TELEGRAPHIC.

THOSE TWO BOMBS.

Contained Dangerous Explosives, Matches and a Lead Pipe.

FOR CHICAGO MILLIONAIRES.

The Supposition Now is that the Man Who Warned Them is the One Who Sent the Packages.

CHICAGO, Dec. 16.—Albert Rosser was taken to the Bridewell today to work out a fine of $60 imposed for lounging around Millionaire Marshal Field's home, on Prairie avenue, near the Pullman and Armour residences. Rosser had been found several times in the same locality previous to his arrest last Saturday, and on his person were letters addressed to known anarchists to Marshall Field and George M. Pullman, asking for employment. He was formerly an inmate of the Dunning insane asylum, whence he escaped November 15th.

The writing on the package mailed to George M. Pullman and Mr. Armour today will be compared to that on the letters found upon Rosser.

P. D. Armour was not in his office this afternoon. His private secretary, W. J. Quinlan, was there, however, and talked for the millionaire. He said that last night a man unknown to any one in the office had entered and inquired C. W. Conner, the manager, that a plot was on foot to destroy Mr. Armour. An infernal machine, he asserted, had been mailed to him, and he warned Mr. Armour's representatives to have the matter looked into. Mr. Quinlan said: "We did not put much reliance in the man's words, but in order not to be on the safe side, turned the matter over to the postal authorities and let it end there. We have no further interest in the matter."

It was learned that Mr. Armour is on the way to Jacksonville, Fla., which he started from yesterday. It was denied, however, that the rumor of some one having designs upon his life had anything to do with the millionaire's leaving town. It was asserted that he had already left the city when the news of the making of the infernal machine reached the ears of his employes, and that the matter would disturb Mr. Armour very little if he had heard of it.

It is believed by some of Mr. Armour's friends, however, that the packet left town in order to escape at least the annoyance the publicity of the affair would give him, and that he knew as much of it as did his employes when he left town yesterday.

The dangerous character of the packages has been established without a doubt. A trial test of their contents was made, and this proved that the packages contained an explosive, in force akin to dynamite. The packages were about eight inches long, with four-inch ends. They were wooden boxes, each containing a drawer. Matches were so arranged inside as to be ignited by the friction with sandpaper which was glued to the box above the drawer when the latter was pulled out. The boxes were well provided with the explosive, but in the bottom was placed a piece of lead pipe several inches long.

A visit was paid Mr. Pullman Sunday night, presumably by the same person who took the trouble to inform Mr. Armour's people. Mr. Pullman had already retired and did not see the visitor, who appeared very much worried and anxious to see the millionaire in person. He delivered his message, however, without seeing Mr. Pullman and left a card with his business address. This Mr. Pullman declined to make public afterward, as it might be the exposure of a valuable clue. The man who gave the warning is said to have been a metal polisher about Chicago, but this has not yet been entirely confirmed.

S. A. Owens, the man who informed Messrs. Armour and Pullman Sunday night that the infernal machines would be mailed to them, detained in Postal Inspector Stuart's office on the supposition that he sent the bombs. The theory expressed by Inspector Stuart is that Owens conceived the idea of sending the bombs and notifying the recipients in advance of the mailing of the packages, in the hope of obtaining a reward. This belief is further strengthened by the similitude of the bad spelling on the address, and the spelling in a statement furnished by Owens in detailing the manner of his securing the information of the sending of the packages. In his statement, Owens spells "contents" as "conteens," and the word was misspelled in a similar manner on the cover of the package addressed to Mr. Armour.

Further confirmation of the theory is found in the fact that Owens's business is that of a worker in metals, and the fact that the bomb was prepared by a skilled man. The lead pipe is plugged at both ends with corks, and the lead hammered down over the opening to make the cork plugs hold.

Owens statement, made to Inspector Stuart, states that on Monday night at 11:30 he went into the alley under the L tracks at Congress street, and there overheard the conversation between two men to the effect that they intended sending bombs to Messrs. Armour and Pullman. He then called at the house of both men and notified them of the intention of the conspirators. Owens denies that he sent the machines through the mails.

Price of Dr. Price's Baking Powder is rounded by every lady who uses it.

THE SULTAN'S FINANCES.

Four Million Pounds Promised Him as a Loan.

LONDON, Dec. 16.—The correspondent of the Times at Constantinople telegraphs to his paper that a petroleum monopoly is about to be granted by the sultan to a Russian subject named Theodore Mavrocordato, whose project is strongly supported by M. Nelidoff, the Russian ambassador. The applicant engages to raise a loan of £4,000,000, £1,000,000 of which is to be paid to Russia on account of war indemnity, and the remainder to be placed at the disposal of the Turkish treasury. The Russian will start his own refinery for Russian oil.

