TELEGRAPHIC.

ARMY MOVEMENTS.

General Kelly Sees a Silver Lining to His Cloud.

DISCUSSED BY THE SENATE.

Boyer's Contingent Outwitted.—In Jail in San Bernardino.—Brewn's General Order.

OMAHA, Neb., April 18.—Kelly's army camped in the Chautauqua grounds tonight, as free as the soft air that gently sways the boughs. Kelly himself remarked, the silver lining to his cloud had come.

At noon the Chautauqua grounds were abandoned by the militia and at 5 o'clock the picket lines were withdrawn. At 5 o'clock the militia were all back at the Union Pacific transfer and the camp-fires were in full possession of the Chautauqua grounds. It was then given out that the army would move between midnight and noon and it will camp next day at Weston.

During the day the camp was visited by thousands of sympathizers. Food, money, clothing, medicine, bedding, tents, tobacco and everything needed by the comfort of the army was forthcoming in abundance. When night came Kelly was in possession of upwards of $1,000 in cash, and had provisions for a week, with luxuries to last a month.

During the evening meetings were held in these cities. In Omaha the large hall provided was inadequate and an overflow meeting was held on Jackson square. Upwards of 5,000 people gathered at this latter meeting and were addressed by the leaders of the army.

During the afternoon the Union Pacific employes, housed with provisions, moved over to the camp and a meeting was held there, attended by 2,000 people. Resolutions endorsing the army and condemning the railroads were adopted.

Coxey's army will reach Omaha at 12:30 over the Union Pacific. It consists of twenty-five men in one refrigerator car, attached to a fruit train. It will be hauled in Council Bluffs. Coxeyite Jackson says no opposition will be raised to its entrance.

COXEY'S TRAIN NOTICE.

WASHINGTON, April 18.—The Coxey petition reached the first recognition in the hands of the Senate today. The petition was brought up in executive session and was under consideration for an hour and a half.

Senator Harris, speaking for the committee on rules, said the committee had had the question under consideration, and had reached the conclusion that a law on the statute book made ample provision for the protection of the capitol.

The impression seemed general that the regularly organized police would be capable of executing of the laws against the presence of the army, and that it would not be necessary to make any special show of armed forces.

THE COLORADO COMMONWEALERS.

DENVER, April 18.—The local Coxeyites were entertained again tonight. They went ten miles up the D. & R. G. tracks today to Barr station, intending to hold up a train, but the officials had called upon the county for a posse, and twenty deputy sheriffs went to Barr. They returned tonight, after the last train had gone, leaving the army in despair and snow. Depredations are feared.

FRY AND GALLATIN.

TERRE HAUTE, Ind., April 18.—General Fry, of the industrial army, arrived here today. The army is near Greenup, Ill., seventy miles west of Terre Haute, and will reach here Friday.

DECATUR, Ill., April 18.—Coxey's Galaxy, with 225 members of Fry's industrial army arrived here today. Citizens greeted them with a slaughtered carcass, 300 pounds of bacon, 300 loaves of bread, a keg of coffee, potatoes and sausage.

THEY CALL ON THE PRESIDENT.

WASHINGTON, April 18.—Four local Coxeyites with the Coxey movement called upon the President this afternoon to request that the Washington barracks be thrown open for the accommodation of the commonweal army during its stay in the city. There are accommodations for several thousand men in the barracks.

CALIFORNIANS MUST WAIT.

SAN FRANCISCO, April 18.—The Chicago officials of the Santa Fe road decline to ratify the arrangement made in this city for the transportation of men from Mojave to Chicago, and the second contingent of the California industrial army is left to its own devices. The local agent of the Santa Fe today received advices from Chicago that the situation there would not warrant the importation of unemployed in large numbers, and the national authorities did not, therefore, feel justified in aggravating present conditions.

Chief of Police Crowley will attempt to go nothing further for the men, and if they go they must walk, or use an express train. The men are much disturbed and are advertising a meeting to air their grievances.

