TELEGRAPHIC.

HASTEN THE BILL.

Utah Officials Send a Dispatch to Senator Faulkner.

NO OPPOSITION TO STATEHOOD.

The Death of the Liberal Party Announced in Washington.—All Peace and Good Will.

WASHINGTON, Dec. 20.—Senator Faulkner today received the following telegram:

SALT LAKE CITY, Utah, Dec. 20.

Our Liberal friends formally dissolved their party last night, and adopted resolutions urging you to pass our statehood bill immediately. There is no opposition to our admission into the Union. Hasten the bill through the Senate and make us all happy.

Heat us representations that the old conditions still exist. The practice of polygamy has been absolutely abandoned. It is forbidden by the authorities of the Mormon Church, and any member embracing the relation would be subject to excommunication from that body. In our opinion no revival of it will ever be attempted, and if attempted would never succeed.

CALEB W. WEST, Governor.
CHARLES C. RICHARDS, Secretary of Utah.
JOHN W. JUDD, United States Attorney.
NAT M. BRIGHAM, United States Marshal.
HENRY G. LEST, Member Utah Commission.

The Lake Shore Earnings.

NEW YORK, Dec. 20.—The annual report of the Lake Shore & Michigan Southern for the year ending December 31, 1893, shows net earnings of $6,654,708, a decrease of $1,016; surplus, $2,016,779, a decrease of $15,221.

The Affairs of the Atchison.

NEW YORK, Dec. 21.—The Herald this morning says: With the close of the year the affairs of the Atchison, Topeka & Santa Fe Railroad have approached a critical stage, and when the papers are drawn for that purpose, an hour's work may see the system follow the example of so many great lines, in the near past, in stepping away from the annoyance of pressing creditors behind the wheel of the entity, with friendly receivers in charge. The death of Banker George C. Magoun last night will probably determine that result.

The fate of the road hangs on the decision of the foreign security holders, and their interests are represented in the English house of the Baring, representing on this side by Baring, Magoun & Co. Thos. Baring is the head of the firm, but George C. Magoun was long the head of the American house. The knowledge of the intricate finances of the Atchison system has been most thorough. It is in his office that President Reinhart, with Mr. Magoun by his side, has decided upon all financial questions as they arose in the conduct of this enormous corporation, with its more than $650,000,000 of liabilities outstanding. With Mr. Magoun in charge of the home firm, the Barings felt that their interests in the Atchison were well protected, and on his advice financial help has flowed in an ever steady stream from the English coffers into the Atchison's bank account.

There will be a meeting of the board of directors in Boston on Saturday, and it is expected that some steps will then be taken about the interest due on January 1st on the $250,000,000 of general mortgage bonds. If, as was suggested, this was to be made up in addition to the money carried from each to be advanced by the Barings, it was not considered unlikely they would decline to advance any further funds unless they were assured that Mr. Magoun would be able to supervise the financial policy of the road in the future, as in the past.

THE THURBER-WHYLAND CO.

Proposed Plan for its Reorganization.

NEW YORK, Dec. 20.—The committee appointed to bring about a reorganization of the Thurber-Wyland company announced a plan today. The scheme agreed upon provides that the preferred and common stockholders transfer their stock to the Manhattan Trust company, as trustees. An assessment of 10 per cent on the preferred and 5 per cent on the common will be called for and deposited with the trust company at once. Within thirty days another assessment of 10 per cent and 5 per cent on the common stock must be paid. Negotiable certificates of deposit will be issued by the trust company to the stockholders. The reorganization will provide, incidentally, a company under the New Jersey laws, called the Thurber Grocery company, with power to issue stock to the amount of $250,000 in shares of $100 each. The committee shall have power to dispose of the property and assets of the Thurber-Wyland company to the new company, and is empowered to treat with the old company's creditors.

Suit About Stock Stock.

