GOLD ORE NEAR TOWN OF LOGAN

American Mining Co. Formed to Develop Property Near the Corporate Limits.

TUNNEL IN AMAZON MINE

Has Been Run Six Hundred Feet—Coal Prospect Said to Have Been Discovered.

Special Correspondence.

Logan, July 29.—A number of Logan parties have located a mining claim on the side of the mountain about a mile and a half east of the city, and a company has been organized to do development work. The capital stock of the new corporation, to be known as the American Mining company, has been placed at $1,000,000; Oscar Borkman is president, W. F. Normandy, vice president; John M. Wilson, secretary and treasurer, with Emil Anderson, Geo. W. Lindquist and W. Q. Anderson, directors.

Those interested claim gold bearing rock has been struck, which improves as depth is attained.

H. C. Hansen is down from the Amazon mine in Logan canyon, and says the tunnel being driven in that property is now in 600 feet, and that a large fissure, filled with decomposed mineral matter, has been encountered. A shaft is being sunk on it in search of ore.

The Mineral Point people are collecting a couple of car loads of ore on their dump, which will be teamed to Hyrum and sent to Salt Lake in the near future.

Some Logan parties claim they have found a good coal prospect within a few miles of the city.

PARK CITY SHIPMENTS.

Summit County Camp Sent Over 2,000 Tons to Smelters Last Week.

The ore shipments from Park City last week aggregated a little over 2,000 tons, the contributing mines being:

STOCKS IN BETTER TONE.

Nevada Hills Furnished the Feature Of Forenoon Calls of Exchange.

There was better tone to the mining stock market today and while the volume of business was not heavy, the tendency was towards better prices. Nevada Hills furnished the feature of the forenoon and the stock, beginning at 2.87½, made its way up to 3.15, without the slightest hesitancy. This Nevada property has been making such a good account of itself in development that brokers are predicting the stock will sell at a much higher figure. Daly Judge was brought out to the extent of 100 shares, and the buyer paid $11 a share for it. Little Bell was bought at $9.87½ and Thompson did business at 33 cents.

DIGNOWITTY BUYS MINE.

Takes Over the Queen Bess at Nashville, Nevada, for $5,000.

C. L. Dignowitty, who has been interesting himself quite extensively in the mining camps near Reno, Nev., has completed the purchase of the Queen Bess group at Nashville, for a consideration of $5,000. After closing the deal a force of men were engaged to do development work.

GUGGENHEIMS AT NASHVILLE.

Camp North of Reno Seems to be Attracting Much Attention.

A telegram from J. W. Lorge of 25 Broad street, New York, representing the Guggenheim syndicate, says the Gazette of Reno, was received from Manhattan this afternoon by Richards & Degman, asking if the Eureka copper group, 18 miles north of Reno, at Nashville, was still for sale.

Several days ago Mr. Lorge got into communication with the owners and the presumption is that he will arrive here in a few days from Manhattan to examine the property which has attracted much attention on account of the startling richness of its ores.

Word came to Reno this afternoon of a strike on the King Solomon group on Fred's Mountain, near Nashville, the property being owned by Dr. Watts and others of Sacramento. Associated with them is H. Grant of Reno. The owners started to drive a tunnel for a distance of 150 feet in order to cut the ledge of 130 feet, but when in only 50 feet they cut into a six-foot ledge that carries gold, silver and copper, assaying from $90 to $212. The owners are jubilant and are peparing to put a larger force of men to work.

MANHATTAN'S EXCHANGE.

Organization Effected With a Former Salt Laker as Secretary.

Manhattan, Nev., has a full fledged mining stock exchange. An organization was effected about a week ago with Charles E. Mayne, president; W. C. Mulkilich, vice president; Henry Amigo, treasurer; D. Harvey, secretary; Samuel Amigo, assistant secretary, and John Williams, caller.

Calls are held once a day beginning at 8 o'clock p. m.

U. S. AT EUREKA.

Ore Bins at Palisade, Yet Incomplete, Cause Annoyance.

Mines Manager Clarence E. Allen of the United States Smelting, Refining & Mining company, has returned from Eureka, Nevada, where he has been inspecting the mines operated under the control of the United States company in that camp.

Mr. Allen says that while development work is progressing favorably, annoyance is being experienced in moving ore to market, in which the railroad companies are at fault. The bins at Palisade are yet incomplete, greatly inconveniencing the transfer of ore from narrow to standard guaged cars.

Preparations are being made to open the Logan shaft, the deepest one of the Richmond-Eureka mine.

