## Turkish Soldiers Busy Along the Shores of the Dardanelles.

### REBELLION RIFE IN PALESTINE.

**Ghastly Spectacle at Marasvan, Where the Recent Massacre Occurred —Italy Preparing.**

CONSTANTINOPLE, Dec. 2, via Sofia, Bulgaria, Dec. 3.—The work of strengthening the fortifications of the Dardanelles continues night and day. The soldiers are busily at work throwing up fresh defenses, and the most busy scenes are witnessed from the entrance of the Dardanelles to the other side of Gallipoli. In addition to Sedd-el-Bahr, the entrance to the sea of Marmora is being placed in a condition of defense. Many torpedoes have been sunk in both passages, and this work is being pushed with astonishing speed.

As far as can be judged, with the absence of definite news, the worst disasters threatened are in progress in Albania, fresh outbreaks being reported at Cessaras and Akhurdh, and in the Reoca districts. It is stated, however, that all is quiet in the Sivas districts, and a dispatch announces that there is every prospect of persuading the Armenian insurgents at Zeitoun to surrender.

The Armenian patriarch here, at the request of their representatives of the powers, has been doing what he can in this matter, the ambassadors having asked him. The Turkish government has given the most solemn pledge that the Armenians should not be massacred or punished if they surrender to the authorities.

The work of arming and equipping the reserves has been almost suspended, although the troops are still kept at their mustering places. The Turkish authorities say this is because there will be no use for their services, as order is being gradually restored in all the troubled districts. On the other hand, the Armenians claim that the government cannot equip the reserves, owing to the lack of money.

LONDON, Dec. 3.—The Daily News' correspondent at Constantinople says: A letter from a European at Marasvan that on Saturday after the massacre there was a ghastly spectacle at the edge of the Armenian cemetery. Corpses were brought by the wagon load and tossed upon the ground by heaps. Aside from the rifling of the victims by the perpetrators of the massacre, a hyena-like horde of barbarians pounced upon these heaps and stripped the dishonored carcasses of what poor clothing they had, leaving them in all degrees of nudity. Finally, most such, a score of Armenians, naked by a priest, went under protection of soldiers to bury the corpses. Eighteen of them were laid in a single trench. Probably about 100 of men were killed.

The Vienna correspondent of the Daily News says a telegram to the Turkish embassy last night (Tuesday) says that the sultan has resolved to cut all diplomatic relations if the powers force the Dardanelles.

A dispatch from Rome to the Daily News says that there is great activity in the Italian arsenals to prepare the whole naval force of the country. The cruiser Piedmonte, the newest and fastest in the Italian service, her speed being 21 knots an hour, has been ordered to the Levant.

**Nicaragua Resolution.**

WASHINGTON, Dec. 3.—Representative Livingston (Georgia) has prepared a resolution providing for a joint committee to investigate the facts in the Nicaragua case and recommend proper action "to vindicate and preserve the dignity and rights of the United States in the premises."

**Bids Needs Enter the Association.**

CHICAGO, Dec. 3.—Chairman Caldwell has received notice that the Colorado Midland, Denver & Rio Grande and the Rio Grande Western will become members of the Western Passenger association on the basis of the other roads in their territory. These lines were the chief ones whose votes had not been received, and their accession strengthen the situation very materially.

**Some Congressmen Disappointed.**

WASHINGTON, Dec. 3.—Both curiosity and interest were manifested by the members of the House in the President's message. Members expressed surprise that no recommendation was made for the supply of the treasury deficit. In the discussion of foreign affairs, the portion devoted to the settlement of the Monroe doctrine in connection with the boundary line dispute, and the suggestions regarding Cuba, attracted special attention, but the main interest centered in the recommendations for the enlargement of the greenbacks and the extension of the National banking system. Several of the Democratic leaders who differ with the President on the financial question refused to express their opinions for publication.

**Impeach's Joke.**

MINNEAPOLIS, Minn., Dec. 3.—Col. Robert G. Ingersoll lectured this evening at Odunwa, Ia. The colonel was interviewed on the 3,000 prayers offered for him on Thanksgiving Day. When asked if he believed in the efficacy of these petitions, he said:

"We will have to wait and see what will be done. If these prayers are effective, then the Endeavorers ought to go after Grover Cleveland. His message reads like he needed it."