The jury in the case of Commander Wolcott of the unemployed army, charged with attempting to derail the Southern Pacific out of railroad rule, brought in a verdict of guilty as charged.

The defense entertained about half the army, but only had a dozen men in attendance. Wolcott will appear in court tomorrow morning to receive sentence, and also to be examined on a charge of inciting riot.

The sidetrack site jubilant over the verdict, and the army is very sullen and talking seriously as to their future movements.

FRY'S EMIGRATION.

DULANEY BRIDGE, Va., April 18.—The contingent of Fry's army left south of the bridge near Green Springs and Bill Dale's locks, cold, wintry and disorderly. Brown's twenty-fourth general order was one of commonwealth literature. The other material said:

"There are cracks in the lives of men like us, made in a divinity greater than can never be effaced from the memory of man so long as reason holds in sway. The past three days of the commonweal of Christ have seen such spots, each succeeding day being more present than the past, owing to the wonderful harmony existing among us, owing to your discording a discordant element."

Red news greeted the leaders at Hancock. The unknown Smith, who has promised to go alone and pave the way for the army, and done so with a vengeance. He met the veiled lady and "Colonel" Chick, had come to town the previous day, and holding a public meeting had raised a sum of money, on the strength of credentials from Coxey, Brown and Carey at once published a letter to Mayor Hulett, denouncing the men as impostors and asking their arrest for obtaining money under false pretenses.

The Detroit Riots.

DETROIT, Mich., April 18.—Wayne county's month has to a previous condition brought, by lady members of the streets of informated men. Two latenses are dead and the number wounded is not definitely known.

These unfortunate conditions are the result of a conflict which occurred on down today between some 50 Pole and Sheriff Collins and a number of deputies. The riot was brought about by difference of opinion over the wages to be paid laborers by the city water commission for menders for pipe laying. No outbreak was anticipated, but as a precaution Sheriff Collins and five deputies went to the scene to protect those who wished to work.

Sheriff Collins and Deputy Sigmail began to address the Poles in an party tiers. One of the Poles began an opprobrious harangue. The crowd thereupon started to assaulate the officers and the handful of laborers at work.

At the advance the officers drew their revolvers and fired over the strikers' heads, but the men came on, and the cast valley was discharged into the crowd. Then the officers retreated slowly, firing as they went, until the men followed, one man dashing the sheriff's vicious blow on the head with a shovel. The other officers, the laborers and an Polanky Alive reporter escaped, all being more or less pounded with shovels, but the helpless sheriff was brutally attacked.

Another shooting affray took place this evening in the rear of the municipal court building. A crowd of Poles had congregated, and Deputy Sheriff Bottomsen recognized one of them as one of the rioters. He sailed to arrest him, when some of the crowd fired a revolver, hitting the Pole in the leg. At the hospital he gave the name of Tony Pelowski. Bottomsen could not learn who fired the shot.

NORTH TONAWANDA FALLS.

NEW YORK, April 18.—The assignment of Samuel L. Clemens, better known as Mark Twain, and his partner, Frank L. Hall, who compose the firm of book publishers, was filed today in the county clerk's office. The assignee is Dalmatius Cody. The assignment was without preference, and is signed by Mr. Clemens.

The assignment was a complete surprise, and is said to be on account of the failure of the firm to obtain money expected to meet obligations just maturing. Mr. Clemens is said to be worth from $300,000 to $400,000 outside of his investments in the firm. Mr. Hall states that he can give no details of the firm's affairs at present.

Emigrant Rates.

CHICAGO, April 18.—The war in emigrant rates will begin in earnest next Sunday. Chairman Caldwell of the western passenger association today issued notice to all members of the association that, with the beginning of next week, the association lines will put in a rate of $10.10 on emigrant business from the Missouri river to California. This is a cut of $10.50, the present rate from the river to California being $20. The new rate will be a body blow to the Union Pacific, as that road's present per centage on each ticket from the Missouri river to Ogden is just $10.10.

