento at 47½ @ 49½ and Sunshine at 27½, these sales being followed by Star Consolidated in which there was trading at $1.29 to $1.32.

Darkeys continued firm and sold at 4½ while Burton-De La Mar was dealt in at 2. Central Mammoth at 3, Dalton at 2½ and Prince between 13 and 14. For Horsers Extension the brokers paid 8 to 9½, while Monarch was a seller at 1 cent and Martha Washington threw out 1,000 at 16. In Omaha, sales were made at 22 cents, these followed by a transfer of Richmond Anacondas at 1½ and one of Sunbeam at 12. Blue Chip Consol was bought at 3½ while Valeo closed the call with sales of 200 shares at $1.35.

The closing figures were as follows:

The Exchange Has Money.

That the Salt Lake stock exchange is in a healthy condition financially, was revealed this morning when Secretary Hodgson submitted a report crediting the treasurer with having on hand the sum of $1,367.12. The report showed that from dues there had been received the sum of $397.75; donations, $1; listing stocks, $22; membership, $1,585; and fines $1, making a total of $2,012.17. There was due from members in arrears, said Mr. Hodgson, the sum of $31, while assessments had been paid in the sum of $449.50, while for fairness there had been disbursed $48.45. The receipts for January alone amounted to $1,537.50 while the disbursements amounted to $170.33. The office rent secured the exchange owned considerable valuable furniture, as well as 1,100 shares of the Salt Lake Lark Stock. The report was received and filed.

STOCKS AND BONDS.

New York, March 2.—There was but little change in the stock prices at the opening. Trading was about normal and well distributed. A drop of several points in Metropolitan street Railway produced moderate decline in the general market, but when the decided firmness and efforts of the traders to counter stocks sold at the start soon caused a general recovery. Tobacco gained points after the official announcement of the absorption of the Trust by the new company. The trading element made a determined attack on the speculative and succeeded in breaking Metropolitan, and Tobacco 2 points. Other properties of this class yielded from 1 to 2½ points. The railway list followed the Metropolitan with the grangers and Pacifics, declined sharply.

The bond market was under pressure, notable for the active issues.

BUNKER HILL INCORPORATION.

New Company to Develop an Old Stockton Producer.

STAR CONSOLIDATED STRIKE

Dixie Copper Mines Leased—Young America's Plans—Miscellaneous Mining Items.

The Bunker Hill Mining company, with a capital stock of $10,000, divided into 500,000 shares at 10 cents each, filed articles of incorporation with the county clerk today. The names of the incorporators, together with their residence and the amount of stock subscribed for by each, are as follows: J. A. Jacobsen, 42,000 shares; J. T. Hodgson, 10,000; Mark Hopkins, 10,000; F. H. Wilson, 25,000; J. A. Brown, 25,000; W. Y. Cornish, 25,000; Charles Moyle, 5,000; H. E. Plumb, 30,000; V. P. Wells, (trustee), 10,000; V. P. Wells, 5,000; A. L. Jacobs, 12,500; W. P. Lynn, 20,000; Thomas W. Jennings, (trustee), 10,000; L. D. Young, 15,000; L. D. Young (trustee), 20,000; J. N. Shoop, 5,000; all of Salt Lake City, and Mrs. J. Weber (trustee), Ogden, 2,000; D. A. Dupar (trustee), Robinson, 5,000.

The principal place of business is Salt Lake City, and the officers and directors are: J. A. Jacobsen, president; Victor P. Wells, vice president; F. H. Wilson, secretary; W. P. Lynn, treasurer; J. A. Jacobsen, manager; directors, H. E. Plumb and W. J. Cornish.

The company has leased the Bunker Hill, Little Jessie and Cash Box mining claims, situated in the Stockton valley district, Tooele county, and it is the location of the incorporators to work in their development, and make the Bunker Hill one of the big producers of Stockton.

Star Consolidated Strike.

It was reported in mining circles today that rich ore had been encountered on the 300-foot level of the Star Consolidated at Tintic. If the report is correct it is demonstrated that the value of this property as a producer and will doubtless throw it into greater prominence than ever.

