Marine Disasters on the Atlantic.

Queenstown, Jan. 10.—The British steamer Westminster, Captain Petrie from Lisbon, Dec. 28th, for Philadelphia has put back here with her bulkhead tanks leaking and short of coal. She reports that she passed two unknown steamers coming east at 10:30 p. m. Sunday. One was towing the other. Captain Petrie expressed the opinion that the disabled vessel is an Atlantic liner as she was fitted with electric lights.

It was rumored later that the steamer towed by the Westminster were the British steamer Storm King, Captain Craig from Antwerp Dec. 30th for Baltimore, which was being towed by the British steamer Paddington, Captain M. Ink from New Orleans Dec. 15th, via Norfolk, Va., Dec. 24th for Rotterdam.

The shipowners, however, say the Storm King and the Paddington could not be the vessels sighted by the Westminster. The latter, they say, have not yet made the coast.

IN FAVOR OF DREYFUS.

Court of Cassation is Preparing to Give Assistantship a Shock.

Paris, Jan. 10.—The resignation of M. Quesnay de Beaurepaire, vice president of the civil section of the court of cassation, has revived interest in the Dreyfus case, which has been almost drowned during the past few days in the fever point. The anti-Dreyfusites are doing everything possible to discredit the court of cassation as it is generally accepted as the best informed circles that the court is preparing to render judgment in favor of Dreyfus. The column says this always precedes the presidency of President Faure, who issued a decree accepting the resignation of M. De Beaurepaire and appointing Counselor Dupre to succeed him.

JUST BEFORE THE BATTLE.

Lenox Club Have said McCoy-Sharkey Seats to the Tune of $42,000.

New York, Jan. 10.—Tom Sharkey and Kid McCoy are resting today preparatory to the promised battle tonight. The disputed question as to what shall constitute a clean knockout is settled, but there is a prospect that an understanding will be reached at the meeting of the board of stewards of the club which is to be held at 6 o'clock this evening. Very rarely have so many persons of the sport crowd been in town.

Seven carloads of sports came from Buffalo and about as many from Syracuse. James Dutton and Dominick Quailey headed a large delegation from New Orleans, about 200 came from Detroit, Tom Allen, who fought many battles with Bare Knuckles is here with twenty-five St. Louis followers, "the game," and George Rice and Lou Houseman, can round up about fifty Chicagoans. The advance sale of seats brought in $42,000 to the Lenox club house and a good bunch of $5 bills will be handed in when the sale of the lowest priced admission tickets begins at 4:30 o'clock this evening. Sharkey will weigh in at 180 pounds and McCoy is expected to do the beam at something like 155 to 165.

RUMOR OF A TRAGEDY.

Alleged Killing of a Child Could Not be Traced to Fact.

There was a recent current upon the streets this morning to the effect that the colored wife of an ex-member of the Twenty-fourth infantry, is a fit of drunken fury, had beaten her little son with an ax. Upon inquiry at the police headquarters this afternoon, the desk sergeant and detectives said they had heard nothing regarding the occurrence. A trip out to Eighth East and Fourth South, where the tragedy was said to have happened, brought no confirmation, although the juvenile population of the Tenth ward seemed to be considerably worked up on the subject. Several of the local storekeepers and residents had heard the story but were unable to account for the manner in which it was first started.

HAILS FROM GERMANY.

A forlorn, helpless looking individual, with unkempt hair and dirty face, strolled into the city and county building this afternoon enquiring for the county commissioners office. The man said he was a native of Germany, where he has a wife and three children. He gave his name as Heinrich Gustave Tuselin Kasenmaier, and he says he is 48. He claims to hail from Lake Erie, Michigan, and said he was a sailor by occupation. The poor fellow also said his both feet were frozen and he hadn't had a thing to eat for twenty-four hours. No one was in the office of the board of commissioners, but we have recorded the man to Commissioner Whitaker's place of business on Second South street, and he is now in having him sent to the county infirmary.

STATE SUPREME COURT.

District Judge Cherry Takes the Place of Justice Miner Temporarily.

Case of the State vs. E. M. Webb, Convicted of the Larceny of Cattle, Argued and Submitted.

The Supreme Court meeting for the January term was resumed this morning, with Chief Justice Bartch and Justice Baskin in their respective places. The new district judge, who had been suddenly summoned to San Francisco on account of the death of his daughter, Mrs. Charles McQueen, who is reported to have hanged herself at the Beach hotel in that city, was occupied by District Judge A. N. Cherry.

CRIMINAL CASE ARGUED.

The only case argued today was that of the State against Edward M. Webb, appellant, on appeal from the Fifth district, presided over by Judge E. Y. Higgins.