Gas Changes than Electricity.

WASHINGTON, April 18.—The coming power of propulsion for street cars will be gas, according to the report of United States Consul-General Guenther at Frankfort, Germany. He shows that as the result of exhaustive experiments, the German experts have determined that the gas motor is the cheapest and best of all means of power of propulsion.

INJUNCTION GRANTED.

Restraining the Strikers from Interfering with the Great Northern.

FARGO, N. D., April 18.—A temporary injunction has been issued by Judge Sanborn, in the United States court, returnable April 25th, restraining the strikers from interfering with the moving of Great Northern trains. An attempt will be made to run a train from Fargo to Grand Forks under the protection of a posse of United States marshals.

Killed the Children.

GLENVILLE, W. Va., April 18.—A farmer named Holsbaugh, in Gilmore county, this afternoon killed his two children, aged three and five years, and then took his own life. No cause assigned.

Awakening the Women.

LOUISVILLE, April 18.—A special to the Times from Lexington says: The last time Breckinridge's friends are preparing to give him an ovation at the Opera house on May 5th is awakening the women. The husband of one of them said today: "If such an ovation takes place, the women will hold a mass meeting and dismiss the whole proceeding."

A Great Discovery.

CAIRO, Egypt, April 18.—Professor Maspero, who has been excavating in Egypt for some time past, has made a great and important discovery. A few weeks ago he discovered the remains of a supposed king of Egypt, and now, it is announced, the explorers at the foot of the Saite pyramids of Dashour have led to the discovery of the fourth dynasty king, Mates Hatasu.

In addition the excavators also found an ebony statue and some gold plates, etc. The exploration will be continued.

Politics in Japan.

DENVER, Colo., April 18.—Rev. E. H. Jones, a former missionary in Japan, now a resident here, explains the results of the Japanese elections as favorable to the support of the emperor's policy of war with China. A fraction of Japanese politicians tried to embarrass the emperor by assaulting a policy of expansion, and worked so persistently to this end that the emperor prorogued the legislature and ordered a new election. The returns show that the people strongly endorse the more enlightened views of the emperor on foreign relations.

THE UNITED STATES NAVY.

Report of the House Committee on Naval Affairs.

What the Principal European Countries are Doing for Their Fleets.

—Our Navy.

WASHINGTON, April 18.—The present and prospective naval strength of the United States, in comparison with that of foreign powers, is set forth in the report of the House committee on naval affairs, presented today by Chairman Cummings. The report states the committee has reluctantly decided not to recommend the construction of a new battle ship, because of the neglect condition of the treasury. It is urged, however, that there must be no halt in building up the navy.

England proposes, says the report, to begin seven battle ships of the first class, six cruisers of the second class, and two sloops. Italy, with a depleted treasury, is preparing to build three first class battle ships, three cruisers, twelve torpedo boats and four transports. Germany, France and Russia are going to even greater lengths to secure an increase of their navies.

The report goes as follows: "In view of this fact, it certainly would not be safe for the United States to build no new battle ships. With increasing prosperity the work should go on until the American navy is strong enough to stand all exigencies."

In accordance with the suggestion of the secretary of the navy, the committee recommends that he be authorized to use "for the construction of one additional cruiser of the Vesuvius type," the $450,000 appropriated by the act of March 2, 1893, for the construction of three torpedo boats, to use also another not more than $850,000 of the act of March 3, 1893, $500,000 was appropriated for building a submarine boat. The committee recommends that the secretary be authorized to use this $500,000 for the construction of a submarine boat. The committee further recommends that authority be given the secretary to transform the United States steamer Vesuvius into a torpedo cruiser, it, in his opinion such transformation will warrant in sufficiency for naval purposes. This will give a total of four new torpedo boats, and if the Vesuvius is changed five.

The committee commenters the appropriations for the new navy. The total is $35,000,000, which is an advance on last year, and a considerable decrease from the estimate of this year. The main item of decrease is $3,000,000 for armor plate, which is $2,500,000 less than the estimate.

