DESERET EVENING NEWS.

Wednesday, November 29, 1893.

FRAGMENTS.

The best American will meet on Saturday evening next for the election of officers for the ensuing term.

Captain Dominick has resigned his position as Adjutant of the Second Battalion, N. G. U. T., and Major Wonnacott has been appointed to succeed him.

Major Wonnacott desires through the News to express his thanks to those who so kindly rendered assistance to his late wife, Annie Harris, during her last illness, and also those who assisted at the funeral.

The county clerk today issued marriage licenses to Albert L. Dalgleish, of Bingham, to Hyrum Ware, of Bingham, and Margaret Walker, of Salt Lake, both in Tooele county, Idaho.

A lively game of foot ball is expected to take place at the Exposition grounds this afternoon, Thanksgiving Day, beginning at 2 o'clock. The city and Fort Douglas teams will be pitted against each other, and the proceeds will be given to the Young Ladies' Aid society.

The meeting of the citizens of the Fourth precinct for the nomination of a non-partisan candidate for a member of the board of education comes in Tuesday's bill delight. Among those spoken of as suitable candidates are W. H. Dee, Arthur L. Thomas, H. G. McMillan and C. L. Hawley. Arthur Pratt is the retiring member.

Y. L. M. I. A. Notice.

The Y. L. M. I. A. officers' meeting will be held in the Fourteenth ward Relief Society hall, on next Saturday, December 2nd, at 11 a. m. It is earnestly desired that each association in the Stake be represented. An invitation is extended to all who are interested in the cause to attend.

MARY A. FREZE,
Stake President.

A Delighted Lady Visitor.

Mr. J. C. Whitbeck, a well known Manti citizen, called at this office last evening, accompanied by Miss Alta Whitbeck, a sister residing in New York, and whom he had not seen but once since she was a year old. The brother and sister were almost strangers to each other when they met in Chicago during the closing days of the World's Fair. When the great exposition ended they came on to Utah together, and since that time Miss Whitbeck has been visiting with her brother and other relatives in this Territory. She is a lady of culture and refinement, and in conversation with a NEWS representative stated that she was highly delighted with this her first trip into the great West. For the people of Utah she had only words of kindness and admiration expressed and said that she would take with her the highest recollections of them to her home on the Hudson in the Empire state. She left Salt Lake in the morning, carrying with her the best wishes of many friends.

Thanks for Kindness.

Sister Mary Wormsley desires through the NEWS to express her thanks to those who so kindly rendered assistance to the late Roberta Harris in her last illness, and at the funeral.

IN COUNCIL CIRCLES.

Complications Growing Out of the Gravity Outlet Sewer Contract.

ADVICE FROM THE CITY ATTORNEY.

Mayor Baskin Appoints Joseph L. Caine a Member of the Board of Public Works—Other Matters.

The city fathers held a regular meeting last night. They were, however, unusually lazy, and it was considerably after announcement time when a quorum wandered in. Pending their arrival Recorder Hardy amused those present by telling cold weather stories and how he used to make a success of farming in Northern Minnesota some years ago.

In the absence of President Lindsay Councilman Barnsley was called to the chair. The members present were: Lawson, Hoge, Wakefield, Sheridan, Kelly, Hess, Moran, Hardy, Fallon.

THE PROCEEDINGS.

Mary C. Pledge asked that her water tax be refunded or remitted. Referred to the Mayor.

Harry C. Hill and others asked that the amount due them on sewer tax refund be appropriated to their credit. Laid on the table temporarily.

W. A. Cooper and thirty-seven others asked for a crosswalk along the south side of Fifth South at the intersection and across State or First East street, the want to be of stone and laid at a grade in conform to the walks now laid on both sides of State street. Committee on improvements with power to act.

Joseph W. Harrigan asked for work to apply on his city taxes. Referred to the Mayor.

Frank Harrigan asked that $200 be appropriated to cut of his Orpheum estimate for the payment of taxes. Granted.

Eli A. Pollard, councilman, asked that a stop sign be placed on the south side of Fourth West and South Temple street from the City Hall to the Union Pacific railway track on the north side of the street. Granted.

LONGSHORE AGAIN.

Professor Longshore came in at this stage of the business and desirably bestowed him in the chair, but as his solicitation failed to vacate it for him.

SEATING RINK PROPOSITION.

Carl C. Mattes and others represented that they had leased a certain piece of land just north of the Knutsford hotel for the purpose of constructing a skating rink and asked that they be permitted to use city water. Committee on waterworks, city attorney and city engineer.

THE D. A. AND S. SOCIETY.

The Deseret Agricultural and Manufacturing society sent in a communication asking, through its president, C. P. Mason, that the sum of $16.50 for which it was assessed for street sprinkling, be remitted, and that the sum of $40 or assessed against it for water main extension be also refunded. Referred to the Mayor and city attorney to release the property from tax sale, it having been bid in by the city for the last assessment.

THE MAYOR THIRD AGAIN.

The mayor sent in a communication appointing Joseph L. Caine a member of the board of public works to fill the place made vacant by the resignation of J. C. Conklin and asked for the council's confirmation and approval of the same. Committee on public works.

A GOOD REASON.

Superintendent of Waterworks Griffin reported that it was necessary to construct a spur on Seventh South street and Jordan so as to relieve the water pressure on the west side. Committee on waterworks with power to act.

WARM SPRINGS LEASE.

The city attorney submitted a resolution cancelling the new lease of Barnes & Byrnes of the Warm Springs and reinstating the old one. Adopted.

ALWAYS CAUTION.