Young America's Plans.

The Young America Gold Mining company, which owns a valuable tract of ground at Tuscarora, Nev., expects to soon to work in its development and equipment in thirty days. It is proposed by the company to erect a stamp mill as soon as the weather improves, for the treatment of gold ore holds no new exposed. First of all, however, the shaft will be widened and a hoist installed. It has been impossible to attend to this work earlier, owing to the condition of the roads leading into the mining. The Young America is classed as one of Tuscarora's best properties.

DIXIE MINE LEASED.

Good Copper Claims to Be Opened Upand Developed.

[Washington County News.]

The Dixie Mining and Smelting Co. has leased their property to Samuel L. Adams, Jr., of this city for a period of two years. The group comprises the Apex, Morning Star, Evening Star, White Elephant, Highland Mary, Hidden Treasure, Limestone, Home Picket, Last chance, Champion and Sentinel, all situated in the Telegraph Mining district, about eighteen miles west of St. George. The lessee undertakes to develop the claims, which have been constantly employed thereon during the lifetime of the lease.

These mines were discovered about fourteen years ago and considerable work has been done on them. Mr. Adams is confident that the contain inexhaustible supplies of high-grade copper. Hundreds of tons of ore running as high as 50 per cent copper has been shipped from these properties during 1882, at which time copper was selling at 20 cents per pound. Mr. Adams with a force of men, will commence work right away.

New Mining Companies.

The Tonquin Mining company has filed articles, H. J. Cheesman, C. H. Beach, L. R. Pierce, W. Alfred Moore, W. E. Lake, E. A. Thomas, O. W. Bates and Thomas Marmouzis being the incorporators. The amount of capital stock is 10,000, in 10-cent shares. The claims consist of the Farm Nos. 1, 2, 3, 4 and 5, in Ophir district.

The Headlight Mining company, with a capital stock of $50,000, in shares of the value of 10 cents each, has been incorporated. W. J. Moore is president, Francis Tate, vice president, J. L. Parkes, secretary, and George S. Tate, treasurer. The claims owned are the Little Sarah Nos. 1 and 2 in Tintic district.

Articles of incorporation have been filed for the Ophir Hill Mining company, with a capital stock of $50,000, in 10-cent shares. J. S. Watts is president, Elmer E. Darling, vice president, George Marth, secretary, J. L. Watts, treasurer. The claims are the September, October, Ontario, Minnie Queen, Silver Hill, Cascade, China and Rainbow in Tintic district.

MINES AND MINING MEN.

A car of copper ore came in from the Horn Silver today.

E. O. Woolley is returned from the south today, and will shortly be found among the stock brokers.

The South Swansea will pay its $1,000 dividend on Monday, the transfer books being now closed.

It was announced in the pit today that the blackboard was to be raised, "Will that raise stocks?" asked Chas Gradanigo.

The Hecla company, operating at Bingham, is now extending its 500-foot shaft. Prom which splendid samples of ore are being taken.

The Morning Glory Mining company has filed an amendment to its articles of incorporation lowering the capital stock $100,000 in shares of $1 each.

An assessment of two cents a share has been levied by the Yankee Girl Mining company, the same becoming delinquent April 11th.

A boom awaits the Gold Mountain country, as six new mills are to be erected on mines there during the coming spring and summer. The properties to be equipped are the Holland, Gold Mountain, Golden Star, Mammoth, Dewey and Mayflower, all blossom with good bodies of gold ore.

The Tintic Miner and Silver City Miner have consolidated. The new concern has been incorporated under the name of the Tintic Publishing company, which has a capital stock of $1,000 in shares of $1 each. F. E. Mccarvey is president, C. F. Spiteam, vice president, and manager, and Stuart L. Walcott, secretary.

OUT OF CONTROL OF THE SELLERS.

Prices Jumping in the Iron and Steel Markets.

PIG IRON IS NOW SCARCE

Question Not So Much One of Furnaces as of Raw Material—Developments in Wire and Tin.