Webb was convicted, at the last term of court at Fillmore, of the crime of grand larceny, and sentenced to five years in the Utah state prison. His alleged offense consisted of his having stolen a half-dozen head of cattle from one Jensen, all residents of Millard county. The accused was acquitted by the insufficiency of evidence to warrant the verdict of the jury, the admission of which, it is contended by the defendant, was prejudicial to the defendant, and the refusal of Judge Higgins to instruct the jury to disregard the testimony written without consent for the defense.

The defendant was represented at today's hearing by Attorneys D. D. Hoge and M. M. Kaiser, Assistant Attorney General W. A. Lee appeared for the State.

The argument occupied the whole of the morning's session of court, at the conclusion of which the matter was taken under advisement.

OTHER MATTERS.

On motion of Congressman King, the case of the Harriman irrigation company against Angelo, et al, under W. Mont. et al, set for Thursday, was reset for Friday, Jan. 20th.

Judge King also made a motion for the dismissal of the case of Henry Sudweck vs. the Oregon Short Line Railroad company, and he has also a stipulation that an order of dismissal was entered yesterday, as recorded in last evening's "News."

COURT NOTES.

The case of George A. Mercer vs. Richard McMaster was continued by Judge Cherry today.

All hands serving in the civil court were excused today until 10 o'clock tomorrow morning.

In the third district court today, the case of John Jensen vs. Mary Jensen, an action for divorce, was dismissed.

The damage suit of L. W. M. Walker against the Salt Lake City Railway company was by consent dismissed by Judge Cherry today, there being no cause present.

ARRESTED FOR ASSAULT.

ON DUTY IN HONOLULU.

Utah Boys With Volunteer Engineers Nursing Fever Patients.

Have Built a Hospital of Experiment in That Capacity—New Yorkers as Patients Longing for Home.

The following letter was received yesterday by John Fox Graham of this city, from her brother, James A. Graham, who is a member of the volunteer engineers regiment of United States volunteers, commanded by Colonel Willard Young—which is stationed at Honolulu.

The letter was written the day after Christmas, and is given in full, with the exception of a few passages that are not of general interest.

Dear Sister—Yesterday was Christmas and today in Honolulu it is something like a July Fourth of July 24th, except the sun is shining brightly, the trees are green and the flowers blooming. The people are wearing some white clothing, and hat, but not coat, the boys are firing off firecrackers.

The boys from the states, however, are accustomed to having turkey, and spending Christmas like Christmas, so company E, which has quite a representation from Salt Lake, made people come for a Christmas feast. Some members of the company were uncertain, and prepared a big dinner for myself and I can only say that when it came to the soldiers' delight I had eaten for only one slice. Nearly all the company were present, our good captain having gone the rounds of the various hospitals to deliver his family in.

The dinner went off in fine order; but it was a "come-down" to return to a cold water bed of sick, felt in my st.

The First Regiment, New York volunteers, has been a week in the side of the Tenth hospitals of Honolulu, and may say that the engineers have done everything that can take care of the New Yorkers since they came to Honolulu. But with all our care they took fever and started an epidemic of the fever. The government decided to send them home, but the engineers were left behind to do work. While the New Yorkers were here their sick greatly out-numbered our battalion, but we did our duty and run the danger of nursing fever cases, thankful that we should, we come real near to fever ourselves. The patients did nicely and we lost only two or three cases. I am sorry to say that several of our boys contracted the fever—my own comrade being among the number—but they are now convalescent.

I have been nursing now for some three weeks, and I do not expect to be relieved for some time to come. Nursing is by no means a snap. We get up about 5:30 a. m., have breakfast and report for duty at seven. In "A" ward there are 42 patients. To attend them there are four female nurses and four engineers during the day, and for the night one female nurse and two engineers. Harr Young and myself, with two men from Company "C," have the day shift.

Our duties are to wash the patients and give them who have the fever milk and whiskey, and light food. The whiskey temperature is not high. We have seven of the fever patients for baths during the day, and the other duties included upon nursing. Altogether it is tiring work, and we hardly have time to sit down for five minutes together. We only have twenty minutes for dinner. At 7 p. m. we must be by the sight nurses. From then until 9:30 we have the time to ourselves. We are under orders to be in our tents at that hour, that is, the hospital corps, the others can get night passes.

Our hospital steward, Dr. Wetzel of Salt Lake, has made quite a name for himself and is loved by every patient in the hospital. Some of the other stewards, I am sorry to say, but we can do nothing with them. We have to be beaten in the father's drug store, and we do the work kind of a snap.

Those of the boys who are not on hospital detail, tend to the government horses, which have been by land quarantine Tuesday, or do garrison duty at camp. The barracks have been furnished and are quite comfortable.