**THE PRESIDENT'S MESSAGE.**

**The Critics Across the Atlantic Not Entirely Satisfied.**

LONDON, Dec. 3.—The newspapers tomorrow will very generally contain editorial comments upon President Cleveland's message to Congress.

The Graphic says: "The candidness and interpretations of President Cleveland's present pronunciamento on foreign affairs might have been evolved by the late Mr. Blaine in his worst mood. Can anything be more absurd than the request that the Secretary, Olney, in Venezuela, should be consulted by arbitrators? The reference to Cuba is infinitely more inductive. It is certainly an expression of sympathy with filibusterers."

The Times editorially says: "President Cleveland has drawn a startling picture of the difficulties created by the various currency systems, and we should be greatly surprised if the plans he suggested are not warmly welcomed by the business men throughout the states."

The Daily News, the Liberal organ, will says: "President Cleveland knows better than to treat the Monroe doctrine as if it were a rule of international law. It is neither dignified nor polite for the administration at Washington to take up the quarrels of South American communities which do not observe the usages of civilized nations. America will find some cap that fits sort of patronage involves a corresponding responsibility and they will not like that at all."

The Standard, the Conservative organ, says: "We cannot but regret the tone of President Cleveland's references to Venezuela. If we may judge of the tone and substance of Mr. Olney's dispatch from the paraphrase thus imparted to Congress, we are not surprised that no answer has been received, and we hesitate to predict that when the reply reaches the White House, it will induce the President with a cool of matter for serious reflection. We must be pardoned if we venture to say that the whole passage referring to Venezuela is a blend of moral assumptions and unsupported declamations."

The Post, Conservative, says: "As regards Siam and Venezuela, the message appears to be framed on lines which Senator Chandler might approve. In regard to Cuba, there are similar suggestions of a disposition to conciliate the feelings of popular agitators."

An editorial in the Chronicle says: "It is very doubtful if Congress will accept President Cleveland's currency plan. The message sounds cautious, but there is a welcome note in the direction of free trade."

### WILL BE DEPORTED.

**Laborers Hired to Swim-stand for a Job in New York.**

NEW YORK, Dec. 3.—One of the most interesting contract labor investigations at Ellis Island was made public by Commissioner Sanner today. Since time ago Mrs. Richard Gambrill, who owns a beautiful house on Park avenue, went to Switzerland, and there left an order with a fashionable decorator, named Schnibbers, for several thousand dollars worth of material to be shipped to New York, and used in completing the appointments, equipments and decorations of her house. She also requested that five artists accompany the material, to put it up, and touch it off with their dexterous hands. The Ellis Island officials are convinced that in asking that these men be sent over for three months the lady was unaware she was violating the law.

The men and material arrived Sunday on the La Normandie. Inspector James McKinnon learned the mission of the laborers, and had them at Ellis Island. Today they were tried before a board of special inquiry.

W. J. O'Brien, of the board of walking delegates, accompanied by delegates from as many trades as were represented by the material imported, went to Ellis Island, and demanded that the five men be deported. Evidence produced showed that the wages of American mechanics in the lines of trade interested are from $5 to $6.50 per day. While, according to their own admissions, the five men were to receive for their labor rates of $1.10 to $2.40 per day. They were also asked to work longer hours than is customary with workmen of their class in this country. The men will be deported.

### BILLS AND RESOLUTIONS.

**Nearly Two Hundred Legislative Measures for the Senate.**

WASHINGTON, Dec. 3.—There were 172 bills and 16 resolutions introduced in the Senate today, but a large majority of the bills were reprints of measures which failed to pass last session. Many of these, as also a large portion of the new bills, were for private purposes. There were also several for the modification of the pension laws. Senators Peffer, Stewart and Squire reintroduced their bills of last session pertaining to silver coinage.

Senator Pettigrew introduced a bill to establish a uniform system of bankruptcy and introduced his bill of last session to prevent the extermination of the fur-bearing animals of Alaska.

Senator Vest introduced his bill of last session to prohibit monopoly in the transportation of cattle to foreign countries, and also his bills for the compulsory education of Indian children and the settlement of private land claims.

Senator Chandler introduced his bill for the exclusion of alien anarchists and his bill for the regulation of immigration.

