DESERET EVENING NEWS.

Wednesday, August 26, 1896.

LLOYD GETS HIS PAY

An Appropriation Made to Allow Him His Back Salary.

PLUMBING INSPECTOR ORDINANCE.

Passed — Cancelling Poll Taxes—Fish and Game Warden Was a Mistake.

At last night's meeting of the City Council the finance committee presented a report recommending that the petition of B. T. Lloyd for salary during the time his seat in the Council was occupied by Elliott be granted and that the amount of back salary claimed, $212.50, be paid. After much discussion the report was adopted, Hustle and Mulvey voting against it.

PLUMBING INSPECTOR ORDINANCE.

An ordinance providing for transferring the office of plumbing inspector from the engineer's department to the sanitary department was taken up and put upon its final passage and passed by a vote of 12 to 2.

In connection with this under Plumbers' Union No. 19 petitioned that the above change be made for the following reasons:

First—As the office of plumbing inspector was created for the health and benefit of the people it should properly be with the health department.

Second—That at the present time the inspector has no power to enforce sanitary work which is in existence in this city.

Third—That we think there should be here, as in other cities of like population, a practical plumber on the board of health.

Fourth—As the present time there is a great deal of plumbing in this city which was done years ago which is in a very insanitary condition and the plumbing inspector not being under the jurisdiction of the board of health has no power to act.

Fifth—That as the gravity work is now completed the inspector, working in conjunction with the board of health, would compel abolitors to connect with said sewer, thus doing away with a great number of cesspools which are a menace to the health of children and citizens of the city.

Stewart then offered a resolution making an allowance of $90 per month to the health department to cover the salary to the plumbing inspector.

Dale offered an amendment making the salary $5 per day, which carried.

A resolution by O'Meara directing the chief of police to remove all bottles and stones strewed on the streets and sidewalks without permission. It was adopted.

TO CLOSE THE CONTRACT.

A motion by Dunn authorized the Mayor to close a contract with P. J. Moore for the delivery of two carloads of water pipe. Carried.

NO INTEREST.

Allen offered a resolution providing that all persons from whom paving tax will be collected on the possible block who will pay the first installment before September 1st, be exempted from paying interest on that installment. Passed.

WANT EMPLOYMENT.

Charles J. E. Gulbranson, who lost a leg while employed in the fire department, sent in a petition asking that he be given employment and that his pension of $25.00 per month be applied on his salary. Referred to the fire and police board.

John Kelly also asked for employment to enable him to pay his taxes. His communication was referred to the finance committee "with power to act."

GRANTED LICENSES.

Retail liquor licenses were granted to the Chicago Liquor company, 119 South Main; James Hagney, Second South and Fifth West; Wagner Brewing company, 61 East First South; John Ness, 71 West Second South; Dominic Fiacchi, 123 South State; C. T. Whitmore, 303 West Ninth Temple; B. Berryman, 18 East Second South; Mathews & Dunkerley, 278 South Main.

FOR A HATCHERY.

John Kenly, State fish and game warden, petitioned the council for permission to take trout from City creek for the purpose of stocking other streams in the State. He also asked that the State be granted the privilege to build a hatchery on the stream at some point which may be deemed best adapted for the purpose. Referred to the Waterworks committee.

PERSONAL DELIVERY.

The city treasurer presented a requisition for help to continue water tax assessments, asking that truth worthy men be employed at $2 per day to deliver notices in person, the cost not to exceed $200, the amount it would cost to send the notices by mail.

The object of having these notices delivered in person is to overcome the difficulties encountered in having them sent through the mails. People who now receive their notices through the mail, forget to pay their tax and when the water is shut off they may claim ignorance of the fact. Referred to the finance committee with power to act.

WATER ASSESSMENT ROLL.

Superintendent Wallace of the waterworks department sent in the following communication:

Gentlemen—I beg to advise you that the water assessment roll for the fiscal year 1896-97 has been completed and delivered to the city treasurer, and the amount thereof certified to the city auditor.

The total amount of assessment is $66,375.00; total amount of assessment roll for 1895 and 1896, $62,156.80, showing an increase in this year's roll of $4,218.42.

The cost of transcribing and assessing this year was $211.30, as compared with $206.50 for the year 1895-96, showing a saving in the assessment this year of $5.04.

H. C. WALLACE, Superintendent.

Lloyd made inquiry if the assessment had been made by personal canvass from house to house or based upon last year's roll.