I will say in conclusion that this place does not seem natural. I long to see the Salt Lake, to see my folks, and to go skating, and ride on an electric car.

Lieut. Mills was very ill, but is now on the mend. The doctors have at times feared for him. We are spending you a merry Christmas and a happy New Year. I remain your brother,

JAMES A. GRAHAM,
Comp. K, Sec. Reg. U. S. V. Eng.

He admitted that the line would be constructed by the Rio Grande Western, but as yet no action had been taken, nor would there be for some time, so far as the road is to be built, but when asked the time of commencing it he said he could not tell, but expected that the companies offices were incorporated years before a line was built.

CURTIS BOYS BOUND OVER

Likewise Messrs. Lamb and Richards on a Charge of Burglary.

Hearing Attracted a Large Audience at the Police Court This Afternoon.

The hearing of Norton and Arthur Curtis, Jack Richards and E. T. Lamb for burglary and sundrous other offenses, brought out a crowd to witness the police court trials this afternoon, the cases only being at a preliminary stage.

The first charge presented was that of burglary in breaking into the house of John C. Markey, Jr., on the morning last. To this Lamb and Richards waived preliminary examination and were bound over to the district court in bonds of $1,000 each. The Curtis boys stood trial with a similar charge, the evidence being taken against them to allow the least possibility of escape.

Policemen Jones, Norton and Arthur Curtis were tried for assault with a deadly weapon on the person of John Markey, Jr. Mr. Markey said he was at his residence, 164 Second street, on the night of the 3rd inst., when he was set upon by a number of men, who struck him with a revolver and knocked him down. He did not stay to inquire further upon the premises. The defendants had no business to ask the witness any questions, but he did ask if he had shot any one, and was granted the privilege of replying that he had not, and was asked another as to almost everything himself and others had done, to the sense than anticipated. It ended by his being held to the district court in bonds of $1,000 each.

The next charge was that of petit larceny in the theft of a pair of shoes from Lamb and Richards were not ready and the Curtis boys were being tried at press time.

THEY WANT TO TELL

Those Grateful Women Who Have Been Helped by Mrs. Pinkham.

Women who have suffered severely and been relieved of their ills by Mrs. Pinkham's advice and medicine are constantly urging others to avail themselves of the benefit of other women. Here are two such letters:

Mrs. Laura Bryant, 556 Morrison St., Lowell, Mass., writes:

"It affords me great pleasure to tell all suffering women of the benefit I have received from taking Lydia E. Pinkham's Vegetable Compound. I cannot express my gratitude for what she has done for me. My trouble was ulceration of the womb. I was under the doctor's care. Upon examination he found fifteen very large ulcers. He failed to do good. I took several bottles of Lydia E. Pinkham's Vegetable Compound, also used the Sanative Wash, and am cured. Mrs. Pinkham's medicine saved my life, and I would recommend it to all suffering women."

Mrs. Anna Thomsell, Elmhurst Ctr., N. Y., writes:

"I took cold at the time my baby was born, causing me to have inflammation and was sick in bed for eight weeks. Doctors did me no good. I surely thought I would die. I was also troubled with falling of the womb. I could not eat, had faint spells so often so you dare not move. One day a lady came to see me and told me of the benefit she had derived from taking Lydia E. Pinkham's medicine, and advised me to try it. I did so, and had taken only half a bottle before I was able to sit in a chair. After taking three bottles I could do my own work. I am now in perfect health."

Dreadful Eruptions on Her Skin and Body
Great Suffering Relieved by Hood's Sarsaparilla.
"My little daughter suffered terribly with eruptions on the skin and body which looked as though blistered. I was then giving her Hood's Sarsaparilla and she has been well ever since. The eruptions entirely cured. We now tell what good and a change of climate, but Hood's Sarsaparilla has made it unnecessary." J. F. Tuckaby, Ft. Wingate, N. M.
"I was been suffering with some sort of pain. I was unable to sleep and had no appetite. I began taking Hood's Sarsaparilla and after I had used two bottles I felt like a different man. The sores disappeared, my appetite improved and I can now sleep soundly." Harry Richards, Congressman, New Haven.

Horses Kick
Shearing Process
This is what happens: One part cannot see where it should be clipping, the other goes into the clipper, and the result is a cut. Cold-Rolled Steel Shear Blades do away with this.
Putnam Nails
are exclusively Hot-Forged and Hammer-Pointed, precisely like the old-fashioned hand nail. This process works all particles of iron closely together and gives a smooth, firm nail that cannot split, blacken or break and is
Absolutely Safe.
Insist on the nails in your house being Putnam Nails. Sold by all dealers. Ask your hardware dealer for them. Take no other. Sample of nails, showing clinch, and illustrated pamphlet, mailed free on application.