BUTTE, Mon., Dec. 20.—James A. Talbot, special administrator of the A. J. Davis estate, began suit today in the district court here against A. J. Davis Jr., to recover $60,500 worth of stock in the First National bank of the city, of which A. J. Davis Sr. was president. Young Davis is a minor of the dead millionaire and claims that prior to the death of his uncle the latter gave him the stock.

LABOR AGITATORS.

Ex-President Harrison Delivers an Address to Young Men.

PHILADELPHIA, Dec. 20.—Ex-President Harrison arrived in the city this afternoon from New York, and will remain three days, the guest of ex-Postmaster General Wanamaker.

The ex-President was the chief guest of the dinner given in his honor by Thomas May Peters at the Bellevue-Stratford.

In the evening the ex-President delivered an address at the commencement exercises of the Pierce Business college, at the Academy of Music. The address was on the topic confined to advice to young men, but there were portions of it which dealt with public questions. Of strikes and labor agitation generally, the ex-President said:

"It is a sad and dangerous fact that capital and labor are organized to fight each other; that the laboring man is taught to regard his employer as an antagonist—he often as an enemy, and that the grandly and broad and liberal employer, careful of what he regards undeserved interference with his business, is sometimes too ready to treat the workman with a grievance as he would treat a jolting, unfeasing machine—throw it into the scrap pile. Like the armed peace now maintained in Europe, the situation is costly and dangerous. Every honest and thoughtful man is anxious and distressed. I suppose just and lasting peace will not be established until the kingdom of the Prince Brother is set up throughout the world and the Golden Rule becomes the law of human life.

"The right to acquire more importance to the poor than time to the rich. Many reforms are weakened by their extravagance. The invention is not wide enough. Men are not on the other side, because of their surroundings or the color of their skin, without a chance to make their own choice. It is a most wholesome and saving fact that the working people of the United States as generally as not the teachings of authority. The workman is a producer—the anarchist a destroyer, and fellowship is impossible. How shall the poor be helped by the destruction of other men's property or by assassination or riots when the doors are barred and the streets full of tumult, and men's hearts full of fear. Is there any harvest by toil? There is only unalloyed injury about these evil times, and that is good will. They give men opportunity to show concern for others. The fall of the largest brotherhood is being called, and men see with great wonder, how great the family is. How many idle workmen now see it is not safe to assume their employers' interest and theirs are wholly antagonistic, or that our interests may not shelter toil? Is not the conclusion too clear to escape the most sluggish understanding that hard times for the employer cannot be good times for the employed? A brisk and regular demand for the products of labor at fair prices is the only safe support of the wage scale, as it is of dividends."

Stevens "Replies" to Cleveland.

AUGUSTA, Me., Dec. 20.—Ex-Minister Stevens is out in a reply to President Cleveland's severe strictures upon him in his Hawaiian message.

Stevens says the President's criticism is but a feeble repetition of Gresham's statement previously published.

"President Cleveland's grossly untrue and shamefully unjust allegation against myself and the naval commander rests entirely on the statements of four notoriously corrupt ministers of the fallen queen.

"There never was a more preposterous assumption than the assertion of the President that the queen, on January 17, had an ample force to sustain her and to enable her to carry on the government. This studiously unfounded assumption of the President is based on the testimony of notoriously corrupt representatives of men that surrounded the queen. That the Hawaiian monarchy was overturned by the United States later was due to you (addressing the President) in your refusal to recognize the provisional government at Washington. It remains to see if the American Congress and the American people will approve the conspiracy to make war on the provisional government at Hawaii and use the military power of the United States or the diplomatic passage of the United States for the restoration of a semi-barbarous queen, in western Johnson of the true American opinions and intentions and by the expenditure of executive power against an American colony, make positive and indisputable the fact that when George III and his ministers sought to impose on the American colonies that formed the government of the United States."

The Chicago Election.

CHICAGO, Dec. 20.—Unofficial returns of yesterday's municipal election give Hopkins (Democrat) a majority of 1,141.