Senator Frye introduced a bill providing for the amendment of the tariff laws so as to admit free of duty all material used in the construction of equipment of vessels built in the United States.

In the House a large number of bills and joint resolutions were introduced, many of them measures that failed during the last session.

Among those introduced in the House were the following:

By Mr. Powers of Vermont, a bill to establish a uniform system of bankruptcy.

By Mr. Wilson of Ohio, to equalize pensions on account of service in the Mexican war.

By Representative William Stone of Pennsylvania, providing for the inspection of emigration by United States consuls.

By Representatives Mallor of Arkansas, to define trusts, and to authorize the free importation of articles covered by them.

By Representative Johnson of California, to make it unlawful after August 1, 1896, for any foreign-born laborer to enter the United States; also a bill to provide that no alien shall be admitted to citizenship who has not for the continued term of five years preceding his admission resided within the United States, and who cannot speak, read and write the English language.

### HOWARD MUST RETURN.

**The Turkish Government Wants No Traveling Correspondents.**

NEW YORK, Dec. 4.—The World this morning says: The persistent efforts of proprietor Louis Klopsch, of the Christian Herald, to send relief to starving Armenians through Mr. W. W. Howard, the newspaper correspondent, have been finally checked. The Turkish minister at Washington said very plainly that Mr. Howard was objectionable to the sultan's government. The reasons assigned were Mr. Howard's disagreeable describing the atrocities in Armenia.

Considerable correspondence has been exchanged since on the matter of Mr. Howard's proposed mission. Yesterday Mr. Klopsch received a letter from the department of state at Washington, under date of December 2, in which it said:

"I have to inform you that our minister at Constantinople has been advised by the Turkish government that Mr. W. W. Howard will not be permitted to proceed to Asiatic Turkey. The reasons given for this decision are Mr. Howard's alleged hostility to the Turkish government, and his attacks upon it and the Mohammedan religion, in newspapers of the United States."

Mr. Klopsch regards this decision as final, and he has cabled Mr. Howard to return to this country.

**Campaign Funds Stolen.**

CHICAGO, Dec. 3.—Three-quarters of a million dollars have been stolen from the campaign fund of the Democratic party, raised for the years 1893, 1894, and the spring of 1895, this charge is made by M. C. McDonald and Alderman John Powers. It is sustained by the newly elected chairman of the county central committee, Thomas Gahan, in the statement that the funds of the past two years have not been accounted for.

The money was raised for the campaign, which resulted in the election of Jonas P. Hopkins over George E. Swift as mayor, for the county commissioners campaign following, for the aldermanic campaign, for the winter campaign, and for the drainage canal campaign, but recently closed. The Democratic committee of the county, born out of the assassination of Carter Harrison, is charged with the misuse of this money.

**Allison is a Candidate.**

DES MOINES, Ia., Dec. 3.—Senator Wm. B. Allison is a candidate for the Republican Presidential nomination. His campaign has been formally started by the Republican state central committee. Many politicians and others have been trying for a year or more to make Mr. Allison consent to be a candidate and to give over the management of his campaign to them. But he has held them all off, and this is the first authorized announcement of his candidacy. Pressure has been brought to bear from all parts of this and other states to bring Mr. Allison into the field and it is in response to the unanimous call that the Republican state central committee at its meeting last evening took the matter up for its own record and made the official announcement.

Men's Suits,

In stylish Cutaways and fashionable Sacks, cut both double and single breasted. For a really dressy suit for either every-day business or evening wear, $18 is not a large sum, but it represents in value about what you would pay a tailor $30 for. The line of patterns we give you to select from is larger than any merchant tailor in this city carries, and includes Blue and Brown Ribbed Serges, Fancy Tweeds, Cassimeres, Blue and Black Cheviots and Worsteds. You have your choice of fabrics, and the prices range

From $15 to $25.

OVERCOATS AND ULSTERS.

What do you suppose any capable tailor would charge you for a fine Imported Chinchilla overcoat or Ulster, lined with imported Clay Worsted and silk shoulder lining? Certainly not less than $30. If you know any one who has just such a garment, get him to come with you to a store, and if we cannot prove to any unprejudiced mind that we can duplicate the $30 custom-made garment for $20 we will make you a present of one.
