COHN BROS.---ALWAYS THE CHEAPEST.

WORLD'S FAIR MATTERS.

A Scheme Proposed to Raise Money With Which to Make an Exhibit.

The Utah World's Fair commissioners are exceedingly busy in their efforts to raise money. Several propositions have been submitted to the board, but the one that meets with the most general approval is for the board to borrow the money with the understanding that the next legislature will appropriate money to provide for the payment of the loan, the loan to be backed by a guarantee that will make it absolutely safe. The commission has had an offer of a loan of $50,000, but it has not been accepted. The interest in the World's Fair is growing, so far as prospective exhibitors are concerned, and there seems to be little doubt that Utah's exhibit will be one of the most attractive on the grounds. In art and manufactures there is quite an interest being worked up. One plan which will be put in force is to work in harmony with the Territorial fair and make the exhibit this fall forerunner of what the exhibit will be at Chicago.

Mr. Wells, of the Deseret Agricultural and Manufacturing Society, suggests the idea of making a show of Utah's exhibit at the World's Fair before it is sent to Chicago, and this suggestion meets with general approval.

The advisory board has not been appointed yet, but it will doubtless consist of fifteen representative citizens. World's Fair meetings are to be held in all parts of the Territory and a general interest worked up.

The commission would be pleased to have suggestions from all interested citizens. Letters may be addressed to the secretary, care Continental Hotel, Salt Lake City, or at Ogden. They will reach the commissioner either way.

Some few days ago it was announced that the first steamer that ever sailed along the Pacific coast was to be raised from the water near the mouth of the Columbia river where she sank in the early forties and taken to Chicago. She is said to be in good condition. This announcement has brought a letter from Mr. Henry Barrus, of Farmington, in this Territory, saying that he sailed on the ship "Beaver" from England in 1834 via Cape Horn, Captain Holmes in command. Mr. Barrus sailed as ship carpenter; afterwards he took up her decks and fitted the vessel as a steamer. If the old steamer is taken to Chicago, Mr. Barrus ought to go with her. Of course the Utah commission has nothing to do with this matter, but the parties in Oregon who have the matter in charge will doubtless be glad to learn that the man who fitted up the steamer is still alive.

As soon as the financial matters are adjusted the commission will begin to canvass the Territory for exhibits. There seems to be a general desire to make Utah's exhibit one which every citizen will be proud of. The commission will call to their assistance the leading citizens of the Territory, and a corps of capable men will be employed to take charge of the several departments, so that the exhibit will be as perfect as it can be made.