SUIT AGAINST A. S. & R.

In the Third district court Saturday suit was filed by William McCleary, guardian ad litem of Leo McCleary, against the American Smelting & Refining company to collect the sum of $10,000 for personal injuries received by Leo McCleary while working for the defendant company June 19, 1905. It is alleged that while engaged in uncoupling some ore cars containing Molten metal, the cars were suddenly stopped and the metal slopped over the sides of the cars, burning the plaintiff so badly that it became necessary to amputate his left foot. The plaintiff is 18 years of age.

SALT LAKE BROKER VISITS RAMSEY

Speaks Enthusiastically of New Camp Situated Near the Famous Comstock Lode.

VIRGINIA CITY MOVING OVER.

Town of Ramsey on the Boom—A. H. Mayne Prominently Identified With Its Affairs.

William H. Child, the broker, returned this morning from a two weeks' trip to Nevada, during which he visited the new camp of Ramsey, as well as the older ones—Goldfield, Tonopah and Manhattan.

Of the former, Mr. Child speaks enthusiastically and says people of Virginia City are going over to it in droves. "Virginia City is simply being moved over to Ramsey bodily," is another way the well known broker put it.

"Ramsey is scarcely more than two weeks old," continued Mr. Child, "but it contains at the present time no less than 100 tents and wooden buildings. The camp is about 12 miles from Virginia City and the ledges opened there are believed to be without a doubt an extension of the ore zone in which the famous Comstock lode was found.

"A. H. Mayne is interested in the townsite with Jack Reynolds and Thos. R. Robinson, prominent Goldfield mining men. They have also organized a telephone company and are building a line to Pawnee, the nearest railroad station on the Nevada & California; also another to Dayton, to connect with the long distance lines, so it is a matter of only a few weeks at most that communication can be had with the principal mining centers of the state. Arrangements have been made to bring in electric power and light from the plants at Dayton; a water system is also being provided for. Hence it will not be long until the camp will be provided with modern conveniences enjoyed by some of those much older.

"The Ramsey Comstock company, which owns the original discovery, is pushing development and taking out high grade ore for shipment. Openings have been made along the ledge for a distance of 273 feet and from 20 to 30 feet in width. Officials of the company say there is $150,000 worth of ore available for market above the grass roots. The Ramsey Mining company, the Ramsey Argonaut and several others have locations along the strike of the Clark ledge, or the original discovery and are pushing development with favorable results."

Mr. Child and his business associate, H. B. Cole, are interested in the Ramsey Mining company's ground, on which fuor leases are working. A stage line is operated into Ramsey daily from Ft. Churchill and an automobile line is doing a thriving business from Carson. About 60 men, Mr. Child says, are employed in development of mining property.

At Goldfield, Tonopah and Manhattan a great deal of work is in progress. Goldfield has six producing mines. Mohawk is one of the favorites. In Manhattan very satisfactory results are being obtained from the development of a number of properties. The Manhattan Con., and Pine Nut are both showing up well; the Manhattan Gold King looks well and the shaft on the Uno claim is down 74 feet; the Yellow Horse, adpoining is also making a good account of itself and while Mr. Chld was in camp two good strikes were made in that property.

MEET FOR ORGANIZATION.

The directors of the Consolidated Mercur Gold Mines company, chosen at the recent annual meeting of shareholders, will meet this afternoon for organization. It is not likely there will be any change from last years' personnel.

General Manager George H. Dern came in from camp last night to attend today's meeting.

UTAH COPPER OFFICIALS.

President Charles M. MacNeill and General Attorney K. R. Babbitt of the Utah Copper company, arrived from Colorado this morning, and are spending the day at the company's new Garfield mill in company with General Manager D. C. Jackling.

CONCENTRATES.

Frank Jardine has gone to Nevada on mining business.

The ore and bullion settlements of last week reached the total of $456,100.

The new hoisting plant at the Star Consolidated of Tintic will go into commission this week.

The annual meeting of the Wasa Mining company will be held in Eureka during the week.

L. A. Copeland of the Taylor & Brunton Sampling company is confined to his home by sickness.

Preparations are being made to install a new compressor plant at the Centennial Eureka mine in the Tintic district.

The mill at the property of the New Stockton Mining company at Stockton is running steadily with three shifts working.

The mill at the Estella gold property in Beaver county, is now equipped with a battery of 15 stamps and will be placed in commission again in a few days. The plant will be run on ore assaying from $12 to $18 per ton.