O'Meara said that the water department had on record every tap in the city and it was an easy matter to make a correct assessment. Dodd also testified to the excellent manner in which the work had been done, and assured the council that there would be no complaints on that score.

CAN'T COLLECT.

Street Superintendent Malloy submitted a lengthy list of poll tax delinquents which he asked the council to dispose of according to its own action. The list and communication were referred to the committee on municipal law.

BOND APPROVED.

The official bond of L. U. Colbath, sheriffs of the board of public works, in the sum of $5,000 with A. G. Campbell and George M. Scott were approved.

PAVING CONTRACT APPROVED.

The contract entered into by the board of public works with A. L. Holmes for the paving of Second South between West Temple and First West streets was approved and Mr. Holmes will at once proceed with the work.

AN INSPECTOR AUTHORIZED.

The board of public works asked permission to employ two inspectors at a salary of $75 per month each to oversee the above work. After some discussion the board was authorized to engage one inspector.

TOTAL TAX LEVY.

Salt Lake County Will Pay Alone the Bulk of Increase.

The total assessment of Salt Lake county since the 20 per cent. increase on mines and the State board of equalization, is $49,740,576, the increase being $566,456, making the total assessable valuation of the county $3,083,728. The total city assessment, which includes an increase of $322,657 on merchandise, is $27,554,904. The total assessment of the county last year was $45,066,593. The increase in the valuation this year is therefore $3,074,583. The increase in our personal property, the property of corporations and the net proceeds of mines. The assessment on real estate is $208,746 less than last year, and the valuation of improvements $13,800 lower.

The amount Salt Lake county will pay the State, by reason of the State levy, is $349,628.81, of which $219,-[illegible] for general State purposes and $130,221.73 for State school purposes. The county levy of 4 mills will cause the taxpayers to pay $181,221.73 for general county purposes and $87,681.13 for county school purposes, making a total of $268,902.86. In addition to their share in the above sums, city property owners will be required to pay $286,884.97 for general city purposes and $116,537.91 for city school uses. The city's share of the State and county taxes is $468,214.83, divided as follows: General State, $187,774.96; State school, $172,904.99; general county, $181,221.73; county school, $87,681.13; total amount payable by city taxpayers, under all the levies, is therefore $903,607.60. The taxes levied upon the property in the entire county, for State and State school, county and county school purposes, amount to $668,627.69.

AUDITOR FISHER'S REPORT.

County Auditor Fisher yesterday forwarded to the State board of equalization the following statement of the county assessment:

I hereby certify that the value of the several classes of property assessed in Salt Lake county, Utah, for the year 1896, after final adjustment of the county board of Equalization, is as follows:

40 YEARS THE STANDARD.

For the Shoshone.

The steamer Idaho leaves the Union Pacific, August 28, 31, 1896, and every week September 11. The shortest and fastest line.

One Night Only.

Mr. Ben Hur will be here one night only with his wife, says M. F. Hirsch, a specially interested citizen of Washington, D. C., who called in the Deseret News office yesterday. He came to see the man who had suffered from sciatic pains. He was in agony. Again I heard he would die. I finally succeeded in a dose of Chamberlain's Colic, Cholera and Diarrhoea Remedy. He was soon relieved, and the first words he uttered were, "what was that stuff you gave me?" I informed him. A few days ago we were talking about his attack and he said he was never without that remedy. I have used it in my family for several years. I know its worth and do not hesitate to recommend it to my friends and customers. For sale by Druggists.

Mr. C. G. Conn, president of the public schools at Anderson, Cal., says: "I have used Chamberlain's Pain Balm and have found it an excellent remedy for bruises and slight wounds."

Lameness usually results from a sprain or other injury, or from rheumatism, for which Chamberlain's Pain Balm is especially intended and unequalled. It affords almost immediate relief and in a short time effects a permanent cure. For sale by Druggists.

"This is the best potato machine in the world" is what Mr. L. M. Hurtness of Marquam, Oregon, says of Chamberlain's Colic, Cholera and Diarrhoea Remedy. "What made me to make this assertion is from the fact that dysentery is the worst form was prevailing around here last summer and it never took over 1 or 2 doses of this medicine to effect a complete cure." For sale by Druggists.

BABY'S TOILET

Best for Baby

And best for big folks, is our Castile Soap. Ours comes over from France where the finest and purest olive oil is used in the manufacture. Don't confound the refined Castile soap with Castile soap. To get the real effect of a cake soon to this Soap, you must use it. Soft cakes a good lather, but for a large fee.