New York, March 2.—The Iron Age will say today:

The iron and steel markets are selling and seem now entirely out of the control of the sellers. Prices have been jumping dollars per ton and the excitement is spreading. As for the first half of the current year, it is not so much a question of prices and has been a matter of ability to deliver at all.

It is not so long since the majority of the trade poo-poohed the predictions that there would be a scarcity of pig iron. The fact is admitted now and the only question is when relief may be expected. The fact is that the furnaces, either by the blowing in of additional furnaces, or by the checking of the supply of fuel, are not likely to fall of the same demand. For the first half of the current year not a single one of these furnaces can be blown in that will make any impression. Will it come early in the second half? We believe that in the respect the hope of many will be doomed to disappointment. It is true that a number of large works recently operating on the West coast will be blown in after the first of July, and that furnaces now idle are expected to start in soon. It is true that a number of southeastern stacks are trying to get ready and the same is true in Virginia and the South.

But with many enterprises it is not a matter of putting the plant into shape, but of getting raw materials, in the central west, in the east and in Virginia. The ore problem is the biggest one, although coke is a big factor, even through imported ores, in the South it is a matter largely of fuel.

The coke situation, of course, will be checked. The tonnage of all kinds of coke will be about 800,000 to 900,000 tons. For the first six months of 1899 the tonnage of the second half much has been contracted for. In some cases even now it has been impossible to deliver all of coke and that per cent is due to come in the south. In some lines, it is proving to be impossible to get the raw material must go ahead, and entirely may not be possible. Under the circumstances, it is probable that some such relief can be expected before October.

As an effect, it must be considered that in many lines the consumers have been loser of stocks for years without being able to replenish them. They are having rather novel experiences now and are endeavoring to guard against them by accumulating large reserves. In the aggregate this means a big tonnage.

The shortage of material has been emphasized during the week by several happenings. A leading wire interest has purchased a great tonnage of rods, several blocks of billets, aggregating about 25,000 tons for a certain delivery. Two eastern steel works have purchased a stock of about 10,000 tons of basement billets for a plant which is now building in preparation to special manufacture. What the second half will bring in basement pig in the United West will develop in a few days.

For earlier shipments the furnaces have sold as high as $12.50 and are now out of the market.

There have been heavy sales of mill iron east and west. The scarcity and high prices have kept Alabama iron from moving to Pittsburg, are starting very prudding mill in good condition, and the second half orders for wire have been very heavy.

In foundry iron there have been large purchases in the third quarter in the Chicago district a large car company has taken 10,000 tons of northern iron and a like quantity of southern iron for the second half.

Advances have taken place along the whole line of finished iron and steel, structural material is up $7 per ton and bars are $2 higher. Plates, sheets and skelp are $10 per ton and are in sharp advance. Merchant pipe makers have issued new uniform discounts. Cut nails are higher and have taken rates on the proposition to gather the eastern works into a consolidation.

A sharp advance has taken place in wire products, and in tin plate a further upward move is imminent.

CHANGE UNNECESSARY.

"My little daughter had eruptions and her skin peeled as though it had been blistered. I began giving her Hood's Sarsaparilla, and after taking a few bottles she is almost entirely well. We were told the most have a chance of climate for Hood's has made it unnecessary."—J. T. Freeman, Fort Wayne, N. M.

That Hutton after eating is prevented by one of Hood's Pills. They don't gripe.

As the season of the year when pneumonia, is at hand, see Hood, compare, coughs, catarrh, bronchitis, and lung troubles are to be guarded against, nothing is a fine substitute, will answer the purpose as well as "Hale's Honey of Horehound and Tar." That is the one infallible remedy for all lung, throat or bronchial troubles. Insist upon not having it if something else is offered you. F. J. Schramm, McCornick Building, corner Main street, First South.

Before the discovery of One Minute Cough Cure, ministers were greatly disturbed by coughing congregations. Now cures the ill now. F. J. Schramm, McCornick Building, corner Main street, First South.