The Republicans are looking into the charges of fraud, but no definite steps have been taken yet to contest the result.

Discovery of Gold.

ST. LOUIS, Dec. 20.—A special to the Republic from Harrington, Ia., says: A fine vein of gold, assaying nine and a half ounces and 50 per cent copper to the ton, was discovered at Bear's Cave, this city, and a company will immediately be formed to develop the find. Liberal traces of it and fine were also found.

The Rate Situation.

CHICAGO, Dec. 20.—In the transcontinental rate situation the question is what will the Canadian Pacific do? Rates have been advanced as a result and to open the way for an agreement satisfactory to all. As yet, however, the Canadian Pacific has shown no signs of coming into the fold.

Ship Railway Through Mexico.

WASHINGTON, D. C., Dec. 20.—A. B. Hollister, J. H. Pope and J. Andrews, representing the proposed ship railway through Mexico, appeared before the house committee on interstate and foreign commerce this morning to urge that the scope of the Doolittle resolution, authorizing a congressional commission to visit Nicaragua, be enlarged, so as to include an examination and report as to the practicability and merits of the proposed Lake Athuitan ship railway through Mexico. The committee took no action. The introduction of the company is to pass the matter in the senate.

THE ENGLISH NAVY AGAIN.

Ex-Secretary Tracy Differs in Opinion from Gladstone.

The Premier Indulges in a Slur and Is Criticised by the London "Globe."

LONDON, Dec. 20.—The *Globe* criticizes Gladstone's alarming remarks regarding General Tracy, ex-secretary of the navy, in last night's debate in the Commons. These remarks, which were not given in last night's report, were in response to an allusion by Lord George Hamilton to the judgment of the Americans ex-secretary of the navy.

Gladstone said: "I do not suppose General Tracy has acquired such knowledge that the whole parliament has to defer to the opinion he sent across the Atlantic."

The *Globe* says Gladstone's sneer was unprovoked, and utterly unjustifiable.

TRACY ANSWERS.

NEW YORK, Dec. 20.—General Tracy was shown the London telegrams regarding the debate in the British commons, in which Lord Hamilton quoted him as saying that England would be required to build nineteen battleships within the next two years, in order to maintain her position, also Gladstone's reply and the Globe criticism.

Tracy laughed heartily, and said: "Well, I don't see that I be under call for any comment on my part, as I think the Globe has done that for me. However, I will say that if Gladstone studies the condition of the French and Russian navies he will learn, if he is not already aware of it, that I am right in the statement which Lord Hamilton quoted. Two years from now France and Russia will have combined fifty monster battleships of 440,000 tons displacement, against thirty-one of 314,000 tons displacement. Now, Gladstone can figure for himself if England's thirty-one of 314,000 tons are superior to the fifty I have spoken of. I see Gladstone says the material of the English navy is superior to that of France and Russia. I differ from him, as I believe the French battleships are superior to the English, both in guns and armor."

More Vessels for Russia.

WASHINGTON, Dec. 20.—The navy Department has ordered the cruiser New York and the monitor Monadnock to get ready for sea. It is supposed they are to be placed in Russ, but the navy department declines to give reliable information on this point. It will require a week to put the Monadnock in condition for sea. The New York was to be dry-docked today.

The ordering of the San Francisco to Rio, with Admiral Benham on board, puts that officer in command of the United States naval force there.

Secretary Gresham said, in reply to a query, that this was not to be considered as a decision of the Brazilian case, and the order was not intended to bear on that case. The decision in the Brazilian case would very soon be given to the public.

FROM RIO.

Formal Refusal of the Government to Care for the Wounded.

LONDON, Dec. 20.—[Copyrighted by the Associated Press.]—The Buenos Ayres dispatch from Rio, Dec. 16, via Montevideo, December 19: The insurgents have diverted the heavy fire on the shore front and all business is practically stopped. The government attempted to retake Governor's island and its forces were outnumbered by the insurgent troops. It is thought probable the government troops are entrapped and will surrender.