MEYER'S BILL.

A Neighborly Measure That Suits President Cleveland.

WASHINGTON, April 18.—Bland's coinage committee met today for the first time since the seigniorage silver struggle and was treated to a genuine surprise. Representative Meyer, Louisiana, was present and urged his bill coining the seigniorage for low interest bonds, and in doing so he stated that the measure had the approval and was partly suggested by Secretary Carlisle, and in the judgment of the secretary, it will be signed by the President. To this extent the bill is regarded as an administration one and its satisfactory is overcoming the objections of Cleveland to the Bland bill. The bill, Mr. Myer explained, provides for coining of the seigniorage and so amended the resumption act that three per cent bonds would in future be issued in lieu of four and a half and five per cent bonds.

Mr. Dingley expressed surprise at this as he said the objections of the President's two words not to met by the private bonds of the Meyer bill. The measure was disposed of by the committee but no conclusion was reached.

A Gaudy Charge.

MONACO, April 18.—General Goggia of the Italian army has been arrested at Lecorbie, near this city, charged with being a spy. General Goggia is said to have been watching the maneuvres at the French Alpine troops. Damaging documents were, according to report, found in the general's possession.

Brewery Pool Broken.

ST. LOUIS, April 18.—The brewery pool has been broken by the withdrawal of the Anheuser Busch and Lemp breweries. The National Brewery Workers' union was instrumental in bringing about the result.

Died of Diphtheria.

BOSTON, April 18.—Rev. Frank S. Hosmer, the celebrated divine of this city, died of diphtheria.

Friendly Regard

is never entertained by the children for a medicine that tastes bad. This explains the popularity among little ones of

Scott's Emulsion,

a preparation of cod-liver oil almost as palatable as milk. Many mothers have grateful knowledge of its benefits to weak, sickly children.

BY THEIR SEARCHING AND CLEANSING QUALITIES THEY DRIVE OUT THE FOUL CORRUPTIONS WHICH CONTAMINATE THE BLOOD AS CAUSE DISARRANGEMENT AND DECAY, REINVIGORATE AND RELIEVE THE VITAL FUNCTIONS, REGENERATE ENERGY AND STRENGTHEN, RESTORES AND PRESERVES HEALTH AND INFUSES NEW LIFE AND VIGOR THROUGHOUT THE WHOLE SYSTEM. NO SUFFERER FROM ANY DISEASE WHICH ARISES FROM IMPURITY OF THE BLOOD NEED HESITATE TO WRITE, GIVE THEIR SYMPTOMS AND SHORES' NEW TREATMENT A FAIR TRIAL.

As is the only RELIABLE Medical Institute in the city. Drs. Shores & Shores are the physicians, 24 East, Second South Street.

MRS. MARY HENSON

Has Lived in Salt Lake 47 Years.—A Statement That Cannot be Doubted.

Mrs. Henson, residence No. 10 Grape Street, Seventeenth Ward, has resided in the city for forty-seven years. For ten years she has suffered with a complication of troubles. In an interview she says:

MRS. MARY HENSON, NO. 10 GRAPE ST., SEVENTEENTH WARD.

"I am glad to say I have been cured by Drs. Shores & Shores. I was a terrible sufferer. Terrible headaches that almost set me wild, sore stopped up, a constant hawking and clearing of the throat, had pains in the stomach, my appetite did not taste right to me, sharp pains all through the body, greatly distressed after eating, always tired after eating in the morning, had no sleep my feet and throat burned so I could not. I was very much worried about my case, and friends advised me to go to Drs. Shores & Shores, thinking no less than they had been undeceived, and I decided to give them a trial, and I am now glad to say that they have succeeded to my case, and I feel it a duty to make public the results of their wonderful treatment."

As sound as a nut, Mrs. Henson, residing at No. 10 Grape Street, Seventeenth Ward, where she can be seen, and will readily verify her statement.

$5 a month for all diseases, medicines free.