This correspondent also says: The French embassy has received news of the pillage and destruction of the Passionist convent at Jedizeh, near Jaffa, Five of the resident brothers are missing. Some report they have been murdered, and others say that they have taken refuge with the Zeitoonis.

The Daily News this morning publishes a three-column letter from a person described by local paper-reading as well placed for knowing as any European noncombatant, which summarizes the whole of the Armenian massacres, and estimates that 25,000 to 30,000 have been killed within two months and that £30,000,000 sterling of property has been stolen.

FEDERATION OF LABOR.

General Matters Will Return the Convention to Decide.

NEW YORK, Dec. 16.—Contrary to the general expectation, the Federation of Labor did not conclude its work up to the time of adjournment tonight and a session will be held tomorrow, at which several matters of minor interest will be disposed of. Today the chief work of the convention was the selection of a city at which to hold the next meeting. When the matter was put to a vote Cincinnati and Nashville were the only contestants. The Ohio city won on a vote of 1,750 to 381.

President Mellitte presided at today's session.

Secretary Barnes of the law committee made a report on the following resolutions by the hotel and restaurant employes' national alliance:

"No union shall be recognized as a bona fide union which is not affiliated with the national or international body of its trade, if there be one, with the American Federation of Labor. No union affiliated with the American Federation of Labor shall be permitted to affiliate with any central labor body in which non-affiliated unions as described above are represented."

This report brought on an argument. Delegate Pomeroy objected to the phraseology of the first section and wanted inserted "provided there be one connected with the American Federation of Labor."

After a general discussion, Delegate Pomeroy's amendment was carried. A motion to adopt the report was defeated.

The committee reported adversely on the resolution presented by the Bakers' International union, to remove the headquarters of the federation to Chicago.

Delegate Pomeroy said the resolution was an attempt to remove the headquarters to New York. He was in favor of the headquarters remaining where they are now, at Indianapolis. Delegate Weisman, who presented the resolution, said he was in favor of the offices remaining in Indianapolis and the resolution was withdrawn.

The resolution "that no certificate of affiliation be hereafter granted by a national labor union to whole or in part composed of members of existing trades unions" was taken up.

The federal labor unions are composed of both men and women, and Samuel Gompers, president-elect, objected to the phrase "in part," because it might strike at the women wage-earners, who form with men to help organized labor.

At the afternoon session the committee on organization reported favorably for the appropriation of a sum not exceeding $500 for the organization of the textile workers in the South. The resolution also provides for two men, one from the South and one from the North, to look after the work. The resolution making the appropriation was adopted.

Purity of Price's Baking Powder is confirmed by World's Fair highest honors.

SPANIARDS VICTORIOUS.

An Important Engagement on Cuba Reported.

HAVANA, Dec. 16.—An important engagement is reported at Mallempo, province of Santa Clara, between a force of 500 troops under Col. Arizon, and the main force of the insurgents under Gomez, to the number of 6,000. The combat is reported to have been a fierce one and long continued.

The Spanish forces engaged were under Col. Arizon, numbering about 500, together with about 300 of the battalion Canarios, under a lieutenant colonel. This force sustained an uneven combat with Gomez's insurgents who renewed the engagement, having once been driven back. But they were finally repulsed with heavy loss. The loss of the troops was two officers and thirty soldiers killed and four officers and forty soldiers wounded. Col. Arizon, at the close of the engagement, was left in possession of the field.

The expedition under Martinez and Pulgo has effected a landing near Maritanillo, with arms and ammunition and a rapid-fire gun. Four American artillerymen are in this party.

A Memorable Affair.

ST. LOUIS, Dec. 16.—An international event, the most notable of its kind socially that has ever taken place in St. Louis, was celebrated at 7 o'clock this evening at the Church of the Messiah, corner of Garrison avenue and Locust street. It was the marriage of Miss Clara Hazel Busch, daughter of Adolphus Busch, the brewer, and Herr Paul Von Gualard, a prominent citizen of Germany. The beauty of the bride, the wealth of her father, the station of the groom and the magnificence of the wedding arrangements, made the affair one to be remembered.

THE RAILROAD WAR.

C. P. and D. & R. G. Representatives Meet and Discuss Matters.

CHICAGO, Dec. 16.—A meeting of the Chicago connections of the Chicago-Utah lines was held today to consider the fight between the Union Pacific and the Denver & Rio Grande, over tickets on the former on the mid-west to those two states. Nothing was done at the meeting, but another meeting will be held on Friday of this week.