A correspondent applied through the British minister to the Brazilian government for permission to experiment the Red Cross work in aiding the insurgent sick and wounded. Permission was refused, on the ground that the sick, when cured, would again fight against the government.

"DEATH TO THALYIA"

A Wild Scene in the Italian Parliament.

ROME, Dec. 20.—The Italian chamber of deputies was crowded and much interest was manifested in the government's declaration of its policy. After the policy of the ministry had been announced, a workman named Angelotti from the gallery cried:

"This is a regular African Kraal."

Another interruption followed, during which Angelotti was removed from the gallery by the police, wildly shouting:

"Thieves! Robbers! Down with pilfering! death to public thieves!"

The gallery speedily resumed active pelage in sympathy with the workman, for cries of "Let him alone!" were heard.

Colianni demanded a change of policy regarding Sicily, saying that he hoped Crispi would give general amnesty to the useless acts committed during the present year.

Crispi, in replying, said he wished to avoid today a full discussion of the government's policy. He proposed to go to work and repeat the position of Italy because he believed at present internal questions affecting Italy were more pressing. The premier also said the opinions upon the foreign policy of Italy were well known; he desired the friendship of all nations and the respect of all treaties. Regarding Sicily, the premier remarked he recognized the fact that legislative remedies were necessary and secured the chamber he was well disposed towards the working classes and their associations; but could not permit such associations to threaten the security of the fatherland. (Prolonged applause.)

Captain Boynton Released.

NEW YORK, Dec. 20.—Captain Boynton, released soon after his arrival here yesterday from Brazil, where he attempted to blow up Admiral Mello's flagship, the Aquidaban, was released today by order of the secretary of war, on the ground that he was an American citizen and had violated no law.

REMOVED

The Zion Medical Institute's System, Treatment and Medicines are now Located in the Mormon Block, 24 E. Second South Street.

Drs. Shores and Shores are the only nothing physicians, successors to Drs. Theodore and Gemmell. A very great opportunity is added, making the combination of the Zion Medical and Surgical Institute.

$2 a Month for Treatment and Medicine. Apply Before January 1st.

CATARRH IS CURED

Drs. Drs. Shores and Shores, on the statement given below by Mr. Tiny Shore clearly shows:

M. TIMPSON, 204 E. Third East Street.

"I have been troubled for the last fifteen years with catarrh of the head and throat and lungs. My symptoms were pain over the eyes, head stopped up, throat sore and inflamed, hacking and spitting, foul smells, pain through the chest, in general tired feeling, loss of appetite, all of which caused me very much suffering.

"I applied to Drs. Shores & Shores for treatment and placed myself under their care some three months ago, and now I am completely well. Catarrh is a very hard disease to cure, but I am convinced that the treatment I have received from the Drs. Shores is the best treatment for catarrh I know of. Any one wishing to be further convinced of the truth of the above statements call on me.

M. TIMPSON, Grocery Agent, Eastern Alliance Insurance Co.

Treatment and medicine only $2 a month for all diseases. Apply now. Consultation Free.

Let it be Remembered

Tape Drs. Shores and Shores

Not only treat and cure catarrh,
But they treat and cure asthma,
And they treat and cure bronchitis,
And they treat and cure lung troubles,
And they treat and cure throat troubles,
And they treat and cure rheumatism,
And they treat and cure nervous diseases,
And they treat and cure all kidney troubles,
And they treat and cure all bladder troubles,
And they treat and cure nervous diseases,
And they treat and cure female troubles and all private diseases.

Yes! they treat and cure all diseases of men, their medicine contains no narcotics and is harmless to the most delicate constitution. Patients treated by mail. If the cause has been of three years standing or more, treatment for a month, and with reasonable hope for permanent cure.
