PROVO.

Charge of Kidnapping—Assault With a Knife—Burglary—Want Gone—Notes.

Special Correspondence.

Provo, July 4.—James C. Blansett of Uintah county was before Justice S. K. King today, charged with kidnapping his 10-year-old son, from the custody of his mother, on May 9th. It appears that in 1898, Mrs. Clara Blansett secured a divorce from the defendant, and was awarded the custody of the five minor children. Shortly after securing the decree of divorce, Mrs. Blansett married a second husband, named Peterson, and has been living at Indianola, this county. The former husband has been living at Uintah county, with two of the older boys, and in May of this year went to visit his other children, who were living with their mother. Blansett camped near the Peterson home, and by all that appeared to Kate, the younger son, induced him, as the mother claims, to go away with him. Mrs. Peterson at once made a serious speech, and Blansett was arrested at Vernal. Justice King bound him over to await the action of the district court. The boy seems to be attached to the father and wants to stay with him.

TO HOLD COURT AT VERNAL.

Judge John E. Booth, Stenographer Merritt, Bailiff Hoag and several of Provo trading attorneys, left Friday for Vernal, Uintah county, where a session of the Fourth district court will be held. The session will convene Monday next. This will be Judge Booth's first visit to that section of the Fourth district.

ASSAULTED WITH A KNIFE.

William Bullock this evening swore out a complaint against John Doe, a man, either old or young, who was unknown to him, charging him with assault with a pocket knife. Mr. Bullock states that about six weeks ago a stranger made arrangements with Mr. Bullock for the hire of horses, and he let Mr. Bullock take his team and the horses from the field, and refusing to pay for their feed. Bullock objected and from the altercation the stranger took out his knife and made a lunge at Bullock, who ducked and ran. He says he demanded that the horses be turned back into the field or their board was paid for. The stranger led the horses down to the gate as though he intended to turn them back, but instead jumped on and rode away. He was later arrested by Deputy Sheriff Williams.

ANOTHER BURGLARY.

Last night burglars entered the Bingham Wagon store at Spanish Fork, but did not reap a very rich harvest. The officers have seen a drawer's sample case of knives, two packages of velvet medicine and 10 cents in coin, and nothing else. The glass cases were all for one hand, and were too heavy for the burglars. The officers are searching for them.

WANT GUNS HANDY.

Sheriff Morris and Marshal Knight are endeavoring to secure a Gatling gun for the county and city governments to use. Some of the guns to be held in their offices and ready for use. The cost of the Gatling gun is not a very hard matter to secure guns for the city and county, and the city has one, and was the same way at the time of the spectacular bank robbery one year ago.

MANTI.

The Nine Stone Quarries—New Line Completed to Gravity Class Branch.

Special Correspondence.

Manti, Sanpete county, July 4.—Through the courtesy of Mr. H. H. Kerr, our correspondent has paid a visit to the Mt. Nebo brown stone quarries.

The new line is nearly completed to the quarries, and it may be finished this week. The large drum over which the cable rope is to be wound was being hoisted up to the quarries. Two wagons have broken under the weight of it.

The plan is to operate the branch from the main line in the canyon to the stone quarries, as a gravity plane. A locomotive will be used for the stone per cent grade will pull an empty car up. The idea is the locomotive, Young, and is a most excellent one. The new track is well laid with Oregon ties and heavy rails and the part that has been finally placed into Manti Main has very smooth.

The brown stone, it is said, will be extensively used for bridges and culverts by the Oregon Short Line; and will no doubt be in good demand for residences likewise.

The place to which the road reaches is on the east side of Mt. Nebo and the scenery is grand, beyond description. This place might be made into an exquisite summer resort. Less than two miles from the terminus are snowbanks, small streams and waterfalls. This spot is about twelve miles from Nephi, and will repay a trip of a day or two to anyone who visits it. Nature, the Alpine scenery, to rather the Alpine and subalpine forests that grow on these heights, and to get a bird's eye view of the surrounding country for hundreds of miles about. It seems the line into the canyon runs at a few per cent grade.