Renewed interest is being taken in the Mt. Nebo mining district, which contains some good showings of silver-lead ore.

Herman Reischke, the Revelle, Nev., mining man, will leave for camp again in a few hours after ordering a lot of supplies shipped to the scene of operations.

Edmund H. Mead left for Nevada yesterday afternoon with Ramsey as his objective point. Mr. Mead expects to be away from Salt Lake until about Oct. 1.

Mat Daugherty, manager of the Carbonate Hill mine in Morgan county, is confined at the Holy Cross hospital suffering from an injured leg. The member was struck by a rock and badly bruised several weeks ago. Complications set in which have caused Mr. Daugherty's friends no little concern.

Reports from the Erickson district are to the effect that the Scotia mine will soon commence the shipment of ore. New ore houses, bunk houses and other buildings have just been completed, and it is understood that the management is making preparations to place some of the ore, which is now blocked out, upon the market.—Eureka Reporter.

The Goldfield Daisy Mining syndicate has inaugurated the era of deep mining for this district. Preparations are being made to sink a triple compartment shaft 1,000 feet and thoroughly explore its property at that depth. At present the main shaft is down about 175 feet with drifting and crosscutting at the 30, 75 and 125-foot levels.—Goldfield Sun.

Articles of incorporation of the Monett Gold & Copper Mining & Milling company of Tooele City, Utah, were filed with the secretary of state this morning. The capital stock of the company is given as $100,000 in shares of the par value of 10 cents each. The company owns a number of claims in the Clifton Mining district, and the officers are as follows: O. P. Shaffer, president; H. L. Eckert, vice president; D. E. Miller, second vice president; T. L. Harvey, secretary; E. S. Sherman, treasurer, and G. P. Cammon, general manager.

The shipment of iron ore from the Black Jack mine at Manimoth was discontinued this week. The output had been contracted for by the American Smelting company and Supt. John Ronndy stated that he had just got everything in proper condition so that he could get out about 150 tons daily during the balance of the summer when he received orders to clean up and discontinue shipment of the ore. The Black Jack iron ore is a very desirable grade for the smelters and if the American company is not in a position to handle it, perhaps the owners of the mine will be able to make another contract.—Eureka Reporter.

One hundred De Forest Wireless stock at $3.00. Must be sold at once, so give us a bid. E. M. West & Co., Tel. 165. 327 D. F. Walker block.

INCORPORATION ARTICLES.

The Pratt Ranch company filed articles of incorporation at the county clerk's office Saturday, the object of the company being to carry on a general land and real estate business. The capital stock of the company is given at $25,000 in as many shares of a par value of $1 each. The officers are: Mathoni W. Pratt, president; John M. Cannon, vice president, and Elizabeth S. Sheets, secretary and treasurer. These officers with Pearl S. Pratt and Evan Evans also compose the board of directors.

LOCAL MARKETS.

In today's local markets the receipts include car lots of watermelons from Fresno, Cal., also, of oranges, bananas, with tomatoes by express. Limes have been scarce for some time, and today, are reporetd as being out of the market, temporarily, on account of delayed boats. Utah cucumbers are now monopolizing the market, and shipments from California have ceased. Lemons have advanced 50 cents in California. Potatoes are down 25 cents, and there is a slight fall in other vegetables that are getting plenty. The prices obtaining in today's markets are as follows:

STOCKS NOT IN MUCH DEMAND

Opening Was Rather Active, Changes Irregular, Gains Predominating.

PRICES SOON KNOCKED DOWN.

Gas Properties Led, the Whole List Soon Selling Off in Sympathy.

New York, July 30.—Opening changes in stocks in the market today were irregular on an active business. The gains predominated, but there was a sprinkling of losses amongst prominent stocks. Atlantic Coast Line and Great Northern preferred advanced a point and Sugar, United States Steel preferred, and Reading rose large fractions.

Prices were carried above the opening level with large transactions, but met realizing sales and fell back in course of the first hour. Atlantic Coast Lines again reached 2½, Reading 2, Smelting and Central Leather 1½, and Southern Pacific, Norfolk & Western, Brooklyn Transit, Cotton Oil Sugar and People's Gas a point or more. The market railied before the end of the hour, Reading recovering fully a point reaction.

The demand became languid and prices were inclined to drop. Strength in special stocks was not of much sustaining effect until Southern Pacific made a fresh advance of 1⅝ over Saturday. Rock Island, Colorado & Southern second preferred and Hide & Leather preferred rose 1, Rock Island preferred 1½, Lake Erie and Western and Evansville and Terre Haute 2, Illinois Central rell 1½, International Pump 1⅝ and the preferred 1.