The disposition to blame the Union Pacific has weakened very materially, and there is a strong opinion that the western connections of the Denver & Rio Grande are as much to blame for the situation as anybody. The lines today put in as much time discussing means of keeping the demoralization out of their own territory as anything else.

RATE WAR ON COAL BURNERS.

DENVER, Dec. 16.—It is said a rate war on coal business is to be inaugurated, which will include the Santa Fe, Rio Grande, Gulf and possibly the Union Pacific. It is stated that some time ago the managers of the Rio Grande and Gulf roads found that Canyon City coal, in which it is understood the Santa Fe people are interested, was being sold in Denver and as far east as Omaha at much less than was charged for Trinidad and Walsenburg coal, which is marketed over the Rio Grande and Gulf lines. Investigation proved that the difference was in the cost of transportation. Complaint was made to the receivers of the Santa Fe, and they declined to make any changes, so the road was soon to go out of their hands. Monday last it was said a meeting of Receivers Jeffery and Ripley and Receiver Trumbull was held, at which the matter was discussed and taken under advisement by President Ripley. Today a telegram from the latter announces that the ex-judge will be returned. This, it is said, means that the two other roads will meet the Santa Fe rate and that the Union Pacific, which has large coal beds at Rock Springs, Wyo., will be brought into the fight.

FIGHTING AND SHOUTS.

HOUSTON, TEX., Dec. 16.—Articles of agreement were today signed to board a big outside Galveston harbor for a finish fight between Bob Fitzsimmons and Peter Maher. Both men will train at or near El Paso. Fitzsimmons will depart for that place tomorrow. They will fight with freeman gloves, Marquis of Queensbury rules, to decide the heavy championship of the world, a purse of $10,000 and a championship belt.

HEARNE MURDER TRIAL.

Mrs. Hearne Breaks Down in Court.

BOWLING GREEN, MO., Dec. 16.—The feature of the Hearne murder trial today was the collapse of Mrs. Hearne, who, unable to longer maintain the remarkable self control which she has shown throughout the trial, covered her face and sobbed hysterically. The first indication of Mrs. Hearne's breakdown came as witness John Stillwell, nephew of the murdered man, was pointing to the jury the ghastly wound in his uncle's head, and the climax was reached when the witness said Dr. Hearne had told him that the murderer could only be hung in two ways. "It was either done by a burglar," Dr. Heatke said, "or Mrs. Stillwell knows all about it."

At this point Mrs. Hearne's self-control gave way and the account between her sobs: "Oh, I don't want to hear that." I don't want to hear that."

While on the stand during the direct examination, Mr. Stillwell was cool and collected. His testimony was at first directed to describing events at the Hunger party. The witness was then called upon to describe the position of the body of his uncle and the condition of the room in which it lay on the night of the murder. He confirmed the story told by Richard Stillwell, even to the smallest detail.

New important testimony was given when Dr. Vandeventer of Hannibal, was placed on the stand. On December 28, 1889, he was in St. Louis. He reached Hannibal about 1 a.m. on the morning of December 30, and went to his office. On the way to saw Dr. Hearne coming from the direction of Mrs. Stillwell's house. The time was about 1:15 a.m. The witness thought Dr. Hearne saw him, but they did not speak.

Fighting the Funding Bill.

SAN FRANCISCO, Dec. 16.—Mayor Sutro was early engaged today in preparing the place for the fight against the Pacific railroad funding bill. He held a prolonged conference with a number of citizens interested in the projected fight. During the conference the mayor selected the majority of names for the committee of fifty which will be authorized to raise the money necessary to defray the expenses of the delegation to be sent to Washington.

Pure food is only insured by Dr Price's Cream Baking Powder.

TROOPS AND SCOUTS.

No Pains will be Spared to Capture Renegade Indians.

BOLONGVILLE, ARIZ., Dec. 17.—Col. Sumner, commander at Fort Grant, has arrived here. He has troops now out at every point where Indian renegades are likely to pass. The troops from Fort Grant are stationed at Duncan. One arrived at Fort Thomas today and a troop left Fort Apache today for Hampson's ranch on Eagle Creek. Captain McCormick, with troops and scouts have trailed the renegades from Whitlock mountains to Gila river near Guinnie, between Clifton and Duncan. The trail was lost there in the rough country, but will be taken again and followed up lost if necessary. Col. Sumner says his orders are to keep troops out and that he will spare no pains to capture the renegades. There is no similarity of trouble or an outbreak of Indians on the White Mountain reservation. The renegade Indians have been off the reservation six years.