The city attorney, in reference to the report of the special committee in regard to letting the contracts of the gravity sewer, reported as follows:

"I take the liberty of calling the Council's attention to a phase of the matter which is likely to arise, that is as to the right and powers conferred on the board of public works by section 2 of the act of the Legislature of 1893, page 62, which provided for the appointment of a board of public works to consist of five members, and imposes on the board the duty and empowers it to make contracts subject to the approval of the City Council, on behalf of the city, and after such contract is made imposes upon the board the further duty of superintending the work so contracted for. Further on in the section it is provided that it shall also be the duty of said board to approve the estimates of the city engineer which may be made from time to time of the value of the work as the same may progress, to accept any work done or improvements made when the same may be fully completed.

"If the suggestion of the committee should be carried out it would be a virtual acceptance of the work so far done by the Council without giving the board of public works an opportunity of being heard in the matter.

"I believe the object of the statute creating the board was for the purpose, to some extent, at least, of creating a check on the Council in such matters, and so far as the powers that are specifically mentioned in the act referred to as belonging to the board, such powers cannot be interfered with, either directly or indirectly by the Council.

"I do not believe that any person will claim for a moment that the Council could ignore the board and make the contracts mentioned in the act which are to be made by the board.

"If this be true, how can the council either directly or indirectly accept any work done or improvement made, when the same shall be fully completed or otherwise, according to the contract?

"As before stated, I am of the opinion the board was created for the purpose to some extent, as a check upon the council, and in the particulars mentioned in the act.

"The council having the power reserved to it of approving or disapproving of all contracts made by the board, is a check on the same.

"The same constitutes, I believe, should be given to that portion of the section in reference to the accepting of work when completed under contract.

"Any other construction would, in my opinion, defeat the very object of the act creating the board.

"The law of 1893, page 17, known as the Mayor's veto act, imposes another check, or safeguard, unquestionably for the protection of the people's interest in all such matters as these, and provides that all such contracts made under consideration must be submitted to the Mayor (notwithstanding it has been entered into by the board of public works and approved by the Council) for his approval before it is a binding or valid contract.

"I would therefore recommend that this entire matter, with all the papers, be referred to the special committee, board of public works and Mayor, or some of them, to adjust the misunderstanding and report to the Council at his early date."

After a long discussion, the following motion was put by Moran and carried: "That the work on the gravity sewer contract be stopped, and that the city engineer be instructed to make a final estimate of the work done up to the present time."

PROPERTY OWNER PREMATURE.

The city engineer was in a commotion relating to the grade of the sidewalk recently laid along the south side of the Union National bank, in which he stated that the property owners were granted permission to construct the walk by private contract, and that they had put in a temporary grade, after presenting a petition to the council which was never acted upon.

A SUPPLEMENTAL STATEMENT.

The city engineer made a supplemental report in regard to the matter in which he set forth that Contractor Harrigan took up the old pavement and put down the new one contrary to his instructions received from the city marshal and board of public works, and that when the temperature was at thirteen degrees below the freezing point he (the engineer) received the information that when he discovered this fact he notified Mr. Harrigan and told him to cease work. He denied that he had ever allowed other persons to construct walks above grade as charged by Mr. Harrigan.

The matter was referred back to the engineer to have the temporary walk constructed in accordance with his original orders and have the bill sent in the Council.

TAX SALE PROPERTY.

The [illegible] property acquired by the city from tax sales, was referred to the committee on public grounds with the recorder associated.

PREPARATION FOR WINTER.

Hess offered the following motion which was adopted:

Resolved, That the special committee on gravity sewer contract, with the city engineer associated, be authorized to put the work in proper condition for the winter.

Adjourned until Friday evening next.

CLARENCE W. BALL'S ILLNESS.

His Condition is Such As To Cause the Greatest Anxiety.

The numerous friends and acquaintances of Justice of the Peace Clarence W. Ball will be pained to hear that his condition at the present time is very critical, and grave fears are entertained as to his recovery. He has been ill for upwards of a month with typhoid fever, and other complications have now set in. Doctors Fowler and Meacham are attending him twice each day. The little four-year-old son of Mr. Ball, who has been suffering from spinal meningitis for several months past, is also seriously ill.

THANKSGIVING MEETING.

A Mass Assemblage to be Held in the Assembly Hall.

A thanksgiving mass meeting is to be held tomorrow night at 8 o'clock at the Salt Lake Assembly Hall. Its notable feature, the different faiths and views represented, the high standing of the participants, attractiveness of the program, and the eminently laudable object that inspires the meeting and that has occasioned the union on the platform of men representing many differing if not antagonistic convictions, have called forth many favorable comments.

Many people have signified their intention to be present, despite other engagements. Not only the clergy are to be represented, but Governor Caleb West is to be chairman, Chief Justice Charles S. Zane, ex-Governor Arthur L. Thomas, the Right Rev. Lawrence Scanlan, O. F. Whitney, and other leading citizens will attend.

The addresses will be simply from the pulpit, and in the particulars mentioned in the act.

"The council having the power reserved to it of approving or disapproving of all contracts made by the board, is a check on the same.

"The same constitutes, I believe, should be given to that portion of the section in reference to the accepting of work when completed under contract.

"Any other construction would, in my opinion, defeat the very object of the act creating the board.

"The law of 1893, page 17, known as the Mayor's veto act, imposes another check, or safeguard, unquestionably for the protection of the people's interest in all such matters as these, and provides that all such contracts made under consideration must be submitted to the Mayor (notwithstanding it has been entered into by the board of public works and approved by the Council) for his approval before it is a binding or valid contract.

"I would therefore recommend that this entire matter, with all the papers, be referred to the special committee, board of public works and Mayor, or some of them, to adjust the misunderstanding and report to the Council at his early date."

After a long discussion, the following motion was put by Moran and carried: "That the work on the gravity sewer contract be stopped, and that the city engineer be instructed to make a final estimate of the work done up to the present time."