Bonds were heavy at noon.

Trading was rather neglected during the noon hour and the level of prices yielded slightly. Consolidated Gas gave way and Westinghouse Electric 1. Sugar rose 1⅝ and Corn Products preferred 1.

Consolidated Gas was knocked down to 133 by the decision of the Brooklyn Union Gas management to suspend dividends on that stock. The whole list sold off in sympathy and gains were mostly cancelled. Losses established were Delaware & Hudson 2½, Westinghouse Electric 2, Northern Pacific 1¾, Pennsylvania 1⅝ and Union Pacific, Minneapolis, St. Paul and Saulte Ste. Marie, Amalgamated Copper and Locomotive about a point. Pressed Steel Car rose 1⅝.

Prices fell off further, carrying Louisville & Nashville 1½ and New York Central, Missouri Pacific, Denver & Rio Grande, National Lead, Colorado Fuel and General Electric about a point. Pullman sold at an advance of 8 and Pittsburg Coal 2. There was a substantial rally, but the demand fell off again. St. Paul came under pressure at a decline of a point. The closing was dull and irregular.

$500,000
Salt Lake & Ogden Railway Company
First Mortgage Improvement
Five (5%) Per Cent
Twenty Year Gold Bonds.
United States Mortgage & Trust Company of New York, Trustee.

Sold subject to the option of the SALT LAKE & OGDEN RAILWAY COMPANY to redeem any bond at 5 per cent premium on the first day of June or December in any year upon giving sixty days' notice.

Interest payable semi-annually on the first day of June and December.

The payment of the interest coupons covering the first two years from the date of the bonds, is guaranteed personally by Mr. Simon Bamberger, President of the Salt Lake & Ogden Railway Company. It is estimated that all construction and electrifying will be completed and the line as hereinafter described be in complete operation within two years.

The principal and interest of the bonds are payable without deduction for any tax or taxes of the United States of America or of the State of Utah.

The bonds are of the denomination of One Thousand Dollars and Five Hundred Dollars.

Five Hundred Thousand Dollars of the bonds are offered at 96 per cent of the par value and accrued interest, 10 per cent of the amount of each subscription to the bonds being given in stock of the company as bonus.

These bonds are the first lien and mortgage on all the property of the company, including:

A fifty year franchise in Salt Lake City, Utah.
A fifty years franchise in Ogden City, Utah.
A one hundred year franchise through Bountiful city, Utah
A one hundred years franchise through Farmington city, Utah.
A one hundred year franchise through Kaysville city, Utah
A fifty year franchise through the county of Davis.
A fifty year franchise through the county of Weber, Utah

Also including all of the company's property, depots, terminals, grounds, stations, tracks, and brick yard branches, sidings and switches, cars, engines, and any and all personal or realty thereto belonging.

The company owns all of the stock of the LAGOON RESORT COMPANY, which company is free of any indebtedness.

The money received from the sale of these bonds is to be used to complete the double tracking of the road between Salt Lake and Ogden and for electrifying and equipping the entire system.

The Company has been operating a steam railroad between Salt Lake and LAGOON for the past ten years.

The track is now laid to Layton, a distance of twenty-two and a half miles from Salt Lake.

Grading is complete nearly to the city limits of Ogden and from Ogden to the mouth of Ogden canyon, the latter a distance of two and a half miles.

Material is at hand and being laid over graded portion.

The length of the main line from Salt Lake City to Ogden is thirty-five and a half miles, which it is proposed to double track.

The mortgage guaranteeing the payment of these bonds is made to the United States Mortgage & Trust Company of New York and is for $1,500,000, and the following disposition is to be made of the bonds.

$600,000—For all the property, franchises, etc., of the company, free of any incumbrances or obligations to August 1st, 1906.

$500,000—the bonds now offered for sale subject to public subscription.

$400,000—to remain unsold and the property of the company, the same to be used for extensions and other purposes as may hereafter be decided.

Subscription books will close at 12 o'clock, noon Monday, August 6th, 1906, and each subscription must be accompanied by 10 per cent of the total amount asked for.

If the amount herein offered is oversubscribed, allotments will be made proportionate to the subscription.

Subscriptions received at the following places:

Office of Mr. Simon Bamberger, Salt Lake City, Utah.
The National Bank of Republic, Salt Lake City, Utah.
Pingree National Bank, Ogden, Utah.