Dr. PIERCE'S Golden Medical DISCOVERY

Cures Ninety-eight per cent. of all cases of Consumption, in all its Earlier Stages.

Although by many believed to be incurable, there is the evidence of hundreds of living witnesses to the fact that, in all its early stages, consumption is a curable disease. Not every one, but a large percentage of cases, and we believe, *fifty of every one*, can be cured by Dr. Pierce's Golden Medical Discovery, even after the disease has progressed so far as to induce repeated hemorrhages from the lungs, severe lingering cough with copious expectoration (bringing the tubercular matter), great loss of flesh and extreme emaciation and weakness.

Do you doubt that hundreds of such cases as these can be cured? Then let us quote from Dr. Pierce's Golden Medical Discovery, "Many seemingly desperate cases of that dread and fatal disease" you need not take our word for it. They have, in nearly every instance, been so pronounced by the best and most experienced home physicians, who have no interest whatever in misrepresenting them, and who were often consulted by the patients and friends against a trial of "Golden Medical Discovery," but who have been forced to confess that it succeeds in curing patients over the most, nearly all other medicines with which they are acquainted. Nearly all throat, and lung diseases, and scrofulous affections, yield to its mild, but searching influence, and many other utterly fatal to health, do not only succeed to benefit a little for a short time. Extract of malt, whiskey, cod liver oil, emulsions, and all the hypophosphites, are now superseded by this wonderful medicine and the force is fairly tried in vain.

The unexpurgated edition of Dr. Pierce's Medical Adviser, which treats of the diseases of the lungs, throat, stomach, liver, blood, skin, nerves and kindred maladies, have been skillfully reproduced in a book of 680 pages which will be mailed to you, on receipt of stamps, one cent each, to pay cost of mailing only, if you send 21 stamps.

Address for Book, World's Dispensary Medical Association, Buffalo, N. Y.

Ministers Should Use Dr. Miles' Heart Cure.

THERE IS NO PROFESSION, where more unreasonable demands are made on time, as that of the ministry. The disappointments of the mere sinners of the world by your work, frequently bring on attacks of heart trouble, and nervous prostration.

Rev. J. F. Foster, M. D., Pastor C. B. church, Leadon Mills, Ills., Dr. Miles's patient, writes Feb. 3, 1895: "Heart affection and nervous prostration had become so serious that full time a little over work in the pulpit would so completely prostrate me that it seemed certain I could relinquish the work of the ministry entirely. Heart palpitation became so bad that my sufferings would not let I did not sleep hardly for days. Last November I commenced taking Dr. Miles' New Heart Cure, recommended by Dr. Miles' Nervine and derived the greatest possible benefit. I have just closed revival work of 6 weeks, preaching nearly every night and twice on the Sabbath. I consider I do have without suffering as I formerly did. Hard working ministers should keep Dr. Miles' grand remedies on hand."

Dr. Miles' Heart Cure Restores Health.....

Dr. Miles' Heart Cure is sold on guarantee, first bottle will benefit or money refunded.

For sale by all druggists.

ENGLISH CAPITAL FOR AMERICAN INVESTMENTS.

IMPORTANT to Americans seeking English Capital for new enterprises.

A list containing the names and addresses of 500 American companies who have placed over $700,000,000 sterling in Foreign Investments within the last six years, and over $10,000,000 for the seven months ended Feb. 28, 1895, will be sent by postal order to The London and University Bureau of Investment, 20, Cheapside, London, E.C. Subscribers will be entitled, by arrangements with the directors, to receive other prospectuses or letters of introduction to any of these successful promoters. This can be first-class in every respect, and every man or firm whose name appears therein may be depended upon. For posting the following it will be found invaluable—Bonds or Shares of Industrial, Commercial and Financial Companies, Patents, Inventions, Patent Laws, Patents at Home, Discovery—Sir EDWARD C. RIOS, HON. WALTER C. PEYTON, CAPT. ARTHUR FITZROY. (Copyright.)

DIRECTIONS for using CREAM BALM. Apply a particle of the Balm with your little finger into the nostrils. After a moment draw strong breath through the nose. The three doses a day effect a speedy and permanent cure. Sneezing, relief follows instantly.

CATARRH

ELY'S CREAM BALM Opens and cleanses the Nasal Passages, Allays Pain and Inflammation, Heals the Sores, Protects the Membrane from Additional Colds, Restores the Senses of Taste and Smell. The Balm is quickly absorbed and gives relief at once.

A particle is applied into each nostril and is agreeable. Price, 50 cents at druggists or by mail.
