"The steps that you now take, the ability of the government to back them up and the fact that not a particle of risk is involved therein, give the fullest guarantees of the sound condition of our treasury. All that our people need to do now is to go ahead with their normal business in a normal fashion and the whole difficulty disappears.—Extract from President Roosevelt's letter, Nov. 17.

A MAN'S ABILITY

To tell a good house when he sees it is nothing out of the ordinary. Most anybody can do that—it isn't like telling pure silk or real rubies, but it's a lot more vital to his existence. So, go up to 458 C street where you will find the keys to the houses—the good houses—we have recently built on Ninth avenue, and after you inspect them and see how well built and modern they are, select the one you would like for a home of your own and then come in and let us explain to you how easy it is to possess this home.

These houses which face south, east and west are in a most desirable location, in every way calculated to insure health, comfort and convenience to those who occupy them and the beauty of it is that you can get them on long time payments, because they are such splendid properties that we are willing to make long loans on them.
